This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world’s books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that’s often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book’s long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ **Make non-commercial use of the files** We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ **Refrain from automated querying** Do not send automated queries of any sort to Google’s system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ **Maintain attribution** The Google “watermark” you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ **Keep it legal** Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can’t offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book’s appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

PREFACE TO THE THIRD EDITION

The kindly reception accorded the first two editions of this Pocket Manual of Materia Medica has encouraged me to thoroughly revise the whole work, in which I availed myself of all verifications published since the second edition was issued. I have also added all new remedies introduced since then. The whole book in its present form is a complete Pocket Encyclopaedia of homoeopathic Materia Medica.

It is with much pleasure that I call attention to the fact that this edition is enriched by a repertory, prepared by Dr. Oscar E. Boericke, whose thorough and critical study of Materia Medica ensures the production of a valuable and practical labor-saving device and index to the symptomatology of this book.

It is intended to be, and I think has proved itself to be, a practical book and a time saver to the prescriber, and is complete in giving everything essential in pure and verified Materia Medica. Imperfectly proved remedies necessitate the use of names of diseases at times instead of the component symptoms that alone are the legitimate guide to the choice of the indicated remedy. I have the high authority of Hering himself for the legitimacy of this method, which he has followed in his Guiding Symptoms. Speaking of it, Hering once told me that he used the disease designations in his Materia Medica not for the purpose of recommending the par-
ticular remedy for that disease, but to show the great variety of remedies that can be used for any one form of disease when otherwise indicated. For the same reason I have included nosological terms in the symptomatology, as this is a practical handbook for everyday service, and anything that will certainly aid in finding the curative remedy I consider a legitimate guiding symptom. As Dr. J. Crompton Burnett expresses it: "The fact is we need any and every way of finding the right remedy; the simple simile, the simple symptomatic similimum, and the farthest reach of all—the pathologic similimum; and I maintain that we are still well within the lines of the Homœopathy that is expansive, progressive, science-fostered, science-fostering, and world-conquering."

PREFACE TO THE SECOND EDITION

The second edition of this work has been brought up to date, incorporating all homœopathic remedies introduced since the publication of the first edition and such as had been inadvertently left out.

It includes many verifications that have been brought to the author's notice by practitioners in many lands, all that have been found recorded in the leading homœopathic journals and works on practice. I have also availed myself in the preparation of this edition of Dr. Clark's invaluable Dictionary of Materia Medica—a monumental work.

I am again under special obligation to Professor Jas. W. Ward for many verifications and additions, and I also desire to make appreciative acknowledgment to Dr. P. Rice, Lecturer on Rhinology and Otoology at the Hahnemann Hospital College of the Pacific, for his revision of the symptoms of the eye and ear. The addition of a Therapeutic Index and a complete List of Remedies will materially aid to make this edition a more practical hand-book and companion in the daily work of the practitioner of Homœopathy.

November, 1903.
PREFACE TO THE FIRST EDITION.

For many years the author has felt the need of a pocket edition of our Materia Medica, containing the characteristic and cardinal symptoms of all our known remedies, arranged according to the Hahnemannian Schema for ready reference. I herewith offer the profession an attempt to supply this need, of a handy multum in parvo edition, to be used at the bedside or consulted while making the daily rounds.

This work contains the well-known verified characteristics of almost every drug, besides other less important symptoms essential for the selection of the curative remedy, and thus it supplements every other work on Materia Medica. In its present compact form it contains the maximum number of reliable Materia Medica facts in the minimum space. It is, therefore, an epitome of the whole Homœopathic Materia Medica, brought up to date by including the scattered verifications found in our journalistic literature.

My part of the work has been mainly selective and detective, in the endeavor to compile as accurate and practical a book as possible, guided, however, by the experience of over twenty years as a general practitioner and a teacher of Materia Medica.

The dosage needs some apology. It is, of course, suggestive only; more often to be wholly disregarded. I have followed the lines of the earlier Homœopathicists in this regard, and given what was then
considered the usual range of potency, to which I have added my own experience and that of many observing practitioners. As a teacher of Materia Medica, I am constantly importuned by students to suggest the potency,—something to start them with, at least.

The female symptoms throughout have been critically examined and enriched by Professor Jas. W. Ward, the eminent gynaecologist and practitioner of wide experience. This adds much to the practical value of the book, and I hereby desire to acknowledge my indebtedness to Dr. Ward for this important aid and other valuable hints and suggestions.

If students and younger practitioners could be encouraged to make use of this skeleton of drug action, and note the verifications occurring in their practice and gradually enlarge the symptomatology by further study and observation, a most useful and practical work would soon be theirs. A general Index and Repertory is in preparation, and will be published as a companion volume.

SAN FRANCISCO, May, 1901.
HOMŒOPATHIC
MATERIA MEDICA.

ABIES CANADENSIS.
(Hemlock Spruce.)

The gastric symptoms are most marked, and a
catarrhal condition of the stomach is produced.
There are peculiar cravings and chilly sensations
that are very characteristic, especially for women
with uterine displacement. Right lung and liver
feel small and hard. Gleet.

Head.—Feels light-headed, tipsy.

Stomach.—Canine hunger with torpid liver.
_Gnawing, hungry, faint feeling_ at the epigastrium.
Great appetite, craving for meat, pickles, radishes,
turnips, artichokes, coarse food. Tendency to eat
far beyond capacity for digestion.

Burning and _distention of stomach and abdomen,
with palpitation_. Pain in right shoulder-blade, and
constipation, with burning in rectum.

Female.—Sore feeling at fundus of uterus, re-
lieved by pressure. Prostration; wants to lie down
all the time. Thinks womb is soft and feeble.

Fever.—Cold shiverings, as if blood were ice-
water. [Acon.] Chills run down back. Cold-water
feeling between shoulders. [Ammon. mur.] Skin
clammy and sticky. Night-sweat. [Agar.; Acet. ac.]

Relationship.—Compare: Ignatia; Sepia; Thuja.

Dose.—Tincture, to third potency.

ABIES NIGRA.

(Black Spruce.)

This is a powerful and long-acting remedy, capable of useful service in various forms of disease, whenever the characteristic stomach symptoms are present. Most of the symptoms are associated with the gastric disturbances. In dyspeptic troubles of the aged, with functional heart symptoms; abuse of tea and coffee. Constipation.

Mind.—Low-spirited. Dull during the day, wakeful at night. Unable to think.

Stomach.—Sensation of a lump that hurts, as if a hard-boiled egg had lodged in the cardiac end of stomach; continual distressing constriction just above the pit of the stomach, as if everything were knotted up. Total loss of appetite in morning, but great craving for food at noon and night. Offensive breath. Eruptions. [Carbo; Arg. nit.]

Chest.—Painful sensation, as if something were lodged in the chest and had to be coughed up; worse coughing; waterbrash succeeds cough. Choking sensation in throat. Dyspnœa.

Heart.—Sharp, cutting pain in heart; heart's action heavy and slow; tachycardia, bradycardia.

Back.—Pain in small of back. Rheumatic pains and aching in bones.

Sleep.—Wakeful and restless at nights, with hunger. Bad dreams.
Fever.—Alternate heat and cold; chronic intermittent fever, with pain in stomach.

Modalities.—Worse after eating.

Relationship.—Compare: Bry.; Nux; Kali carb.

Dose.—First to thirtyth potency.

ABROTANUM.

(Southernwood.)

A very useful remedy in marasmus. Emaciation, yet with good appetite. Rheumatism following checked diarrhoea. Metastasis. Ill effects of suppressed conditions, especially in gouty subjects. Tuberculous peritonitis. Exudative pleurisy and other exudative processes.

Mind.—Cross, irritable, anxious, depressed.

Face.—Wrinkled, cold, dry, pale. Blue rings around dull-looking eyes. Comedones, with emaciation. Nosebleed. [ Arn; Melil. Bry.]

Stomach.—Slimy taste. Appetite good, but emaciation progresses. Food passes undigested. Pain in stomach; worse at night; cutting, gnawing pain. Stomach feels as if swimming in water; feels cold. Gnawing hunger and whining.

Abdomen.—Hard lumps in abdomen. Distended. Alternate diarrhoea and constipation. Haemorrhoids; frequent urging; bloody stools; worse as rheumatic pains abate. Ascarides. Oozing from umbilicus.

Respiratory.—Raw feeling. Impeded respiration. Dry cough following diarrhoea. Pain across chest; severe in region of heart.

Back.—Neck so weak cannot hold head up. Back

**Extremities.**—Pain in shoulders, arms, wrists, and ankles. Pricking and coldness in fingers and feet. Legs greatly emaciated. Joints stiff and lame. Painful contraction of limbs. \[Amm. mur.\] Itching chilblains. \[Agaric; Tamus tincture.\]

**Skin.**—Eruptions come out on face; are suppressed, and the skin becomes purplish. Skin flabby and loose. Furuncles. Falling out of hair.

**& Relationship.**—Compare: *Bryonia, Benzoic acid*, in gout. *Iodine, Natr. mur.* in marasmus.

**Dose.**—Third to thirtieth potency.

---

**ABSINTHIUM.**

(Common Wormwood.)

**Mouth.**—Jaws fixed. Bites tongue; trembles; feels as if swollen and too large; protruding.
**ABSINTHIUM—ACALYPHA INDICA.**

**Throat.**—Scalded sensation; as of a lump.

**Stomach.**—Nausea; retching; eructation. Bloat-ed around waist and abdomen. Wind colic.

**Urine.**—Constant desire. Very strong odor; deep yellow color. [Kali phos.]

**Sexual.**—Darting pain in right ovary. Sperma-torrhœa, with relaxed parts.

**Chest.**—Sensation of weight on chest. Irregular, tumultuous action of heart can be heard in back.

**Relationship.**—Compare: Alcohol; Artemisia; Hydrocy. acid; Cina.

**Dose.**—First to sixth potency.

---

**ACALYPHA INDICA.**

*(Indian Nettle.)*

A drug having a marked action on the alimentary canal and respiratory organs. It is indicated in incipient phthisis, with hard, racking cough, bloody expectoration, arterial haemorrhage, but no febrile disturbance. Very weak in the morning, gains strength during day. Progressive emaciation.

**Chest.**—Cough, dry, hard, followed by hæmoptysis; worse in morning and at night. Constant and severe pain in chest. Blood bright red and not profuse in morning; dark and clotted in afternoon. Pulse soft and compressible.

**Gastric.**—Burning in pharynx, œsophagus, stomach, and intestines. Spluttering diarræa with forcible expulsion of noisy flatus, bearing-down pains, and tenesmus. Rumbling, distention, and griping pain in abdomen. Rectal haemorrhage; worse in morning.
Skin.—Jaundice. Itching and circumscribed furuncule-like swellings.

Modalities.—Worse in morning.

Relationship.—Compare: Millefol.; Phosphor.; Acetic acid; Kali nis.

Dose.—Sixth to twelfth potency.

ACETIC ACID.

(Glacial Acetic Acid.)

This drug produces a condition of profound anaemia, with some dropsical symptoms, great debility, frequent fainting, dyspnœa, weak heart, vomiting, profuse urination and sweat. Hæmorrhage from any part. Especially indicated in pale, lean persons, with lax, flabby muscles. Wasting and debility.

Mind.—Irritable; worried about business affairs.

Face.—Pale, waxen, emaciated. Eyes sunken, surrounded by dark rings. Bright red. Sweaty.

Abdomen.—Feels as if abdomen was sinking in. Frequent watery stools, worse in morning. Tympanitic. Ascites. Hæmorrhage from bowels.

Urine.—Large quantities of pale urine. Diabetes, with great thirst and debility. [Phos. ac.]

Respiratory.—Hoarse, hissing respiration; difficult breathing; cough when inhaling. Membranous croup. Irritation of trachea and bronchial tubes. False membrane in throat.

Back.—Pain in back, relieved only by lying on abdomen.

Extremities.—Emaciation. Oedema of feet and legs.

Skin.—Pale, waxy, oedematous. Burning, dry, hot skin, or bathed in profuse sweat. Diminished sensibility of the surface of body. Useful after stings, bites, etc. Varicose swellings. Scurvy; anaasarca. Bruises; sprains.

Fever.—Hectic, with drenching night sweats. Red spot on left cheek. No thirst in fever. Ebullitions. Sweat profuse, cold.

Relationship.—Acetic acid is antidotal to all anaesthetic vapors. Counteracts sausage poisoning.

Compare: Ammon. acet. (Profuse saccharine urine, patient is bathed in sweat.) Ars.; China; Digitalis; Liatris (dropsy and chronic diarrhœa).

Dose.—Third to thirtieth potency. Not to be repeated too often, except in croup.
A CONITUM NAPELLUS.

(Monkshood.)

A state of fear, anxiety, anguish of mind and body. Physical and mental restlessness is the most characteristic manifestation of Aconite. Acute, sudden, and violent invasion, with fever, call for it. Complaints caused by exposure to dry, cold weather, draughts of cold air, checked perspiration, etc. First remedy in inflammations, inflammatory fevers. Burning in internal parts; tingling and numbness.

Mind.—Great fear, anxiety, and worry accompany every ailment, however trivial. Forebodings and fears. Fears death, but believes that he will soon die; predicts the day. Fears the future, a crowd crossing the street. Restlessness, tossing about. Tendency to start. Imagination acute, clairvoyance. Pains are intolerable; they drive him crazy. Music is unbearable; makes her sad. [Ambra]

Head.—Fullness; heavy, pulsating, hot, bursting, burning, undulating sensation. Vertigo; worse on rising and shaking head. Sensation on vertex as if hair were pulled.

Eyes.—Red, inflamed. Feel dry and hot, as if sand in them. Lids swollen, hard, and red. Aversion to light. Profuse watering after exposure to dry, cold winds, reflection from snow, after extraction of cinders and other foreign bodies.

Ears.—Very sensitive to noises; music is unbearable. External ear hot, red, painful, swollen. Earache. [Cham.]

Nose.—Smell acutely sensitive. Pain at root of nose. Coryza; much sneezing; throbbing in nos-
trils. Hæmorrhage of bright red blood. Mucous membrane dry; nose stopped up; dry or with but scanty watery coryza.

Face.—Red, hot, flushed, swollen. On rising the red face becomes deathly pale. Tingling in cheeks and numbness., Neuralgia, especially of left side, with restlessness, tingling, and numbness.

Mouth.—Numb, dry, and tingling. Tongue swollen; tip tingles. Teeth sensitive to cold. Constantly moves lower jaw as if chewing. Gums hot and inflamed. Tongue coated white. [Antim. crud.]

Throat.—Red, dry, constricted, numb, prickling burning, stinging. Tonsils swollen and dry.

Stomach.—Bitter taste of everything except water. Intense thirst. Drinks, vomits, and declares he will die. Vomiting, bilious, mucous and bloody, greenish. Pressure in stomach, with dyspœna. Hæmatemesis. Burning from stomach to œsophagus:

Abdomen.—Hot, tense, tympanitic. Sensitive to touch. Colic; no position relieves.

Stool.—Frequent, small, with tenesmus; green, like chopped herbs. White, with red urine. Choleraic discharges, with collapse, anxiety, and restlessness. Bleeding hæmorrhoids. [Hamam.]

Heart.—Palpitation, with anxiety, fainting, and tingling in fingers. Pulse full, hard; tense and bounding; sometimes intermits. Temporal and carotid arteries felt when sitting.

Extremities.—Numbness and tingling; shooting pains; icy coldness and insensitivity of hands and feet. Arms feel lame, bruised, heavy, numb. Hot hands and cold feet. Rheumatic inflammation of joints; worse at night; red shining swelling, very sensitive. Hip-joint and thigh feel lame, especially after lying down. Knees unsteady; disposition of foot to turn. [Escol.]

Skin.—Red, hot, swollen, dry, burning. Rash

Fever.—Dry heat; red face. Evening chilliness soon after going to bed. Sweat constant. Cold waves pass through him. Thirst and restlessness always present.

Modalities.—Better in open air; worse in warm room, in evening and night; worse lying on affected side, from music, from tobacco-smoke.

Relationship.—Acids, wine and coffee, lemonade and acid fruits modify its action.

Not indicated in malarial and low fevers or hectic and pyæmic conditions, and in inflammations when they localize themselves. Sulphur often follows it. Agrostis acts like Acon. in fever and inflammations, also Spiranthes.

Compare: Bellad.; Cham.; Coffee; Ferr. phos.

Aconitine. (Heavy feeling as of lead; pains in supra orbital nerve; ice-cold sensations creep up; hydrophobia symptoms.)

Aconitum ferox. Rather more violent in its actions than A. napellus. It is more diuretic and less antipyretic. It has proved valuable in cardiac dyspnæa, neuralgia, and acute gout. Dyspnæa. Must sit up. Rapid respiration. Anxiety, with suffocation from feeling of paralysis in respiratory muscles. [Curare; Phosph.] Quebracho (cardiac dyspnæa).

Dose.—Tincture, to thirtieth potency. Must be repeated frequently in acute diseases.
ACTEA SPICATA.

(Baneberry.)

Is a rheumatic remedy, especially of the small joints; tearing, tingling pains characterize it. Wrist-rheumatism. Pulsations over whole body, especially liver and renal region.

Face.—Violent pains in upper jaw, running from teeth through malar bones to temples. Perspiration on face and head.

Stomach.—Tearing, darting pains in epigastric region with vomiting. Cramp-like pains in stomach and epigastrium, with difficult breathing; sense of suffocation. Sudden lassitude after eating.

Relationship.—Compare: Cimicif.; Cauloph.; Led.

Dose.—Third potency.

ADONIS VERNALIS.

(Pheasant's Eye.)

A heart medicine, regulating pulse and increasing the power of contractions of heart, with increased urinary secretion. Valvular affections. Most valuable in cardiac dropsy. Low vitality, with weak heart and slow, weak pulse. Hydrothorax, ascites.

Head.—Feels light; aches across front, from occiput around temples to eyes. Vertigo. Scalp feels light.
Mouth.—Slimy. Tongue dirty yellow, sore, feels scalded.

Heart.—Mitral and aortic regurgitation. Preecordial pain, palpitation, and dyspnœa. Marked venous engorgement. Cardiac asthma. [Quebracho.]

Urine.—Oily pellicle on urine. Scanty, albuminous.

Sleep.—Restless, with horrible dreams.

Extremities.—Aching in nape. Spine stiff and aching.

Relationship.—Adonidin is a cardiac tonic and diuretic. Quarter to half grain daily, or two to five grains of first decimal trit. Increases arterial pressure and prolongs the diastole, favoring emptying engorged veins.

Compare: Digit.; Crateg.; Convul.; Strophantes.

Dose.—Five to ten drops of the tincture.

ADRENALIN.

(Active principle of Supra-Renal Glands.)

Dose.—Internally 5-30 minims of the 1:1000 so-
lution. Locally as a spray 1:10,000—1:1000. Second and sixth triturations.

ÆSCLULUS HIPPOCASTANUM.

(Horse Chestnut.)

The action of this drug is most marked on the lower bowel, producing engorged hæmorrhoidal veins with characteristic backache. Torpor and congestion of the liver and portal system, with constipation. The back aches and gives out, and unfits the patient for business. Flying pains all over. Fullness in various parts; dry, swollen mucous membranes.

Head.—Depressed and irritable. Head dull, confused. Pressure in forehead, with nausea. Pain from occiput to frontal region, with bruised sensation of the scalp; worse in the morning.

Eyes.—Heavy and hot, with lachrymation, with enlarged blood vessels. Eyeballs sore.

Nose.—Coryza, sneezing. Pressure at root of nose. Membrane over turbinate bones distended and boggy, dependent upon hepatic disorders.

Mouth.—Scalded feeling. Metallic taste. Salivation. Tongue thickly coated, feels as if scalded.

Throat.—Hot, dry, raw, stitching pain into ears when swallowing. Follicular pharyngitis connected with hepatic congestion. Veins in pharynx distended and tortuous.

Stomach.—Weight of a stone, with gnawing, aching pain; most manifest about three hours after meals. Tenderness and fullness in region of liver.

Rectum.—Dry, aching. Feels full of small sticks. Anus raw, sore. Much pain after stool, with pro-
lapse. *Hæmorrhoids*, with sharp shooting pains up the back; blind and bleeding; worse during climacteric. Large, hard dry stools. Mucous membrane seems swollen and obstructs the passage. Irritation caused by ascarides and aids their expulsion.

**Male.**—Discharge of prostatic fluid at stool.

**Female.**—Constant throbbing behind symphysis pubis. Leucorrhœa, with lameness of back across the sacro-iliac articulation; dark yellow, sticky, corroding; worse after menses.

Respiratory.—Laryngitis; coughs depending on hepatic disorders; hot feeling in chest; pain around heart.

**Extremities.**—Aching and soreness in limbs.

**Back.**—Region of spine feels weak; back and legs give out. Backache affecting sacrum and hips; worse walking or stooping. When walking feet turn under. Soles feel sore, tired, and swell. Hands and feet swell, and become red after washing.

**Modalities.**—*Worse* in morning on awaking, and from any motion; from moving bowels; after eating. *Better* while at rest.

**Comparison.**—*Aesculus glabra* (Very painful, dark purple external hæmorrhoids with constipation and vertigo. Speech thick, tickling in throat, impaired vision, paresis.) *Aloes; Collinsonia; Nux; Sulph.*

**Dose.**—Tincture, to third potency.
ÆTHIOPS—ÆTHUSA CYNAPIUM.

ÆTHIOPS.

(Antimon. Sulph. and Quicksilver.)

This preparation is of use in scrofulous affections, ophthalmia, otorrhoea, painful, irritating, scabby eruptions, hereditary syphilis.

Skin.—Eruptions. Favus-like. scrofulous, herpetic and eczematous.

Dose.—The lower triturations, especially the second decimal.

Relationship.—Calc.; Sol. Psorin.

ÆTHUSA CYNAPIUM.

(Fool’s Parsley.)

The characteristic symptoms relate mainly to the brain and nervous system, connected with gastrointestinal disturbance. Anguish, crying and expression of uneasiness and discontent lead to this remedy most frequently in disease in children, during dentition, summer complaint, when with the diarrhoea there is marked inability to digest milk, and poor circulation. Symptoms set in with violence.

Mind.—Restless, anxious, crying. Sees rats, cats, dogs, etc. Unconscious, delirious. Inability to think, to fix the attention. Brain fag. [Picric acid.]

Head.—Feels bound up, or in a vise. Occipital pain extending down spine; better lying down and by pressure. Head symptoms relieved by expelling flatus and by stool. Hair feels pulled.

Eyes.—Photophobia; swelling of meibomian glands. Rolling of eyes on falling asleep. Eyes drawn downward; pupils dilated.
Ears.—Feel obstructed. Sense of something hot from ears. Hissing sound.

Nose.—Stopped up with much thick mucus. Herpetic eruption on tip of nose. Frequent ineffectual desire to sneeze.

Face.—Puffed, red-spotted, collapsed. Expression anxious, full of pain; linea nasalis marked.

Mouth.—Dry. Aphthæ. Tongue seems too long. Burning and pustules in throat, with difficult swallowing.

Stomach.—Intolerance of milk; vomited as soon as swallowed or in large curds. [Valer.] Regurgitation of food about an hour after eating. Violent vomiting of a white frothy matter. Nausea at sight of food. Painful contraction of stomach. Vomiting, with sweat and great weakness, accompanied by anguish and distress. Stomach feels turned upside down, with burning feeling up to the chest. Tearsing pains in the stomach extending to oesophagus.

Abdomen.—Cold, internal and external, with aching pain in bowels. Colic, followed by vomiting, vertigo, and weakness. Tense, inflated, and sensitive. Bubbling sensation around navel.

Stool.—Undigested, thin, greenish, preceded by colic, with tenesmus, and followed by exhaustion and drowsiness. Cholera infantum; child cold, clammy, stupid, with staring eyes and dilated pupils. Obstinate constipation; feels as if all bowel action is lost. Choleraic affections in old age.

Urinary.—Cutting pain in bladder, with frequent urging. Pain in kidneys.

Female.—Lancinating pains in sexual organs. Pimples; itching when warm. Menses watery.
Swelling of mammary glands, with lancinating pains.

Respiratory.—Difficult, oppressed, anxious respiration; crampy constriction. Sufferings render patient speechless.

Heart.—Violent palpitation, with vertigo, headache and restlessness. Pulse rapid, hard and small.

Fever.—Great heat; no thirst. Profuse, cold sweat. Must be covered during sweat.

Sleep.—Disturbed by violent startings; cold perspiration. Dozing after vomiting or stool. Child is so exhausted, it falls asleep at once.

Modalities.—Worse, 3 to 4 a.m., and evenings, warmth, summer. Better, in open air and company. Compare: Antimon.; Calc.; Ars.; Cicuta.

Dose.—Third to thirtieth potency.

AGARICUS MUSCARIUS.

(Bug Agaric—Amanita.)

Jerking, twitching, trembling, and itching are strong indications. Special anaemia, chorea, various
forms of neuralgia and spasmodic affections, and neurotic skin troubles are pictured in the symptomatology of this remedy. It corresponds to various forms of cerebral excitement rather than congestion. Thus, in delirium of fevers, alcoholism, etc. General paralysis. Sensation as if pierced by needles of ice.

Head.—Vertigo from sunlight. Head in constant motion. Falling backward, as if a weight in occiput. Lateral headache, as if from a nail. [Coff.; Ignat.] Dull headache from prolonged desk-work. Icy coldness, like icy needles or splinters. Desire to cover head warmly. [Silica.]

Eyes.—Double vision [Gels.]; dim and flickering. Asthenopia from prolonged strain, spasm of accommodation. Twitching of lids and eyeballs. [Codein.] Margins of lids red; itch and burn and agglutinate. Inner angles very red.

Ears.—Burn and itch, as if frozen. Twitching and noises.

Face.—Facial muscles feel stiff; twitch; face itches and burns. Lancinating, tearing pain in cheeks, as of splinters. Neuralgia, as if cold needles ran through nerves or sharp ice touched them.

Throat.—Stitches along eustachian tube to ear. Feels contracted. Small solid balls of phlegm thrown up. Dryness of pharynx, swallowing difficult. Scratching in throat; cannot sing a note.

Stomach.—Empty eructations, tasting of apples. Nervous disturbances, with spasmodic contractions, hiccup. Unnatural hunger. Flatulent distension of stomach and abdomen. Profuse inodorous flatus. Burning in stomach about three hours after a meal, changing into a dull pressure.

Respiratory Organs.—Violent attacks of coughing that can be suppressed by effort of will. Spasmodic cough at night after falling asleep, with expectoration of little balls of mucus. Labored, oppressed breathing. Cough ends in a sneeze.

Heart.—Irregular, tumultuous, palpitation, after tobacco. Pulse intermittent and irregular. Cardiac region oppressed, as if thorax were narrowed.

Back.—Pain, with sensitiveness of spine to touch; worse in dorsal region. Lumbago; worse in open air. Crick in back. Twitching of cervical muscles.

Skin.—Burning, itching, redness, and swelling, as from frost-bites. Pimples, hard, like flea-bites. Military eruption, with intolerable itching and burning. Angioneurotic oedema; rosacea.

Modalities.—Worse after eating and after coitus. In cold weather, before a thunderstorm. Worse pressure on dorsal spine, which causes involuntary laughter.

Relationship.—Compare: Cimicif.; Cann. ind.; Hyos.; Tarantula Muscarine (has much power over secretions, increasing lachrymal, salivary, hepatic, etc., but diminishing renal; probably neurotic in origin. Atropin exactly opposes Muscarine. Resembles Pilocarpin in action). Agaríc. emet. (severe vertigo; all symptoms better cold water; longing for ice-cold water). Agar. Phalloides (cholera, incessant cramps in stomach; prostration). Tamus (chilblains, also Terebinth).
Antidotes: *Comph.*; *Coff.*; *Pulsat*.

Dose.—Third to thirtieth and two-hundredth potency. In skin affections give the lower attenuations.

**AGAVE AMERICANA.**

(Century Plant.)

Indicated in stomacace, and painful erections in gonorrhoea. Hydrophobia. Scurvy; countenance pale, gums swollen and bleeding, legs covered with dark purple blotches, swollen, painful and hard.

Relationship.—Compare: *Lyssin*; *Lach.*; *Aloe*.

Dose.—Tincture.

**AGNUS CASTUS.**

(The Chaste Tree.)

The most effective point of attack of Agnus upon the organism is the sexual organism. It lowers sexual vitality, with corresponding mental depression and loss of nervous energy. It shows this distinctive influence in both sexes, but is more pronounced in men. Premature old age from abuse of sexual power. History of repeated gonorrhoeas. A prominent remedy for sprains and strains. *Gnawing itching in all parts, especially eyes.* Tachycardia caused by tobacco in neurotic young men.

Stomach.—Nausea, with *sensation as if intestines were pressed downwards*; wants to support bowels.

Female.—Scanty menses. Abhorrence of sexual intercourse. Relaxation of genitals, with leucorrhoea. Agalactia, with sadness. Sterility. [Aur.; Nat. m.; Bor.] Leucorrhoea staining yellow; transparent.

Relationship.—Compare: Selenium; Phosph. ac.; Camphor.; Lycop.

Dose.—First to sixth potency.

AGRAPHIS NUTANS.

(Bluebell.)

Catarrhal conditions, obstruction of nostrils. Adenoids, throat deafness. Enlarged tonsils. Mucous diarrhoea from cold. Chill from cold winds [Acon. Silica.]

Relationship.—Compare: Hydrast.; Cepa; Calc. phos. Squilla.

Dose.—Third potency.

AILANTHUS GLANDULOSA.

(Chinese Sumach.)

This remedy shows by its peculiar skin symptoms its pronounced power of disorganizing the blood, causing conditions we meet with in low fevers, low types of eruptive diseases, diphtheria, etc. The skin appears livid or purplish; face dark as mahogany,
hot; sordes; throat swollen, purple, livid; semi-conscious, delirious; weak pulse, general torpor and prostration. Symptoms remarkably alike to malignant scarlatina. Diarrhoea, dysentery, and great weakness are very marked.

Head.—General stupor, with sighing. Confused mind; mental depression. Headache, frontal, with drowsiness. Suffused dilated eyes; photophobia. Face dusky. Thin, copious, ichorous, bloody nasal discharge.

Respiratory.—Hurried breathing; irregular. Dry hacking cough. Lungs sore and tired.

Sleep.—Drowsy, restless. Heavy, disturbed, unrefreshing.

Skin.—Miliary, livid rash. Large blisters filled with dark serum. Irregular, patchy, livid eruption, disappearing on pressure. Cold skin.

Dose.—First to sixth potency.

**ALETRIS FARINOSA.**

*(Stargrass.)*

An anaemic, relaxed condition, especially of the female organism, is portrayed by this remedy. The patient is tired all the time, and suffers from pro-
lapsus, leucorrhœa, rectal distress, etc. Marked anæmia. Chlorotic girls and pregnant women.

Female.—Premature and profuse menses, with labor-like pains. [Bell.; Cham.; Kali c.; Plat.] Uterus seems heavy. Prolapse, with pain in right inguinal region. Leucorrhœa. Habitual tendency to abortion. [Apis; Puls.; Sabina; Sep.] Muscular pains during pregnancy.

Relationship.—Compare: Helonias, Hydrastis, Tanacet. (debility), China.

Dose.—Tincture to third potency.

ALLIUM CEPA.

(Red Onion.)

A picture of coryza, with acrid nasal discharge and laryngeal symptoms (singers' cold, worse in warm room and toward evening; better in open air) is presented by this remedy. Neuralgic pains, like a fine thread, following amputations or injuries to nerves.

Head.—Catarrhal headache, mostly in forehead; worse in warm room and towards evening.

Eyes.—Red. Much burning and smarting lachrymation. Sensitive to light. Eyes suffused and watery; profuse bland lachrymation, better in open air.
Ears.—Earache, shooting in eustachian tube.

Relationship.—Compare: Gels.; Euph.; Kali hyd.; Aconite; Ipecac.

Complementary: Phosphor.; Thuya; Puls.

Antidotes: Arn.; Cham.; Verat.

Dose.—Third potency.

ALLIUM SATIVUM.

(Garlic.)

Adapted to fleshy subjects with dyspepsia and catarrhal affections. High livers. Pain in hip. Pulmonary tuberculosis. Cough and expectoration
diminishes, temperature becomes normal, weight is gained, and sleep becomes regular. \textit{Hemoptysis.}

\textbf{Head.}—Heavy; pulsation in temples; catarrhal deafness.

\textbf{Mouth.}—Much sweetish saliva after meals and at night.

\textbf{Stomach.}—Voracious appetite. Burning eructations. Least change in diet causes trouble. Constipation, with constant dull pains in bowels. \textit{Tongue pale red, papilla effaced.}

\textbf{Respiratory.}—Constant rattling of mucus in bronchi. Cough in the morning after leaving bedroom, with mucous expectoration, which is tenacious and difficult to raise. Sensitive to cold air. Dilated bronchi, with fetid expectoration.

\textbf{Relationship.}—Compare: \textit{Capsicum; Arsenic; Senega; Kali nit.}

\textbf{Antidote:} \textit{Lycopod.}

\textbf{Dose.}—Third to sixth potency. In tuberculosis, dose, four to six grammes in a moderate state of dessication daily in divided doses.

\textbf{ALNUS.}

(\textit{Red Alder.})

Has some reputation as a remedy for skin affections, glandular enlargements, and indigestion from imperfect secretion of gastric juice. It stimulates nutrition, and thus acts favorably upon strumous disorders, enlarged glands, etc. Ulcerated mucous membranes of mouth and throat.

\textbf{Female.}—Leucorrhoea, with erosions of cervix, bleeding easily. Amenorrhoea, with burning pains from back to pubis.
Skin.—Chronic herpes. Enlarged sub-maxillary glands. Eczema, prurigo.

Dose.—Tincture to third potency.

ALOE.

(Socotrine Aloes.)

An excellent remedy to aid in re-establishing physiological equilibrium after much dosing, where disease and drug symptoms are much mixed. There is no remedy richer in symptoms of portal congestion and none that has given better clinical results, both for the primary pathological condition and secondary phenomena. The rectal symptoms usually determine the choice. Adapted to weary people, the aged, and phlegmatic, old beer-drinkers. Dissatisfied and angry about himself, alternating with lumbago. Heat internally and externally. Has been used successfully in the treatment of consumption by giving the pure juice.

Head.—Headache alternates with lumbago. Disinclination to mental labor. Aches above forehead, with heaviness in eyes, must partially close them. Headache after stool. Dull pressive pain; worse from heat.

Eyes.—Compelled to make small during pain in forehead. Flickering before eyes. Redness of eyes with yellow vision. Pain deep in orbits.

Ears.—Cracking when chewing. Sudden explosion and clashing in left ear.

Nose.—Coldness of tip. Bleeding in morning on awakening.

Throat.—Thick lumps of tough mucus. Varicose condition of veins in pharynx.

Abdomen.—Fullness in region of liver, pain under right ribs. Abdomen feels full, heavy, hot, bloated. Pulsating pain around navel. Weak feeling, as if diarrhoea would come on. Sensation of plug between symphysis pubis and os coccyges, with urging to stool. Great accumulation of flatus, pressing downwards, causing distress in lower bowels. Colic before and during stool. Burning, copious flatus.

Female.—Bearing-down in rectum, worse standing and during menses. Uterus feels heavy. [China; Nux; Sep.] Labor-like pains in loins; extend down legs. Climacteric haemorrhage. Menses too early and too profuse.

Respiratory.—Winter coughs, with itching. Difficult respiration, with stitches from liver to chest.

Back.—Pain in small of back; worse moving. Stitches through sacrum. Lumbago alternating with headache and piles.

Relationship.—Sulphur; Kali bich.; Lycop. Antidotes: Opium; Sulph.

Dose.—First to sixth potency.

ALSTONIA.
(Dita Bark.)

Malarial diseases, with diarrhoea, dysentery, anaemia, feeble digestion, are the general conditions suggesting this remedy. Characteristics are the gone sensation in stomach and sinking in abdomen, with debility. A tonic after exhausting fevers.

Relationship.—Compare: Ditaoin (active principle, is anti-periodic like quinine but without unpleasant after effects).

Cinchona (similar in diarrhoea, chronic dyspepsia and debility).

Hydrastis; Fer. cit et chin.

Dose.—Tincture to third potency. Locally for ulcers and rheumatic pains.
ALUMEN.

(Common Potash Alum.)

The clinical application of this remedy points to its bowel symptoms, both in obstinate constipation and in hæmorrhage from bowels in the course of typhoid—one phase of the paralytic weakness of the muscles in all parts of the body. Tendency to induration is also marked, a low form of tissue-making is favored. Adapted to old people, especially bronchial catarrhs. Sensation of dryness and contraction.

Head.—Burning pain as of weight on top of head; better by pressure of hand. Vertigo, with weakness in pit of stomach.

Heart.—Palpitation from lying down on right side.

Rectum.—Constipation of the most aggravated kind. No desire for stool for days. No ability to expel stool. Marble-like masses pass, but rectum still feels full. Itching after stool. Itching in anus. Smarting in rectum after stool; also hæmorrhoids. Yellow, like an infant's. Hæmorrhage from bowels.

Female.—Tendency to induration of neck of uterus and mammary glands. [Carb. an.; Con.] Chronic yellow vaginal discharge. Chronic gonorrhœa, yellow, with little lumps along urethra. Aphthous patches in vagina. [Caul.] Menses watery.

Respiratory.—Hæmoptysis, great weakness of
ALUMEN—ALUMINA.

chest; difficult to expel mucus. Copious, ropy morning expectoration in old people. Asthma.

Skin.—Ulcers, with indurated base. To be thought of in indurated glands, epithelioma, etc.; veins become varicose and bleed. Glands inflame and harden. Alopecia.

Extremities.—Weakness of all muscles, especially arms and legs. Constricted feeling around limbs.

Dose.—First to thirtyeth potency. The very highest potencies have proved efficacious. Powdered alum, 10 grains, placed on tongue said to arrest an attack of asthma.

ALUMINA.
( Oxide of Aluminum.)

A very general condition corresponding to this drug is dryness of mucous membranes and skin. Old people, with lack of vital heat or prematurely old, with debility. Sluggish functions, heaviness, numbness, and staggering, and the characteristic constipation finds an excellent remedy in Alumina. Disposition to colds in the head and eructations in spare, dry, thin subjects.

**Abdomen.**—Colic, like painter's colic. Pressing in both groins toward sexual organs. Left-sided abdominal complaints.

**Stool.**—Hard, dry, knotty; no desire. Rectum sore, dry, inflamed, bleeding. Itching and burnin
at anus. *Even a soft stool is passed with difficulty.*

**Great straining.** Constipation of infants [*Collins.; Psor.; Paraf.*] and old people from inactive rectum. Diarrhoea on urinating.

**Urine.**—*Must strain at stool in order to urinate.* Pain in kidneys, with mental confusion. Frequent desire to urinate in old people. Difficult starting.

**Male.**—Excessive desire. Involuntary emissions when straining at stool. Prostatic discharge.

**Female.**—Menses too early, short, scanty, pale, followed by great exhaustion. [*Carb. an.; Coccul.*] Leucorrhoea acidic, profuse, transparent,ropy, with burning; worse during daytime, and after menses. Relieved by washing with cold water.

**Back.**—Stitches. Gnawing pain, as if from hot iron. Pain along cord, with paralytic weakness.

**Extremities.**—Pain in arm and fingers, as if hot iron penetrated. Arms feel paralyzed. Legs feel asleep, especially when sitting with legs crossed. Staggers on walking. Heels feel numb. Soles tender; on stepping, feel soft and swollen. Pain in shoulder and upper arm. Gnawing beneath fingernails. Brittle nails. Inability to walk, except when eyes are open or in daytime.

**Sleep.**—Restless; anxious and confused dreams. Sleepy in morning.

**Skin.**—Chapped and dry. Brittle nails. *Intolerable itching when getting warm in bed.* Must scratch
until it bleeds; then becomes painful. Brittle skin on fingers.

Modalities.—Worse, periodically; from potatoes; warm room. Better, in open air; from cold washing.

Dose.—Sixth to thirtieth, and higher. Action slow in developing.

AMBRA GRISEA,

(Ambergris—A morbid product of the whale.)

Suitable to excitable nervous children. Nervous bilious temperament. Thin scrawny women. Adapted to hysterical subjects or those suffering from spinal irritation with convulsive cough, eructation, etc. Also for patients weakened by age or overwork, who are anaemic and sleepless. One-sided complaints call for it. Music aggravates symptoms.

Head.—Slow comprehension. Vertigo, with weakness in head and stomach. Tearing pain in upper half of brain. Rush of blood to head when listening to music. Hearing impaired.

Stomach.—Eructations, with violent convulsive cough. Acid eructation, like heartburn. Distension of stomach and abdomen. Sensation of coldness in abdomen.

Urinary.—Pain in bladder and rectum at the same time. Burning in orifice of urethra and anus.
Feeling in urethra as if a few drops passed out. Burning and itching in urethra while urinating. *Urine turbid, even during emission*, forming a brown sediment.

Respiratory.—Hoarseness. Cough every morning about three o'clock, with dyspnœa, palpitation, burning in chest; worse ascending. Chest feels tired. Emphysema. \textit{Much oppression in breathing; worse after any effort, and entering warm room, or ascending even a few steps.} Winter catarrhs, with slimy sputum and specks of blood.

Extremities.—Hands cold and blue; distended

Sleep.—Sleepiness during the day. Starts from sleep strangling.

Modalities.—Worse from cold, wet weather, wet applications, washing, and during 3 to 4 A. M. Menstrues. Better lying on painful side and on stomach; in dry weather.

Relationship.—Inimical to Lachesis.

Antidotes: Arnica; Camphor.

Compare: Rhus; Muriatic acid; Tartar emet.

Of use in poisoning by charcoal fumes.

Dose.—Lower potencies.

AMMONIUM CAUSTICUM.

(Hydrate of Ammonia.)

This is a powerful cardiac stimulant. As such in syncope, thrombosis, haemorrhage, snake-bites, chloroform narcosis may be given by inhalation.

The oedema and ulceration of mucous membranes produced by this powerful drug have been utilized as guiding symptoms for the use of this remedy, hence in membranous croup with burning in oesophagus. Aphonia.

Respiratory.—Difficult respiration. Loss of voice. Burning rawness in throat. Spasm of the glottis

Extremities.—Excessive exhaustion and muscular debility. Rheumatism of shoulders. Skin hot and dry.

Dose.—First to third potency.

AMMONIUM MURIATICUM.

(Sal Ammoniac.)

A state of prostration bordering on a typhoid state is produced by this remedy. All mucous secretions are increased and retained. It is especially adapted to fat and sluggish patients who have respiratory troubles. Many groups of symptoms are accompanied by cough. Its period of aggravations are peculiarly divided as to the bodily region affected; thus the head and chest symptoms are worse mornings, the abdominal in the afternoon, the pains in the limbs, the skin, and febrile symptoms in the evening. "Boiling" sensation.

Head.—Hair falls out, with itching and dandruff. Feels full, compressed; worse mornings.

Eyes.—Mist before eyes, optical illusions in incipient cataract; capsular cataract.

**AMMONIUM PHOSPHORICUM.**

*(Phosphate of Ammonia.)*

Dose.—Third decimal trituration.

**AMMONIUM PICRATUM.**

*(Picate of Ammonia.)*

A remedy for malarial fever and neuralgias and so-called bilious headaches. Pain in occiput and mastoid region.
Head.—Periodical neuralgia in right side of occiput; boring extends to ear, orbit, and jaw. Vertigo on rising.

Dose.—Second and third trituration.

**AMYGDALUS PERSICA.**

(Peach Bark.)

A most valuable remedy in vomiting of various kinds; morning sickness. Irritation of eyes. Hæmorrhage from the bladder. Gastric irritation of children; no form of food tolerated. Loss of smell and taste.

Relationship.—Compare: Amygd. amara—Bitter Almond. (Pains through tonsils, throat dark, difficult swallowing, vomiting, cough with sore chest.)

Dose.—Fresh infusion or mother tincture.

**AMYL NITROSUM.**

(Amyl Nitrite.)

On inhaling this drug, it rapidly dilates all arterioles and capillaries, producing flushing of face, heat and throbbing in the head. Palpitation of the heart, and similar conditions are readily cured by it, especially the flushings and other discomforts at climacteric. Hiccup and yawning. Often relieves temporarily epileptic convulsions.

Head.—Anxiety as if something might happen; must have fresh air. Surging of blood to head and face; sensation as if blood would start through skin with heat and redness. Flushings, followed by sweat at climacteric. Ears hyperæmic. Throbbing.

Throat.—Constriction; collar seems too tight.

Female.—After-pains; hæmorrhage associated with facial flushing. Climacteric headache and flashes of heat, with anxiety and palpitation.

Fever.—Much flushing of heat; sometimes followed by cold and clammy skin and profuse sweat. Throbbing throughout whole body.

Extremities.—Constant stretching for hours. Veins of hands dilated; pulsations felt in tips of fingers.

Relationship.—Compare: Glonoine; Lachesis.
Antidotes: Cactus; Strychn.; Ergot.
Dose.—Third potency.

For palliation: In all conditions where the blood-vessels are spasmodically contracted, as in angina pectoris, epileptic seizure, megrim, accompanied by cold, pallor, etc., inhalation of the Amyl. nit. will give immediate relief. For this non-homœopathic application, two to five minims (put up in pearls) dropped on a handkerchief may be required.

ANACARDIUM.

(Marking Nut.)

The Anacardium patient is found mostly among the neurasthenics; such have a type of nervous dyspepsia, relieved by food; impaired memory, depression, and irritability. Syphilitic patients often suffer with these conditions. Intermittency of symptoms. Examination funk.

Aversion to work; lacks self-confidence; irresisti-
ble desire to swear and curse. *Sensation of a plug* in various parts—eyes, rectum, bladder, etc.; also *of a band*. Empty feeling in stomach; *eating temporarily* relieves all discomfort. This is a sure indication, often verified. Its skin symptoms are similar to Rhus, and it has proved a valuable antidote to Poison Oak.

**Mind.**—Fixed ideas. Hallucinations; *thinks he is possessed of two persons or wills*. Anxiety when walking as if pursued. Profound melancholy and hypochondriasis, with *tendency to use violent language*. Brain-fag. Impaired memory. Very easily offended. Malicious; seems bent on wickedness. Lack of confidence in himself or others. Suspicious. [*Hyos.*] Clairaudient, hears voices far away or of the dead.

**Head.**—Vertigo. Pressing pain, *as from a plug*; worse after mental exertion—in forehead, occiput, temples, vertex; *better during a meal*. Itching and little boils on scalp.

**Eyes.**—Pressure *like a plug* on upper orbit. Indistinct vision.

**Ears.**—Pressing in the ears, *as from a plug*. Hard hearing.

**Nose.**—Frequent sneezing. Sense of smell perturbed.

**Face.**—Blue rings around eyes. Face pale.

**Mouth.**—Painful vesicles; fetid odor. Tongue feels swollen, impeding speech and motion, with saliva in mouth.

**Stomach.**—Weak digestion, with fullness and distention. *Empty feeling in stomach*. Eructation, nausea, vomiting. *Eating relieves the Anacardium*
dyspepsia. Apt to choke when eating or drinking. Swallows food and drink hastily.

Abdomen.—Pain as if dull plug were pressed into intestines. Rumbling, pinching, and griping.

Rectum.—Bowels inactive. Ineffectual desire; rectum seems powerless, as if plugged up; even soft stool passes with difficulty. Itching at anus; moisture from rectum. Hæmorrhage during stool. Painful hæmorrhoids. [Nitr. ac.; Hyper.; Ratanh.]

Male.—Voluptuous itching; increased desire; seminal emissions without dreams. Prostatic discharge during stool.

Female.—Leucorrhœa, with soreness and itching. Menses scanty.

Respiratory.—Pressure in chest, as from a dull plug. Oppression of chest, with internal heat and anxiety, driving him into open air. Cough excited by talking, in children, after fit of temper.

Sleep.— Spells of sleeplessness lasting for several nights. Anxious dreams.

Skin.—Intense itching; eczema with mental irritability; vesicular eruption; swelling, urticaria; eruption like that of Poison Oak. [Xerophyl. Grindel. Croton.]

Modalities.—Worse on application of hot water. Better from eating.
Relationship.—Antidote: Coffee; Juglans; Rhus. Compare: Anacord.3ptcidentale (erysipelas, vesicular facial eruption.) Rhus; Cypriped.; Chelidon.; Xerophyl.
Platina follows well.
Dose.—Sixth to two-hundredth potency.

ANAGALLIS.
(Red Chickweed.)
Marked action on skin. Favors expulsion of splinters.

Head.—Great hilarity; headache, with rumbling in bowels and eructations; better from coffee. Pain in facial muscles.

Extremities.—Rheumatic and gouty pains. Pain in shoulder and arm. Cramp in ball of thumbs, and fingers.

Urine.—More or less irritation in urethra, inclining to coition. Burning pain on urinating, with agglutination of orifice. Urine passes in several streams; must press before it passes.

Skin.—Itching; dry, bran-like eruption, especially on hands and fingers. Palms especially affected. Vesicles in groups. Ulcers and swellings on joints.
Dose.—First to third potency.

ANANTHERUM.
(An East India Grass.)
A skin remedy of high order.
Painful swelling of various parts, going on to suppuration. Glandular inflammation.
Head. — Pains pierce brain like pointed arrows; worse in afternoon. Herpes, ulcers, and tumors on scalp. Wartlike growth on eyebrows. Boils and tumors on tip of nose. Tongue fissured, as if cut on edges; copious salivation.

Dose. — Third potency.

ANGUSTURA.

(Galipea Bark.)

Relationship. — Compare: Ruta; Brucea; Nux.

ANHALONIUM.

(Mescal Button.)

A remedy for brain-fag, delirium, megrim, hallucinations, with colored brilliant visions.

Modalities.—Worse on closing eyes; on movement. Better lying down.

Relationship.—Compare: Cannab. ind.; Gelsem.; Stram.; Kali phos.

Abdomen.—Aching in region of liver, griping and chilliness inside of abdomen and into legs. Itching of anus, with white, putty-like stools.

Urinary.—Bladder feels distended. Pain along spermatic cord, which feels full as if varicose. Frequent urination.

Skin.—Itching of the soles, as if from chilblains.
ANTHRACINUM.

(Anthrax Poison.)

This nosode has proven a great remedy in epidemic spleen diseases of domestic animals, and in septic inflammation, carbuncles, and malignant ulcers. In boils and boil-like eruptions, acne. Terrible burning. Induration of cellular tissue.

Relationship.—Similar to Arsenic, which it often follows. Compare: Pyrogen; Lachesis; Crotalus; Hippocrates; Ecchinæ.

Dose.—Thirtieth potency.

ANTIMONIUM ARSENICOSUM.

(Arsenite of Antimony.)

Found useful in emphysema with excessive dyspnœa and cough. Worse on eating and lying down. Catarrhal pneumonia. Pleurisy, especially of left side, with exudation. Pericarditis, with effusion. Sense of weakness. Ædema of the face.

Dose.—Third trituration.
ANTIMONIUM CHLORIDUM.

(Butter of Antimony.)

Dose.—Third trituration.

ANTIMONIUM CRUDUM.

(Stibnite.)

For homoeopathic employment, the mental symptoms and those of the gastric sphere, determine its choice. Excessive irritability and fretfulness, together with a thickly-coated white tongue, are true guiding symptoms to many forms of disease calling for this remedy. All the conditions are aggravated by heat and cold bathing. Cannot bear heat of sun. Tendency to grow fat.

Mind.—Cross and contradictive; whatever is done fails to give satisfaction. Sulky; does not wish to speak. Peevish; vexed without cause. Child cannot bear to be touched or looked at. Angry at every little attention. Sentimental mood.

Head.—Aching, worse in vertex, on ascending, from bathing, from disordered stomach, especially from eating candy or drinking acid wines. Suppressed eruptions. Heaviness in forehead, with vertigo, nausea, and nosebleed.

**Skin.**—Acne (pustular variety). Itching on hands and feet.

**Dose.**—Second or third trituration.

**ANTIMONIUM TARTARICUM.**

(Tartar Emetic.)

Has many symptoms in common with Antimoniun Crudum, but also many peculiar to itself. Clinically, its therapeutic application has been confined largely to the treatment of respiratory diseases where the symptoms of *rattling of mucus with little expectoration* has been a guiding symptom. There is much *drowsiness, debility, and sweat* characteristic of the drug, which group should always be more or less present when the drug is prescribed.
Gastric affections of drunkards and gouty subjects. *Cholera morbus.* Sensation of coldness in blood-vessels.

**Mind and Head.**—Great despondency. Fear of being alone. Muttering, delirium, and stupor. Vertigo, with dullness and confusion. Band-like feeling over forehead. Face pale and sunken. Child will not be touched without whining. Headache as from a band compressing. [*Nit. ac.; Carbol. ac.*]

**Tongue.**—Coated, pasty, thick white, with red edges. Red and dry, especially in the centre. Brown.

**Face.**—Cold, blue, pale; covered with cold sweat.

**Stomach.**—Difficult deglutition of liquids. Vomiting in any position excepting lying on right side. *Nausea, retching, and vomiting,* especially after food, with deathly faintness and prostration. *Thirst for cold water, little and often, and desire for apples, fruits, and acids generally.*

**Abdomen.**—Spasmodic colic, much flatus. Pressure in abdomen especially on stooping forward. *Cholera morbus.* Diarrhea in eruptive diseases.

**Respiratory Organs.**—Hoarseness. *Great rattling of mucus, but very little is expectorated.* Velvety feeling in chest. Burning sensation in chest which ascends to throat. Rapid, short, difficult breathing; seems as if he would suffocate; must sit up. *Coughing and gaping consecutively.* Bronchial tubes overloaded with mucus. Cough excited by eating, with pain in chest and larynx. *Edema and impending paralysis of lungs.* Much palpitation, with uncomfortable hot feeling. Pulse rapid, weak, trembling.
Back.—*Violent pain in sacro-lumbar region.* Slightest effort to move may cause retching and cold, clammy sweat. Sensation of heavy weight at the coccyx. Twitching of muscles; limbs tremulous.

Skin.—*Pustular eruption,* leaving a bluish-red mark. Small-pox. Warts.

Sleep.—*Great drowsiness.* On falling asleep electric-like shocks. Irresistible inclination to sleep with nearly all complaints.

Modalities.—*Worse* in evening; from lying down at night; from warmth; in damp cold weather. *Better* from sitting erect; from eructation and expectoration.

Relationship.—Antidotes: *Puls.; Sepia.*

Compare: *Kali. sulph.; Ipecac.*

Dose.—Second and sixth trituration. The lower potency sometimes aggravates.

ANTIPYRINE.

*(Phenazone—a Coal Tar Derivative.)*

Mind.—Fear of becoming insane; nervous anxiety; hallucinations of sight and hearing.

Head.—Throbbing headache; *sensation of constriction.* Flashes of heat. *Headache under ears with earache.*

Eyes.—Puffiness of lids. Conjunctiva red and oedematous, with lachrymation. Red spots. *[Apis.]*
Ears.—Pains and buzzing; itch. **Tinnitus**.

Face.—Edema and puffiness. Red and swollen.

Stomach.—Nausea and vomiting; burning and pain.

Urine.—Diminished.

Female.—Itching and burning in vagina. Menses suppressed. Watery leucorrhoea.

Heart.—Faintness, with sensation of stoppage of heart. Throbbing throughout the body. Rapid, weak, irregular pulse.

Skin.—**Erythema**, eczema, pemphigus. **Intense pruritus.** **Urticaria.** Angioneurotic œdema.

Dose.—Second decimal potency.

**APIS MELLIFICA.**

(The Honey-Bee.)

The very characteristic effects of the sting of the bee furnish unerring indications for its employment
in disease. Swelling or puffing up of various parts, oedema, red rosy hue, stinging pains, soreness, intolerance of heat, and afternoon aggravation are some of the general guiding symptoms. Erysipelatous inflammations, dropstail effusions and anasarca, acute inflammation of kidneys, and other parenchymatous tissues are characteristic pathological states corresponding to Apis. Extreme sensitivity to touch and general soreness is marked. Constricted sensations. Prophylactic against diphtheria, here use thirtieth potency.

Head.—Whole brain feels very tired. Vertigo; worse on lying or closing eyes. Heat, throbbing, distensive pains, better on pressure, and worse on motion. Sudden stabbing pains. Dull, heavy sensation in occiput, as from a blow, extending to neck (better on pressure), accompanied with sexual excitement. Bores head into pillow and screams out.

Ears.—External ear red, inflamed, sore; stinging pains.

Nose.—Coldness of tip of nose. *Red, swollen, inflamed, with sharp pains.

Face.—Swollen, red, with piercing pain. Waxy pale oedematous. *[Acet. ac.]*

Urine.— Burning and soreness when urinating. Suppressed, loaded with casts; frequent and involuntary; stinging pain and strangury; *scanty, high colored*. Incontinence. *Last drops burn and smart.*

Female.—Edema of labia; relieved by cold
water. Soreness and stinging pains; worse in right ovary. Menses suppressed, with cerebral and head symptoms, especially in young girls. Dysmenorrhea, with severe ovarian pains. Metrorrhagia profuse, with heavy abdomen, faintness, stinging pains. Sense of tightness. Bearing-down, as if menses were to appear. Ovarian tumors, metritis with stinging pains.

Respiratory.—Hoarseness; dyspnœa, breathing hurried and difficult. Ædema of larynx. Feels as if he could not draw another breath. Suffocation; short, dry cough, supra-ternal. Hydrothorax.

Skin.—Swellings after bites; sore, sensitive. Stinging. Erysipelas, with sensitiveness and swelling, rosy hue. Urticaria. Carbuncles, with burning, stinging pain. [Ars.; Anthrac.] Sudden puffing up of whole body.

Sleep.—Very drowsy. Dreams full of care and toil. Screams and sudden startings during sleep.

Fever.—Afternoon chill, with thirst; worse on motion and heat. External heat, with smothering feeling. Sweat slight, with sleepiness. Perspiration breaks out and dries up frequently. Sleeps after the fever paroxysm.

Modalities.—Worse warmth in any form; touch; pressure; late in afternoon; after sleeping; in closed and heated rooms. Better in open air, uncovering, and cold bathing.

Relationship.—Complementary: Natr. mur. In- mical: Rhus.

**Dose.**—Third to thirtieth potency. Sometimes action is slow, so several days elapse before it is seen to act, and then urine is increased.

**APiUM GRAVEOLENS.**

*(Common Celery.)*

Obstinate retention of urine, throbbing headaches and heartburn have been produced by celery.

**Head.**—Feeling of fidgets; cannot sleep from thinking. Headache; better eating. Eyeballs feel sunken in.

**Respiratory.**—Tickling, dry cough. *Intense constriction over sternum*, with drawing feeling through to back on lying down.

**Skin.**—Itching blotches; burning, creeping sensation. Profuse discharge from granulating ulcers. Urticaria with shuddering.

**Sleep.**—Unrefreshed; sleepless.

**Dose.**—First to third potency.

**APOCYNUM ANDROSAEMIFOLiUM.**

*(Dogbane.)*

The rheumatic symptoms of this remedy promise most curative results. Its pains are of a wandering nature, with much stiffness and drawing. Everything smells and tastes like honey. Worms.

**Extremities.**—Pain in all joints. Pain in toes and soles. Profuse sweat, with much heat in soles.
Tingling pain in toes. Cramps in soles. Violent heat in soles. [Sulph.]

Dose.—Tincture and first potency.

**APOCYNUM CANNABINUM.**

(Indian Hemp.)

This is one of our most efficient remedies in dropsies and urinary troubles, especially suppression and strangury. In the digestive complaints of Bright's disease, with the nausea, vomiting, drowsiness, difficult breathing, it will be found of frequent service. The dropsy is characterized by great thirst and gastric irritability. Arhythmia. Mitral and tricuspid regurgitation.

Mind.—Bewildered. Low spirited.

Nose.—Long-continued sneezing. Snuffles of children. [Sambucus.]

Stool.—Watery, flatulent, with soreness in anus; worse after eating.

Urine.—Bladder much distended. Turbid, hot urine, with thick mucus and burning in urethra after urinating. Little expulsive power. Dribbling. Strangury.

Female.—Amenorrhoea, with bloating; metrorrhagia with nausea; fainting, vital depression. Hæmorrhages at change of life.

Heart.—Tricuspid regurgitation; rapid and feeble cardiac action, low arterial tension, pulsating jugulars, general cyanosis and general dropsy.

Sleep.—Great restlessness and little sleep.

Relationship.—Compare: *Strophanthus* (extreme cardiac depression with intense gastric disturbance; dropsy). *Aralia hispida* (Useful in urinary disorders, especially with dropsy). *Apis; Arsenic; Digital.; Helleb.*

Dose.—Tincture (ten drops three times daily) and Distilled Extract.

**APOMORPHIA.**

*(Alkaloid from Decomposition of Morphine by Hydrochloric Acid.)*

The chief power of this drug lies in the speedy and effective vomiting that it produces, which becomes a strong guiding symptom to its homoeopathic use. Pneumonia with vomiting.

Head and Stomach.—Vertigo. Dilated pupils. *Nausea and vomiting.* Violent inclination to vomit. Hot feeling all over the body, especially head. Empty retching and headache; heartburn; pain between shoulder-blades. Reflex vomiting—pregnancy. *Seasickness.*

Extra-Homoeopathic Uses.—The hypodermic injection of one-sixteenth of a grain will cause full emesis within five to fifteen minutes in an adult. Do not use in opium poisoning. *Apomorph* hypodermically, one thirtieth grain or less, acts as a safe
and sure hypnotic. Acts well even in delirium. Sleep comes on in half an hour.

Dose.—Third to sixth potency.

**AQUILEGIA.**

(Columbine.)

Female.—Menses scanty, with dull, painful, nightly increasing pressure in the right lumbar region.

**ARALIA RACEMOSA.**

(American Spikenard.)

This is a remedy for asthmatic conditions, with cough aggravated on lying down. Extreme sensitiveness to draughts. Diarrhoea, prolapse of rectum.

Respiratory.—Asthma on lying down at night, with spasmodic cough; worse after first sleep, with tickling in throat. Constriction of chest; feels as if a foreign body were in throat. Obstruction worse in spring. Hay-fever; frequent sneezing. The least current of air causes sneezing, with copious watery, excoriating nasal discharge of salty acrid taste.

Female.—Menses suppressed; leucorrhoea foul-smelling, acrid, with pressing-down pain. Lochia suppressed, with tympanites.

Relationship.—Compare: Pecten—Scallop (humid asthma). Ars. iod.; Naphthaline; Cepa; Rosa; Sabad.; Sinapis.

Dose.—Tincture, to third potency.
ARANEA.

(Papal-Cross Spider.)

All spider poisons powerfully affect the nervous system. (See Tarantula, Mygale, etc.)

All symptoms of Aranea are characterized by periodicity, and coldness, and great susceptibility to dampness. It is the remedy for the constitution favorable to malarial poisoning, where every damp day or place favors chilliness. Patient feels cold to the very bones. Coldness not relieved by anything. Feeling as if parts were enlarged and heavier. Wakes up at night with hands feeling twice their natural size. Spleen swollen.

Head.—Pain in right trigeminal nerve from periphery inwards. Confusion; better by smoking in open air. Heat and flickering in eyes; worse in damp weather. Sudden violent pain in teeth at night immediately after lying down.

Female.—Menses too early, too copious. Distention of abdomen. Lumbo-abdominal neuralgia.

Chest.—Pain in intercostal nerves from nerve endings to spine. Bright red hæmorrhage from lungs. [Millefol.; Ferr. phos.]

Extremities.—Bone-pains in extremities. Pain in os calcis. Sensation of swelling, and of parts going to sleep.

Sleep.—Restless and waking, as if hands and forearms were swollen and heavy.

Fever.—Coldness, with pain in long bones, and feeling of stone in abdomen at the same hour daily. Chilly day and night; always worse during rain.

Relationship.—Tela aranearum (Spider's web).
(Sleeplessness, increased muscular energy. Excitement and nervous agitation in febrile states. Dry harassing coughs; periodic headaches with extreme nervous erethism. Obstinate intermittents. Use high.)

_Aranea Scinencia_ (constant twitching of under eyelids. Sleepiness. Worse in warm room).

_Heloderma; Cedron; Arsenic._

_Modalities._—Worse damp weather; late in afternoon, and at midnight. Better smoking tobacco.

_Dose._—Sixth to thirtieth potency.

**ARUBUTUS ANDRACHNE.**

_(Strawberry-Tree.)_

A remedy for eczema associated with gouty and rheumatic symptoms. Arthritis; especially larger joints. Urine rendered more clear.

_Relationship._—_Ledum; Uva ursi; Bryonia._

_Dose._—Tincture, to third potency.

**ARGENTUM METALLICUM.**

_(Silver.)_

The chief action is centered on the articulation and their component elements, bones, cartilages, and ligaments. The larynx is also a special center for this drug.

_Head._—Dull paroxysmal neuralgia over left side, gradually increasing and ceasing suddenly. Scalp very tender to touch. Vertigo, with intoxicated feeling, on looking at running water. _Head feels empty, hollow._ Eyelids red and thick. Exhausting _coryza_, with sneezing. Pain in facial bones.
Throat.—Raw, hawking gray, jelly-like mucus, and throat sore on coughing. Profuse and easy morning expectoration.

Extremities.—Rheumatic affections of joints, especially elbow and knee. Legs weak and trembling. Involuntary contractions of fingers, partial paralysis of forearm; writer's cramp. Swelling of ankles.

Male.—Crushed pain in testicles. Seminal emissions, without sexual excitement.

Modalities.—Worse from touch. Better in open air; cough at night when lying down (opposite Hyoscy. son.).

Relationship.—Antidotes: Mercur.; Puls.
Compare: Selen.; Alum.; Platina; Stannum; Ampelopsis. (Chronic hoarseness in scrofulous patients.)

Dose.—Third to sixth trituration.
ARGENTUM NITRICUM.

(Nitrate of Silver.)

In this drug the neurotic effects are very marked, many brain and spinal symptoms presenting themselves which give certain indications for its homoeopathic employment. It produces violent inflammation of the throat, and a marked gastro-enteritis. Very characteristic is the great desire for sweets, the splinter-like pains, and free muco-purulent discharge in the inflamed and ulcerated mucous membranes. Sensation as if a part were expanding and other errors of perception are characteristic. Withered up and dried constitutions present a favorable field for its action. Pains increase and decrease gradually. Flatulent state and prematurely aged look.

Mind.—Thinks his understanding will and must fail. Nervous; impulse to jump out of window. Faintish and tremulous. Melancholic; apprehensive of serious disease. *Time passes slowly.* [Cann. ind.] Memory weak. Errors of perception. Impulsive; wants to do things in a hurry. [Lilium.]

Head.—Sense of expansion. Brain-fag, with general debility and trembling. Headache from mental exertion, from dancing. Vertigo, with buzzing in ears. Aching in frontal eminence, with enlarged feeling in corresponding eye. Boring pain; better on tight bandaging or pressure. Itching of scalp. Hemicrania; bones of head feel as if separated. Diseases from unusual or long-continued mental exertion.

Eyes.—Inner canthi *swollen and red.* Spots be-

**Nose.**—Loss of smell. Itching. Ulcers in septum. Coryza, with chilliness, lachrymation, and headache.

**Face.**—Sunken, old, pale, and bluish. Old man’s look; tight drawing of skin over bones.

**Mouth.**—Gums tender and bleed easily. Tongue has prominent papillae; tip is red and painful. Pain in sound teeth. [Caust.]

**Throat.**—Much *thick mucus* in throat and mouth causes hawking. Raw, rough, and sore. *Sensation of a splinter in throat* on swallowing. Dark redness of throat. Catarrh of smokers, with tickling as of hair in throat.

**Stomach.**—*Belching* accompanies most gastric ailments. Nausea, retching, vomiting of glairy mucus. *Flatulence; painful swelling of pit*. Gnawing, ulcerating pain; burning and constriction. Ineffec-

**Abdomen.**—Colic, with flatulent distention. Stitchy ulcerative pain on left side of stomach below short ribs.
Stool.—Watery, noisy, flatulent: green, like chopped spinach, with shreedy mucus and enormous distention of abdomen; very offensive. Diarrhoea immediately after eating or drinking. Fluids go right through him, after sweets. After any emotion with flatulence. Itching of anus.

Urine.—Urine passes unconsciously day and night. Urethra inflamed, with pain, burning, itching; pain as from a splinter. Urine scanty and dark. Emission of a few more drops after having finished. Divided stream. Early stage of gonorrhoea; profuse discharge and terrible cutting pains; bloody urine.

Female.—Orgasms at night. Nervous ereethism at change of life. Leucorrhœa profuse, with erosion of cervix; bleeding easily. Uterine hæmorrhage, two weeks after menses.

Respiratory.—*High notes cause cough.* Chronic hoarseness. Suffocative cough, as if from a hair in throat. Dyspnœa. Chest feels as if a bar were around it. Palpitation, pulse irregular and intermittent; worse lying on right side. *[Alumen.]* Painful spots in chest. Many people in a room seem to take away his breath.

Back.—Much pain. Spine sensitive, with nocturnal pains. *[Oxal. acid.]*

Extremities.—Cannot walk with eyes closed. Trembling, with general debility. Paralysis, with mental and abdominal symptoms. Rigidity of calves. Debility in calves especially. Walks and stands unsteadily, especially when unobserved.
Skin.—Brown, tense, and hard. Drawing in skin, as from a spider-web, or dried albuminous substance, withered and dried up.

Sleep.—Sleepless, from fancies before his imagination; horrible dreams of snakes, and of sexual gratification. Drowsy stupor.

Fever.—Chills, with nausea. Chilly when uncovered, yet feels smothered if wrapped up.

Modalities.—Worse warmth in any form; at night; from cold food; sweets; after eating; at menstrual period. Better from eructation; fresh air, cold; pressure.

Relationship.—Antidote: Nat. mur.

Compare: Ars.; Merc.; Phos.; Pulsat.; Argent. Cyanatum (angina pectoris, asthma, spasm of oesophagus); Argent. iodat. (throat disorders, hoarseness, glands affected). Protargol (gonorrhoea after acute stage 2% solution; syphilitic mucous patches, chancre and chancreoids, 10% solution applied twice a day; ophthalmia neonatorum, 2 drops of 10% solution).

Aristolochia Serpentaria (Flatulence and dyspepsia. Distension and cutting pains in abdomen.)

Dose.—Third to thirtieth potency.

ARNICA.

(Leopard’s Bane.)

Produces conditions upon the system quite similar to those resulting from injuries, falls, blows, contusions. Tinnitus aurium. Putrid phenomena.

It is especially suited to cases when any injury, however remote, seems to have caused the present trouble. After traumatic injuries, overuse of any

**Mind.**—Fears touch, or the approach of any one. Unconscious; when spoken to answers correctly, but relapses. Indifference; inability to perform continuous active work; morose, delirious. Nervous; cannot bear pain; whole body oversensitive. Says there is nothing the matter with him. Wants to be let alone. Agoraphobia (fear of space).

**Head.**—Hot, with cold body; confused; sensitiveness of brain, with sharp, pinching pains. Scalp feels contracted. Cold spot on forehead.

**Ears.**—Noises in ear caused by rush of blood to the head. Shooting in and behind ears. Blood from ears. Dullness of hearing after concussions.

**Eyes.**—Diploopia from traumatism, muscular paralysis, retinal hæmorrhage. Bruised, sore feeling in eyes after close work.

**Nose.**—Bleeding after every fit of coughing, dark fluid blood. Nose feels sore; cold.

**Mouth.**—Fetid breath. Dry and thirsty. Bitter taste. [Colocy.] Taste as from bad eggs.

**Face.**—Sunken; very red. Heat in lips. Herpes in face.

**Stomach.**—Vomiting of blood. Pain in stomach during eating. Repletion with loathing. Oppressive gases pass upward and downward. Pressure as
from a stone. *Feeling as if stomach were pressing against spine.*

**Stool.**—Offensive, brown, bloody, putrid, involuntary. Looks like brown yeast. Must lie down after every stool. Diarrhoea of consumption.

**Urine.**—Retained from overexertion. Dark, brick-red sediment.

**Female.**—Bruised parts after labor. Violent after-pains. Uterine haemorrhage from mechanical injury after coition. Sore nipples. Mastitis from injury. Feeling as if foetus were lying crosswise.

**Abdomen.**—Stitches under false ribs. Distended; offensive flatus. Sharp thrusts through abdomen.

**Extremities.**—Gout. Great fear of being touched or approached. Pain in back and limbs, as if bruised or beaten. Sprained and dislocated feeling. Soreness after overexertion. Everything on which he lies seems too hard. Deathly coldness of forearm. Cannot walk erect, on account of bruised pain in pelvic region. Rheumatism begins low down and works up. [Ledum.]

**Skin.**—Itching, burning eruption of small pimples. *Crops of small boils.* [Ichthyol.; Silica.] Ecchymosis. Bed sores. [Bovinine locally.]

**Sleep.**—Comatose drowsiness; awakens with hot
head; dreams of death, mutilated bodies, anxious and terrible. Horrors in the night.

Fever.—Shivering over whole body. Heat and redness of head, with coolness of rest of body. Internal heat; feet and hands cold. Nightly sour sweats.

Modalities.—Worse, least touch; motion; rest, wine, damp cold. Better, lying down, or with head low.

Relationship.—Antidotes: Camph.; Ipec.
Compare: Agrostis (externally after injuries): Acon.; Bapt.; Bellis; Hamam.; Rhus

Dose.—First to thirtieth potency. Locally, the tincture, but should never be applied hot or at all when abrasions or cuts are present.

ARSENICUM ALBUM.
(Arsenious Acid.)

A profoundly acting remedy on every organ and tissue. Its clear-cut characteristic symptoms and correspondence to many severe types of disease make its homoeopathic employment constant and certain. Its general symptoms often alone lead to its successful application. Among these the all-prevailing debility, exhaustion, and restless, with nightly aggravation, are most important. Great exhaustion after the slightest exertion. This, with the peculiar irritability of fiber, gives the characteristic irritable weakness. Burning pains. Unquenchable thirst. Seaside complaints [Nat. mur. Aqua Mar.-

Mind.—Great anguish and restlessness. Changes place continually. Fears, of death, of being left

Head.—Periodical burning pains, with restlessness; worse from cold; with cold skin. Hemicrania, with icy feeling of scalp and great weakness. Sensitive head in open air. Delirium tremens; cursing and raving; vicious. Head is in constant motion. Scalp itches intolerably; circular patches of bare spots; rough, dirty, sensitive, and covered with dry scales; nightly burning and itching; dandruff.

Eyes.—Burning in eyes, with acrid lachrymation. Lids red, ulcerated, scabby, scaly, granulated. Óedema around eyes. External inflammation, with extreme painfulness; burning, hot, and excoriating lachrymation. Corneal ulceration. Intense photophobia; better external warmth. Ciliary neuralgia, with fine burning pains.

Ears.—Skin within raw and burning. Thin, excoriating, offensive otorrhoea. Roaring in ears during a paroxysm of pain.

Face.—Swollen, pale, yellow, cachetic, sunken, cold, and covered with sweat. [Acetic ac.] Expression of agony. Tearing, needle-like pains; burning. Lips black, livid.

Mouth.—Unhealthy, easily-bleeding gums. Ulceration of mouth, with dryness and burning heat. Tongue dry; stitching and burning pain in tongue.
Bloody saliva. Neuralgia of teeth; feel long and very sore; worse after midnight; better warmth.

**Throat.**—Swollen, oedematous, constricted, burning, unable to swallow. Diphtheritic membrane, looks dry and wrinkled.

**Stomach.**—*Cannot bear the sight or smell of food.* Great thirst; drinks much, but little at a time. Nausea, retching, vomiting, after eating or drinking. Anxiety in pit of stomach. *Burning pain.* Craves acids and coffee. Heartburn; gulping up of acid and bitter substances which seem to excoriate the throat. Long-lasting eructations. Vomiting of blood, bile, green mucus, or brown-black mixed with blood. Stomach extremely irritable; seems raw, as if torn. Gastralgia from slightest food or drink. Dyspepsia from vinegar, acids, ice-cream, ice-water, tobacco. Terrible fear and dyspnœa, with gastralgia; also faintness, icy coldness, great exhaustion. Malignant symptoms. Everything swallowed seems to lodge in the oesophagus, which seems as if closed and nothing would pass. *Ill effects of vegetable diet, melons, and watery fruits generally.*

**Abdomen.**—Gnawing, burning pains like coals of fire; relieved by heat. *Liver and spleen enlarged and painful.* Ascites and anasarca. Abdomen swollen and painful. Pain as from a wound in abdomen on coughing.

**Rectum.**—Painful, spasmodic protrusion of rectum. Tenesmus. *Burning pain and pressure in rectum and anus.*

**Stool.**—Small, offensive, dark, with much prostration. Worse at night, and after eating and drinking; from chilling stomach, alcoholic abuse, spoiled meat. Dysentery, dark, bloody, very offensive. Cholera,
with intense agony, prostration, and burning thirst. Body cold as ice. [Verat.] Hæmorrhoids burn like fire; relieved by heat. Skin excoriated about anus.

Urine.—Scanty, burning, involuntary. Bladder as if paralyzed. Albuminous. Epithelial cells; cylindrical clots of fibrin and globules of pus and blood. After urinating, feeling of weakness in abdomen.

Female.—Menses too profuse and too soon. Burning in ovarian region. Leucorrhœa, acrid, burning, offensive, thin. Pain as from red-hot wires; worse least exertion; causes great fatigue; better in warm room. Menorrhagia.

Skin.—Itching, burning, swellings; oedema, eruption, papular, dry, rough, scaly; worse cold and

Sleep.—Disturbed, anxious, restless. Suffocative fits during sleep. Sleeps with hands over head. Dreams are full of care and fear.

Modalities.—Worse after midnight; from cold, cold drinks, or food. Right side. Better from heat; from head elevated; warm drinks.

Relationship.—Ars. should be thought of in ailments from alcoholism, ptomaine poisoning, stings, dissecting wounds, chewing tobacco; ill effects from decayed food or animal matter; malaria; in complaints that return annually.

Complementary: Carbo; Phos.

Antidotes: Carbo; China; Hepar; Nux. Chemical Antidotes: Charcoal; Hydrated peroxide of Iron; Lime water.

Compare: Iod.; Phosph.; China; Verat. alb.; Carbo; Kali phos. Epilobium (intractable diarrhoea of typhoid). Hoang Nan (Cancer).

Dose.—Third to thirtieth potency. The very highest potencies have often yielded brilliant results.
ARSENICUM BROMATUM.

(Bromide of Arsenic.)

Has proven a great anti-psoric and anti-syphilitic remedy. Herpetic eruptions, syphilitic excrescences, glandular tumors and indurations, carcinoma, locomotor ataxia, and obstinate intermittents, and diabetes are all greatly influenced by this preparation.

Face.—Acne rosacea, with violet papules on nose; worse in the spring.

Dose.—Tincture, two to four drops daily, in water.

ARSENICUM HYDROGENISATUM.

(Arseniureted Hydrogen.)

Head.—Violent vertigo on going upstairs. Eyes sunken; broad blue circles around. Violent sneezing. Nose cold. Must be wrapped up with warm cloths.

Dose.—Third potency.

ARSENICUM IODATUM.

(Iodide of Arsenic.)

Is to be preferred for persistently irritating, corrosive discharges. The discharge irritates the membrane from which it flows and over which it flows. The discharge may be fetid, watery, and the mucous
membrane is always red, angry, swollen; itches and burns. Influenza, hay fever, old nasal catarrhs, and catarrh of middle ear. Swelling of tissues within the nose. Hypertrophied condition of eustachian tube and deafness. Senile heart, myocarditis and fatty degeneration. Pulse shotty. Chronic aortitis.

It seems probable that in Arsenic Iodine we have a remedy most closely allied to manifestations of tuberculosis. It will be indicated by a profound prostration, rapid, irritable pulse, recurring fever and sweats, emaciation; tendency to diarrhoea, especially in non-tubercular phthisis. Chronic pneumonia, with abscess in lung. Hectic; debility; night sweats.

This remedy is also to be remembered in phthisis with hoarse racking cough and profuse expectoration of a purulent nature and attended with cardiac weakness, emaciation, and general debility; in chronic watery diarrhoea in phthisical subjects; in cases of emaciation with good appetite; in amenorrhoea, with anaemic palpitation and dyspnœa. In chronic pneumonia, when abscess is about to form. Great emaciation. Threatened pyæmia. [Pyrog.; Methyl. blue.]

Head.—Vertigo, with tremulous feeling, especially in aged.

Nose.—Thin, watery, irritating, excoriating discharge from anterior and posterior nares; sneezing. Hay-fever. Chronic nasal catarrh; swollen nose; profuse, thick, yellow discharge; ulcers; membrane sore and excoriated.

Relationship.—Compare: Lolium; Cepa; Sabad.
Dose.—Third to sixth potency.

ASAFOETIDA.
(Gum of the Stinkasand.)
The flatulence and spasmodic contraction of stomach and oesophagus with reverse peristalsis are the most marked symptoms. In its selection, its relation to the hysterical and hypochondriacal patients must be borne in mind. Besides these superficial symptoms, it has been found to affect favorably deep ulcerations, caries of bones, especially in the syphilitic organism; here the extreme sensitiveness and terrible throbbing nightly pains guiding to its use.

Head.—Irritable; complains of her troubles; sensitive. Boring above eyebrows. Pressive pain from within outward.

Eyes.—Orbital neuralgia; better, pressure and rest. Iritis and intraocular inflammations, with boring, throbbing pains at night. Stitches under left frontal eminence. Boring pains in and around eyes. Syphilitic iritis. Superficial corneal ulcer with digging pains; worse at night.

Ears.—Offensive otorrhoea, with boring pains in mastoid bone. Offensive purulent discharge.

Nose.—Syphilitic ozaena, with very offensive purulent discharge. Caries of nasal bones. [Aurum.]

Throat.—Globus hystericus. Ball rises in throat. Sensation as if peristalsis motions were reversed, and oesophagus were driven from stomach to throat.

Stomach.—Great difficulty in bringing up wind. Flatulence and regurgitation of liquid. Hysterical flatulence. Great distention. Pulsation in pit of
*stomach.* Violent gastralgia; cutting and burning in stomach and region of diaphragm. Gurgling and rolling of wind, which escapes afterward with *food* and difficult eructation.

**Female.**—Mamme turgid with *milk* in the unim-pregnated. Deficient milk with oversensitiveness.

**Rectum.**—Distended, griping, with hunger. Ob-stinate constipation. Pain in perineum, as if some-thing dull pressed out. *Diarrhea*, extremely offens-ive, with *meteorismus*, and regurgitation of food.

**Chest.**—*Spasmodic tightness*, as if lungs could not be fully expanded. Palpitation more like a tremor, [*Sulph. ac.*]

**Bones.**—Darting pain and caries in bones. Pe-riosteum painful, swollen, enlarged. Ulcers affect-ing bones; thin, ichorous pus.

**Skin.**—Destructive of pliability and elasticity. Itching spots. Ulcers, with fetid ichor. Acne.

**Relationship.**—Antidotes: _Plumb.; Zinc._

Compare: _Conium; Carbo; Ars.; Condurango._

Incompatible: _Nux; Coffea._

**Modalities.**—Worse, coffee, night; cold damp weather. Left side.

**Dose.**—First to thirtieth potency.
ATHAMANTA.

(Mountain Parsley.)

Head.—Vertigo; better lying down. Ears feel stopped up. Head confused.

Stomach.—Bitter taste and saliva.

Extremities.—Hands and feet icy cold. [Camph.]

AURUM METALLICUM.

Given full play, Aurum develops in the organism, by attacking the blood, glands, and bones, conditions bearing striking resemblance to mercurial and syphilitic infections; and it is just for such deteriorations of the bodily fluids and alterations in the tissues that Aurum assumes great importance as a remedy. Like the victim of syphilis, mental states of great depression are produced by it. Hopeless, despondent, and great desire to commit suicide. Every opportunity is sought for self-destruction. Exostosis, caries, nightly bone-pains, especially cranial, nasal, and palatine. Glands swollen, in scrofulous subjects. Palpitation and congestions. Frequently indicated in secondary syphilis and effects of mercury. This use of gold as an anti-venereal and anti-scrofulous remedy is very old, but has been well-nigh forgotten by the old school until rediscovered and placed on its scientific basis by homoeopathy, and now it can never be lost again. When syphilis is implanted on the scrofulous constitution, we have one of the most intractable morbid conditions, and gold seems to be especially suited to this vile combination Ennui. Ozæna; sexual hyperæsthesia.

Mind.—Profound despondency, with thorough

**Head.**—Violent pain in head; worse at night, outward pressure. Roaring in head. Tearing through brain to forehead. Pain in bones extending to face. Congestion to head.

**Eyes.**—*Extreme photophobia.* Great soreness all about the eyes and into eyeballs. Double vision; *upper half of objects invisible.* Feel tense. Sees fiery objects. Violent pains in bones around eye. *[Asaf.]*

**Nose.**—*Ulcerated, painful,* swollen, obstructed. Inflammation of nose; caries; fetid discharge, purulent, bloody. Boring pains in nose; worse at night. *Putrid smell from nose.* Sensitive smell. *[Carbol. ac.]* Horrible odor from nose and mouth.

**Mouth.**—Foul breath in girls at puberty. Taste putrid or bitter. Ulceration of gums.

**Face.**—Tearing in zygoma. Mastoid and other facial bones inflamed.

**Throat.**—Stitches when swallowing; pain in glands. Caries of the palate.
Stomach.—Appetite and thirst increased with qualmishness. Swelling of epigastrium. Burning at stomach and hot eructations.

Abdomen.—Right hypochondrium hot and painful. Incarcerated flatus. Swelling and suppuration of inguinal glands.

Urine.—Turbid, like buttermilk, with thick sediment. Painful retention.

Rectum.—Constipation, stools hard and knotty. Nocturnal diarrhoea, with burning in rectum.

Female.—Great sensitiveness of vagina. Uterus enlarged and prolapsed. Sterility; vaginismus.

Heart.—Sensation as if the heart stopped beating for two or three seconds, immediately followed by a tumultuous rebound with sinking at the epigastrium. Palpitation. Pulse rapid, feeble, irregular. Hypertrophy.

Respiratory.—Dyspnœa at night. Frequent deep breathing; stitches in sternum.

Bones.—Destruction of bones, like secondary syphilis. Caries of the nasal, palatine, and mastoid bones.

Extremities.—All the blood seems to rush from head to lower limbs. Dropsy of lower limbs. Orgasm, as if blood were boiling in all veins. Paralytic, tearing pains in joints. Knees weak.

Sleep.—Sleepless. Sobs aloud in sleep. Frightful dreams.

Modalities.—Worse, in cold weather when getting
cold. Many complaints come on only in winter; from sunset to sunrise.

Relationship.—Compare: *Aur. ars.* (in syphilitic headaches and lupus; also in anaemia and chlorosis. It causes rapid increase of appetite.)

*Aur. brom.* (in headaches with neurasthenia, megrim, night terrors, valvular diseases.)

*Aur. mur.* (Burning, yellow, acrid leucorrhoea; heart symptoms, glandular affections; warts on tongue and genitals; sclerotic and exudative degeneration of the nervous system. Second trituration.)

*Aur. mur. Kali.* (In uterine induration and haemorrhage.)

*Aur. iod.* (Chronic pericarditis, valvular diseases, arterio-sclerosis, ozæna, lupus, osteitis, ovarian cysts, myomata uteri, are pathological lesions that offer favorable ground for the action of this powerful drug. *Senile paresis.*)

*Aur. sulph.* (Paralysis agitans, constant nodding of the head), affections of mammae (swelling, pain, cracked nipples with lancinating pains).

Also, *Asafa.* (in caries of bones of ears and nose). *Syphilin; Kali iod.; Hep.; Merc.; Mez.; Nit. ac.; Phosph.*

Antidotes: *Bell.; Cinch.; Cupr.; Merc.*

Dose.—Third to thirtieth potency.

**AURUM MURIATICUM NATRONATUM.**

*(Sodium Chloro Aurate.)*

This remedy has a most pronounced effect on the female organs, and most of its clinical application has been based thereon. *Psoriasis syphilitica.*

Tongue.—Burning, stitches; and *induration.*

Dose.—Second and third trituration.

**AVENA SATIVA.**

(Common Oat.)

Mind.—Inability to keep mind on any one subject. Sleeplessness, especially of alcoholics.

Dose.—Tincture two to twenty drop doses.

**AZADIRACHTA INDICA.**

(Margosa Bark.)

An afternoon fever and rheumatic pains in various parts are caused by this remedy. Pain in sternum and ribs, in back and shoulders and extremities; heat and prickling and aching in hands, especially palms and fingers, also toes.

Fever.—Slight chill, afternoon fever, glowing heat in face, hands, and feet, copious sweat on upper part of body.

**BACCILLINUM.**

**A Maceration of a Typical Tuberculous Lung.**

Has been employed successfully in the treatment of tuberculosis, its good effects seen in the change of the sputum, which becomes decreased and more
aerated and less purulent. Many forms of chronic non-tubercular disease are influenced favorably by Bacillinum, especially when bronchorrhœa and dyspnœa are present the patient expectorates less.

Bacillinum is especially indicated for lungs of old people, with chronic catarrhal condition and enfeebled pulmonary circulation, attacks of suffocation at night with difficult cough. Tubercular meningitis.

Skin.—Ringworm of the scalp; pityriasis. Eczema of eyelids.

Modalities.—Worse night and early morning; cold air.

Relationship.—Antimon. iod.; Lach.; Arsenic. iod.; Myosotis.

Complementary: Calc. phos.; Kali carb.

Compare: Tuberculina; Psorinum. Bacillin. testium (acts especially on lower half of the body).

Dose.—The dose is important. Should not be given below the thirtieth, and not repeated frequently.

BADIAGA.

(Fresh-water Sponge.)

Soreness of muscles and integuments; worse motion and friction of clothes with sensitiveness to cold. Glands swollen. General paresis.

Head.—Sensation of enlargement and fullness. Pain in forehead and temple, extending to eyeballs, worse in afternoon. Blueness under eyes. Dan-
druff; scalp sore. *Coryza*, sneezing and watery discharge with asthmatic breathing and suffocative cough. Influenza. [*Nat. sulph.; Cepa; Ipec.*] Slight sounds are greatly accentuated. Intermittent sore pain in eyeball, coming on at 3 P.M.

**Respiratory.**—Cough; worse in afternoon, better in warm room. The *mucus flies out of mouth and nostrils*. Whooping-cough with thick yellow expectoration; flies out. Hay-fever with asthmatic breathing. Pleuritic stitches in chest, neck, and back.

**Female.**—Metrorrhagia; worse at night, with feeling of enlargement of head. [*Arg.*] Cancer of breast. [*Asterias; Con.; Carbo an.; Plumb. Iod.*]

**Relationship.**—Compare: *Spongia; Kali hyd.; Phytol; Conium.*

Complementary: *Sulph.; Merc.; Iod.*

**Dose.**—First to sixth attenuation.

**BALSAMUM PERUVIANUM.**

(Peruvian Balsam.)

Useful in bronchial catarrh with copious purulent expectoration.

**Nose.**—Profuse, thick discharge. Eczema, with ulceration. Chronic fetid nasal catarrh.

**Stomach.**—Vomiting of food and mucus.

Urine.—Scanty; much mucous sediment. Catarrh of bladder. [Chimaph.]

Dose.—First attenuation.

Extra homoeopathic uses locally:—As a stimulant to raw surfaces in indolent ulcers, scabies, cracked nipples, rhagades, itch. Internally, as an expectorant in chronic bronchitis. Dose 5 to 15 M., made into an emulsion with mucilage or yolk of egg.

BAPTISIA.

(Wild Indigo.)

The symptoms of this drug are of an asthenic type, simulating low fevers, septic conditions of the blood, malarial poisoning, and extreme prostration. Indescribable sick feeling. Great muscular soreness and putrid phenomena always are present. All the secretions are offensive—breath, stool, urine, sweat, etc. Epidemic influenza.

Mind.—Wild, wandering feeling. Inability to think. Brain-fag. Ideas confused. Thinks he is broken or double, and tosses about the bed trying to get pieces together. [Cajeput.] Delirium, wandering, muttering. Perfect indifference. Falls asleep while being spoken to. Melancholia, with stupor.

Head.—Vertigo; pressure at root of nose. Skin of forehead feels tight; seems drawn to back of head. Feels too large, heavy, numb. Soreness of eyeballs. Brain feels sore. Stupor; falls asleep while spoken to. Early deafness in typhoid conditions.

Mouth.—Taste flat, bitter. Teeth and gums sore, ulcerated. *Breath fetid. Tongue feels burned; yellowish-brown; edges red and shining. Dry and brown in center, with dry and glistening edges; surface cracked and sore. Can swallow liquids only; least solid food gags.*

Female.—Threatened miscarriage from mental depression, shock, watching, low fevers. Menses too early, too profuse. Lochia acrid, fetid. Puerperal fever. [Ecchin.; Pyrog.]

Respiratory.—Lungs feel compressed, breathing difficult. Fears going to sleep on account of nightmare and sense of suffocation. Constriction of chest.

_Relationship._—Compare: _Rhus_; _Muriat. acid_; _Arsenic_; _Bryon_; _Arnica_; _Echinac_; _Bapt. leucantha_.

_Baptisia confusa._ (Pain in right jaw and oppression in left hypochondrium, producing dyspnœa and necessity to assume erect position.)

_Dose._—Tincture, to twelfth attenuation.

BAROSMA.

_(Buchu._)

Marked specific effects on genito-urinary system; _muco-purulent discharges_. Irritable bladder, with vesical catarrh; prostatic disorders. Gravel. Leucorrhœa.

_Relationship._—Compare: _ Copaiva_; _Thuja_; _Populus._

_Dose._—Tincture or tea from leaves.
BARYTA ACETICA.

(Acetate of Baryta.)

Mind.—Forgetful; wavering long between opposite resolutions.

Face.—Feeling of cobweb in face.

Extremities.—Drawing pain down whole left leg. Crawling, with burning stitches. Paralysis.

Dose.—Second and third trituration.

BARYTA CARB.

(Carbonate of Baryta.)

This remedy brings friendly aid to scrofulous children, especially if they are backward mentally and physically, are dwarfish, do not grow and develop, have scrofulous ophthalmia, swollen abdomen, take cold easily, and then always have swollen tonsils. Persons subject to quinsy which is prone to suppurate; gums bleed easily. Diseases of old men when degenerative changes begin; who have hypertrophied prostate or indurated testes, very sensitive to cold, offensive foot-sweats, very weak and weary, must sit or lie down or lean on something. Very averse to meeting strangers. Catarrh of posterior nares, with frequent epistaxis. Often useful in the dyspepsias of the young who have masturbated and who suffer from seminal emissions together with cardiac irritability and palpitation. Affects glandular structures, and useful in general degenerative changes, especially in coats of arteries, aneurism, and senility. Arterial fibrosis. Blood-vessels soften
and degenerate, become distended, and aneurisms. ruptures, and apoplexies result.

Head.—Vertigo; stitches when standing in the sun extending through head. Brain feels as if loose. Hair falls out. Confusion. Wens.

Eyes.—Alternate dilatation and contraction of pupils. Photophobia. Gauze before eyes. Catarracts. [Calc.; Phos.; Sil.]

Smarting pain when swallowing; worse empty swallowing. Feeling of a plug in pharynx. Can only swallow liquids. Spasm of œsophagus as soon as food enters œsopha-
gus, causes gagging and choking. [Merc. cor.; Graphit.]

**Stomach.**—Waterbrash, hiccough, and eructation, which relieves pressure as of a stone. Hungry, but refuses food. Pain and weight immediately after a meal, with epigastric tenderness. [Kali carb.] Worse after warm food.

**Abdomen.**—*Hard and tense, distended.* Colicky. Enlarged mesenteric glands. Pain in abdomen swallowing food. Habitual colic, with hunger, but food is refused.

**Urinary.**—Every time patient urinates, his piles come down. Urging to urinate. Burning in urethra on urinating.

**Male.**—Diminished desire and premature impotence. Enlarged prostate. [Thuja.; Arg. nit.]

**Female.**—Before menses, pain in stomach and small of back. Menses scanty.

**Respiratory.**—Dry, suffocative cough, especially in old people. [Senega.] Larynx feels as if smoke were inhaled. Chronic aphonia. Stitches in chest; worse, inspiration. Palpitation and distress in region of heart. Aneurism. [Lycop.]

**Extremities.**—Pain in axillary glands. Cold, clammy feet. [Calc.] Fetid foot-sweats. Numbness of limbs. Numb feeling from knees to scrotum; disappears when sitting down. Toes and soles sore;
soles painful when walking. Pain in joints; burning pains in lower limbs.

Sleep.—Talking in sleep; awakens frequently; feels too hot. Twitching during sleep.

Modalities.—Worse, while thinking of symptoms; from washing; lying on painful side. Better, walking in open air.

Relationship.—Compare: Silica; Psorin. Incompatible: Calc.

Dose.—Third to thirtieth potency, the latter to remove the predisposition to quinsy.

BARYTA IODATA.

(Iodide of Baryta.)

Acts on the lymphatic system, increased leucocytosis. Quinsy. Indurated glands, especially tonsils. Strumous ophthalmia, with tumefaction of cervical glands and stunted growth.

Relationship.—Compare: Acon. lycotonum. (swelling of cervical, axillary, and mammary glands). Lapis; Con.; Merc. iod.; Carbo an.

Dose.—Second and third trituration.

BARYTA MURIATICA.

(Barium Chloride.)

The different salts of Baryta are called for in organic lesions of the aged and dwarfish, both mentally and physically.

This remedy has induration and narrowing of the cardiac orifice with pain immediately after eating and epigastric tenderness, which has been repeatedly verified; also its use in aneurism and chronic

Skin.—Multiform erythema of trunk and upper extremities. Edema around eyes.

Female.—Climacteric flushings. *[Lach.; Amyl. nit.*] Vagina cold as if packed with ice. Frequent urination with burning and tenesmus.

Dose.—Third trituration.

Non-Homœopathic Uses.—A solution of Boracic Acid as an injection in chronic cystitis, or a teaspoonful to a glass of hot milk taken internallv—
Boro-Glyceride in solution (1:40) is a powerful anti-
septic. *Styes, 15 gr. to 1 oz. water.*

**BORAX.**

*(Borate of Sodium.)*

*Dread of downward motion* in nearly all com-
plaints. For homœopathic purposes, the peculiar
nervous symptoms are very characteristic, and have
frequently been verified, especially in the therapeu-
tics of children. Of much value in epilepsy. Aph-
thous ulceration of mucous membranes.

**Mind.**—Extreme anxiety, especially from mo-
tions which have a downward direction, rocking,
being carried downstairs, laid down. Anxious ex-
pression of face during the downward motions,
starts and throws up hands on laying patient down,
as if afraid of falling. Excessively nervous; easily
frightened. *Sensitive to sudden noises.*

**Head.**—Aches, with nausea and trembling of
whole body. Hair tangled at tips, cannot be sepa-
rated, as in Plica Polonica. [*Vinca min.*]

**Modalities.**—*Worse,* warmth, any motion, morning, eating, hot weather, exertion, touch. Cannot
sit up; gets faint and sick. Better lying on painful side, pressure, rest, cold things.

Dose.—First to twelfth attenuation.

**BUFO.**

(Poison of the Toad.)

Arouses the lowest passions. Causes a desire for intoxicating drinks, and produces impotence.

Of use in feeble-minded children. Epileptic symptoms, more or less connected with derangements of the sexual sphere, seem to come within the range of this remedy. Injuries to fingers; pain runs in streaks up the arms.

**Mind.**—Propensity to bite. Howling; impatient; nervous; imbecile. Desire for solitude. Feeble-minded.

**Eyes.**—Cannot bear sight of brilliant objects. Little blisters form on eye.

**Ears.**—Music is unbearable. [Imbra.] Every little noise distresses.

**Male.**—Involuntary emissions; impotence, discharge too quick, spasms during coition. Ruboes.

**Skin.**—Panaritium; pain runs up arm. Patches of skin lose sensation. Pustules, suppuration from every slight injury. Bullæ which open and leave a raw surface, exuding an ichorous fluid. Blisters on palms and soles. Itching and burning. Carbuncle.
Relationship.—Compare: *Baryt. carb.; Astéris; Salamand.* (Epilepsy and softening of brain.)
Antidotes: *Lach.; Seneg.*

Modalities.—*Worse,* in warm room; on awakening. *Better,* from bathing or cold air; from putting feet in hot water.

Dose.—Sixth potency.

CACTUS GRANDIFLORUS.

(*Night-blooming Cereus.*)

Acts on circular muscular fibers. It is the heart and arteries especially that at once respond to the influence of Cactus, producing very characteristic constrictions, as of an iron band. This sensation is found in various places, oesophagus, bladder, etc. The mental symptoms produced correspond to that found when there are heart affections, sadness, and melancholy. *Hæmorrhages, constrictions, periodicity,* and *spasmodic pains.* Whole body feels as if caged, each wire being twisted tighter. Atheromatous arteries and weak heart.

Head.—Headache if obliged to pass dinner hour. *[Ars.; Lach.; Lyc.] Sensation as of a weight on vertex.* Right-side pulsating pain. Congestive headaches, periodical, threatening apoplexy. Blood-vessels to the head distended. Feels as if head were compressed in a vise. Pulsation in ears. Dim sight. *Right-sided prosopalgia,* constricting pains, returns at same hour daily. *[Cedron.]*

Nose.—Profuse bleeding from nose. Fluent coryza.
Throat.—Constriction of oesophagus. Dryness of tongue, as if burnt; needs much liquid to get food down. Suffocative constriction at throat, with full, throbbing carotids in angina pectoris.

Stomach.—Constriction, pulsation, or heaviness in stomach. Vomiting of blood.

Female.—Constriction in uterine region and ovaries. Dysmenorrhœa; pulsating pain in uterus and ovaries. Vaginismus. Menses early, dark, pitch-like [Cocc.; Mag. c.]; cease on lying down, with heart symptoms.

Chest.—Oppressed breathing as from a weight on chest. Constriction in chest, as if bound, hindering respiration. Inflammation of diaphragm. Heart-constriction, as from an iron band. Palpitation; pain shooting down left arm. Hæmoptysis, with convulsive, spasmodic cough. Diaphragmitis, with great difficulty of breathing.

Heart.—Endocarditis with mitral insufficiency together with violent and rapid action. Acts best in the incipiency of cardiac incompetence. Heart weakness of arterio-sclerosis. Violent palpitation; worse lying on left side, at approach of menses. Angina pectoris, with suffocation, cold sweat, and ever-present iron-band feeling. Pain in apex, shooting down left arm. Palpitation, with vertigo, dyspnœa, fatulence. Constriction; very acute pains and
stitches in heart; pulse feeble, irregular. Endocardial murmurs, excessive impulse, increased præcordial dullness, enlarged ventricle.

**Sleep.**—Sleepless on account of pulsation in different parts of body. Frightful dreams.

**Fever.**—Fever every day at same hour. Coldness in back and icy-cold hands. Intermittent; paroxysms about midday (11 A. M.) incomplete in their stages, accompanied by hemorrhages. Coldness predominates; cold sweat, with great anguish.

**Modalities.**—Worse, lying on left side; walking, going upstairs.

**Dose.**—Tincture, to third attenuation. Higher in nervous palpitation.

---

**CADMIUM SULPH.**

(Cadmic Sulphate.)

Urinary.—Constant desire to urinate. Polyuria while traveling. Urine fiery. Burning pain in urethra, especially glandular portion.

Back.—Pain in region of kidneys; better lying bent backward. General fatigue.

Relationship.—Compare: *Apocyn.*; *Ars.*; *Coffea,* (similar botanically and in relieving effects of fatigue).

Dose.—Third potency or lower.

CAJUPUTUM (OLEUM WITTNEBIANUM).

(Cajuput Oil.)

Neuralgic affections not inflammatory. Nervous dyspnœa.

**Mouth.**—Persistent sensation of choking. *Spasmodic stricture of æsophagus.* Tongue feels swollen; fills whole mouth.

**Stomach.**—*Hiccough* on slightest provocation [*Sulph. ac.*]

**Abdomen.**—*Flatulent colic; tympanitis.* [*Tereb.*] Nervous distention of bowels. Urine smells like cat's urine. Spasmodic cholera.

**Modalities.**—*Worse about 5 a. m.; night.*

**Dose.**—First to third potency. (5 drops of oil.)

**CALADIDIUM SEGUINUM.**

(American Arum.)

This remedy has a marked action on the genital organs, as seen in its symptoms of impotence and pruritus of this region. Coldness of single parts and inclination to lie down, with aggravation on lying on left side. Slightest noise startles from sleep. *Dread of motion.* Destroys craving for tobacco.

**Head.**—Confused headache with pain in shoulder, pressure in eyes and forehead; extremely sensitive to noise, throbbing in ear.

**Stomach.**—Eructations. *Stomach feels full of dry food;* sensation of fluttering. Acrid vomiting, and tolerates only warm drinks. Sighing respiration.

**Male.**—*Pruritus.* Glans very red. Organs seem larger, puffed, relaxed, cold, sweating; skin of scro-um thick. Erections when half-asleep; cease when
fully awake. **Impotency**; relaxation of penis during excitement. No emission and no orgasm during embrace.

**Skin.**—Sweet sweat—attracts flies. Insect bites burn and itch intensely. Itching rash alternates with asthma.

**Respiratory.**—Larynx seems constricted. Breathing impeded. Catarrhal asthma; mucus not readily raised. Patient afraid to go to sleep.

**Modalities.**—**Better,** after sweat, after sleeping in daytime. **Worse,** motion.

**Relationship.**—Incompatible: **Arum triph.**

Complementary: **Nitr. ac.**

Compare: **Capsic.**; **Phosph.**; **Caust.**; **Selen.**; **Lyc.**

**Dose.**—Third to sixth attenuation.

---

**CALCAREA ACETICA.**

*(Acetate of Lime.)*

Has had brilliant clinical results in inflammations of mucous membranes characterized by a **membranous exudation**; otherwise its action and application is like the carbonate. Cancer pains.

**Head.**—Vertigo in open air. **Senses obscure while reading.** Megrim, with great coldness in head and sour taste.

**Female.**—Membranous dysmenorrhoea in persons of calcareous habit.

**Respiratory.**—Rattling expiration. **Cough loose,**
with expectoration of large pieces like casts of bronchial tubes. Breathing difficult; better bending shoulders backward. Constrictive anxious sensation in chest.

Relationship.—Compare: Brom.; Borax; also Calc. oxal. in excruciating pains of open cancer.

Dose.—Third trituration.

**CALCAREA ARSENICA.**

(Arsenite of Lime.)

Head.—Violent rush of blood to head with vertigo. Pain in head better by lying on painful side. Weekly headache.

Dose.—Sixth trituration.

**CALCAREA CARBONICA.**

(Carbonate of Lime.)

This great Hahnemannian anti-psoric is a constitutional remedy par excellence. Its chief action is centered in the vegetative sphere, impaired nutrition
being the key-note of its action, the glands, skin, and bones being instrumental in the changes wrought. Increased local and general perspiration, swelling of glands, scrofulous and rachitic conditions generally offer numerous opportunities for the exhibition of Calcaria.

Easy relapses, interrupted convalescence. Persons of scrofulous type, who take cold easily, with increased mucous secretions, children who grow fat, are large-bellied, with large head, pale skin, chalky look, the so-called leuco-phlegmatic temperament; affections caused by working in water. Great sensitiveness to cold and partial sweats.

Mind.—Apprehensive; fears loss of reason; misfortune. Forgetful, confused, low-spirited. Anxiety with palpitation. Obstinacy; slight mental effort produces hot head.

Head.—Headache, with cold hands and feet. Vertigo on ascending, and when turning head. Headache from overlifting, from mental exertion, with nausea. Head feels hot and heavy, with pale face. Icy coldness in and on the head, especially right side. Open fontanelles; head enlarged; much perspiration, wets the pillow. Itching of the scalp. Scratches head on waking.

Ears.—Throbbing; cracking in ears; stitches; pulsating pain as if something would press out.
Deafness from working in water. Polypi, which bleed easily. Scrofulous inflammation with mucopurulent otorrhea, and enlarged glands. Perversions of hearing; noises; hardness of hearing.

**Face.**—Swelling of upper lip. Pale, with deep-seated eyes, surrounded by dark rings. Crusta lactea; itching, burning after washing. Submaxillary glands swollen. Goitre. Itching of pimples in whiskers. Pain from right mental foramen along lower jaw to ear.

**Mouth.**—Persistent sour taste. Mouth fills with sour water. Dryness of tongue at night. Bleeding of gums. Difficult and delayed dentition. Teeth ache; excited by current of air, anything cold or hot. Offensive smell from mouth. Burning pain at tip of tongue; worse, anything warm taken into stomach.

**Stomach.**—Aversion to meat, boiled things; craving for indigestible things—chalk, coal, pencils; eggs, salt, and sweets. Milk disagrees. Frequent sour eructations; sour vomiting. Heartburn and loud belching. Cramps in stomach; worse, pressure, cold water. Ravenous hunger. Swelling over pit of stomach, like a saucer turned bottom up. Repugnance to hot food. Pain in epigastric region to
touch. Thirst; longing for cold drinks. Aggravation while eating. Hyperchlorhydria [Phos].

Abdomen.—Sensitive to slightest pressure. Liver region painful when stooping. Cutting in abdomen; enlargement of abdomen. Incarcerated flatulence. Inguinal and mesenteric glands swollen and painful. Cannot bear tight clothing around the waist. Distention with hardness. Gall-stone colic. Increase of fat in abdomen. Umbilical hernia. Trembling; weakness, as if sprained. Children are late in learning to walk. [Caust.]

Stool.—Crawling and constriction in rectum. Stool large and hard. [Bry.]; whitish, watery, sour. Prolapus ani, and burning, stinging haemorrhoids. Diarrhoea of undigested food, fetid, with ravenous appetite. Constipation; stool at first hard, then pasty, then liquid.

Urine.—Dark, brown, sour, fetid, abundant, with white sediment, bloody. Irritable bladder.

Male.—Frequent emissions. Increased desire. Semen emitted too soon. Coition followed by weakness and irritability.

Female.—Cutting pains in uterus during menstruation. Menses too early, too profuse, too long, [Ferr.; Rhus tox.; Sab.], with vertigo, toothache and cold, damp feet; the least excitement causes their return. Uterus easily displaced. Leucorrhoea, milky [Sepia]. Burning and itching of parts before and after menstruation; in little girls. Increased sexual desire; easy conception. Hot swelling of breasts. Breasts tender and swollen before menses. Milk too abundant; disagreeable to child. Deficient lactation, with distended breasts in lymphatic women. Much sweat about external genitals.
Sterility with copious menses. Uterine polypi [Bell.; Phos.; Teucri.; Thuja.]

Respiratory.—Extreme dyspnœa. Painless hoarseness; worse in the morning. Expectoration only during the day; thick, yellow, sour mucus. Bloody expectoration; with sour sensation in chest. Suffocating spells; tightness, burning and soreness in chest; worse going up-stairs. Longing for fresh air. Palpitation at night and after eating. Cough at night, from tickling in throat, aggravated by dampness. Sharp pains in chest from before backwards. Chest very sensitive to touch, percussion, or pressure.

Back.—Pain as if sprained; can scarcely rise; from overlifting. Pain between shoulder-blades. Impeding breathing. Curvature of dorsal vertebrae. Nape of neck stiff and rigid. Renal colic.

Extremities.—Rheumatoid pains, as after exposure to wet. Sharp sticking as if parts were wrenched or sprained. Cold, damp feet; feel as if damp stockings were worn. Cramps in calves. Sour foot-sweat. Weakness of extremities. Swelling of joints, especially knee. Burning of soles of feet. Sweat of hands. Arthritic nodosities. Soles of feet raw. Feet feel cold and dead at night.

Sleep.—Ideas crowding in his mind prevent sleep. Horrid visions when opening eyes. Starts at every noise; fears that she will go crazy. Drowsy in early part of evening. Frequent waking at night. Same disagreeable idea always arouses from light slumber.

Skin.—Unhealthy; readily ulcerating. Small wounds do not heal readily. Glands swollen. Nettle rash; better in cold air. Warts on face and hands.

Modalities.—Worse, from exertion, in cold air. water, washing, moist air, wet weather, during full moon. Better, dry climate and weather; lying on painful side.

Relationship.—Antidotes: Camph.; Ipec.; Nit. ac.; Nux.
Complementary: Bell.
Incompatible: Bry.

Compare: Aqua calcar.—Lime-water—(1-2 teaspoonful in milk; (as injection for oxyuris vermicularis). Calc. caust. (pain in back and heels, jaws and malar bones.) Calc. brom. (children of lax fiber, nervous and irritable, with gastric and cerebral irritation. Tendency to brain disease). Sulph. (differs in being worse by heat, hot feet, etc.). Heracleum, (seborrhœa capitis; violent itching and fatty perspiration around head.)

Calc. picrata (a remedy of prime importance in recurring or chronic boils, particularly when located on parts thinly covered with muscle tissue, as on shin-bones, coccyx, auditory canal, etc., styes, phlyctenules.)

Calc. mur.—Rademacher’s Liquor—(1 part to 2 of distilled water, of which take 15 drops in half a cup of water five times daily. Boils. Porrigio capitis. Vomiting of all food and drink, with gastric pain. Impetigo, glandular swellings.)

Compare: Lycop.; Sil.; Ova T.; Cham.; Kali bich.; Puls.

Dose.—Sixth to thirtieth attenuation.
CALCAREA FLUORICA.

(Fluoride of Lime.)

A powerful tissue remedy for hard, stony glands, varicose and enlarged veins and malnutrition of bones. Induration threatening suppuration. Many cases of cataract have undoubtedly been influenced favorably by it.

**Mind.**—Great depression; groundless fears of financial ruin.

**Eyes.**—Flickering and sparks before the eyes; spots on the cornea; conjunctivitis, cataract.

**Ears.**—Calcereous deposits on tympanum; sclerosis of ossicula and petrous portion of temporal bone, with deafness, ringing, and roaring. Chronic suppuration of middle ear.

**Nose.**—Cold in the head; stuffy cold; dry coryza; ozëna. Copious, offensive, thick, greenish, lumpy, yellow nasal catarrh.

**Face.**—Hard swelling on the cheek, with pain or toothache, hard swelling on jaw-bone.

**Mouth.**—Gum-boil, with hard swelling on the jaw; stony hard swelling on the jaw-bone. Cracked appearance of the tongue, with or without pain. Induration of the tongue, hardening after inflammation. Unnatural looseness of the teeth, with or without pain; teeth become loose in their sockets. Toothache, with pain if any food touches the tooth.

**Throat.**— Burning in throat; better by warm drinks.
Stomach.—Vomiting of undigested food. Hic-cough \textit{(Cajup.; Sulph. ac.)}. Flatulency.

Stool and Anus.—Fissure of the anus, and intensely sore crack near the lower end of the bowel. Bleeding hæmorrhoids. Itching of anus as from pin-worms. Internal or blind piles frequently, with pain in back, generally far down on the sacrum, and constipation. Much wind in lower bowels.

Male.—Hydrocele, indurations of the testicles.

Circulatory Organs.—Chief remedy for vascular tumors with dilated blood-vessels, and for \textit{varicose or enlarged veins}.

Neck and Back.—Chronic \textit{lumbago}; aggravated on beginning to move, and ameliorated on continued motion. Osseous tumors. \textit{Rachitic enlargement of femur in infants}. Pain lower part of back, with burning.

Extremities.—Ganglia or encysted tumors at the back of the wrist. Gouty enlargements of the joints of the fingers. Exostoses on fingers. Chronic synovitis of knee-joint.

Sleep.—Vivid dreams, with sense of impending danger.

Skin.—Chaps and cracks. Fissures or cracks in the palms of the hands or hard skin. Fissure of the anus. Suppurations with callous hard edges. Whitlow. Indolent fistulous ulcers, secreting thick yellow pus. Knots, kernels, hardened glands in the female breast. \textit{Swellings or indurated enlargements}
having their seat in the fasciae and capsular liga-
ments of joints, or in the tendons. _Indurated glands
of stony hardness._

_Modalities._—_Worse_ during rest, changes of
weather. _Better_ heat, warm applications.

_Relationship._—Compare: _Con._; _Lapis._; _Baryt.
mur._; _Hecla_; _Rhus._

_Dose._—Third to twelfth trituration.

---

**CALCAREA IODATA.**

_(Iodide of Lime.)_

It is in the treatment of scrofulous affections,
especially enlarged glands, tonsils, etc., that this
remedy has gained marked beneficial results. _Ade-
noids._ Uterine fibroids. _Croup._

_Head._—Headache while riding against cold wind.
Light-headed. Catarrh; worse at root of nose; no
sneezing; very little sensation. Polypi of nose and
ear.

_Throat._—Enlarged tonsils are filled with little
crypts.

_Respiratory._—Chronic cough; hectic _fever_; green
purulent expectoration. _Croup._

_Relationship._—Compare: _Agraphis_ Bluebell,
(adenoids with enlarged tonsils). _Acon. lycotonum_,
(swelling of glands, Hodgkins' disease).

Compare also: _Calc. fluor._; _Sil._; _Merc. iod._

_Dose._—Second and third trituration.
CALCAREA PHOSPHORICA.

(Phosphate of Lime.)

One of the important tissue remedies, and while it has many symptoms in common with Calcarea Carb., there are some differences and characteristic features of its own. It is especially indicated in tardy dentition and troubles incident to that period, bone diseases, non-union of fractured bones, and the anæmias after acute diseases and chronic wasting diseases. It has a special affinity where bones form sutures or symphyses, and all its symptoms are worse from any change of weather. Numbness and crawling are characteristic sensations, and tendency to perspiration and glandular enlargement are symptoms it shares with the carbonate.

Mind.—Peevish, forgetful; after grief and vexation. [Ignat.; Phos. ac.]

Head.—Headache, worse near the region of sutures, from change of weather, of school children about puberty. Fontanelles remain open too long. Cranial bones soft and thin. Defective hearing. Headache, with abdominal flatulence. Head hot, with smarting of roots of hair.

Eyes.—Diffused opacity in cornea following abscess.

Mouth.—Swollen tonsils; cannot open mouth without pain. Complaints during teething; teeth develop slowly; rapid decay of teeth. Adenoid growths. [Agraph.]

Stomach.—Infant wants to nurse all the time and vomits easily. Craving for bacon, ham, salted or smoked meats. Much flatulence. Great hunger with

Abdomen.— *At every attempt to eat*, colicky pain in abdomen. *Sunken* and *flabby*. Colic, soreness and burning around navel.

Neck and Back.—Rheumatic pain from draught of air, with stiffness and dullness of head. Soreness in sacro-iliac symphysis, as if broken. [Æsc. hip.]

Urine.—Increased, with sensation of weakness. Pain in region of kidneys when lifting or blowing the nose.

Female.—Menses too early, excessive, and bright in girls. If late, blood is dark; sometimes, first bright, then dark, with *violent backache*. During lactation with sexual excitement. Nymphomania, with aching, pressing, or weakness in uterine region. [*Plat.*] After prolonged nursing. Leucorrhœa, like white of egg. [*Borax.*] Worse morning. Child refuses breast; milk tastes salty. Prolapsus in debilitated persons.

Relationship.—Complementary: *Ruta*.

Compare: *Calcari. hypophosphorosa* (Hypophos-
phite), (angina pectoris, asthma, affection of arteries. Veins stand out like whip-cords. Attacks of pain occurring two hours after meals relieved by a cup of milk or light food.) *Cheiranthus* (effects of cutting wisdom teeth). *Calcarea silicata*, $\times \times$ trit. (for atrophy of children. Ulcers with punged-out edges. [Kal. bich.] Corneal exudations). *Conchiolin* (in bone affections, especially when the growing ends are affected). *Silica; Psorin.; Sulph.*

**Modalities.—** Worse, exposure to damp, cold weather, melting snow. *Better*, in summer; warm, dry atmosphere.

**Dose.—** First to third trituration.

**CALCAREA RENALIS.**

*(Renal Calculi.)*

It is reported to cure renal calculi, gravel, and to lessen the tendency to accumulation of tartar on teeth. Rigg’s disease of the teeth.

**Dose.—** First to sixth trituration.

**CALCAREA SULPHURICA.**

*(Sulphate of Lime—Plaster of Paris.)*

Eczema and torpid glandular swellings. Cystic tumors. Fibroids. Suppurative processes come within the range of this remedy, after pus has found a vent. *Mucous discharges are yellow, thick, and lumpy.*

**Head.**—Scald-head of children, if there be purulent discharge, or yellow, purulent crusts.

**Eyes.**—Inflammation of the eyes, with discharge of thick, yellow matter. Sees only one-half an object. Cornea smoky. Ophthalmia neonatorum.
Ears.—Deafness, with discharge of matter from the middle ear, sometimes mixed with blood. Pimples around ear.

Nose.—Cold in the head, with thick, yellowish, purulent secretion, frequently tinged with blood. One-sided discharge from nose. Yellowish discharge from posterior nares. Edges of nostrils sore.

Face.—Pimples and pustules on the face. Herpes.

Mouth.—Inside of lips sore. Tongue flabby, resembling a layer of dried clay. Sour, soapy, acrid taste. Yellow coating at base.

Throat.—Last stage of ulcerated sore throat, with discharge of yellow matter. Suppurating stage of tonsillitis, when abscess is discharging.

Abdomen.—Pain in region of liver, in right side of pelvis, followed by weakness, nausea, and pain in stomach.

Stool.—Purulent diarrhoea mixed with blood. Diarrhoea after maple sugar and from change of weather. Pus-like, slimy discharge from the bowels. Painful abscesses about the anus in cases of fistula.

Female.—Menses late, long-lasting, with headache, twitching, great weakness.

Respiratory.—Cough, with purulent and sanious sputa and hectic fever. Emphyema, pus forming in the lungs or pleural cavities. Purulent, sanious expectoration. Catarrh, with thick, lumpy, white-yellow or pus-like secretion.

Extremities.—Burning-itching of soles of feet.

Fever.—Hectic fever, caused by formation of pus. With cough and burning in soles.

Skin.—Cuts, wounds, bruises, etc., unhealthy, discharging pus; they do not heal readily. Yellow,
purulent crusts or discharge. Purulent exudations in or upon the skin. Skin affections with yellowish scabs. Many little matterless pimples under the hair, bleeding when scratched.

**Relationship.**—Compare: *Hepar; Silica; Calend.*

**Dose.**—Second and third trituration.

---

**CALENDULA OFFICINALIS.**

*(Marigold.)*

A most remarkable healing agent, applied locally. Useful for open wounds, parts that will not heal, ulcers, etc. Toothache. Deafness. Catarrhal conditions. Neuroma. Constitutional tendency to erysipelas. Pain is excessive and out of all proportion to injury. *Great disposition to take cold, especially in damp weather.* Paralysis after apoplexy. Cancer, as an intercurrent remedy. Has remarkable power to produce local exudation and helps to make acrid discharge healthy and free.

**Head.**—Extremely nervous; tearing headache; weight on brain.

**Nose.**—Coryza in one nostril; with much green discharge.

**Eyes.**—Injuries to eyes which tend to suppuration; after operations; blennorrhoea of lachrymal sac.

**Ears.**—Deafness; worse in *damp* surroundings. Hears* best on a train, and distant sounds.

Respiratory.—Cough, with green expectoration, hoarseness; with distention of inguinal ring.

Female.—Warts at the os externum. Menses suppressed, with cough. Chronic endocervicitis.

Skin.—Yellow; goose-flesh. Promotes favorable cicatrisation, with least amount of suppuration. Slough, proud flesh, and raised edges.

Fever.—Coldness, great sensitiveness to open air; shuddering in back; skin feels warm to touch. Heat in evening.

Modalities.—Worse in damp, cloudy weather.

Relationship.—Compare: Hamam.; Hyp.; Symph.; Arn.

Compare in deafness: Fer. pic.; Kal. iod.; Calc.; Mag. c.; Graph.
Antidote: Chelidon.; Rheum.

Dose.—Locally, Aqueous Calendula; internally, tincture, to third potency.

CALOTROPIS.

(Madar Bark.)

Has been used with marked success in the treatment of syphilis following Mercury; also, in elephantiasis, leprosy, and acute dysentery. Pneumonic phthisis.

Increases the circulation in the skin; has powerful effects as a sudorific. In the secondary symptoms of syphilis, where Mercury has been used but cannot be pushed safely any further, it rapidly recruits the constitution, heals the ulcers and blotches from the skin, and perfects the cure. Primary anæmia of syphilis. Heat in stomach is a good guiding symptom.
Calotropis—Caltha.—Camphor.

Relationship.—Compare: Merc.; Potass. iod.; Berb. aqui.; Sarsap.

Dose.—Tincture, one to five drops; three times a day.

Caltha Palustris.

(Cowslip.)

Skin.—Pemphigus. Bullae are surrounded by a ring. Much itching. Face much swollen, especially around the eyes. Itching eruption on thighs. Pustules. Uterine cancer.

Dose.—Tincture.

Camphora.

(Camphor.)

Pictures a state of collapse. Icy coldness of the whole body; sudden sinking of strength; pulse small and weak. This condition is met with in cholera, and here it is that Camphor has achieved classical fame. First stages of a cold, with chilliness and sneezing.

It is characteristic of Camphor that the patient will not be covered, notwithstanding the icy coldness of the body. One of the main remedies in shock. Pain better while thinking of it. Very sensitive to cold air and to touch. Sequelae of measles. Violent convulsions. Tetanic spasms. Scrofulous children and irritable, weakly blondes especially affected.

Head.—Influenza; headache, with catarrhal symptoms, sneezing, etc. Beating pain in cerebellum. Cold sweat. Nose cold and pinched. Tongue cold, flabby, trembling. Fleeting stitches in temporal region and orbits. Head sore. Occipital throbbing, synchronous with the pulse.
Eyes.—Fixed, staring; pupils dilated. Sensation as if all objects were too bright and glittering.

Nose.—Stopped; sneezing. Fluent coryza on sudden change of weather. Cold and pinched.

Face.—Pale, haggard, anxious, distorted; bluish, cold.

Stomach.—Pressive pain in pit of stomach. Coldness, followed by burning.

Stool.—Blackish; involuntary. Asiatic cholera, with cramps in calves, coldness of body, anguish, great weakness, collapse, tongue and mouth cold.

Urine.—Burning and strangury, with tenesmus of the neck of the bladder. Retention with full bladder.

Sleep.—Insomnia, with cold limbs. Subsultus and extreme restlessness.

Skin.—Cold, pale, blue, livid. Cannot bear to be covered. [Secale.]

Relationship.—Camphor antidotes or modifies the action of nearly every vegetable medicine—tobacco, worm medicines, etc. Luffa acutangula; (whole body ice-cold, with restlessness and anxiety; burning thirst.) Camphoric acid (a prophylactic against catheter fever; cystitis 15 grains three times a day).

Incompatible: Kali nit.
Antidotes:—Opium; Nitr. sp. dulc.; Phos.  
Compare: Carbo; Cuprum; Arsenic; Veratr.  
Dose.—Tincture, in drop doses, repeated frequently, or smelling of Spirits of Camphor.

**CAMPHORA MONO-BROMATA.**  
(Mono-bromide of Camphor.)

**Mind.**—Directions appear reversed; i.e., north seems south, and east seems west. Hysteria; weeping and laughing alternately. Trance-like state.

**Dose.**—Second trituration.

**CANCHALAGUA.**  
(Erythraea chironiodes—Centaury.)

Of use in severe types of intermittent fever in hot countries; also, in influenza.

**Head.**—Congested. Scalp feels tight; burning in eyes, buzzing in ears.

**Fever.**—Chill all over; worse in bed at night. Sensitive to cold trade-winds on Pacific Coast. General sore and bruised feeling; nausea and retching.

**Skin.**—Wrinkled like a washerwoman's. Scalp feels tight, as if drawn together by India-rubber.

**Dose.**—Tincture, in drop doses.
CANNABIS INDICA.

(Hashish.)

Produces the most remarkable hallucinations and imaginations, exaggeration of the duration of time and extent of space being most characteristic. Ideas crowd upon each other. Has great soothing influence in many nervous disorders, like epilepsy, mania, dementia, delirium tremens, and irritable reflexes.

Head.—Feels as if top of head were opening and shutting, and as if calvarium were being lifted. Shocks through brain. [Aloe; Coca.] Uræmic headache. Throbbing and weight at occiput. Headache, with flatulence. Involuntary shaking of head.

Eyes.—Fixed. Letters run together when reading. Clairvoyance.

Ears.—Throbbing, buzzing, and ringing. Noise like boiling water. Extreme sensitiveness to noise.

Stomach.—Increased appetite. Pain at cardiac fice; better, pressure. Distention.
Rectum.—Sensation in anus as if sitting on a ball.

Urinary.—Urine loaded with slimy mucus. Must strain; dribbling; has to wait some time before the urine flows. Stitches and burning in urethra. Dull pain in region of right kidney.

Male.—After sexual intercourse, backache. Oozing of white glairy mucus from glans. Satyriasis. Prolonged thrill. Chordee. Sensation of swelling in perineum or near anus, as if sitting on a ball.

Female.—Menses profuse, dark, painful, without clots. Uterine colic, with great nervous agitation and sleeplessness. Sterility. [Borax.]

Respiratory.—Humid asthma. Chest oppressed with deep, labored breathing.

Heart.—Palpitation awakes him. Piercing pain, with great oppression. Pulse very slow. [Dig.; Kalmia; Apocyn.]

Extremities.—Pain across shoulders and spine; must stoop; cannot walk erect. Thrilling through arms and hands, and from knees down. Entire paralysis of the lower extremities. Pain in soles and calves; very exhausted after a short walk.

Sleep.—Very sleepy, but unable to do so. Obstinate and intractable forms of insomnia. Catalepsy. Dreams of dead bodies; prophetic. Nightmare.

Modalities.—Worse, morning; from coffee, liquor, and tobacco; lying on right side. Better, fresh air, cold water, rest.

Relationship.—Bellad.; Hyoscy.; Stram.; Laches.; Agaric. Anhalon (time sense disordered).

Dose.—Tincture and first attenuation.
CANNABIS SATIVA.

(Hemp.)

Seems to affect especially the urinary, sexual, and respiratory organs. It has characteristic sensations as if dropping water were falling. Great fatigue, as from over-exertion; weary after meals. Choking in swallowing; things go down the wrong way.

Head.—Lectophobia. Vertigo; sensation of dropping water on head. Pressure on root of nose.

Respiratory.—Oppression of breathing and palpitation; must stand up. Weight on chest; rattling, wheezing breathing. Pericarditis; sensation as if drops were falling from the heart. Cough, with green viscid, also bloody, expectoration.

Heart.—Sensation as if drops were falling from
the heart. Painful strokes and tension with pal-pitation.

Sleep.—Frightful dreams. More tired in morn-ing. Sleepy during day.

Extremities.—Contraction of fingers after a sprain. Dislocation of patella on going up stairs. Feet feel heavy on going up stairs. Affections of the ball of the foot and under part of toes.

Modalities.—Worse, lying down; going up stairs.

Relationship.—Antidotes: Camph.; Lemon juice. Compare: Hedysarum—Brazilian Burdock—(Gonorrhoea and inflammation of penis); Canth.; Apis; Copaiva; Thuja; Kal. nit.

Dose.—Tincture to third attenuation.

CANTHARIS.
(Spanish Fly.)

This powerful drug produces a furious distur-bance in the animal economy, attacking the urinary and sexual organs especially, perverting their func-tion, and setting up violent inflammations, and causing a frenzied delirium, simulating hydrophobia symptoms. Puerperal convulsions. Produces most violent inflammation of the whole gastro-intestinal canal, especially lower bowel. Over-sensitiveness of all parts. Raw, burning pains. Hæmorrhages. Intolerable, constant urging to urinate is most character-istic. Gastric derangements of pregnancy.

Mind.—Furious delirium. Anxious restlessness, ending in rage. Crying, barking; worse touching larynx or drinking water. Constantly attempts to do something, but accomplishes nothing. Acute mania, generally of a sexual type; amorous frenzy;
fiery sexual desire. Paroxysms of rage, crying, barking. Sudden loss of consciousness with red face.

**Head.**—Burning in brain. Sensation as if boiling water in brain. Vertigo; worse in open air.

**Eyes.**—Yellow vision. [Santon.] Fiery, sparkling, staring look. Burning in eyes.

**Ears.**—Sensation as if wind were coming from ear, or hot air. Bones about ear painful. [Capsic.]

**Face.**—Pale, wretched, deathlike appearance. Itching vesicles on face, burning when touched. Erysipelas of face, with burning, biting heat with urinary symptoms. Hot and red.

**Throat.**—Tongue covered with vesicles; deeply furred; edges red. Burning in mouth, pharynx, and throat; vesicles in mouth. Great difficulty in swallowing liquids. Very tenacious mucus. [Kal. bich.] Violent spasms reproduced by touching larynx. Inflammation of throat; feels on fire. Constriction; aphthous ulceration. [Hyd. mur.; Nit. ac.]

**Chest.**—Pleurisy, as soon as effusion has taken place. Intense dyspnoea; palpitation; frequent dry cough. Tendency to syncope. Short, hacking cough, blood-streaked tenacious mucus. Burning pains.

**Stomach.**—Burning sensation of oesophagus and stomach. [Carb.] Disgust for everything—drink, food, tobacco. Burning thirst, with aversion to all fluids. Very sensitive, violent burning. Vomiting of blood-streaked membrane and violent retching. Aggravation from drinking coffee; drinking the smallest quantity increases pain in bladder, and is vomited. Thirst unquenchable.

**Stool.**—Shivering, with burning. Dysentery; mucous stools, like scrapings of intestines. Bloody,
with burning and tenesmus and shuddering after stool.

Urine.—Intolerable urging. Violent paroxysms of cutting and burning in whole renal region, with painful urging to urinate; bloody urine, by drops. Intolerable tenesmus; cutting before, during, and after urine. Urine scalds him, and is passed drop by drop. Constant desire to urinate. Membranous scales, looking like bran in water. Urine jelly-like, shabby.

Male.—Strong desire; painful erections. Pain in glans. [Prunus; Pareira.]

Female.—Retained placenta [Sep.], with painful urination. Expels moles, dead foetuses, membranes, etc. Nymphomania. [Plat.; Hyos.; Lach.; Stram.] Puerperal metritis, with inflammation of bladder. Menses too early and too profuse; black swelling of vulva with irritation. Constant discharge from uterus; worse, false step. Burning pain in ovaries; extremely sensitive. Pain in os coccyx, lancinating and tearing.

Respiratory.—Voice low; weak feeling. Stitches in chest. [Bry.; Kal. c.; Squill.] Pleurisy, with exudation.

Heart.—Palpitation; pulse feeble, irregular; tendency to syncope. Pericarditis, with effusion.

Back.—Pain in loins, with incessant desire to urinate.

Extremities.—Tearing in limbs. Ulcerative pain in soles; cannot step.

Skin.—Tendency to gangrene. Eruption, with mealy scales. Vesicular eruptions, with burning and itching. Sunburn. Burns, scalds, followed by
undue inflammation. *Erysipelas*, vesicular type, with great restlessness. Burning face; begins on nose. Burning in soles of feet at night.

**Fever.**—Cold hands and feet; cold sweat. Soles burn. Chill, as if water were poured over him.

**Modalities.**—*Worse*, from touch, urinating, drinking cold water or coffee. *Better*, rubbing.

**Relationship.**—Antidotes: *Acon.*; *Camph.*; *Puls.* Compare: *Apis*; *Ars.*; *Merc. cor.*

**Dose.**—Third to thirtieth potency.

---

**CAPSICUM.**

*(Cayenne Pepper.)*

Seems to suit especially persons of lax fiber, weak; diminished vital heat. Such persons are fat, indolent, opposed to physical exertion, averse to go outside of their routine, get homesick easily. Abstainers from accustomed alcoholics. It affects especially the mucous membranes, producing a sensation of constriction. Inflammation of petrous bone. Burning pains and general chilliness.

**Head.**—Bursting headache; worse coughing. Hot face. Red cheeks.

**Ears.**—Burning and stinging in ears. *Swelling and pain behind ears.* Inflammation of mastoid. Tenderness over the petrous bone; extremely sore and tender to touch. [Onosmod.]

**Throat.**—Hot feeling in faucæ. Pain and dry-
ness in throat extending to the ears. Sore throat of smokers and drinkers. Smarting in throat; constriction. Uvula relaxed. Burning constriction; worse between acts of deglutition.

Mouth.—Herpes labialis. (Apply one drop of the mother tincture.) Stomatitis.

Stomach.—Fetid odor from mouth. Much flatulence. Much thirst; but drinking causes shuddering.

Stool.—Bloody mucus, with burning and tenesmus; drawing pain in back after stool. Thirst after stool, with shivering. Bleeding piles, with soreness of anus.

Urine.—Strangury, frequent almost ineffectual urging. Burning in orifice. Comes first in drops, then in spurts; neck of bladder spasmodically contracted. Ectropion of meatus.

Male.—Coldness of scrotum, with impotency. Loss of sensibility in testicles, with softening and dwindling. Gonorrhoea, with chordee, excessive burning, pain in prostate.

Female.—Uterine haemorrhage near the menopause, with nausea. Sticking sensation in left ovarian region.

Respiratory.—Constriction of chest; arrests breathing. Hoarseness. Dry, hacking cough, expelling an offensive breath from lungs. Dyspnœa. Feels as if chest and head would fly to pieces. Explosive cough. Threatening gangrene of lung. Pain in distant parts on coughing—bladder, legs, ears, etc.

Extremities.—Pain from hips to feet; worse coughing. Tensive pain in the knee.

Fever.—Coldness, with ill-humor. Shivering after
drinking. Chill begins in back; better heat. Must have something hot to back. Thirst before chill.

Modalities.—Better, while eating, from heat. Worse, open air, uncovering.

Relationship.—Antidote: Cina; Calad. Compare: Pulsat.; Lycop.; Bell. Centaurea (surging of blood; homesickness; intermittent fever).

Dose.—Third to sixth attenuation. In delirium tremens, dram doses of tincture in milk.

CARBO ANIMALIS.

(Animal Charcoal.)

Seems to be especially adapted to scrofulous and venous constitutions, old people, and after debilitating disease, with feeble circulation and lowered vitality. Glands are indurated, veins distended, skin blue. Stitch remaining after pleurisy. Easily strained from lifting. Weakness of nursing women. Ulceration and decomposition.

Mind.—Desire to be alone, sad and reflective, avoids conversation. Anxiety at night, with orgasm of blood.

Head.—Headache, as if head had been blown to pieces. Rush of blood with confusion. Sensation as if something lay above eyes so that she could not look up. Vertigo followed by nosebleed. Nose swollen, tip bluish—small tumor on it. Hearing confused; cannot tell direction of sound.

**CARBO ANIMALIS—CARBO VEGETABILIS.**

**Female.**—Nausea of pregnancy; worse at night. Lochia offensive. [Kreos.; Rhus; Secale.] Menses followed by great exhaustion [Cocc.], flow only in morning. [Bor.; Sep.] Burning in vagina and labia. Darting in breast; painful indurations in breast, especially right. Cancer of uterus, burning pain down thighs.

**Respiratory.**—Pleurisy, typhoid character, and remaining stitch. Ulceration of lung, with feeling of coldness of chest. Cough, with discharge of greenish pus.

**Skin.**—Spongy ulcers, copper-colored eruption. Acne rosacea.

**Glands.**—Indurated, swollen, painful, in neck, axilla, groin, mammae; pains lancinating, cutting, burning. [Con.; Merc. iod. flav.]

**Modalities.**—Worse after shaving, after loss of animal fluids.

**Relationship.**—Complementary: Calc. phos.
Antidote: Ars.; Nux.
Compare: Badiaga; Sepia; Sulph.; Plumb. iod.

**Dose.**—Third to thirtieth potency. The third trituration for insufflation in aural polypi.

**CARBO VEGETABILIS.**

*(Vegetable Charcoal.)*

A lowered vital power from loss of fluids, after drugging; after other diseases; in old people with venous congestions; states of collapse in cholera,
typhoid; these are some of the conditions offering special inducements to the action of Carbo veg. The patient may be almost lifeless, but the head is hot; coldness, breath cool, pulse imperceptible, oppressed and quickened respiration, and must have air, must be fanned hard, must have all the windows open. This is a typical state for Carbo veg. The patient faints easily, is worn out, and must have fresh air. Hæmorrhage from any mucous surface. Very debilitated. Patient seems to be too weak to hold out. Persons who have never fully recovered from the effects of some previous illness.

Mind.—Aversion to darkness. Fear of ghosts.

Head.—Aches from any over-indulgence. Hair feels sore, falls off easily; scalp itches when getting warm in bed. Hat pressed upon head like a heavy weight. [Nit. ac.] Head feels heavy, constricted. Vertigo with nausea and tinnitus.

Nose.—Epistaxis in daily attacks, with pale face. Bleeding after straining, with pale face; tip of nose red and scabby, itching around nostrils. Varicose veins on nose.

Mouth.—Tongue coated white or yellow brown. Teeth very sensitive when chewing; gums retracted and bleed easily. Blood oozing from gums when cleaning teeth. Pyorrhœa. [Merc.; Kroos.]

Face.—Pale, hippocratic, cold with cold sweat; blue. [Cup.; Opium.]

Stomach.—Eructations, heaviness, fullness, and sleepiness; tense from flatulence, with pain; worse ing down. Eructations after eating and drinking.

**Abdomen.**—Pain as from lifting a weight; colic from riding in a carriage; excessive discharge of fetid flatus. Cannot bear tight clothing around waist and abdomen. Ailments accompanying intestinal fistulae. Abdomen greatly distended; better passing wind. Flatulent colic. Pain in liver.

**Male.**—Discharge of prostatic fluid at stool. Itching and moisture at thigh near scrotum.

**Female.**—Premature and too copious menses; pale blood. Vulva swollen; aphthæ; varices on pudenda. Leucorrhœa before menses, thick, greenish, milky, excoriating. [Kreos.]

**Respiratory.**—Deep, rough voice, failing on slight exertion. Hoarseness; worse evenings, talking; evening oppression of breathing, sore and raw chest.
Wheezing and rattling of mucus in chest. Cough, with burning in chest; worse in evening, in open air, after eating, and talking. Spasmodic cough, bluish face, offensive expectorations, neglected pneumonia. Breath cold; must be fanned. Hæmorrhage from lungs. Asthma in aged, with blue skin.

Extremities.—Heavy, stiff; feel paralyzed; go to sleep. Cramp in soles; feet numb and sweaty. Cold from knees down. Toes red, swollen.

Skin.—Itching; worse in evening, when warm in bed. Moist skin; hot perspiration; senile gangrene beginning in toes, bed sores; bleed easily. Falling out of hair from a general weakened condition. Indolent ulcers, burning pain. Ichorous, offensive discharge; tendency to gangrene of the margins. Purpura Varicose ulcers, carbuncles. [Ars.; Anthrac.]

Modalities.—Worse evening; from fat food, butter, coffee, milk, warm damp weather. Better from eructation, from fanning, cold.

Relationship.—Antidotes: Spirits Nitre; Camph.; Ambra.

Compare: Lycop.; Ars.; China.

Dose.—First to third trituration in stomach disorders. Thirtieth potency and higher in collapse and other conditions.

CARBOLICUM ACIDUM.

(Phenol—Carbolic Acid.)

Produces mental and bodily languor, disinclination to study, with headache like a band. Very.
marked acuteness of smell is a strong guiding symptom. Stomach symptoms are also important. Pains are terrible; come and go suddenly. Physical exertion brings on abscess somewhere. Putrid discharges. [Bapt.]

**Head.**—Disinclined to mental work. Tight feeling, as if compressed by a rubber band [Gels.; Merc.] Orbital neuralgia over right eye. Headache; better, by green tea; while smoking.

**Nose.**—Smell very acute. Putrid discharge. Influenza and resulting debility. [Bapt.; Nat. Sulph.]

**Stomach.**—Appetite lost. Desire for stimulants and tobacco. Constant belching, nausea, vomiting, dark olive green. Heat rises up oesophagus. Flatulent distention of stomach and abdomen. [Carbo; Lyc.; Arg. nit.]

**Stool.**—Constipation, with very offensive breath. Bloody, like scrapings of intestines. Great tenesmus. Diarrhoea; stools thin, black, putrid.

**Urine.**—Almost black. Diabetes.

Merc.; Puls.; Sep.] Puerperal fever, with offensive discharge. Irritating leucorrhœa, causing itching and burning. [Kreos.]

Skin.—Itching vesicles, with burning pain. Burns tend to ulcerate.

Relationship.—Compare: Chryserobin (locally in ringworm of the scalp 5–10% in glycerine and alcohol. Equal parts.) Ars.; Kreosot.; Carbo.

Antidote: Vinegar; Chalk.

Incompatible: Glycerine and vegetable oils.

Dose.—Third to thirtieth potency.

CARBONEUM OXYGENISATUM.

(Carbonous Oxyde.)

Herpes zoster, pemphigus, and trismus are produced by this drug. Coldness, sleepiness, loss of consciousness are marked.

Head.—Inclination to turn in a circle. Jaws firmly clenched. Trismus.

Skin.—Anæsthesia; vesication along course of nerves; herpes zoster; pemphigus, with large and small vesicles. Hands icy cold.

Sleep.—Deep, prolonged; sleepiness for several days.

Dose.—First attenuation.

CARBONEUM SULPHURATUM.

(Alcohol Sulphuris—Bi-Sulphide of Carbon.)

Menière's disease. Tinnitus aurium of long standing. Impotence, sciatica, come within the therapeutic sphere of this remedy. Marked action on the
vision. *Diminished sensibility* of arms, hands, and feet. Peripheral neuritis. Eye symptoms important.

**Mind.**—Hallucinations of sight and hearing. Changeable mood. Dementia alternating with excitement.

**Head.**—Aches as from a tight cap. Ears feel obstructed. *Noises in head.*

**Male.**—Desire lost, parts atrophied. Frequent profuse emissions.

**Relationship.**—Compare: *Caust.*; *Salicyl. ac.*; *Cinch.* In eye symptoms compare: *Benzin. dinitric.*

**Dose.**—First attenuation.

**CARDUUS MARIANUS.**

*(St. Mary's Thistle.)*

The action of this drug is centered in the liver and portal system, causing soreness, pain, jaundice. Abuse of alcoholic beverages, especially beer. *Varicose veins* and ulcers come within its curative range. Diseases of miners associated with asthma. Dropical conditions depending on liver disease.
Mind.—Despondency; forgetful, apathetic.

Head.—Contractive feeling above eyebrows. Dull, heavy, stupid, with foul tongue. Vertigo, with tendency to fall forward. Burning and pressure in eyes.

Stomach.—Taste bitter. Aversion to salt meat. Appetite small; tongue furred; nausea; vomiting of green acid fluid. Stitches in left side of stomach, near spleen. [Ceanoth.] Abdomen.—Pain in region of liver. Fullness and soreness, with moist skin. Constipation; stool hard, difficult, knotty; alternates with diarrhoea. Hyperæmia of liver, with jaundice. Cirrhosis, with dropsy.

Urine.—Cloudy; golden-colored.

Chest.—Stitching pains in lower right ribs and front; worse, moving, walking, etc. Pain in chest, going to shoulders, back, loins, and abdomen, with urging to urinate.

Skin.—Itching on lying down at night. Varicose ulcers. [Clematis vitalba.] Extremities.—Pain in hip-joint, spreading through buttocks; worse from stooping. Difficult rising.

Relationship.—Compare: Card. benedictus (strong action on eyes, and sensation of contraction in many parts; stomach symptoms similar); Chelidon.; Merc.; Podophyl.; Bry.; Aloe.

Dose.—Tincture, and lower potencies.

CARLSBAD.

(The Waters of the Sprudel Springs.)

Famous for its action on the liver and in the treatment of obesity and diabetes. In homœopathic
potencies useful in weakness of all organs, constipation, great liability to take cold. Periodicity, effects repeated after from two to four weeks. [Oxal. ac.; Sulph.] Flushes of heat all over. Itching on various parts.

Mind.—Discouraged and anxious about domestic duties.

Head.—Aches, with swollen temporal veins [Sang.]; better, motion, in open air.

Face.—Yellow; sallow; red and hot; pain in zygomatic process; feels as if cobwebs were on it.

Stomach.—Tongue coated white. Offensive smell from mouth. Furry sensation. Sour or salty taste. Hiccough and yawning. Heartburn. [Carbo.]

Dose.—First to third potency.

**CASTANEA VESCA.**

*(Chestnut.)*

A useful remedy in *whooping-cough*, especially in the early stage, with dry, ringing, violent, spasmodic cough. Desire for warm drinks. *[Casc.]* Diarrhoea.

Relationship.—Compare: *Dros.; Mephitis; Naphthal.; Ammon. brom.*

Dose.—Tincture.

**CASTOR EQUI.**

*(Rudimentary Thumb-nail of the Horse.)*

The clinical experience of Hering and his fellow followers has shown this to be a highly useful remedy

Chest.—Cracked, sore nipples, excessively tender. Swelling of mammae. Violent itching in breasts; areola reddened.

Relationship.—Compare: Graphites; Hippomanes; Calc. oxal.

CASTOREUM.
(The Beaver.)

A great remedy for hysteria. Prostration marked. Hysterical symptoms. Day-blindness; cannot endure the light. Nervous women who do not recover fully, but are continually irritable, and suffer from debilitating sweats. Constant yawning.

Tongue.—Swollen. Rounded elevation size of a pea in center, with drawing sensation from center to hyoid bone.

Female.—Dysmenorrhea; blood discharged in drops, with tenesmus. Pain commences in middle of thighs.

Relationship.—Compare: Ambra; Moschus; Mur. acid; Valeriana.
Antidote: Colch.
Dose.—Tincture, and lower potencies.

CAULOPHYLLUM.
(Blue Cohosh.)

This is a woman's remedy. Want of tonicity of the womb. During labor, when the pains are deficient and the patient is exhausted and fretful. Be-
sides, it has a special affinity for the smaller joints. Thrush, locally and internally.

Stomach.—Cardialgia, spasms of stomach. Dyspepsia, with spasmodic symptoms.

Female.—Extraordinary rigidity of os. [Bell.; Gels.; Ver. v.] Spasmodic and severe pains, which fly in all directions; shivering, without progress; false pains. [Bell.; Cimicif.; Gels.; Nux v.; Puls.] Afterpains. Leucorrhoea, with moth-spots on forehead. Habitual abortion from uterine debility. [Helon.; Puls.; Sab.] Needle-like pains in cervix. Cough with pain in hip; worse in evening; better, drinking cold water; worse, warmth of bed. Sore streak down trachea. Pain in chest, with palpitation. Cannot lie down at night.

Back.—Stiffness between shoulders. Dull pain in nape of neck.

Skin.—Soreness in folds of skin, back of ears, between thighs. Warts, large, jagged, bleeding easily, on tips of fingers and nose. Old burns that do not get well, and ill effects from burns. Cicatrices
fresen up; old injuries reopen. Skin prone to intertrigo during dentition.

Sleep.—Very drowsy; can hardly keep awake. Nocturnal sleeplessness, with dry heat, inquietude.

Relationship.—Causticum does not agree with Phosphorus; the remedies should not be used after each other.

Antidotes paralysis from lead-poisoning.
Complementary: Carbo.
Compare: Rhus; Arsenic; Amm. phos. (facial paralysis).

Modalities.—Worse, in clear, fine weather, cold air; from motion of carriage. Better, in damp, wet weather, warm air.

Dose.—Third to thirtieth attenuation.

CEANOTHUS.

(New Jersey Tea.)

This remedy seems to possess a specific relation to the spleen. A left-sided remedy generally.

Abdomen.—Enormous enlargement of the spleen. Splenitis; pain all up the left side. Violent dyspnœa. Menses profuse, and yellow leucorrhœa. Unable to lie on left side. Pain in liver.

Rectum.—Diarrhoea; bearing down in abdomen and rectum.

Urine.—Green; frothy; contains bile, sugar.

Relationship.—Compare: Tinospora cordifolia (a Hindoo medicine for chronic cases of fever with enlarged spleen). Polymnia uvedalia (acute splenitis with tenderness over left hypochondric region; spleen enlarged, ague cake).

Compare: Berberis.; Myrica; Cedron.
Modalities.—Worse, motion, lying on left side.
Dose.—First attenuation.

CEDRON.
(Rattlesnake Bean.)

Periodicity is the most marked characteristic of this drug. It has been found curative in malarial affections, especially neuralgia. Has powers of antidoting snake-bites and stings of insects. Tincture or pure bean scraped on wound.

Head.—Shooting over left eye. Pain from temple to temple across eyes. Pain over whole right side of face, coming on about 9 A.M. Severe pain in eyeball, with radiating pains around eye, shooting into nose. Crazy feeling from pain across forehead; worse, working on black. Roaring in ears produced by Cinchona. Whole body seems numb with headache.

Chest.—Convulsive pains at the heart; feels as if transfixed. Pain in chest through heart, with pain running toward spleen. Pain in left pectoral muscle and cartilages of left lower ribs. Sensation of a great weight on heart, and pricking pain. Hypertrophy of heart. Difficult sighing respiration.

Skin.—Itching of skin. [Dolich.; Sulph.]

Relationship.—Compare: Cactus; Spigel.; Kalmia; Cereus serpentinus. (Paralyzed feeling. Pains in heart, and dwindling of sexual organs. Emissions, followed by pain in testicles.)

Dose.—Third to sixth attenuation.

Cerium Oxalicum.

(Oxalate of Cerium.)

Spasmodic reflex vomiting and spasmodic coughs are within the sphere of this remedy. Vomiting of pregnancy, and of half-digested food. Whooping-cough, with vomiting and hemorrhage. Dysmenorrhea in fleasy, robust women. Better when flow is established. [Lach.]

Relationship.—Compare: Amygdal.; Lactic ac.; Ippecac.
CHAMOMILLA.

(German Chamomile.)

The chief guiding symptoms belong to the mental and emotional group which lead to this remedy in many forms of disease. Especially of frequent employment in diseases of children, where peevishness, restlessness, and colic give the needful indications.

Chamomilla is sensitive, irritable, thirsty, hot, and numb. Oversensitive from abuse of coffee and narcotics. Pains unendurable, associated with numbness.

Mind.—Whining restlessness. Child wants many things which he refuses again. Piteous moaning because he cannot have what he wants. Child can only be quieted when carried about and petted constantly. Impatient, intolerant of being spoken to or interrupted; extremely sensitive to every pain; always complaining. Spiteful, snappish. Complaints from anger. Mental calmness contra-indicates Chamom.

Head.—Throbbing headache in one-half of the brain. Inclined to bend head backward. Hot clammy sweat on forehead and scalp.

Ears.—Ringing in ears. Earache, with soreness; swelling and heat driving patient frantic. Stitching pain. Ears feel stopped.

Eyes.—Lids smart. Yellow sclerotica. Spasmodic closing of lids.

Nose.—Sensitive to all smells. Coryza, with inability to sleep.

Face.—One cheek red and hot; the other pale and cold. Stitches in jaw extending to inner ear and

**Throat.**—Parotid and submaxillary glands swollen. Constriction and pain, as from a plug.

**Mouth.**—Toothache, if anything warm is taken, from coffee, during pregnancy. Nightly salivation.

**Stomach.**—Eructations, foul. Nausea after coffee. Sweats after eating or drinking. Aversion to warm drinks. Tongue yellow; taste bitter. Bilious vomiting. Acid rising; regurgitation of food. Bitter, bilious vomiting. Pressive gastralgia, as from a stone. [Bry.; Abies n.]

**Abdomen.**—Distended. Griping in region of navel, and pain in small of back. Flatulent colic, after anger, with red cheeks and hot perspiration.

**Stool.**—Hot, green, watery, fetid, slimy, with colic. Chopped white and yellow mucus, like chopped eggs and spinach. Soreness of anus. Diarrhoea during dentition. Hæmorrhoids, with painful fissures.

**Respiratory.**—Hoarseness, hawking, rauniness of larynx. Irritable, dry, tickling cough; suffocative tightness of chest, with bitter expectoration in daytime.

**Extremities.**—Violent rheumatic pains drive him out of bed at night; compelled to walk about. Burn-
ing of soles at night. [Sulph.] Ankles give way in the afternoon.

Sleep.—Moaning, weeping, and wailing during sleep; anxious, frightening dreams, with half-open eyes.

Modalities.—Worse, by heat, anger, open air, wind, night. Better, from being carried, warm wet weather.

Relationship.—Compare: Anthemis; Aconite; Puls.; Coffea; Bellad.; Staphis.; Ignat. Follows Belladonna in diseases of children and abuse of opium.

Antidotes: Camph.; Nux; Puls.

Dose.—Third to thirtieth attenuation.

CHAPARRO AMARGOSO.

(Goat-bush.)

Chronic diarrhoea. Tenderness over liver. Stools little pain, but with much mucus. Dysentery.

Compare: Kali carb.; Cup. ars.; Caps.

CHELIDONIUM MAJUS.

(Celandine.)

A prominent liver remedy, covering many of the direct and reflex symptoms of diseased conditions of that organ. The jaundiced skin, and especially the constant pain under inferior angle of right scapula, are certain indications. The great general lethargy and indisposition to make any effort is also marked. Ailments brought on or renewed by change of weather. Serous effusions. Hydrocele.

Head.—Icy coldness of occiput from the nape of
neck. Heavy, lethargic; drowsiness very marked, with general numbness; vertigo, associated with hepatic disturbance. Inclination to fall forward. Right-sided headache down behind ears and shoulder-blade. *Neuralgia over right eye and right cheek-bone and right ear, with excessive lachrymation, preceded by pain in liver.*

**Nose.**—Flabbing of alæ nasi. [*Lyc.*]

**Eyes.**—Dirty yellow color of whites. Sore sensation on looking up. Tears fairly gush out. Orbital neuralgia of right eye, with profuse lachrymation; pupils contracted, relieved by pressure.

**Face.**—Yellow; worse nose and cheeks. Wilted skin.

**Stomach.**—Tongue yellow, with imprint of teeth; large and flabby. [*Merc.; Hyd.*] Taste bitter, pasty. Bad odor from mouth. *Prefers hot food and drink.* Nausea, vomiting; better, very hot water. **Abdomen.**—Distention. Constriction across, as by a string. Liver enlarged. *Pain under angle of right shoulder-blade.* Gall-stones. [*Berberis.*]

**Urine.**—Profuse, foaming, yellow urine, like beer. [*Chenop.*] Urine dark yellow, turbid.

**Stool.**—Constipation; stools hard, round balls, like sheep's dung, bright yellow, pasty; *alternation of diarrhoea and constipation.* Burning and itching of anus. [*Ratanh.; Sulph.; Teucr.*]

**Respiratory.**—Very quick and short inspirations; pain on deep inspiration. *Dyspnoea.* Whooping-cough; spasmodic cough; loose, rattling; expecto-

**Extremities.**—Pain in arms, shoulders, tips of fingers. Whole flesh sore to touch. Rheumatic pain in hips and thighs; intolerable pains in heels, as if pinched by too narrow a shoe; worse, right. Feels paralyzed. Paresis of the lower limbs with rigidity of muscles.

**Skin.**—Dry heat of skin; itches; yellow. Painful red pimples and pustules. Old spreading offensive ulcers. Wilted skin.

**Modalities.**—*Worse*, right side, motion, touch, change of weather, very early in morning. *Better*, after dinner, from pressure.

**Relationship.**—*Sulph.* often completes its work. Complementary: *Lycop.; Bryon.*

Antidote: *Chamom.*

Compare: *Nux; Sulph.; Bry.; Lyc.; Opium; Podophyl.; Sanguin.; Ars.*

**Dose.**—Tincture and lower attenuations.

**CHENOPODIUM ANTHELMINTICUM.**

*(Jerusalem Oak.)*

Characteristic pain in scapula very marked. Symptoms of apoplexy, right hemiplegia and aphasia. Stertorous breathing. [Opium.] Sudden vertigo. Ménière's disease. [Nat. salicyl.]

Chenopod.—Chen. glauci aphis.

Back.—Intense pain between angle of right shoulder-blade near spine, and through the chest.

Urine.—Copious, yellow, foaming urine, with acrid sensation in urethra. Yellowish sediment. [Chel.]

Relationship.—Compare: Chenopod. cum Terebinth.; Opium; China; Chelid.

Dose.—Third potency.

Chenopodii Glauci Aphis.

(Plant-Lice from Chenopodium.)

Head.—Sad; aching worse from motion. Brain seems swashed hither and thither. Coryza, with burning or biting in nostrils. Noise in ears, as of cannon. Yellow face. Orbital right neuralgia, with profuse lachrymation. Toothache, relieved by general warm sweat. [Cham.] Toothache extends to ear, temple, and cheek-bone. [Plantago.]

Stomach.—No appetite for meat and bread. Vesicles at end of tongue. Much mucus.

Stools.—Hard and knotty. Diarrhoea in morning, with painful urging and burning in anus, and pressure in rectum and bladder.

Back.—Severe pains in region of lower inner angle of left shoulder-blade, running into chest.

Fever.—Shuddering all over; burning in palms; hot sweat in bed.

Relationship.—Compare: Nat. sulph.; Nux.

Dose.—Sixth to thirtieth potency.
CHELONE—CHIMAPHILA UMBELLATA.

CHELONE.
(Snakehead.)

A remedy in liver affections with pain or soreness of the left lobe of the liver and extending downwards. Dumb age. Soreness of external parts, as if skin were off; debility.

Dose.—Tincture, in one to five drop doses.

CHIMAPHILA UMBELLATA.
(Pipsissewa.)

One of the remedies whose symptoms point to its employment in bladder affections, notably catarrh, acute and chronic. Scanty urine, and loaded with ropy muco-purulent sediment.

Skin.—Scrofulous ulcers. Glandular enlargements. [Calc.; Merc.; Phyt.]

Modalities.—Worse, in damp weather, from sitting on cold stones or pavements.

Relationship.—Compare: Chimaph. maculata (intense gnawing hunger; burning fever); Uva; Agn.

Dose.—Tincture, to third attenuation.
CHININUM ARSENICOSUM.

(Arsenite of Quinine.)

The symptom of general weariness and prostration produced by the drug have been utilized in prescribing it homœopathically as a general tonic, often with very marked beneficial and prompt effect. In diphtheria with great prostration, cases that are prolonged especially, and in malarial affections, neuralgia, etc., it has been found curative. Asthmatic attacks which recur periodically with great prostration. Icy skin. Pressure in the solar plexus, with tender spine back of it.

Mouth.—Tongue thickly furred; yellow slimy coating. Bitter taste. No appetite.

Stomach.—Alteration of hyperacidity and decrease of acid. Hyperchlorhydria. [Robinia; Arg. nit.; Orexine tannate.] Thirst for water, yet it disturbs.

Heart.—Palpitation. Sensation as if heart stopped. Suffocative attacks, occurring in periodic paroxysms. Must have open air.

Fever.—Continuous, with weakness. System depleted.

Relationship.—Compare: Chininum; also, Ferro-Citricum (in nephritis with great anaemia. Morbus maculosus Werlhofii;) Chinin. mur. (in severe neuralgic pains around eyes, with chills; exaggerated sensitiveness to alcohol and tobacco; prostration
and restlessness.) *E*no*thera*: (Effortless diarrhoea with nervous exhaustion; incipient hydrocephaloïd.)

Dose.—Second and third trituration.

**CHININUM SULPHURICUM.**

*(Sulphate of Quinine.)*

A dose of Chinin. sulph, in high potency sometimes arouses suppressed malaria and brings back the paroxysm. Aside from its undoubted influence over malaria, it is indicated homœopathically whenever there is marked periodicity and spinal sensitiveness. Acute articular rheumatism when at its height. Poly-articular gout.

Head.—Pain in forehead and temples, increasing gradually at noon, of malarial origin, with vertigo and pulsation. Worse left side. Falling in street. Inability to remain standing.

Ears.—Violent ringing, buzzing, and roaring in ears, with deafness.

Face.—Neuralgia commences under eye; extends into and around it. Pains return with great regularity; relieved by pressure.

Spine.—Great sensitiveness of the dorsal vertebrae; pain on pressure. Last cervical sensitive. Pain extends to head and neck.

Urine.—Bloody. Turbid, slimy, clay-colored, greasy sediment.

Skin.—Itching; erythema, urticaria, icterus, vescication, pustules, purpura. Great sensitiveness. Shriveled skin.

Fever.—Painful swelling of various veins during a chill. Shivering even in warm room. Anguish.
Sweat with general shivering. Trembling in limbs, with slow pulse.

Relationship.—Compare: Chin.; Salicyl. (Deafness, tinnitus, and Menière's disease.) Ars.; Eupat.; Methyl. blue. Camphor mono-bromide is said to intensify the action of Quinine and render it more permanent.

Antidotes: Natr. mur.; Lach.; Arn.; Puls.

Dose.—First to third trituration; also, thirtieth potency and higher.

CHIONANTHUS.

(Fringe-tree.)

This remedy is often of service in many types of headaches, neurasthenic, periodical sick, menstrual and bilious. The pain is in forehead, chiefly over eyes. Eyeballs very painful, with pressure over root of nose. Jaundice. Enlarged spleen. [Ceanoth.] Jaundice, with arrest of menses. A prominent liver remedy. Gall-stones. [Berberis; Cholest.; Calc.]

Head.—Listless, apathetic. Dull frontal headache, over root of nose, over eyes, through temples, worse stooping, motion, jar. Yellow conjunctiva.

Relationship.—Compare: Cinchona; Ceanoth.; Chelidon.; Carduus; Podophyl.; Lept.

Dose.—Tincture and first attenuation.
CHLORALUM.

(Chloral Hydrate.)

This drug, used in physiological doses, is a powerful hypnotic and cardiac depressant. It has a marked effect on the skin, producing erythema, ecchymosis, etc., which symptoms have been utilized homoeopathically with much success, especially in the treatment of hives. Night terrors in children.

Head.—Morning headache; worse in forehead, on motion; better in open air. Feeling as if hot band were drawn from temple to temple. Eyes bloodshot and watery. Circles of light, black spots. Dim vision. Conjunctivitis.

Skin.—Red blotches, like measles. Urticaria; worse, spirituous liquors, hot drinks. Erythema, aggravated by alcoholic drinks, with palpitation. Intense itching. Surface of body stone-cold. Wheals come on from a chill; better, warmth. Purpura. [Phos.; Crotal.]

Respiratory.—Extreme dyspnoea, with sensation of weight and constriction of chest. Asthma, with sleeplessness.

Relationship.—Antidotes: Ammon.; Atrop.; Dig.; Mosch.

Compare: Bell.; Opium; Apis.

Dose.—First trituration in hives; otherwise, higher potencies.

CHLORUM.

(Chlorine Gas in Water.)

The marked effect on the respiratory organs, producing spasm of the glottis, is the chief symptom of
the drug. Asthma, to relieve the spasm of glottis. Useful externally and internally in gangrene.

Respiratory.—Sooty, smoky nostrils. \([\text{Helleb.}]\)
Coryza with sudden gushes of sharp corroding fluid. \(\text{Constriction, with suffocation. Spasm of the glottis.}\)
Irritation of epiglottis, larynx, and bronchi. Loss of voice from damp air. \(\text{Sudden dyspnœa from spasm of the vocal chords, with staring eyes, blue face, cold sweat, pulse small. Inspiration free, with obstructed expiration. [Mephit.]}\)
Livid face. Prolonged loud whistling rales. Extreme dryness of tongue.

Dose.—Chlorine water, when required of full strength, must be freshly prepared. Fourth to sixth potency.

**CHOLESTERINUM.**

\(\text{(Cholesterine—The proximate principle.)}\)

For cancer of the liver. \(\text{Obstinate hepatic engorgements.}\)
Opacities of the vitreous. Jaundice; gall-stones.

Dose.—Third trituration.

**CHROMICUM ACIDUM.**

\(\text{(Chromic Acid.)}\)

Diphtheria, post-nasal tumors, and epithelioma of the tongue have been benefited by this drug. Bloody, foul-smelling lochia. Symptoms come and go suddenly, and return periodically.

Nose.—Ulcer and scabs in nose. Offensive smell. Corrosive pain. \(\text{Ozæna. [Aur.]}\)

Throat.—Diphtheria; sore throat. Tough mucus, with inclination to swallow it; worse, morning, causing hawking. Post-nasal tumors.
Stool.—Watery, frequent, copious, with nausea and vertigo. Haemorrhoids, internal and bleeding. Weakness in small of back.

Dose.—Third to sixth trituration.

CHRYSAROBINUM.

(Chrysopanic Acid.)

Used successfully in ringworm, syconis, psoriasis, herpes tonsurans, and circinatus. Acne rosacea. Eczema of lower extremities, with intense itching; profuse and offensive discharge. Used externally, it is a powerful stimulant and parasiticide in many skin affections.

Eyes.—Blepharitis, conjunctivitis, keratitis. Optical hyperæsthesia.

Ears.—Eczematous, scabby condition. Whole ear and surrounding tissue appears to be one scab.

Dose.—Locally, as a cerate, 4-8 grains to the ounce of vaseline. Internally, third to sixth potency.

CICUTA VIROSA.

(Water Hemlock.)

The action on the nervous system, producing spasmodic affections, viz.: hiccough, trismus, tetanus, and convulsions, give the pathological picture calling especially for this remedy whenever this is further characterized by the more individual symptoms of the drug. Among these are the bending of the head, neck, and spine backwards, and the general action of the patient is violent, with frightful distortions. Violent strange desires. Sensation of in-

Modalities.—Worse, excessive emotions (joy), narcotics, strong odors, noise, open air, night. Better, from lying down; holding ice in mouth.

Relationship.—Incompatible: Camph.; Coccul.; Ign.

Compare: Coffea tosta (excruciating facial neuralgia from decayed teeth); Acon.; Cham.; Nux; Cyp.

Strong black coffee, drank as hot as possible, is indispensable as an antidote in a large number of poisons, especially narcotics.

Antidotes: Nux; Tabac.

Dose.—Third to two hundredth potency.
COLCHICUM.

(Meadow Saffron.)

Affects markedly the muscular tissue, periosseum, and synovial membranes of joints. It seems to be more beneficial in chronic affections of these parts. The parts are red, hot, swollen. Tearing pains; worse, in the evening and at night and from touch; stubbing the toes hurts exceedingly. There is always great prostration, internal coldness, and tendency to collapse. Effects of night watching and hard study.

Mind.—External impressions, light, noise, odors, contact, bad manners make him miserable. Ailments from grief or misdeeds of others. When writing, omits syllables and words.

Face.—Pain in facial muscles, moving about. Tingling and œdematous swelling; cheeks red, hot, sweaty. Very irritable with the pains. [Cham.]

Stomach.—The smell of food causes nausea even to fainting, especially fish. Profuse salivary secretion. Vomiting of mucus, bile, and food; worse, any motion; great coldness in the stomach. Craving for various things, but is averse to them when smelling them, seized then with nausea. Gouty gastralgia. Abdomen immensely distended with gas. Burning or icy-coldness in stomach and abdomen.

Stool.—Painful, scanty, transparent, jelly-like mucus; pain, as if anus were torn open, with prolapse. Distention of abdomen, inability to stretch out legs. Autumnal dysentery; stools contain white shreddy particles in large quantities. Ineffectual pressing; feels faeces in rectum, but cannot expel them.
Urine.—Dark, scanty or suppressed; bloody, brown, black, inky; contains clots of putrid decomposed blood, albumin, sugar.

Heart.—Anxiety in region of heart. Impulse not felt. Pericarditis, with severe pain, oppression and dyspnoea, pulse threadlike.

Extremities.—Limbs lame, weak, tingling. Pain worse in evening and warm weather. Joints stiff and feverish; shifting rheumatism; pains worse at night. Inflammation of great toe, gout in heel, cannot bear to have it touched or moved. Tingling in the finger nails.

Modalities.—Worse, motion, loss of sleep, smell of food, in evening, mental exertion.

Relationship.—Antidotes: Camph.; Coccul.; Nux; Puls.

Compare: Colchicin (intestinal catarrh with shreddy membranes; convulsive jerkings of right hand; intense pain of rheumatism 2x trit.) Also, Carbo; Arnica; Lilium; Arsen.

Dose.—Third to thirtieth attenuation.

COLLINSONIA CANADENSIS.  
(Stone-Root.)

Pelvic and portal congestion, resulting in hæmorrhoids and constipation, especially in females. Chronic nasal, gastric, and pharyngeal catarrh, due to portal obstruction. Dropsy from cardiac disease. Pruritus in pregnancy, with piles. Constipation of children from intestinal atony.

Head.—Dull frontal headache; from suppressed hæmorrhoids. Chronic catarrh. Yellow-coated tongue. Bitter taste. [Colocy.; Bry.]
Rectum.—Sensation of sharp sticks in rectum. Most obstinate constipation, with protruding hæmorrhoids. Aching in anus and hypogastrium. Constipation during pregnancy; with membranous dysmenorrhœa, following labor. [Nux.] Painful bleeding piles. Dysentery, with tenesmus. Alternate constipation and diarrhoea, and great flatulence. Itching of anus. [Teucrium; Ratanh.]

Female.—Dysmenorrhœa; pruritus of vulva; pro- lapse of womb; swelling and dark redness of geni- tals; pain on sitting down. Membranous dysmen- orrhœa, with constipation.

Heart.—Palpitation; rapid but week. Dropsy. After heart symptoms relieved, piles or menses re- turn. Chest-pains alternate with hæmorrhoids. Op- pression, faintness, and dyspnœa. [Acon ferox.]

Modalities.—Worse, from the sightest mental emotion or excitement; cold.

Relationship.—Antidote: Nux.

Compare: Æscul.; Aloes; Hamam.; Lycopus; Ne- gundo; Sulph. Nux.

Dose.—Tincture, to third attenuation. Higher potencies where there is organic heart affection.

**COLOCYNTHIS.**

*(Squirting Cucumber.)*

Develops most of its symptoms in the abdomen and head, causing intense neuralgias. It is especially suitable for irritable persons easily angered and ill effects therefrom. Women with copious menstruation and of sedentary habits. Persons with a tendency to corpulency. The neuralgic pains are nearly always relieved by pressure. Cramps of the mus-
cles. Cysto-spasm following operations on orifices. [Hyper.] Urinous odor of perspiration. [Berb.; Nitr. ac.] Agonizing pain in abdomen, causing patient to bend double, is most characteristic. Sensations: Cutting, twisting, grinding, contracting and bruised, as if clamped with iron bands.

**Mind.**—Extremely irritable. Becomes angry when questioned. Mortification caused by offense. Anger, with indignation. [Cham.; Bry.; Nux.]

**Head.**—Vertigo when turning head to the left. Lateral cutting headache, with nausea, vomiting. Pains (better, pressure and heat), with soreness of scalp. Burning pains, digging, rending, and tearing. Frontal headache; worse, stooping, lying on back, and moving eyelids.

**Stomach.**—Very bitter taste. Tongue rough, as from sand, and feels scalded. Canine hunger. Feeling in stomach as if something would not yield; drawing pain.

**Abdomen.**—Agonizing cutting pain in abdomen, causing patient to bend over double, and pressing on the abdomen. Sensation as if stones were being ground together in the abdomen, and would burst. Intestines feel as if bruised. Colic with cramps in calves. Cutting in abdomen, especially after anger. Each paroxysm is attended with general agitation and a chill over the cheeks, ascending from the hypogastrium. Pain in small spot below navel. Dysenteric stool renewed each time by the least food or

Female.—Boring pain in ovary. Must draw up double, with great restlessness. Round, small cystic tumors in ovaries or broad ligaments. Wants abdomen supported by pressure. Bearing-down cramps, causing her to bend double. [Opium.]

Urine.—Viscid [Phos. acid], fetid; small quantities, with frequent urging. Itching at orifice. Red, hard crystals, adhering firmly to vessel. Tenesmus of bladder. Pains on urinating over whole abdomen.

Modalities.—Worse, from anger and indignation. Better, doubling up, hard pressure, warmth, lying with head bent forward.

Dose.—Third to thirtieth potency.

COMMOCLADIA DENTATA.

(Guaco.)

Important eye and skin symptoms. Affections of antrum.
Eyes.—Ciliary neuralgia, with eyes feeling large and protruded, especially right. Pain in right eye; worse, near warm stove; feels as if pressed outward. Sees only glimmer of light with left eye.

Face.—Swollen, with eyes projecting.

Skin.—Itches, red and pimples. Redness all over, like scarlatina. Erysipelas. Deep ulcers, with hard edges. Leprosy. Red stripes on skin. [Euphorb.] Eczema (papular) of the trunk and extremities; also pustular type.

Chest.—Acute pain in left mammary gland. Pain from right side of chest down arm to fingers. Cough with pain under left breast, going through to left scapula.

Modalities.—Better, open air, scratching; by motion. Worse, touch, warmth, rest; night.

Relationship.—Compare: Rhus; Anacard. Euphorb.

Dose.—First to thirtieth potency.

CONDURANGO.

(Condor Plant.)

Painful crack in corner of mouth is a guiding symptom to this drug. Chronic gastric catarrh, syphilis, and cancer. Tumors; stricture of oesophagus. The active principle produces loco-motor ataxia.

Stomach.—Painful affections of the stomach; ulceration. Vomiting of food, and indurations, constant burning pain. Stricture of oesophagus, with burning pains behind sternum, where food seems to stick.
Relationship.—Compare: Asterias; Conium; Hydrast.; Arsenic.

Dose.—Tincture.

CONIUM.

(Hemlock.)

An old remedy, rendered classical by Plato's graphic description of its employment in the death of Socrates. The ascending paralysis it produces, ending in death by failure of respiration, shows the ultimate tendency of many symptoms produced in the provings, for which Conium is an excellent remedy, such as difficult gait, trembling, sudden loss of strength while walking, painful stiffness of legs, etc. Such a condition is often found in old age, a time of weakness, languor, local congestions, and sluggishness. This is the special environment that Conium chooses to manifest its action. It corresponds to the debility, hypochondriasis, urinary troubles, weakened memory, sexual debility found here. Troubles at the change of life, old maids and bachelors. Growth of tumors invite it also. General feeling as if bruised by blows. Weakness of body and mind, trembling, and palpitation. Cancerous diathesis. Caries of sternum. Enlarged glands. Tonic after grippe.

Mind.—Excitement causes mental depression. Depressed, timid, averse to society, and afraid of being alone. No inclination for business or study; takes no interest in anything. Memory weak; unable to sustain any mental effort.

Head.—Vertigo when lying down and when turning over in bed, when turning head sidewise, on turn-
ing eyes; worse, shaking head, slight noise or conversation of others, especially towards the left. Headache, stupefying, with nausea and vomiting of mucus, with a feeling as of foreign body under the skull. Scorched feeling on top. Tightness as if both temples were compressed; worse after a meal. [Gels.; Atropine.] Bruised semilateral pains.

Eyes.—Photophobia and excessive lachrymation. Corneal pustules. Dim-sighted; worse, artificial light. On closing eyes, he sweats. Paralysis of ocular muscles. [Caust.] In superficial inflammations as in phlyctenular conjunctivitis and keratitis. The slightest ulceration or abrasion will cause the intensest photophobia.

Nose.—Bleeds easily—becomes sore. Polypus.

Ears.—Defective hearing; discharge from ear like decayed paper.

Stomach.—Soreness about the root of tongue. Terrible nausea, acrid heartburn, and acid eructations; worse on going to bed. Painful spasms of the stomach.

Abdomen.—Severe aching in and around the liver. Chronic jaundice and pains in right hypochondrium. Sensitive, bruised, swollen, knife-like pains. Painful tightness.

Stool.—Frequent urging; hard, with tenesmus. Tremulous weakness after every stool. [Verat.; Ars.; Arg. n.] Heat and burning in rectum during stool.

Urine.—Much difficulty in voiding. It flows and stops again. [Sedum.] Interrupted discharge. [Clematis.] Dribbling in old men. [Copaiba.]

Male.—Desire increased; power decreased. Sexual nervousness, with feeble erection. Effects of
suppressed sexual appetite. Testicles hard and enlarged.

**Female.**—Dysmenorrhea, with drawing-down thighs. Mammæ lax and shrunken, hard, painful to touch. Stitches in nipples. Wants to press breast hard with hand. Menses delayed and scanty; parts sensitive. Breasts enlarge and become painful before and during menses. [Calc. c.; Lac. can.] Rash before menses. Itching around pudenda. Unready conception. Induration of os and cervix. Ovaritis; ovary enlarged, indurated; lancinating pain. Ill effects of repressed sexual desire or suppressed menses, or from excessive indulgence.

**Respiratory.**—Dry cough, almost continuous, hacking; worse, evening and at night; caused by a dry spot in larynx with itching in chest and throat, when lying down, talking or laughing, and during pregnancy. Expectoration only after long coughing. Want of breath on taking the least exercise; oppressed breathing, constriction of chest; pains in chest.

**Extremities.**—Heavy, weary, paralyzed; trembling; hands unsteady; fingers and toes numb. Muscular weakness especially of lower extremities. Perspiration of hands. Putting feet on chair relieves pains.

**Skin.**—Axillary glands pain, with numb feeling down arm. Yellow skin, with papular eruption; yellow finger-nails. Glands enlarged and indurated, also mesenteric. Flying stitches through the glands. Tumors; piercing pains; worse, at night. Chronic ulcers with fetid discharge. Sweat as soon as one sleeps, or even when closing eyes.

**Modalities.**—Worse, lying down, turning or rising
CONVALLARIA MAJALIS.

(Lily of the Valley.)

A heart remedy. Increases energy of heart's action, renders it more regular. Of use when the ventricles are overdistended and dilatation begins, when there is an absence of compensatory hypertrophy, and when venous stasis is marked.

Face.—Hydroa in nose and lips; raw and sore. Epistaxis. Sees imaginary gray spot about three inches square.

Mouth.—Grating of teeth in the morning. Coppery taste. Tongue feels sore and scalded; broad and thick with heavy dirty coating.

**Relationship.**—Compare: _Ambra; Kali brom.; Cinchona._ _Fer. cit. et Chin._

**Dose.**—Third attenuation.

**CYPRIPEDIIUM.**

(Yellow Lady's Slipper.)

The skin symptoms correspond to those of poisoning by Rhus, for which it has been found an efficient
antidote. Nervousness in children; from teething and intestinal troubles. Debility after gout.

Head.—Child cries out at night; is wakeful, and begins to laugh and play. Sleeplessness.

Relationship.—Compare: Ambra; Kali brom.; Scutellar.; Valerian; Ignat. Skin relatives: Grindelia; Anacard.

Dose.—Tincture, to sixth attenuation.

DAPHNE INDICA.

(Spurge Laurel.)

Acts on lower tissues, muscles, bones, and skin. Sudden, lightning-like jerks in different parts of the body. Craving for tobacco. Parts of the body feel separated. [Bapt.] Fetid breath, urine, sweat.

Head.—Feels as if skull would burst; as if head were separated from body. Heat in head, especially in vertex. Tongue coated on one side only [Rhus]; foul-smelling; ptyalism hot.

Urine.—Thick, turbid, yellowish, like rotten eggs.

Extremities.—Right toe swollen, painful. Pain shoots upward into abdomen and heart. Rheumatic pain in thighs and knees. Cold feeling on buttocks. Shooting pains, shift rapidly; worse, cold air.

Sleep.—Entire inability to sleep, sometimes caused by aching in bones. Dreams, with nightmare.

Dose.—First to sixth attenuation.
DIGITALIS.

(Foxglove.)

 Comes into play in all diseases where the heart is primarily involved, where the pulse is weak, irregular, intermittent, abnormally slow, and dropsy of external and internal parts. Weakness and dilatation of the myocardium. Other symptoms of organic heart disease, such as great weakness and sinking of strength, faintness, coldness of skin, and irregular respiration; cardiac irritability and ocular troubles after tobacco; jaundice from induration and hypertrophy of the liver, frequently call for Digitalis. Faint, as if dying. Bluish appearance of face. Cardiac muscular failure when asystole is present. Prostration from slight exertion. Collapse.

Mind.—Despondency; fearful, anxious about the future. Dullness of sense. Every shock strikes in epigastrium.

Head.—Vertigo when walking and on rising. Sharp, shooting frontal pain, extending into nose, after drinking cold water or eating ice-cream. Heaviness of head, with sensation as if it would fall backward. Face bluish. Confusion and fullness and noise in head. Cracking sounds during a nap.

Eyes.—Blueness of eyelids. Dark bodies, like flies, before eyes. Objects appear green and yellow.

Stomach.—Sweet taste, with constant ptyalism. Excessive nausea, not relieved by vomiting. Faintness, great weakness in stomach. Burning in stomach extending to oesophagus. After cold water or ice-cream sharp pain in forehead, extending to nose. Faintness and vomiting from motion. Discomfort, even after a small quantity of food, or from mere

**Abdomen.**—Pain in left side apparently in descending colon and under false ribs. Severe abdominal pains, pulsation in abdominal aorta, and epigastric constriction.

**Stool.**—*White, chalk-like, ashy, pasty stools.* Diarrhoea during jaundice.

**Urine.**—Continued urging, in drops, dark, hot, burning, with sharp cutting or *throbbing* pain at neck of bladder; worse at night. Suppressed. Ammoniacal, and turbid. *Urethritis,* phimosis, strangury. Full feeling after urination. Constriction and burning, as if urethra was too small. Brick-dust sediment.

**Female.**—Labor-like pains in abdomen and back before menses. Uterine haemorrhage.

**Male.**—Nightly emissions [*Digitalin*], with great weakness of genitals after coitus. Hydrocele; scrotum enlarged like a bladder. Gonorrhoea, balanitis [*Merc.*], with oedema of prepuce. Dropsical swelling of genitals. [*Sulph.*]

**Heart.**—The least movement causes violent palpitation, and sensation as if it would cease beating, if he moves. [Opposite: *Gels.*] Frequent stitches in heart. *Very slow pulse.* Intermits; weak.
Cyanosis. Inequality of pulse; it varies. **Sudden sensation as if heart stood still. Pulse weak, and quickened by least movement.** Peridicarditis, copious serous exudation.

**Sleep.**—Starts from sleep in alarm that he is falling from a height. Continuous sleepiness.

**Fever.**—Sudden flushes of heat, followed by great nervous weakness.

**Skin.**—Blue distended veins on lids, ears, lips, and tongue. *Dropsical.* Itching and jaundiced.

**Modalities.**—**Worse,** when sitting erect, after meals and music. **Better** when stomach is empty; in open air.

**Relationship.**—**Antidotes:** *Camph.; Serpentaria.* Incompatible: *China.* Compare: *Convall.; Adonis; Crataegus* (a true heart tonic); *Nerium odoratum* (palpitation, strengthens a weak heart); *Kalmia; Spigel.; Apocyn.; Liatris; Stroph.* Compare, also: *Digitoxinum,* (Digitalin dissolved in Chloroform), which has yellow vision very marked and distressing nausea, aggravated by champagne and aerated waters. *Nitri. spir. dulc.* increases action of Digit.

*Convallaria* (heart disease with vertigo and digestive disturbances).

**Dose.**—The third to thirtieth attenuation will bring about reaction when the drug is homoeopathically indicated; but for palliative purposes the physiological dosage is required. For this purpose, the tincture made from the *fresh* plant in doses of five to
fifteen drops, when the cardiac stimulation is desired, or the infusion 1\(\frac{1}{2}\) per cent. Dose, one-half to one ounce if the diuretic action is wanted. The tincture may be given on sugar or bread, and nothing liquid be taken for twenty minutes before or after its administration.

**Dioscorea Villosa.**

(Wild Yam.)

As a remedy for many kinds of pain, especially colic, it ranks with the polychrests of the Materia Medica. Persons of feeble digestive powers; teadrinkers, with much flatulence.

**Mind.**—Calls things by the wrong name.

**Head.**—Dull pain in both temples; better pressure, but worse afterwards.

**Stomach.**—Belching of large quantities of offensive gas. Neuralgia of stomach. *Pain along sternum and extending into arms.* Eructations of sour, bitter wind, with hiccough. Sharp pain in epigastrium, relieved by standing erect.

**Abdomen.**—Rumbling, with emission of much flatus. Gripping, cutting in hypogastric region, with intermittent cutting in stomach and small intestines. Colic; better walking about; pains radiate from abdomen to back, chest, arms; worse, bending forwards and while lying. Gall-stone colic. *Sharp pains from liver, shooting upward to right nipple.* Pain from gall-bladder to chest, back, and arms. Renal colic, with pain in extremities.

**Heart.**—Angina pectoris; pain back of sternum into arms; labored breathing; feeble action of heart.

**Rectum.**—Hæmorrhoids, with darting pains to
liver; look like bunches of grapes or red cherries; protrude after stool, with pain in anus. Diarrhoea, (worse in morning) yellowish, followed by exhaustion. Itching of rectum. [Collins; Æscul.] Sensation as if flatus and faeces were hot.

**Male.**—*Relaxation and coldness of organs.* Pains shoot into testicles from region of kidneys. *Strong-smelling sweat* on scrotum and pubes. *Emissions* in sleep or from sexual atony, with *weak knees.*

**Female.**—Uterine colic; pains radiate from uterus. Vivid dreams.

**Extremities.**—Lameness in back; worse, stooping. Aching and stiffness in joints. Sciatica; pains shoot down thigh; worse, right side; better, when perfectly still. *Felons* in beginning, when prickling is first felt. Nails brittle. Cramps in flexors of fingers and toes.

**Modalities.**—*Worse,* evening and night, *lying down,* and *doubling up.* Better, standing erect, motion, in open air; *pressure.*

**Relationship.**—Antidotes: *Chamom.*; *Camph.*
Compare: *Colocy.* (differs in modalities); *Nux; Cham.*; *Bry.*

Dose.—Tincture, to third potency.

**DIPHTHERINUM.**

*(Antitoxin.)*

Adapted to patients prone to catarrhal affections of respiratory organs, scrofulous individuals. Diphtheria, laryngeal diphtheria, post-diphtheritic paralysis. Malignancy from the start. Glands swollen; tongue red, swollen; breath and discharges very offensive. Diphtheritic membrane thick, dark.
DIPHTH.—DOLICHOS—DORYPHORA.

Taxis; profound prostration. Swallows without pain, but fluids are vomited or returned by the nose.

Dose.—Thirtieth, two hundredth or C. M. potency. Must not be repeated too frequently.

DOLICHOS PRURIENS.
(Cowhage.)

A right-sided medicine, with pronounced liver and skin symptoms. A general intense itching without eruption. Exalted nervous sensibility.

Throat.—Pain in throat, worse swallowing, below right angle of jaw, as if splinter were imbedded vertically. Pain in gums prevents sleep.

Bowels.—Colic from getting feet wet. Constipation, with intense itching; bloated abdomen. White stools.

Skin.—Intense itching, with no swelling or rash. Jaundice. Yellow in spots; itching excessively at night. Herpes zoster. [Ars.]

Modalities.—Worse, at night, scratching.

Relationship.—Compare: Rhus; Bell.; Hep.; Nit. ac.; Fagopyr.

Dose.—Sixth to thirtieth potency.

DORYPHORA.
(Colorado Potato-Bug.)

The center of this drug's action seems to be in the urinary organs, and hence its employment in gonorrhoea and gleet. Urethritis in children from local irritation and gleet. Great trembling in extremities. Prostration. Swelling of body. Burning sensation.

Relationship.—Antidote: Stram.
Compare: Agar.; Apis; Canth.; Lach.; Coccion.
Dose.—Sixth to thirtieth potency.

DROSERA.
(Sundew.)

Affects markedly the respiratory organs, and was pointed out by Hahnemann as the principal remedy for whooping-cough. Laryngeal phthisis is benefited by it. Phthisis pulmonum. Pains about hip-joint.

Head.—Vertigo when walking in open air, with inclination to fall to the left side. Coldness of left half of face, with stinging pains and dry heat of right half.

Respiratory Organs.—Spasmodic dry cough, like whooping-cough, the paroxysms following each other very rapidly; can scarcely breathe; chokes. Cough very deep and hoarse; worse, after midnight; yellow expectoration, with bleeding from nose and mouth; retching. Deep, hoarse voice; hoarseness; laryngitis. Rough, scraping sensation deep in the fauces and soft palate. Sensation as if crumbs were in the throat, of feather in larynx. Laryngeal phthisis, with rapid emaciation. Harassing and titillating cough in children,—not at all through the day, but commences as soon as the head touches the pillow at night. Clergyman’s sore throat, with rough, scraping, dry sensation deep in the fauces; voice hoarse,
deep, toneless, cracked, requires exertion to speak. 
*Asthma when talking,* with contraction of the throat 
at every word uttered.

**Extremities.**—Paralytic pains in the coxo-femoral 
joint and thighs. Stiffness in joints of feet. All 
limbs feel lame.

**Fever.**—Internal chilliness; shivering, with hot 
face, cold hands, no thirst. Is always too cold, even 
in bed.

**Modalities.**—*Worse,* after midnight, lying down, 
on getting warm in bed, drinking, singing, laughing.

**Relationship.**—Antidote: *Camph.* 
Compare: *Chelid.; Corall.; Cupr.; Castanea; Ar- 
gent.; Menyanth.*

**Dose.**—First to third attenuation.

---

**DUBOISIA.**

*(Corkwood Tree.)*

Acts chiefly on the nervous system, eyes, upper 
respiratory tract. Recommended in pharyngitis 
sicca with black stringy mucus. It dilates the pupil, 
dries the mouth, checks perspiration, causes head-
ache and drowsiness. On the eye it acts more 
promptly than Atropa, much stronger as a my-
driatic. *Red spot floats in the field of vision.* Sensa-
tion as if stepping on empty space: Scarlet fever; 
loco-motor ataxia.

**Mind.**—Absent minded, incoherent, *silly and non-
sensical,* memory impaired.

**Head.**—Impossible to stand with eyes shut, ten-
dency to fall backwards.

**Eyes.**—*Conjunctivitis,* acute and chronic.  *Hy-
peræmia of retina; fundus red, blood-vessels full and tortuous; pupils dilated, with dim vision. Pain over eye; between it and brow.

Respiratory.—Larynx dry, voice hoarse, phonation difficult. Dry cough with oppressed breathing.

Extremities.—Loss of power in limbs, staggers; feels as if he stepped on empty space. Trembling, numbness and weakness.

Relationship.—Has been used as a substitute for Atropia in doses of 1–8o to 1–2o of a grain hypodermically. Antidotes: Morphia; Pilocarp. Compare: Bellad.; Stram.; Hyos.

Dose.—Third attenuation.

DULCAMARA.

(Bitter-Sweet.)

Hot days and cold nights towards the close of summer are especially favorable to the action of Dulcamara, and is one of the remedies that correspond in their symptoms to the conditions found as effects of damp weather, colds after exposure to wet, especially diarrhoea. It has a specific relation also to the skin, glands, and digestive organs, mucous membranes secreting more profusely while the skin is inactive. The rheumatic troubles induced by damp cold are aggravated by every cold change and somewhat relieved by moving about. Results from sitting on cold, damp ground. Congestive headache, with neuralgia and dry nose. Patients living or working in damp, cold basements. [Nat. sulph.]

Head.—Mental confusion. Rejects things asked for. Back part of head chilly, heavy, aching, dur-
ing cold weather. Ringworm of scalp. Scalphead, thick brown crusts, bleeding when scratched.

**Nose.**—Dry coryza. Complete stoppage of nose. Stuffs up when there is a cold rain. Thick yellow mucus, bloody crusts. Profuse coryza. Wants nose kept warm, least cold air stops the nose.

**Eyes.**—Every time he takes cold it settles in eyes. Thick yellow discharge; granular lids. Hay-fever; profuse watery discharge, worse in open air.

**Ears.**—Earache, buzzing, stitches, and swelling of parotids. Middle-ear catarrh. [**Merc. dulc.**; **Kal. mur.**]

**Mouth.**—Saliva tenacious, soapy. Dry, rough tongue, rough scraping in throat, after taking cold in damp weather. Cold-sores on lips. Facial neuralgia; worse, slightest exposure to cold.

**Face.**—Tearing in cheek extending to ear, orbit and jaw, preceded by coldness of parts, and attended by canine hunger. Humid eruption on cheeks and face generally.

**Abdomen.**—Colic from cold. Cutting pain about navel. Swelling of inguinal glands. [**Merc.**]

**Stool.**—Green, watery, slimy, bloody, mucous, especially in summer, when the weather suddenly becomes cool; from damp cold weather and repelled eruptions.

**Urine.**—Must urinate when getting chilled. Strangury, painful micturition. Catarrh of bladder from
taking cold. Urine has thick, purulent sediment. Ischuria from wading with bare feet in cold water.

Female.—Suppression of menses from cold or dampness. Before appearances of menses a rash appears on skin, or sexual excitement. Dysmenorrhœa, with blotches all over; mammae engorged and sore, delicate, sensitive to cold.

Respiratory.—Cough worse cold wet weather, with free expectoration, tickling in larynx. Cough, hoarse, spasmodic. Whooping-cough, with excessive secretion of mucus. Winter coughs, dry, teasing. Asthma with dyspnoëa. Loose, rattling cough; worse wet weather. Must cough a long time to expel phlegm.

Back.—Stiff neck. Pain in small of back, as after long stooping. Stiffness and lameness across neck and shoulders, after getting cold and wet.

Extremities.—Paralysis; paralyzed limbs, feet icy cold. Warts on hands. Pain in shin-bones. Rheumatism alternates with diarrhoea.

Skin.—Adenitis. Pruritus always worse in cold wet weather. Herpes zoster, pemphigus. Swelling and indurated glands from cold. Vesicular eruptions. Sensitive bleeding ulcers. Little boils. Red spots, urticaria, brought on by exposure or sour stomach. Humid eruptions on face, genitals, hands, etc. Warts, large, smooth, on face and hands. Anasarca. Thick brown-yellow crusts, bleeding when scratched.

Modalities.—Worse at night; from cold in general, damp, rainy weather. Better, from moving about, external warmth.

Relationship.—Antidotes: Camph.; Cupr.
Incompatible: Bellad.; Laches.
Compare: Pimpinella (lumbago and stiff neck; pain from nape to shoulder; chilliness). Rhus; Cimicif.; Calc.; Puls.; Bry.; Nat. sulph.

Dose.—Second to thirtieth potency.

ECHINACEA.
(Purple Cone-Flower.)

Head.—Confused, depressed. Aches with a peculiar periodical flushing of the face, even to the neck; dizziness and profound prostration.

Nose.—Foul-smelling discharge, membranous formations protruding.

Mouth.—Canker, gums recede and bleed easily, corners of mouth and lips crack; tongue dry and swollen; sordes. Tongue, lips, and fauces tingle, with sense of fear about heart. [Acon]. White coating of tongue, with red edges.

Stomach.—Sour, belching and heartburn. Nausea; better lying down.

Throat.—Tonsils purple or black, gray exudation extending to posterior nares and air-passages.
Chest.—Pain as of a lump in chest and under sternum. Pain in pectoral muscles. [Aristolochia.]

Urine.—Albuminous, scanty, frequent and involuntary.

Female.—Puerperal septicæmia; discharges suppressed; abdomen sensitive and tympanitic.

Skin.—Recurring boils. Carbuncle. Insect bites and poisonous plants. Lymphatics enlarged.

Fever.—Chilliness, with nausea. Cold flashes all over back.

Relationship.—Compare: Ars.; Laches.; Baptis.; Rhus; Cistus.

Dose.—Tincture, one to five drops, every two hours, and larger doses.

Locally, as a cleansing and antiseptic wash.

ELAEBIS.

(Avoria.)

Skin.—Thickened, itching, hardened.

Relationship.—Compare: Hydrocotyle; Anacard.; Arsenic.

Chest.—Coldness in chest after drinking. Hæmorrhage from lungs, black as ink and watery; stitches in apex of right lung. Fainting caused by stooping. Peeling off of skin from palms and fingers. Cough, with terrible pain through lungs. Sensation of a sponge in oesophagus.

Stomach.—Feels cold. Sensation as if food turned like a corkscrew on swallowing; desire for sweetened buttermilk.

Female.—Dysmenorrhœa, with black blood. Discharge of black blood between menses. Itching of vulva and vagina.

Sleep.—Dreams about dead persons.
Extremities.—Icy-cold feet. Glands and skin of axillae affected.

Fever.—Cold perspiration all over. Typhoid, when ulcers have eaten into tissues, and black blood is discharged.

Relationship.—Compare: Kino (offensive dark discharge from right ear); Crotalus; Alumen; Carbo; Ars.; Lach.

Dose.—Sixth to thirtieth potency.

ELATERIUM.

(Wild Cucumber.)

This is an invaluable remedy in violent vomiting and purging, especially if the evacuations are copious and watery. It is a very efficient remedy in certain forms of dropsy. Much yawning and stretching. Beriberi; choleraic conditions; urticaria and mental disorders coming on as a consequence of suppressed malaria. Irresistible desire to wander from home at night.

Stomach.—Nausea and vomiting, with great weakness. Griping pains in bowels.

Stool.—Watery, copious, forceful. Squirt ing diarrhoea; frothy, olive green, with cutting in abdomen.

Skin.—Smarts, stings, and burns. Dropsical. Urticaria from suppressed intermittent.

Fever.—Chill comes on with much yawning and stretching, lasting all through chill. Pain in extremities, darting into fingers and toes. Chills and fever, with spurting diarrhoea.

Modalities.—Worse, from exposure on damp round.
Relationship.—Compare: *Bry.*; *Croton*; *Gambog.*

Dose.—Third to thirtieth potency. As a hydragogue cathartic to produce free discharge in dropsies, Elaterin 1–20 of a grain. Palliative only.

**EPIGEA.**

*(Trailing Arbutus.)*

Chronic cystitis, with *dysuria*; tenesmus after micturition; *mucopus and uric acid deposit*, gravel, renal calculi.

Relationship.—Compare: *Uva*; *Chimaph.*; *Lyc.*; *Pareira.*

Dose.—Tincture, in 10–20 drop doses, every three hours.

**EPIPHEGUS.**

*(Beechdrop.)*

A remedy for sick, neurasthenic, and nervous headaches, especially in women, brought on or made worse by exertion, shopping, etc. Tongue coated yellow; bitter taste. Drowsy after meals. Loose stools.

Head.—Pressing pain in temples from without inwards; worse, left side. *Viscid salivation*; constant inclination to spit.

Modalities.—*Worse*, from working in open air. *Better*, from sleep.

Relationship.—Compare: *Fagus*—Beech-nuts—(headache and salivation; swelling of mouth; dread of water).

Dose.—First to third potency.
EQUISETUM—BRECHTITES—ERIGERON.

EQUISETUM.
(Scouring-Rush.)

A remedy for enuresis and dysuria.

Urinary.—Severe dull pain in bladder, not relieved by urinating. Frequent urging, with severe pain at the close of urination. Urine flows only drop by drop. Sharp, burning, cutting pain in urethra while urinating. Paralysis of bladder in old women.

Relationship.—Compare: *Ferr. phos.; Apis; Canth.; Linaria.*

Dose.—Tincture, to third potency.

ERECHTITES.
(Fire-Weed.)

Skin.—*Symptoms like Rhus poisoning.*

Relationship.—Compare: *Erig.; Millef.; Hamam.; Rhus.*

ERIGERON.
(Fleabane.)

Hæmorrhages are caused and cured by this remedy. Persistent hæmorrhage from the bladder. Hæmorrhage from the uterus, with painful micturition. Profuse bright-red blood. Pain in left ovary and hip. Chronic gonorrhoea, with burning micturition; continual dribbling. Dysentery, with soreness and burning in bladder. *Tympanites.*
Female.—Metrorrhagia, with violent irritation of rectum and bladder, and prolapsus uteri. Bright-red flow. Profuse leucorrhœa; bloody lochia returns after least motion, comes in gushes; between periods, leucorrhœa with urinary irritation; bleeding hæmorrhoids; nosebleed instead of menses. [Bry.]

Modalities.—Worse, left side.

Dose.—Tincture, to third potency.

ERIODICTYON.

(Yerba Santa.)

Respiratory.—Wheezing; asthma, with coryza and mucous secretions. Dull pain in right lung. Burning in fauces.

Male.—Sore, dragging in testicles, could not bear any pressure; better gentle support.

Relationship.—Compare: Grind.; Aral.; Eucalyp.; Ipec.

Extremities.—Rheumatic pains; worse at night, walking or carrying anything. Stiff, weary sensation. Pricking sensation, followed by painful aching. Nodular swellings over metacarpal and metatarsal joints.

Skin.—Glandular enlargements and nodular swelling over joints. Foul and indolent ulcers.

Fever.—Elevation of temperature. Typhoid.

Relationship.—Compare: Eucalyptol (depresses temperature of healthy body more than Quinine; acts on kidneys like Terebinth); Hydrest.; Kali sulph. Eucalyptus neutralizes ill effects of Strychinin.

Dose.—Tincture, and lower potencies. Also Oil of Eucalyptus, in five-drop doses. Locally, in catarrhal affections, especially when of a suppurating or putrid nature.
EUGENIA JAMBOS.

(Rose-Apple.)

Acne, simple and indurated. The pimples are painful for some distance around. Acne rosacea. Nausea; better smoking. Comedones.

Head.—Headache, as if a board were lying on right side. Talkative. Hot lachrymation.

Extremities.—Nightly cramp in soles of feet. [Cupr.; Zing.] Skin cracks about toes.

Relationship.—Compare: Antim.; Berb. aquif.

EUONYMUS ATROPURPURAUS.

(Wahoo.)

Has been used in headaches, chronic catarrh, dyspepsia, and albuminuria. Has a positive action on the liver, increasing the secretion of bile.

Head.—Bilious headache; coated tongue, bad taste, constipation. Vertigo and obscure vision and gastric derangement associated with albuminuria.

Stool.—Constipation, with hæmorrhoids and severe backache. Diarrhoea; stools variable and profuse, bloody.

Abdomen.—Pain about umbilical region.

Relationship.—Podophyl.; Ammon. pic.; Chel. Euonymin 1 x trit. for albuminuria.

Dose.—Tincture and lower attenuations.
EUPATORIUM AROMATICUM.

(Pool-Root.)

Relationship.—Hyosc.; Passiflor.; Hydr. mur.

Dose.—Tincture, locally, in sore mouth and sore nipples. Internally, tincture to third attenuation.

EUPATORIUM PERFOLIATUM.

(Thoroughwort.)

Known as "Bone-set," from the prompt manner in which it relieves pain in limbs and muscles that accompanies some forms of febrile disease, like malaria and influenza. Eupatorium acts principally upon the gastro-hepatic organs and bronchial mucous membranes. It is a boon in miasmatic districts, along rivers, marshes, etc., and in all conditions where there is a great deal of bone-pain. Cachexia from old chronic bilious intermittents. Worn-out constitutions from inebriety. Sluggishness of all organs and functions. Bone-pains, general and severe. Soreness. Marked periodicity. [Ars.; China; Cedron.]

Head.—Throbbing pain. Pressure as if a cap of lead pressed over the whole skull. Vertigo; sensation of falling to left. Vomiting of bile. Top and back of head, with pain and soreness of eyeballs. Periodical headache, every third and seventh day. Occipital pain after lying down, with sense of weight.

Stool.—Frequent, green, watery. Cramps. Constipated, with sore liver.

Respiratory.—Coryza, with sneezing. Hoarseness and cough, with soreness in chest; must support it. Influenza, with great soreness of muscles and bones. Chronic loose cough, chest sore; worse at night. Cough relieved by getting on hands and knees.

Fever.—Perspiration relieves all symptoms except headache. Chill between 7 and 9 A.M., preceded by thirst, with great soreness and aching of bones. Nausea; vomiting of bile at close of chill or hot stage; throbbing headache. Knows chill is coming on because he cannot drink enough.

Modalities.—Worse, periodically. Better, by conversation, by getting on hands and knees.

Relationship.—Compare: Bryon.; Sepia; Natr. mur.; Chelidon. Nyctanthes arbor-tristis (bilious fever; insatiable thirst; bitter vomiting at close of chill); also constipation of children [Collinson].

Dose.—Tincture, to sixth attenuation.
EUPATORIUM PURPUREUM.

(Queen of the Meadow.)

Albuminuria, diabetes, strangury, irritable bladder, enlarged prostate are a special field for this remedy. Excellent in renal dropsey. Chills and pains run upwards. Impotency and sterility. Homesickness.

Back.—Weight and heaviness in loins and back.

Female.—Pain around left ovary. Threatened abortion. External genitals feel as though wet.

Relationship.—Compare: Senecio; Cannab. sat.; Helon.; Phos. ac.; Triticum; Epigea.

Dose.—First potency.

EUPHORBIA LATHYRIS.

(Gopher-Plant.)

The symptoms point to its use in erysipelas, poison-oak, whooping-cough.

Mind.—Delirium and hallucinations. Stupor; coma.

Eyes.—Almost closed from œdema of lids.

Nose.—End of nose very much inflamed exter
nally. Very sensitive and oedematous mucous membranes, with ulceration.

Heart.—Laborious action. Fluttering. Palpitation, with dyspnœa. Cannot go uphill. Any exertion brings on rush of blood to heart and fainting
spells. Throbbing in the whole body to finger-tips.

**Modalities.** — Better, brandy. Worse, in sun; exposure to sun-rays, gas, open fire; jar, stooping, having hair cut; peaches, stimulants; lying down; from 6 A.M. to noon.

**Relationship.** — Antidote: Acon. Compare: Amyl. nit.; Bellad.; Opium; Stram.; Verat. vir.

**Dose.** — Third to thirtieth potency.

For palliative (non-homoeopathic) purposes, in angina pectoris, asthma, heart-failure, etc., physiological doses—i.e., 1–100 of drop—must be given. Here it is the great emergency remedy. The conditions calling for it are small, wiry pulse, pallor, arterial spasm, anaemia of brain, collapse, feeble heart, syncope, dicrotic pulse, vertigo,—the opposite of those indicating a homoeopathic dosage. Often thus used to lower the arterial tension in chronic interstitial nephritis.

**GNAPHALIUM.**

*(Cut-Weed.)*

A remedy of unquestioned benefit in sciatica, when pain is associated with numbness of the part affected. Rheumatism and morning diarrhoea.

**Face.** — Intermittent pains of superior maxillary of both sides.

**Abdomen.** — Borborygmus. Colic; pain in various parts of the abdomen. Irritated prostate. First stage of cholera infantum; vomiting and purging.

**Female.** — Weight and fullness in pelvis. *Dysmenorrhœa*, with scanty and painful menses.

*(Mikania.)*

**Throat.**—Heaviness and difficulty of moving tongue. Larynx and trachea constricted; difficult deglutition.

**Female.**—Leucorrhœa, copious, corroding, putrid, debilitating. Itching and smarting at night, as if fire were running out of parts.
GUACO—GUAIACUM.

Back.—Burning in nape to shoulders. Pain along spine; worse, bending.

Relationship.—Compare: Oxal. ac.; Lathyr.; Caust.

Dose.—Third to sixth potency.

GUAIACUM.

(Resin of Lignum Vitæ.)

Chief action on fibrous tissue, and is especially adapted to the arthritic diathesis, rheumatism, and tonsilitis. Secondary syphilis. Very valuable in acute rheumatism.

Mind.—Forgetful; thoughtless; staring.

Head.—Gouty and rheumatic pain in head and face, extending to neck. Tearing pain in skull; worse, cold, wet weather. Feels swollen, and blood-vessels distended.

Eyes.—Pupils dilated. Eyelids appear too short. Pimples around eyes.

Abdomen.—Much wind in bowels. Diarrhoea, cholera infantum.

Throat.—Tonsillitis; first stage. Violent burning in throat. Full and swollen.

Respiratory.—Feels suffocated. Dry, tight cough. Pleuritic stitches.
Female.—Ovaritis in rheumatic patients, with irregular menstruation and dysmenorrhoea and irritable bladder.

Modalities.—Worse, from motion, heat, cold wet weather; from 6 P.M. to 4 A.M. Better, external pressure.

Relationship.—Guaiacol (in the treatment of gonorrhoeal epididymitis, 2 parts to 30 vaselin, locally).

Antidote: Nux.

Compare: Hymosa (anti-rheumatic, lumbago, pleurodynia); Merc.; Caust.; Rhus; Mezer.; Rhodod.

Dose.—Tincture, to sixth attenuation.

GUAREA.

(Ballwood.)

Eye symptoms have been verified. Chemosis and pterygium have been cured with it.

Eyes.—Conjunctiva inflamed, swollen. Tearing pain in eyeballs; tension, forced-out feeling. Objects appear gray, upside down. Eye symptoms alternate with diminished hearing.

Head.—Sensation as if brain were falling forward; as from a blow on head.
GYMNOCLADUS.

(American Coffee-Tree.)

Sore throat, dark livid redness of fauces, and erysipelatous swelling of face are most marked. Desire for heat and quiet. Headache, with bluish-white coating of tongue.

Face.—Sensation as of flies crawling over face. Erysipelas. Great sensibility of teeth.

Throat.—Sore; dark livid redness of fauces and tonsils. Sticking pain. Mucus in throat and hawking. Tickling, with dry cough.

Relationship.—Compare: Lachnani.; Laches.; Ailanth.; Rhus.

HÆMATOXYLON.

(Logwood.)

Sense of constriction is characteristic. Sensation as if a bar lay across chest. Angina pectoris.

Head.—Feels constricted; heavy, hot. Eyelids heavy.

Stomach.—Swollen, painful. Colic; tympanitic distention.

Female.—Pain in hypogastrium, attended with slimy, whitish leucorrhœa. Weak feeling, with painful bearing-down sensation at menstrual period.

Relationship.—Compare: Cactus; Colocy.; Naja.
HAMAMELIS VIRGINICA.

(Witch-Hazel.)

Venous congestion, hæmorrhages, varicose veins, and hæmorrhoids, with bruised soreness of affected parts, seem to be the special sphere of this remedy.

Head.—Feeling as of a bolt from temple to temple. Fullness, followed by epistaxis. Eyes feel forced out. Pressure between eyes. Intra-ocular hæmorrhage.

Nose.—Bleeding from nose profuse; flow passive, non-coagulable. Bad odor from nose.

Eyes.—Painful weakness; sore pain in eyes; blood-shot appearance; inflamed vessels greatly injected.

Throat.—Mucous membrane distended and bluish; varicosis of throat.

Urine.—Hæmaturia, with increased desire.

Respiratory.—Hæmoptysis; tickling cough. Chest feels sore and constricted.

Back.—Sore pain down cervical vertebrae. Severe pain in lumbar and hypogastric region, extending down legs.

Modalities.—Worse, warm, moist air.

Relationship.—Compare in hæmorrhoids: Calc. fluor.; Aloe; Mur. ac.

Compare: Arnica; Calend.; Trillium; Bellis.; Sulph. ac.

Antidote: Arnica.

Complementary: Ferrum.

Head.—Dull, heavy feeling in morning. Sore pain, as from a cut. Weak, faint; better, lying down.

Urine.—Frequent urging, cutting pains. Pain
along left ureter. Dragging pain from kidney to bladder. Dull burning pain over left kidney.

Female.—Bearing-down pains, with much backache; worse, least movement. Leucorrhea, with itching and burning. [Kreos.; Fluor. ac.; Sulph.]

Extremities.—Pain, coldness, and paretic condition. Twitchings, jerkings, soreness. Tendo Achilles painful.

Relationship.—Compare: Mentha; Sepia; Lilium; Ocimum (uric acid diathesis, pain in ureters); Leonurus (haemorrhages and dysentery).

Dose.—First to third potency.

HEKLA LAVA.

(Lava Scorlae from Mt. Hecla.)

Marked action upon the jaws. Of great use in exostosis, gum abscess, difficult teething. Nodosities, caries of bone, etc. Osteitis, periostitis, osteosarcoma; rachitis.

Relationship.—Compare: Silica; Mercur.; Phos.; Conchol.

Dose.—Lower triturations.

HELLEBORUS.

(Snow-Rose.)

 Produces a condition of sensorial depression. Sees, hears, tastes imperfectly, and general muscular weak-
ness, which may go on to complete paralysis accompa-
panied by dropsical effusions. Hence a remedy in
low states of vitality and serious disease. Charac-
teristic aggravation from 4 to 8 P. M. [Lycop.] State 
of effusion in hydrocephalus. Mania of a melan-
choly type.

Mind.—Slow in answering. Thoughtless; star-
ing. Involuntary sighing. Complete unconsciously. Picks lips and clothes.

Head.—Forehead wrinkled in folds. Cold sweat. Stupefying headache. Rolls head day and night; moaning, sudden screams. Bores head into pillow; beats it with hands. Dull pain in occiput, with sen-
sation of water washing inside. Headache culmi-
nates in vomiting.

Urine.—Suppressed; scanty, dark; coffee-grounds

Extremities.—Automatic motion of one arm and leg. Limbs heavy and painful. Stretching of limbs. Thumb drawn into palm. [Cupr.]

Sleep.—Sudden screams in sleep. Soporous sleep. Cri encephalique. Cannot be fully aroused.

Skin.—Pale, dropsical, itching. Livid spots on skin. Sudden watery swelling of skin. Falling off of hair and nails.

Modalities.—Worse, from evening until morning, from uncovering.

Relationship.—Hellebor. fætidos or Polymnia (splenic affections, chronic ague cake; hypertrophied uterus; glandular enlargements; hair and nails falling off; skin peeling); Hellebor. orientalis (salivation).

Antidote: Camphor; Cinch.
Compare: Threatening effusion: Tuberc.; Apis; Zinc.; Opium; Cinch.; Cicuta; Iodoform.

Dose.—Tincture, to third potency.

HELIANTHUS.

(Sunflower.)

Old cases of intermittent fever. Spleen remedy. Marked effects on stomach, with nausea and vomiting. Stools black. [Leptandra.]
HELODERMA.

(Gila Monster.)

The result of the bite is a benumbing paralysis like paralysis agitans or locomotor ataxia. There is no tetanic phase—a condition almost reverse in objective symptoms to Hydrocyn. acid or Strychnia. Homœopathically, it is indicated in many forms of disease characterized by great coldness—"arctic" coldness.

Head.—Very depressed. Sensation as if would fall to right side. Cold band around head; cold pressure within the skull. Eyelids heavy. Pain beginning in right ear, extending round back of head to left ear.

Face.—Cold, crawling feeling, as if facial muscles were tight.

Chest.—Cold feeling in lungs and in heart. Slow labored thumping of heart.

Back.—Coldness across scapulae. Burning along spine.

Extremities.—Numbness and trembling. Coldness. Sensation as if walking on sponge, and as if feet were swollen. Staggering gait. Cock's gait. When walking, lifts feet higher than usual, and puts down heel hard. Feet cold as ice or burn. Stretching relieves pains in muscles and limbs.

Fever.—Internal coldness, as if frozen to death. Cold rings around body. Cold waves. [Abies c.; Acon.] Cold spots. Arctic coldness. Temperature sub-normal—96°. [Camph.]
Relationship.—Compare: Camph.; Lach.; Merc.
Dose.—Thirtieth potency.

HELONIAS.

(Blazing Star.)

Sensation of weakness, dragging and weight in the sacrum and pelvis, with great languor and prostration, are excellent indications for this remedy. There is a sensitiveness expressed as a consciousness of a womb. Tired, backachy females. The weakness shows itself also in a tendency to prolapse and other malposition of the womb. The menses are often suppressed and the kidneys congested. It seems as if the monthly congestion, instead of venting itself as it should through the uterine vessels, had extended to the kidneys. With it all, there is a profound melancholia. Patient must be doing something to engage the mind. Remember it for women with prolapsus from atony, enervated by indolence and luxury (better when attention is engaged—hence when the doctor comes), or for those worn out with hard work, tired, strained muscles burn and ache, and cannot sleep. Diabetes mellitus, and insipidus. Constant aching and tenderness over kidneys.

Mind.—Profound melancholy. Patient is better when attention is engaged, when doing something. Irritable; cannot endure the least contradiction.

Head.—Burning sensation on top. Headache, better mental exertion.

Back.—Pain and weight in back; tired and weak. Aching and burning across the lumbar region; can trace outlines of kidneys by constant burning. Boring
pain in lumbar region, extending down legs. Great languor, better exercising.

Urine.—Albuminous, phosphatic; profuse and clear, saccharine. Diabetes.

Modalities.—Better, when doing something (mental diversion). Worse, motion, touch.

Relationship.—Compare: Aletris; Lilium; Puls.; Senecio; Stannum.

Dose.—Tincture, to sixth attenuation.

HEPAR SULPHURIS.

(Hahnemann's Calcium Sulphide.)

Suits especially scrofulous and lymphatic constitutions who are inclined to have eruptions and glandular swellings. Unhealthy skin. Blondes with sluggish character and weak muscles. Great sensitiveness to all impressions. Locally, it has special affinity to the respiratory mucous membrane, producing croupous catarrhal inflammation, profuse secretion; also easy perspiration. After abuse of Mercury. The tendency to suppuration is most marked, and has been a strong guiding symptom in practice. Chillingness, hypersensitiveness, splinter-like pains, craving
for sour and strong things are very characteristic. Feeling as if wind were blowing on some part.

Head.—Vertigo and headache when shaking the head or riding. Boring pain in the right temple and in root of nose every morning. Scalp sensitive, and sore. Humid scald-head, itching and burning. Cold sweat on head.

Eyes.—Ulcers on cornea. Iritis, with pus in anterior chamber; purulent conjunctivitis, with marked chemosis, profuse discharge, great sensitiveness to touch and air. Eyes and lids red and inflamed. Pain in the eyes, as if pulled back into the head. Boring pain in upper bones of the orbits. Eyeballs sore to touch. Objects appear red and too large. Hypopion.

Nose.—Sore, ulcerated.Stopped up every time he goes out into the cold air. Smell like old cheese. Hay-fever. (Hepar ix will often start secretions and produce drainage in stuffy colds).

Ears.—Scurfs on and behind the ears. Discharge of fetid pus from the ears. Whizzing and throbbing in ears, with hardness of hearing. Deafness after scarlet fever. Pustules in auditory canal and aural. Mastoiditis.

Face.—Yellowish complexion. Middle of lower lip cracked. Vesicular erysipelas, with prickling in parts. Neuralgia of right side, extending in streaks into temple, ear, alæ, and lip. Pains in bones of face, especially when being touched. Ulcers in corners of mouth. Shooting in jaw on opening mouth.
Throat.—Gums and mouth painful to touch and bleed readily. When swallowing, sensation as if a plug and of a splinter in throat. Quinsy, with impending suppuration. Stitches in throat extending to the ear when swallowing. Hawking up of mucus.

Stomach.—Longing for acids, wine, and strong-tasting food. Aversion to fat food. Frequent eructations, without taste or smell. Distention of stomach, compelling one to loosen the clothing. Burning in stomach. Heaviness and pressure in stomach after a slight meal.

Abdomen.—Stitching in region of liver when walking, coughing, breathing, or touching it. [Bry.; Merc.] Hepatitis, hepatic abscess; abdomen distended, tense; chronic abdominal affections.

Stool.—Clay-colored and soft. Sour, white, undigested, fetid. Loss of power to expel even a soft stool.

Female.—Discharge of blood from uterus. Itching of pudenda, worse during menses. Menses late and scanty. Abscesses of labia with great sensitivity. Extremely offensive leukorrhea. Profuse perspiration at the climacteric. [Tilia; Jaborandi.]

Respiratory.—Hoarseness, with loss of voice.
Dry, hoarse cough. Cough excited *whenever any part of the body gets cold or uncovered*, or from eating anything cold. Croup, with loose, rattling cough; worse in morning. *Choking cough*. Rattling, croaking cough; suffocative attacks; has to rise up and bend head backwards. Anxious, wheezing, moist breathing; asthma worse in dry cold air; better in damp. Palpitation of heart.

**Skin.**—Abscesses; suppurating glands are very sensitive. Unhealthy skin; every little injury suppurates. Chapped skin, with deep cracks on hands and feet. Ulcers, with bloody suppuration, smelling like old cheese. *Ulcers very sensitive* to contact, burning, stinging, easily bleeding. Sweats day and night without relief. *"Cold-sores" very sensitive. Cannot bear to be uncovered; wants to be wrapped up warmly*. Sticking or pricking in afflicted parts. Putrid ulcers, surrounded by little pimples. Great sensitiveness to slightest touch. Chronic urticaria.

**Fever.**—Chilly in open air or from slightest draught. Dry heat at night. *Profuse sweat*; sour, sticky, offensive.

**Modalities.**—Worse, from dry cold winds; cool air; slightest draught; from Mercury, touch; lying on painful side. *Better*, in damp weather, from wrapping head up, from warmth, after eating.

**Relationship.**—Antidotes: Bellad.; Cham.; Sil.

Compare: Acon.; Spongia; Staphis; Silica; Sulph.; Calc. sulph. Hepar antidotes bad effects from Mercury, Iodide, Potash, Cod-Liver Oil. Removes the weakening effects of ether.

**Dose.**—First to 200th. The higher potencies may abort suppuration, the lower promote it. If it is necessary to hasten it, give 2X.
HEPATICA.

(Liver-Wort.)

Pharyngeal catarrh, with profuse serous sputa and hoarseness. Tickling and irritation of the throat. Sensation about epiglottis as if particles of food remained. Frequent hawking. Sputa sweet, profuse, creamy.

HIPPOMANES.

(A meconium deposit out of the amniotic fluid taken from the colt.)

The old famous Aphrodisiacum of the Greek authors.

Stomach.—Icy coldness in stomach.

Male.—Sexual desire increased. Prostatitis. Drawing pain in testicles.

Relationship.—Compare: Caustic.

Dose.—Sixth to thirtieth potency.

HIPPOZÆNINUM.

(Glanderine-Mallein.)

This powerful nosode promises useful service in the treatment of ozæna, scrofulous swellings, pyæmia, erysipelas.

Nose.—Red, swollen. Catarrh, ozæna, ulceration. Discharge acrid, corroding, bloody, offensive. Tu-
buccles on alæ nasi. Papules and ulcerations in frontal sinus and pharynx.

**Face.**—All glands swollen; painful; form abscesses.

**Relationship.**—Compare: *Aur.; Kali bich.; Psor.; Bacill.*

**Dose.**—Thirtieth potency.

---

**HOMARUS.**

*(Digestive Fluid of Live Lobster.)*

Dyspepsia, sore throat, and headache seem to be a combination that may be controlled by this remedy. Frontal and temporal pain chiefly, with soreness in eyes. Throat sore, raw, burns, with tough mucus. Belching. Pain in stomach and abdomen, better after eating. *[Hep.; Anac.]* Chilliness and pain all over. Itching of the skin.

**Modalities.**—*Worse,* from milk, after sleep. *Better,* from motion.

**Relationship.**—Compare: *Sepia; Asterias; Æthusa; Astacus.*

**Dose.**—Third to sixth potency.
HYDRANGEA.
(Seven-Barks.)

Urine.—Burning in urethra and frequent desire. Urine hard to start. Heavy deposit of mucus. Sharp pain in loins, especially left. Great thirst, with abdominal symptoms and enlarged prostate. [Ferr. pic.; Sabal.]

Relationship.—Compare: Lycopod.; Chimaphil.; Berberis; Pareira; Uva; Sabal; Geum—Water-Avens—(affections of bladder, with pains in penis; worse, eating).

Dose.—Tincture.

HYDRASTIS.
(Golden Seal.)

Acts especially on mucous membranes, relaxing them and producing a thick, yellowish, ropy secretion. The catarrh may be anywhere,—throat, stomach, uterus, urethra,—it is always characterized by this peculiar mucous discharge. Hydrastis is especially active in old, easily-tired people, cachectic individuals, with great debility. Emaciation and prostration. Its action on the liver is marked, and suits especially scrofulous constitutions. Cancer and pre-cancerous state. Goitre of puberty and pregnancy.

Mind.—Depressed; sure of death, and desires it.

Head.—Dull pressing frontal pain, especially con-
nected with constipation. Myalgic pain in scalp and muscles of neck. [Cimicif.] Eczema on forehead along line of hair.

**Nose.**—Thick, tenacious secretion from posterior nares to throat. Watery, excoriating discharge. Ozæna, with ulceration of septum.

**Ears.**—Roaring. Muco-purulent discharge. Deafness. Eustachian catarrh, with high-pitched voice.

**Mouth.**—Peppery taste. Tongue white, swollen, large, flabby, slimy; shows imprint of teeth [Merc.]; as if scalded; stomatitis.

**Throat.**—Follicular pharyngitis. Raw,smarting, excoriating sensation. Hawking of yellow, tenacious mucus. [Kali bich.] Child is aroused suddenly from sleep by this tenacious post-nasal dropping.

**Urine.**—Gleety discharge. Urine smells decomposed.

**Male.**—Gonorrhoea, second stage; discharge thick and yellow.

**Female.**—Erosion and excoriation of cervix. Leucorrhoea; worse after menses [Bov.; Calc. c.]; acrid and corroding, shreddy, tenacious. Menorrhagia. Pruritus vulvæ, with profuse leucorrhoea. [Calc. c.; Kreos.; Sep.] Sexual excitement. Tumor of breast; nipple retracted.

Rectum.—Prolapsed; anus fissured. Constipation, with sinking feeling in stomach, and dull headache. During stool, smarting pain in rectum. After stool, long lasting pain. [Nit. ac.] Hæmorrhoids; even a light flow exhausts. Contraction and spasm.

Respiratory.—Chest raw, sore, burning. Dry, harsh cough. Bronchial catarrh, later stages. Bronchitis in old, exhausted persons, with thick, yellow tenacious expectoration. Frequent fainty spells, with cold sweat all over.

Skin.—Eruption like variola. Lupus; ulcers, cancerous formations. General tendency to profuse perspiration and unhealthy skin.

Relationship.—Antidote: Sulph.

Compare: Kali bich.; Conium; Ars. iod.; Phytol.; Galium (cancer—nodulated tumor of the tongue); Asterias; Stann.; Puls.

Useful after too much Chlorate of Potash for sore throat.

Compare: Hydrastinum muriaticum—Muriate of Hydrastia. Locally, about one grain to one ounce of water, in aphthous sore mouth, ulcers, ulcerated sore throat, ozæna, etc. Internally, third dec. trit., in dilatation of the stomach.

Hydrastinum—a modification of Hydrastinum. (A remedy for hæmorrhages, fibroid tumors. Metrorrhagia. Third dec. trit.)

Marrubium — Hoarhound — (chronic bronchitis, dyspepsia, and hepatic disorders; colds and coughs).

Dose.—Tincture, to thirtieth attenuation. Locally, colorless Hydrastis, mother tincture, or fluid extract.
HYDROCOTYLE.—HYDROCYANIC ACID.

HYDROCOTYLE.
(Indian Pennywort.)

Has considerable reputation in leprosy and lupus. The skin symptoms are very important. Of great use in ulceration of womb. Difficulty in maintaining the upright posture. Very copious perspiration. Pains of cervical cancer.

Face.—Pain in left cheek-bones, and about orbits.

Relationship.—Compare: Hura, Hoang-Nan, (removes fetor and hæmorrhage in cancer, follows Arsenic, revives the healing process. Leprosy.) Oleis, in leprosy; Hydrast.; Arsenic; Aurum; Sepia.

Dose.—Lower potencies.

HYDROCYANIC ACID.
(Prussic Acid.)

Convulsions and paralysis express the action of this remedy. Spasmodic constriction in larynx, feeling of suffocation, pain and tightness in chest, palpitation; pulse weak, irregular. Sinking sensation at the epigastrium. Hysterical and epileptic

Head.—Violent stupefying headache. Brain feels on fire. Pupils motionless or dilated. Supraorbital neuralgia, with flushing on same side of face.

Face.—Jaws clenched in rigid spasm. Froths at mouth. Pale, bluish lips.

Stomach.—Tongue cold. Drink rumbles through throat and stomach. Gastralgia; worse when stomach is empty. Great sinking at pit of stomach. Pulsative pain in præcordial region.

Sleep.—Yawning, with shivering. Irresistible drowsiness. Vivid, incoherent dreams.

Relationship.—Antidotes: Ammon.; Camp.; Opium.

Compare: Cicuta; Œnanthe; Camph.; Lauroc.

Dose.—Third to thirtieth potency.

HYDROPHOBINUM.

(Lyssin—Saliva of Rabid Dog.)

Affects principally the nervous system; aching in bones. Complaints from abnormal sexual desire. Convulsions brought on by dazzling light or sight of running water.
Mind.—Lyssophobia; fear of becoming mad. Emotion and bad news aggravate; also, thinking of fluids. Hypersensitiveness of all senses.

Mouth.—Constant spitting; saliva tough, viscid. Sore throat; constant desire to swallow, which is difficult; gagging when swallowing water. Froths at mouth.

Male.—Lascivious; priapism, with frequent emissions. No emission during coition. Atrophy of testicles. Complaints from abnormal sexual desire.

Female.—Uterine sensitiveness; conscious of womb. [Helon.] Feels prolapsed. Vagina sensitive, rendering coition painful. [Berberis.]

Respiratory.—Voice altered in tone. Breathing held for a time. Spasmodic contraction of respiratory muscles.

Stool.—Desire for stool on hearing or seeing running water. Profuse, watery stools, with pain in bowels; worse, evening. Constant desire to urinate on seeing running water.

Modalities.—Worse, sight or sound of running water or pouring water, or even thinking of fluids; dazzling or reflected light; heat of sun; stooping.

Relationship.—Compare: Canth.; Bell.; Stram.; Lach.; Nat. mur.

Dose.—Thirtieth potency.

HYOSCYAMUS.

(Henbane.)

Disturbs the nervous system profoundly. It is as if some diabolical force took possession of the brain and prevented its functions. It causes a perfect pic-
ture of mania of a quarrelsome and obscene character. Inclined to be unseemly and immodest in acts, gestures, and expressions. Very talkative, and persists in stripping herself or uncovering genitals. Is jealous, afraid of being poisoned, etc. Its symptoms also point to weakness and nervous agitation; hence typhoid with coma vigil. Muscular twitchings, spasmodic affections, generally with delirium. Non-inflamatory cerebral activity. Toxic gastritis.

**Mind.**—Very suspicious. Talkative, obscene, jealous, absurd, foolish. Great hilarity; inclined to laugh at everything. Delirium, with attempt to run away.

**Head.**—Feels light. Vertigo, as if intoxicated. Brain feels loose, fluctuating. Inflammation of brain, with unconsciousness; head is shaken to and fro.

**Eyes.**—Pupils dilated, sparkling, fixed. Eyes open, but does not pay attention; downcast and dull, fixed. Strabismus. Spasmodic closing of lids. Diplopia. Objects have colored borders.

**Mouth.**—Tongue dry, red, cracked; protruded with difficulty; speech impaired. Foams at mouth. Teeth covered with sordes.

**Stomach.**—Hiccough, eructations empty, bitter. Nausea, with vertigo. Vomiting, with convulsions; hæmatemesis; violent cramps, relieved by vomiting; burning in stomach; epigastrium tender. After irritating food.

**Abdomen.**—Colic, as if abdomen would burst. Distention. Colic, with vomiting, belching, hic-
cough, screaming. Tympanites. Red spots on abdomen.

Extremities.—Picking at bed-clothes; plays with hands; reaches out for things. Epileptic attacks ending in deep sleep. Spasms and convulsions. Cramps in calves and toes. Child sobs and cries without waking.

Sleep.—Intense sleeplessness. Sopor, with convulsions. Starts up frightened. Coma vigil.

Nerves.—Great restlessness; every muscle twitches. Will not be covered.

Modalities.—Worse, at night, during menses, after eating, when lying down. Better, stooping.

Relationship.—Antidotes: Bell.; Camph.
Compare: Bellad.; Stram.; Agaric.; Gels.; Hyoscyaminum sulph.

Hyosc. hydrobrom. (Paralysis agitans; tremors of
disseminated sclerosis. Sleeplessness and nervous agitation. Dry cough in phthisis. Third and fourth dec. trituration.)

Dose.—Tincture, to 200th potency.

HYPERICUM.
(St. John's Wort.)

The great remedy for injuries to nerves. Excessive painfulness is a guiding symptom to its use. Prevents lockjaw. Punctured wounds. After operations. Spasms after every injury. Has an important action on the rectum; haemorrhoids.

Mind.—Feels as if lifted high in air, or anxiety lest he fall from heights.

Head.—Heavy; feels as if touched by an icy-cold hand. Throbbing in vertex; worse in close room. Right side of face aches. Brain-fag and neurasthenia [Picric acid], with sadness. Head feels longer—elongated to a point. Brain feels alive. Pains in eyes and ears.

Rectum.—Urging, dry, dull, pressing pain. Haemorrhoids, with pain, bleeding, and tenderness.

Extremities.—Darting pain in shoulders. Pressure along ulnar side of arm. Cramp in calves. Pain in toes and fingers, especially in tips. Crawling in hands and feet. Lancinating pain in upper and lower limbs. Neuritis, with tingling, burning pain,
numbness, and glossy skin. Hysterical joints. Tetanus. [Physost.; Kali brom.]

Modalities.—Worse, in a fog; in close room; least exposure. Better, bending head backward.

Relationship.—Compare: Arnica; Staphis; Calend.; Ruta; Coff.

Antidotes: Ars.; Cham.

Dose.—Tincture, to thirtieth potency.

IVERIS.

(Bitter Candytuft.)

State of nervous excitement. Has marked action upon the heart. Controls vascular excitement in hypertrophy with thickening of the heart’s walls. Cardiac debility after influenza. Liver region full and painful. White stools.

Mind.—Sad and sighing; fearful and trembling.

Head.—Hot, flushed face. Vertigo, as if occiput were turning around; eyes feel forced outwards.

Heart.—Palpitation, with vertigo and choking in throat. Stitching pains in cardiac region. Pulse full, irregular, intermittent. Worse, least motion and in warm room. Sensation of weight and pressure, with occasional sharp, stinging pains. Dropsy, with enlarged heart. Violent palpitation induced by slightest exertion or by laughing or coughing. Darting pains through heart.

Extremities.—Numbness and tingling in left hand and arm. Whole body sore and lame and trembling.

Modalities.—Worse, lying down; on left side; motion, exertion.
Relationship.—Compare: Cact.; Dig.; Amyl.; Bell.

Dose.—Tincture.

ICHTHYOLUM.

(A fossil product of complex structure found in Tyrol, supposed to be fish deposits.)

Mind.—Irritable and depressed.

Head.—Dull, aching; better cold pressure.

Eyes.—Burn, red; worse, any change of temperature.

Nose.—Bland coryza; stuffed feeling; feels sore inside.

Stomach.—Disagreeable taste, burning sensation, very thirsty. Nausea. Increased appetite.

Abdomen.—Disposition to soft shapeless stools.

Urine.—Increased in quantity and frequency.

Female.—Fullness in lower abdomen. Nausea at time of menses.

Respiratory.—Coryza; dry, teasing cough. Bronchiectasis and phthisis. Bronchitis, especially of the aged.

Skin.—Heat and irritation; itching. Scaly and itching eczema. Crops of boils. Pruritus of pregnancy.

Relationship.—Compare: Hepar; Calc.; Silica; Sulph.; Ars.; Petrol.
Dose.—Lower potencies.

Externally, it is used as an ointment, with Lanoline 20 to 50 per cent., for chronic eczema and psoriasis, also acne rosacea and gouty joints.

IGNATIA.

(St. Ignatius Bean.)

Produces a marked hyperæsthesia of all the senses and a tendency to clonic spasms. Mentally, the emotional element is uppermost and coordination of function is interfered with. Hence it is one of the chief remedies for hysteria. It is especially adapted to the nervous temperament,—women of sensitive, easily excited nature, dark, mild disposition, quick to perceive, rapid in execution. Rapid change of mental and physical condition, opposite to each other. Great contradictions. The superficial and erratic character of its symptoms is most characteristic. Cannot bear tobacco. Pain in small circumscribed spots. [Oxal. ac.] The plague.

Head.—Feels hollow, heavy; worse, stooping. Headache as if a nail were driven out through the side. Cramp-like pain over root of nose. Congestive headaches following anger or grief; worse, smoking or smelling tobacco, inclines head forward.

Eyes.—Asthenopia, with spasms of lids and neuralgic pain about eyes. [Nat. m.] Flickering zigzags.
Face.—Twitching of muscles of face and lips. Changes color when at rest.

Mouth.—Sour taste. Easily bites inside of teeth. Constantly full of saliva. Toothache; worse after drinking coffee and smoking.

Throat.—Feeling of a lump in throat that cannot be swallowed. Sore throat; stitches when not swallowing; better, eating something solid. Stitches between acts of swallowing. Stitches extend to ear. [Hep.] Tonsils inflamed, swollen, with small ulcers.

Stomach.—Sour eructation. All-gone feeling in stomach; much flatulence; hiccough. Cramps in stomach; worse, slightest contact. Averse to ordinary diet; longs for great variety of indigestible articles. Sinking in stomach, relieved by taking a deep breath.

Abdomen.—Rumbling in bowels. Weak feeling in upper abdomen. Throbbing in abdomen. [Aloe; Sang.]

Rectum.—Itching and stitching up the rectum. Prolapse. Stools pass with difficulty; painful constriction of anus after stool. Stitches in haemorrhoids during cough. Diarrhoea from fright. Stitches from anus deep into rectum. Haemorrhage and pain; worse when stool is loose. Pressure as of a sharp instrument from within outward.

Urine.—Profuse, watery. [Phos. ac.]

Respiratory.—Dry, spasmodic cough in quick successive shocks. Reflex coughs. Coughing increases the desire to cough. Much sighing.

Female.—Menses black, too early, too profuse, or scanty. During menses great languor, with spas-
modic pains in stomach and abdomen. Suppression from grief.

Sleep.—Very light. Jerking of limbs on going to sleep. Insomnia from grief, cares, with itching of arms and violent yawning. Dreams continuing a long time, troubling him.

Fever.—Chill, with thirst; not relieved by external heat. During fever, itching; nettle-rash all over body.

Skin.—Itching, nettle-rash. Very sensitive to draught of air. Excoriation especially around vagina and mouth.

Modalities.—Worse, in the morning, open air, after meals, coffee, smoking, liquors, external warmth. Better, while eating, change of position.

Relationship.—Compare: Zinc.; Kali phos.; Sep.; Cimicif.

Incompatible: Coffea; Nux; Tabac.
Antidotes: Puls.; Cham.; Cocc.
Dose.—Tincture, to 200th potency.

ILEX AQUIFOLIUM.

(Holly.)

Symptoms better in winter. Rheumatic inflammation of eye. Nightly burning pain in orbits.

ILLICIUM.

(Anise.)

Should be remembered in the treatment of flatus-lent conditions. So-called three-months colic, espe-
cially if it recurs at regular hours; much rumbling in abdomen. One symptom is worthy of special remembrance,—*pain in region of third rib*, about an inch or two from the sternum, generally on right side, but occasionally on left. Frequent cough with this pain. Purulent tracheal and gastric catarrh of old drunkards. Old asthmatics.

**Dose.**—Third potency.

**INDIGO.**

*(Indigo—Dye-stuff.)*

Marked action on the nervous system, and of undoubtedly benefit in the treatment of epilepsy with great sadness. Excited mood and desire to be busy. Neurasthenia and hysteria. Pure powdered Indigo placed on the wound cures snake poison. [*Gelonidrina.*]

**Head.**—Vertigo, with nausea. Convulsions. Sensation of a band around forehead. Undulating sensation through whole head. Gloomy; cries at night. Hair feels pulled from vertex. Head feels frozen.

**Nose.**—Excessive sneezing and bleeding from nose.

**Ears.**—Pressure and roaring.

Urinary.—Constant desire to urinate. Urine turbid. Catarrh of bladder.

Rectum.—Falling of rectum. Aroused at night with horrible itching at anus.

Nerves.—Hysterical symptoms where pain predominates. Excessive nervous irritation. Epilepsy; flashes of heat from abdomen to head; fit begins with dizziness. Aura from a painful spot between shoulders. Reflex spasms from worms.

Modalities.—Worse, during rest and sitting. Better, pressure, rubbing, motion.

Dose.—Third to thirtieth potency.

INDIUM.

(The Metal Indium.)

Headaches and migraine. Seminal emissions.

Head.—Pain in head when straining at stool. Dull pain in temples and forehead, with nausea, weakness, sleepiness. Gone feeling in stomach about 11 A.M. Violent attack of sneezing. Sexual psychopathy.

Face.—Painful suppurating pimples. Corners of mouth cracked and sore. [Condur.]

Male.—Horribly offensive smell of urine after standing a short time. Emissions too frequent. Diminished power. Testicles tender; drawing pains along spermatic cord.

Extremities.—Stiffness in neck and shoulders.
Pain, especially in left arm. Legs restless and weary. Toes itch. [Agar.]

Dose.—Sixth to 200th potency.

**INULA.**

(Scabwort.)

Bearing-down sensations in pelvic organs and bronchial symptoms are most marked.

Respiratory.—Dry cough; worse at night and lying down; larynx painful. Chronic bronchitis; cough, with much thick expectoration, with languor and weak digestion. Stitches behind sternum.

Female.—Menses too early and painful. Labor-like pains, urging to stool; dragging in genitals, with violent backache. Itching of legs during menses. Movings about in abdomen, stitches in genitals.

Rectum.—Pressing toward rectum as of something extruding.

Urinary.—Frequent urging to urinate; passes only in drops. Violet odor. [Tereb.]

Relationship.—Compare: Crocus; Ignatia; Arum dracontium (loose cough worse at night on lying down).

Dose.—First to third potency.

**IODOFORMUM.**

(Iodoform.)

Should not be forgotten in the treatment of tubercular meningitis, both as a local application to the head and internally. [Bacil.] Tuberculous conditions.

Head.—Sharp neuralgic pain. Head feels heavy, as if it could not be lifted from pillow. Itching of

**Eyes.**—Pupils dilated; contract unequally; react poorly. *Diplopia.*

**Chest.**—Sore pain in apex of right lung. Feeling of a weight on chest, as if smothering. Cough and wheezing on going to bed. Pain in left breast, like a hand grasping at the base of the heart. *Hæmoptysis. Asthmatic breathing.*

**Abdomen.**—Chronic diarrhœa, with suspected tuberculosis. Abdomen distended; mesenteric glands enlarged. *Cholera infantum. Chronic diarrhœa; stools greenish, watery, undigested, with irritable temper.*

**Extremities.**—Legs weak; cannot stand and walk with eyes closed. Weakness of knees when going up-stairs.

**Dose.**—Second trituration. Three grains on the back of the tongue will relieve attack of asthmatic breathing.

**IODUM.**

*(Iodine.)*

Acute catarrh of all mucous membranes, rapid emaciation, notwithstanding good appetite, and glandular atrophy call for this remedy in numerous wasting diseases and in scrofulous patients. Acute affections of the respiratory organs. Iodine is warm, and wants cool surroundings. Weakness and loss of breath going up-stairs. *Adenoid vegetations.*

**Mind.**—Anxiety when quiet. Sudden impulse to do violence. Forgetful. Must be busy.

**Head.**—Throbbing; *rush of blood,* and feeling of a tight band. Vertigo; worse from stooping, worse in
warm room. Chronic congestive headaches of old people. [Phos.]

Ears.—Sensitive to noise. Catarrhal deafness. Buzzing in ears, due to closure of eustachian tube. [Kali mur.; Puls.]

Throat.—Larynx feels constricted. Eustachian deafness. Thyroid enlarged. [Fucus.] Swollen submaxillary glands. Uvula swollen.

Stomach.—Throbbing at pit of stomach. Ravenous hunger and much thirst. Empty eructations, as if every particle of food were turned into gas. Anxious and worried if he does not eat. [Cina; Sulph.] Loses flesh, yet hungry and eating well. [Abrot.]

Stool.—Hæmorrhage at every stool. Diarrhoea, whitish, frothy, fatty. Constipation, with ineffectual urging; better by drinking cold milk. Constipation alternating with diarrhoea. [Ant. cr.]

Urine.—Frequent and copious, dark yellow-green [Bouista], thick, acrid, with cuticle on surface.

Male.—Testicles swollen and indurated. Hydrocele. Loss of sexual power, with atrophied testes.

Fever.—Flushes of heat all over body. Marked fever, restlessness, red cheeks, apathetic. Profuse sweat.

Modalities.—Worse, when quiet, in warm room. Better, walking about, in open air.

Dose.—The crude drug in saturated solution may be required. Third to thirtieth potency. Ioduretted solution of Potass. jod (35 grains Potassa and 4 grains Iodine to 1 oz. of water, 10 drops three times a day) expels tapeworms dead.

IPECACUANHA.

(Ipecac-Root.)

The chief action is on the ramifications of the pneumogastric nerve, producing spasmodic irritation in chest and stomach. Morphia habit. The principal feature of Ipecacuanha is its persistent nausea and vomiting, which form the chief guiding symptoms. Indicated after indigestible food, raisins, cake, etc. Especially indicated in fat children and adults who are feeble and catch cold in relaxing atmosphere, warm, moist weather. Spasmodic affections. Haemorrhages bright-red and profuse.

Mind.—Irritable; holds everything in contempt. Full of desires, for what they know not.

Head.—Bones of skull feel crushed or bruised. Pain extends to teeth and root of tongue.

Eyes.—Inflamed, red. Pain through eyeballs. Profuse lachrymation. Cornea dim.

Face.—Blue rings around eyes. Periodical orbital neuralgia, with lachrymation, photophobia, and smarting eyelids.

Nose.—Coryza, with stoppage of nose and nausea. Epistaxis.

Stomach.—Tongue usually clean. Mouth moist; much saliva. Constant nausea and vomiting, with
pale twitching face. Vomits food, bile, blood, mucus. Stomach feels relaxed, as if hanging down.

**Abdomen.**—Cutting, clutching; worse around the navel. Body rigid; stretched out stiff.

**Stools.**—Pitch-like, green as grass, like frothy molasses, with griping at navel. Dysenteric, slimy.

**Female.**—Uterine haemorrhage, profuse, bright, gushing, with nausea. Vomiting during pregnancy. [Ant. t.; Arg. n.; Nux v.; Tabac.; Sep.; Sulph.] Pain from navel to uterus. Menses too early and too profuse.

**Fever.**—Intermittent fever, irregular cases, after Quinine. Slight chill, with much heat, nausea, vomiting, and dyspnœa. Relapses from improper diet.

**Sleep.**—With eyes half open. Shocks in all limbs on going to sleep. [Ign.]

**Extremities.**—Body stretched stiff, followed by spasmodic jerking of arms towards each other.

**Skin.**—Pale, lax. Blue around eyes. Miliary rash.
Modalities.—Worse, periodically; from veal, moist warm wind, lying down.

Relationship.—Compare: In Hæmatemesis and other hæmorrhages compare: Gelatin (which has a marked effect on the coagulability of the blood. Hypodermically; or if by mouth a 10 per cent jelly, about 4 oz. three times a day.) Arsenic; Cham.; Puls.; Tart. em.; Squill. Convolvulus (colic and diarrhoea.)

Antidotes: Arsenic; China; Tabac.
Complementary: Cuprum.

Dose.—Third to 200th potency.

IRIDIUM.
(The metal.)

Head.—Difficult concentration of thought. Sensation as if mind were void. Thought confused. “Woodeny” feeling in right side of head. Right side of scalp sensitive. Profuse watery coryza, better indoors. Ozœna.

Respiratory.—Hoarse cough, worse talking; posterior nàres feel raw, inflamed, profuse thick yellowish discharge. Chronic laryngeal catarrh.

Dose.—Third to sixth trituration.

IRIS VERSICOLOR.
(Blue Flag.)

Thyroid, pancreas, salivary, and intestinal glands, and gastro-intestinal mucous membrane are espe-
cially affected. Increases the flow of bile. Sick headaches and cholera morbus are a special therapeu
tic field for its action.

Head.—Frontal headache, with nausea. Scalp feels constricted. Right temple especially affected. Sick headache, worse rest; begins with a blur before eyes. Pustular eruption on scalp.

Ears.—Roaring, buzzing, ringing in ears, with deafness. Aural vertigo, with intense noises in ears. Vomiting, and flickering before eyes.

Face.— Neuralgia after breakfast, beginning in infra-orbital nerve, and involving whole face.

Abdomen.—Liver sore. Cutting pain. Flatulent colic. Diarrhoea; stools watery, with burning at anus and through intestinal canal. Periodical night diarrhoea, with pain and green discharges. Constipation (give 30th).

Extremities.—Shifting pains. Sciatica, as if left hip-joint were wrenched. Pain extends to popliteal space. Gonorrhœal rheumatism (use Irisin.).

Skin.—Herpes zoster, associated with gastric deangeements. Pustular eruptions. Psoriasis; irregular patches with shining scales. Eczema, with nightly itching.

Modalities.—Worse, in evening and at night, from rest. Better, from continued motion.
Relationship.—Antidote: Nux.

Compare: Iris florentina—Orris-root—(delirium, convulsions, and paralysis); Iris factissima (headache and hernia); Iris germanica—Blue Garden Iris—(dropsy and freckles); Iris tenax—I. minor—(dry mouth; deathly sensation at pit of stomach, pain in ileo-cæcal region; appendicitis); Pancreatinum (disease of pancreas, gout, diabetes); Ipec.; Podoph.; Sanguin.; Ars.; Ant. cr.

Dose.—Tincture to thirtieth potency. Favorable reports from the very highest potencies.

JACARANDA.
(Brazilian Caroba-Tree.)

Has reputation as a remedy in venereal diseases and rheumatism. Morning sickness. The urinary and sexual symptoms are important.

Head.—Vertigo on rising, with heavy forehead. Eyes pain; are inflamed and watery. Coryza, with heavy head.

Throat.—Sore, dry, constricted. Vesicles in pharynx.

Urinary.—Urethra inflamed; discharge of yellow matter.

Relationship.—Compare: Thuja; Corallium; Jo.
caranda Gualandai (in syphilitic symptoms especially of eye and throat).

**Dose.**—Tincture, to third potency.

**JALAPA.**

(Jalap.)

Causes and cures colic and diarrhoea. The child is good all day, but screams and is restless and troublesome at night.

**Tongue.**—Smooth, glazed, dry, smarting.

**Stomach and Bowels.**—Pain in right hypochondrium. Flatulence and nausea. Pinching and gripping. Watery diarrhoea; thin, muddy stools. Abdomen distended. Face cold and blue. Anus sore.

**Relationship.**—Antidotes: *Elater.*; *Cann. sat.*
Compare: *Camph.*; *Colocy.*

**Dose.**—Third to twelfth potency.

**JATROPHA.**

(Purging-Nut.)

Of value in cholera and diarrhoea. The abdominal symptoms are most important.

**Stomach.**—Hiccough, followed by copious vomiting. Nausea and vomiting, brought on by drinking, with acrid feeling from throat. Great thirst. *Very easy vomiting.* Heat and burning in stomach, with crampy, constrictive pain in epigastrium.

**Abdomen.**—Distended, with gurgling noises. Pain in hypochondria. Pain in region of liver and under
right scapula to shoulder. Violent urging to urinate.

**Stool.**—Sudden, profuse, watery, like rice-water. *Diarræa; forced discharge; loud noise in abdomen like gurgling of water coming out of a bung-hole*, associated with coldness, cramps, nausea, and vomiting.

**Extremities.**—Cramps in muscles, especially calves, legs, and feet. *Coldness* of whole body.

**Modalities.**—Better, by placing hands in cold water.

**Relationship.**—Compare: *Camph.; Verat.; Gambog.; Croton; Jatropha urens*—Sponge-nettle—(œdema and cardiac paresis).

**Dose.**—Third to thirtieth potency.

**JEQUIRITY.**

*(Indian Liquorice.)*

Epithelioma, lupus, ulcers, granular lids.

**Eyes.**—Purulent conjunctivitis; inflammation spreads to face and neck. Granular ophthalmia.

**Relationship.**—Compare: *Jequiritol* (in cases of trachoma and pannus to engraft a new purulent inflammation. The proteid poisons contained in Jequirity seeds are almost identical in their physiological and toxic properties with the similar principles found in snake venom).

**JUGLANS CINEREA.**

*(Butternut.)*

A faulty elimination that produces jaundice and various skin eruptions is pictured by this drug. The sharp *occipital headache* usually associated with liver
disturbances is very characteristic. Pain in chest and axilla and scapula.

**Head.**—Dull, full head. Eruption on scalp. *Sharp occipital headache.*

**Nose.**—Tingling in nose; sneezing. Coryza, preceded by *pain under sternum*, with threatening suffocation. Later, copious, bland, thick mucous discharge.

**Mouth.**—Acrid feeling in mouth and throat. Soreness in region of tonsils externally. Dryness of root of tongue and fauces.

**Stool.**—Yellowish-green, with tenesmus and burning at anus. Camp diarrhoea.

**Skin.**—Jaundice, with pain about liver and right scapula. Itching and pricking when heated. *Pustules.* Eczema, especially on lower extremities and sacrum and hands. Erythema and erysipelatous redness.

**Modalities.**—*Better,* scratching, on rising in morning. *Worse,* walking.

**Relationship.**—Compare: *Chelidon.; Bryon.*

**Dose.**—Tincture, to third potency.

**JUGLANS REGIA.**

(Walnut.)

Skin eruptions are prominent.

**Head.**—Confused; feels as if head were floating in air. *Occipital* sharp pain. [*Juglans cin.*]

**Female.**—Menses early, black, pitch-like coagula. Abdomen distended.

**Skin.**—Comedones and acne of the face. Crusta lactea, with soreness around ears. Itching and
eruption of small red pustules. Scalp red, and itches violently at night. Chancre-like ulcer. Axillary glands suppurate.

Relationship.—Compare: *Juglans cinerea*—Butternut—(in many forms of skin troubles, pustular, vesicular, and erythematous).

Dose.—Tincture, and lower potencies.

**JUNCUS EFFUSUS.**

*(Common Rush.)*

**JUNIPERUS.**

*(Juniper Berries.)*

Catarrhal inflammation of kidneys. Dropsy, with suppression of urine. Old persons with poor digestion and scanty secretion of urine. Chronic pyelitis.

Relationship.—Compare: *Sabina; Juniperus Virginianus* — Red Cedar — (apoplexy, convulsions, strangury, uterine hæmorrhage).

Dose.—Best form is the infusion: One ounce to a pint of boiling water. Dose, one-half to two ounces.
KALI ARSENICUM.
(Fowler's Solution.)

Dose.—Third to thirtieth potency.

KALI BICHROMICUM.
(Bichromate of Potash.)

The special affinities of this drug are the mucous membrane of stomach, bowels, and air-passages; bones and fibrous tissue. It is especially indicated for fleshy, fat, light-complexioned persons subject to catarrhs or with syphilitic or scrofulous history. Symptoms are worse in the morning; pains migrate quickly; rheumatic and gastric symptoms alternate. More adapted to subacute rather than the violent acute stages. Mucous membranes everywhere are affected, and a tough, stringy, viscid secretion is produced, which condition is a very strong guiding symptom for this drug. Perforation of the septum. Chronic atonic catarrh.

Head.—Vertigo, with nausea when rising from seat. Headache over eyebrows, preceded by blurred vision. Semilateral headache in small spots, and from suppressed catarrh. Frontal pain; usually over one eye. Bones and scalp feel sore.

Nose.—Snuffles of children, especially fat, chubby babies. Pressure and pain at root of nose, and stick-

**Ears.**—Swollen, with tearing pains. Thick yellow, stringy, fetid discharge.

**Eyes.**—Supra-orbital neuralgia, right side. Eyelids burn, swollen, oedematous. Discharge ropy and yellow. Ulcers on cornea; no pain or photophobia. Croupous conjunctivitis; granular lids, with pannus. Iritis, with punctate deposits on inner surface of cornea. Slight pain, with severe ulceration or inflammation. [Conium opposite.]

**Face.**—Florid complexion. Blotchy, red appearance. Acne. [Juglans; Kal. ars.] Bones sensitive, especially beneath orbits.

**Mouth.**—Dry; viscid saliva; mapped. Tongue red, shining, smooth, and dry, with dysentery; broad, flat, indented, thickly coated.

**Stomach.**—Nausea and vomiting after beer. Load immediately after eating. *Round ulcer of stomach.* Stitches in region of liver and spleen and through to spine. Dislikes water. Cannot digest meat. De-
sire for beer and acids. Gastric symptoms are relieved after eating, and the rheumatic symptoms reappear.

**Abdomen.**—Cutting pain in abdomen soon after eating. Chronic intestinal ulceration. Soreness in right hypochondrium. Painful retraction, soreness and burning.

**Stool.**—Jelly-like, gelatinous; worse, mornings. Dysentery; tenesmus, stools brown, frothy. Sensation of a plug in anus. Periodic constipation, with pain across the loins, and brown urine.

**Urinary.**—Burning in urethra. *After urinating, a drop seems to remain which cannot be expelled.* Ropy mucus in urine. Urethra becomes clogged up. Congestion of kidneys; nephritis, with scanty, albuminous urine and casts. Pyelitis; urine mixed with epithelial cells, mucus, pus, or blood. **Hæmatochyluria.**

**Male.**—Itching and pain of penis, with pustules. Ulcers, with paroxysmal stitches; aggravated at night. Constriction at root of penis at night on awakening. Syphilitic ulcers, with cheesy, tenacious exudation. Erections. [**Picric ac.**]

**Female.**—Yellow, tenacious leucorrhœa. Pruritus of vulva, with great burning and excitement. Prolapsus uteri; worse in hot weather.

**Respiratory.**—Voice hoarse; worse, evening. Metallic, hacking cough. *Profuse yellow expectoration, very glutinous and sticky,* coming out in long, stringy, and very tenacious mass. Tickling in larynx. True membranous croup, extending to larynx and nares. Cough, with pain in sternum, extending to shoulders; worse when undressing.
Heart.—Cold feeling around heart. [Kali nit.]

Back.—Cutting through loins; cannot walk; extends to groins. Pain in coccyx and sacrum extending up and down.

Extremities.—Pains fly rapidly from one place to another. [Kali sulph.; Puls.] Wandering pains, along the bones; worse, cold. Left-sided sciatica; better, motion. Bones feel sore and bruised. Very weak. Tearing pains in tibia; syphilitic rheumatism. [Mes.] Crackling of all joints. Soreness of heels when walking. Pains in small spots. [Oxalic ac.]

Skin.—Acne. Populur eruptions. Ulcer, with punched-out edges, with tendency to penetrate, and tenacious exudation. Pustular eruption, resembling small-pox, with burning pains.

Modalities.—Better, from heat. Worse, beer, morning, hot weather, undressing.

Relationship.—Compare: Tart. emet.; Brom.; Hepar; Iod.; Calc.; Ant. cr. In the production of false membranes compare: Brom.; Ammon. caust.; Sulph. ac.; Ipecac.

Antidotes: Ars.; Lach.

Dose.—Second to sixth trituration.

KALI BROMATUM.

(Bromide of Potash.)

Like all Potash Salts, this weakens the heart and lowers temperature. Brominism is caused by it. General failure of mental power, loss of memory, melancholia, anaesthesia of the mucous membranes, especially of eyes, throat, and skin; acne; loss of sexual desire, paralysis. Leading remedy in psoriasis. Nodular form of chronic gout.
Mind.—Profound melancholic delusions; feeling of moral deficiency; religious depression; delusions of conspiracies against him. Loss of memory. Must do something.—move about; gets fidgety. [Tarant.] Fear of being poisoned. [Hyos.] Amnesic aphasia; can pronounce any word told, but cannot speak otherwise. Night terrors. Horrid illusions.

Throat.—Congestion of uvula and fauces. Anæsthesia of fauces, pharynx, and larynx. Dysphagia, especially of liquids. [Hyos.]

Stomach.—Vomiting, with intense thirst, after each meal. Persistent hiccough. [Sulph. ac.]

Abdomen.—Sensation as if bowels were falling out. Cholera infantum, with reflex cerebral irritation. Prostration. Internal coldness of abdomen. Diarrhœa, with much blood. Green, watery stools. Retraction of abdomen.

Urinary.—Sensibility of urethra diminished. Urine profuse, with thirst. Diabetes. [Phos. ac.]

Male.—Debility and impotence. Effects of sexual excesses, especially loss of memory, impaired coordination, numbness, and tingling in limbs.

Female.—Pruritus. Ovarian neuralgia, with great nervous uneasiness. Exaggerated sexual appetite. Cystic tumors of ovaries.

Respiratory.—Spasmodic croup. Reflex cough during pregnancy. Dry, fatiguing, hacking cough at night.

Extremities.—Fidgety hands; busy twitching of fingers.
Skin.—Acne of face. Itching; worse on chest, shoulders, and face. Anaesthesia of skin. Psoriasis.

Modalities.—Better, when occupied mentally or physically.

Dose.—A few grains of the crude salt to the third trituration. Remember the unstable character of this salt.

**KALI CARBONICUM.**

(Carbonate of Potassium.)

The weakness characteristic of all Potassium Salts is seen especially in this, with soft pulse, coldness, general depression, and very characteristic stitches, which may be felt in any part of the body or in connection with any affection. Sensitive to every atmospheric change, and intolerance of cold weather. One of the best remedies following labor. Miscarriage, for consequent debilitated states. Early morning aggravation is very characteristic. Fleshy aged people, with dropsical and paretic tendencies. Sweat, backache, and weakness. Pains from within out, and of stinging character. "Giving-out" sensations. Fatty degenerations.

Mind.—Despondent. Very irritable. Full of fear and imaginations. Anxiety felt in stomach. Sensation as if bed were sinking. Never wants to be left alone.

Head.—Headache from riding in cold wind. Stitches in temple; aching in occiput, one-sided, with nausea, on riding in carriage. Loose feeling in head. Great dryness of hair; falls out. [Fluor. ac.,]
Eyes.—Stitches in eyes. Spots, gauze, and black points before eyes. Lids stick together in morning. Swelling over upper lid, like little bags. Swelling of glabella between brows.

Ears.—Stitches in ears. Itching, cracking, ringing, and roaring.

Nose.—Nose stuffs up in warm room. Thick, fluent yellow discharge. Post-nasal dropping. [Spigel.]

Throat.—Dry, parched, rough. Sticking pain, as from a fish-bone. Swallowing difficult; food goes down œsophagus slowly.

Abdomen.—Stitches in region of liver. Old chronic liver troubles, with soreness. Jaundice and dropsy. Distention and coldness of abdomen. Pain from left hypochondrium through abdomen; must turn on right side before he can rise.

Urine.—Obliged to rise several times at night to urinate. Pressure on bladder long before urine comes.

Rectum.—Large, difficult stool, with stitching pain
an hour before. Haemorrhoids, large, swollen, painful. Large discharge of blood with natural stool. Pain in haemorrhoids when coughing. Burning in rectum and anus. Easy prolapsus. \textit{[Graph.; Pod.] Itching. [Ignat]}

\textbf{Male.}—Complaints from coition. Deficient sexual instinct. Excessive emissions, \textit{followed by weakness.}

\textbf{Female.}—Menses early, profuse \textit{[Calc. c.], or too late, pale and scanty, with soreness about genitals; pains from back pass down through gluteal muscles, with cutting in abdomen. Pain through left labium, extending through abdomen to chest. Delayed menses in young girls, with chest symptoms or ascites. Difficult first menses. \textit{Complaints after parturition.} Uterine haemorrhage; constant oozing after copious flow, with violent backache, relieved by sitting and pressure.}

\textbf{Respiratory.}—Cutting pain in chest; worse lying on right side. Hoarseness and loss of voice. Dry hard cough about 3 a.m., with \textit{stitching pains} and dryness of pharynx. Expectoration scanty and tenacious, but \textit{increasing} in morning and after eating; aggravated right lower chest and lying on painful side. \textit{Hydrothorax.} Leaning forward relieves chest symptoms. Palpitation and \textit{burning in heart region. Weak pulse; intermits. Expectoration must be swallowed; cheesy taste; copious, offensive, lumpy. Coldness of chest. Wheezing.} Cough, with relaxed uvula. Tendency to tuberculosis; constant cold-taking; \textit{better in warm climate.}

spine. [Guaco.] Severe backache during pregnancy and after miscarriage.

**Skin.**—Burning as from a mustard-plaster.

**Sleep.**—Drowsy after eating. Wakes about 2 o’clock and cannot sleep again.

**Modalities.**—*Worse,* after coition; in cold weather; from soup and coffee; in morning about 3 o’clock; lying on left and painful side. *Better,* in warm weather, though moist; during day, while moving about.

**Relationship.**—Complementary: *Carbo; Nat. mur.*

Compare: *Kali salicylicum* (vomiting, especially of pregnancy; arterial sclerosis); *Kali silicum* (gouty nodosities); *Kali aceticum* (diabetes, diarrhoea, dropsy, alkaline urine, very much increased in quantity); *Kali citricum* (Bright’s disease—10 gr. to wine-glass of water); *Kali ferrocyanatum* (uterine symptoms, like Sepia, bearing-down sensation and gastric sinking; fatty heart); *Kali oxalicum* (lumbago, convulsions); *Kali picricum* (jaundice, violent eructations); *Kali sulphuratum* (gastritis, hiccough, redness of face); *Kali tartaricum* (paraplegia); *Kali telluricum* (garlicky odor of breath, salivation, swollen tongue). Also: *Calc.; Ammon. phos.* Compare: *Phos.; Lycop.; Bry.; Natrum; Stann.; Sepia.*

**Antidotes:** *Camph.; Coffea.*

**Dose.**—Third to thirtieth and higher.
KALI CHLORICUM.

(Chlorate of Potassium.)

Produces most acute ulcerative and follicular stomatitis. Noma.

Mouth.—Profuse secretion of acid saliva. Whitish mucous surface red, tumid, with gray-based ulcers. Tongue swollen.

Stomach.—Feeling of weight in epigastric and umbilical region. Flatulence. Vomiting of greenish-black matter.

Stool.—Diarrhoea; profuse greenish mucus.

Urine.—Albuminous, scanty, suppressed. Hæmaturia, diuresis.

Skin.—Jaundice. Itching miliary or papular eruptions. Discolored; chocolate tint.

Dose.—First to sixth potency.

KALI CYANATUM.

(Potassium Cyanide.)

Cancer of tongue and agonizing neuralgia have been benefited by this drug. Aqueous solution prevents spread of small-pox.

Tongue.—Ulcer of tongue, with indurated edges. Speech difficult.

Face.—Severe neuralgia in temporal region, recurring daily at same hour. Pain in orbital and supra-maxillary region, with screaming and loss of consciousness.

Modalities.—Worse, from 4 A.M. to 4 P.M.
Relationship.—Compare: Platin.; Stann.; Cedron; Mezer.; Mur. ac.

Dose.—Second trituration.

KALI HYDROIODICUM.

(Iodide of Potassium.)

The profuse watery, acrid coryza that the drug produces serves as a sure guiding symptom, especially when associated with pain in frontal sinus. It acts prominently on fibrous and connective tissues, producing infiltration, oedema, etc. Glandular swellings. Purpura and hæmorrhagic diathesis. Secondary and tertiary syphilitic affections, especially nodes; thickening and induration of ligaments and fasciae, etc.

Mind.—Sad, anxious; harsh temper.

Eyes.—Conjunctiva red, injected, profuse lachrymation. Syphilitic iritis. Pustular keratitis and chemosis. Bony tumors of the orbit.

Stomach.—Saliva increased. Faintness at epigastrium. Cold food and drink, especially milk, aggravate. Throbbing, painful burning. Flatulence.
Female.—Menses late, profuse. During menses uterus feels as if squeezed. Corrosive leucorrhoea.

Modalities.—Worse, at night, damp weather. Better, motion, open air.

Relationship.—Antidote: Hepar.
Compare: Iod.; Mercur.; Sulph.; Mezer.

Dose.—Crude drug, to twelfth potency.

KALI MURIATICUM.

(Chloride of Potassium.)

Although not proven, this remedy has a wide clinical use through its introduction by Schuessler. It
certainly is of great value in catarrhal affections, in subacute inflammatory states, fibrinous exudations, and glandular swellings. **White or gray coating of base of tongue** and expectoration of thick white phlegm seem to be special guiding symptoms.

**Head.**—Imagines he must starve. Headache, with vomiting. Crusta lactea. Dandruff.

**Eyes.**—White mucus, purulent scabs. Superficial ulcer. Trachoma.

**Ears.**—Chronic catarrhal conditions of the middle ear. Glands about the ear swollen. **Snapping and noises in the ear.**

**Face.**—Cheek swollen and painful.

**Mouth.**—Aphthæ; thrush; white ulcers in mouth. Swollen glands about jaw and neck. Coating of tongue **grayish-white**, dryish, or slimy.

**Throat.**—Follicular tonsillitis. Tonsils inflamed; enlarged so much can hardly breathe. Grayish patches or spots in the throat and tonsils. Adherent crusts in vault of pharynx.

**Stomach.**—Fatty or rich food causes indigestion. Vomiting of white, opaque mucus; water gathers in the mouth. Pain in the stomach, with constipation. Bulimia; hunger disappears by drinking water.

**Abdomen.**—Abdominal tenderness and swelling. Flatulence. Thread-worms, causing itching at the anus.

**Stool.**—Constipation; light-colored stools. Diarrhoea, after fatty food; clay-colored, white or slimy stools. Dysentery; purging, with slimy stool-
Hæmorrhoids; bleeding; blood dark and thick, fibrinous, clotted.

Female.—Menstruation too late or suppressed, checked or too early; excessive discharge; dark-clotted or tough black blood, like tar. [Plat.] Leucorrhœa; discharge of milky-white mucus, thick, non-irritating, bland. Morning sickness, with vomiting of white phlegm.

Respiratory Organs.—Loss of voice; hoarseness. Asthma, with gastric derangements; mucus white and hard to cough up. Loud, noisy stomach cough; cough short, acute, and spasmodic, like whooping-cough; expectoration thick and white. Rattling sounds of air passing through thick, tenacious mucus in the bronchi; difficult to cough up.

Back and Extremities.—Rheumatic fever; exudation and swelling around the joints. Rheumatic pains felt only during motion or increased by it. Nightly rheumatic pains; worse from warmth of bed; lightning-like from small of back to feet; must get out of bed and sit up. Hands get stiff while writing.

Skin.—Acne, erythema, and eczema, with vesicles containing thick white contents. Dry, flour-like scales on the skin. [Arsenic.]

Modalities.—Worse, rich food, fats, motion.

Relationship.—Compare: Kino (otorrhœa, with stitches in right ear); Bry.; Mercur.; Puls.; Sulph.

Dose.—Third to twelfth potency.
KALI NITRICUM—NITRUM.
(Nitrate of Potassium—Saltpeter.)

Asthma, gastro-intestinal inflammation, with much debility, and relapses in phthisis call for this remedy. Suppurative nephritis.

Head.—Scalp very sensitive. Headache, with vertigo, as if falling to right side and backwards; worse, stooping.

Nose.—Sneezing. Swollen feeling; worse, right nostril. Point red and itching. Polypus. [Sang. nit.] 

Mouth.—Tongue red, with burning pimples; burns at tip. Throat constricted and sore.

Stool.—Thin, watery, bloody. Membranous shreds, with tenesmus. Diarrhoea from eating veal.

Female.—Menses too early, profuse, black; preceded and with violent backache. Leucorrhoea.

Heart.—Pulse weak, small, thready. Violent stitch in praecordia, and beating of heart.

Extremities.—Stitches between shoulder-blades. Tearing and sticking in shoulders and joints. Hands and fingers seem swollen.

Modalities.—Worse, eating veal. Better, drinking sips of water.

Relationship.—Antidotes: Opium; Nitr. sp. dulc. Antidote to Opium and Morphine poisoning, 8-10 grains to glass of water.

Compare: Cannab. sat. (which contains a large amount of Kali nit.); Lycop.; Sanguin.; Allium sat.; Antimon. iod.

Dose.—Third to thirtieth potency.

KALI PERMANGANICUM.

(Permanganate of Potassium.)

Intense irritation of nose, throat, and larynx. Diphtheria. Dysmenorrhœa. Bites of serpents and for other animal poisons.

Dose.—Locally, 1 dram to a quart of water, to correct fetor in cancer, ulcer, ozœna and other foul odors. Also: as an injection in leucorrhœa and gonorrhœa. Internally, 2x dilution in water.
KALI PHOSPHORICUM.

(Phosphate of Potassium.)

One of the greatest nerve remedies. Especially adapted to the young. Marked disturbance of the sympathetic nervous system. Conditions arising from want of nerve power, neurasthenia, mental and physical depression are wonderfully improved by this remedy. Besides, it corresponds to states of adynamia and decay, gangrenous conditions. In these two directions it has won many clinical laurels.

Head.—Occipital headache; better, after rising. Vertigo, from lying, on standing up, from sitting, and when looking upward. [Granat.] Cerebral anaemia. Headache of students and those worn out by fatigue. Headaches are relieved by gentle motion. Headache, with weary, empty, gone feeling at stomach. [Ign.; Sep.]

Eyes.—Weakness of sight; loss of perceptive power; after diphtheria, from exhaustion. Drooping of eyelids. [Coust.]

Ears.—Humming and buzzing in the ears.

Nose.—Nasal disease, with offensive odor; fetid discharge.

Face.—Livid and sunken, with hollow eyes. Right-sided neuralgia, relieved by cold applications.
Mouth.—Breath offensive, fetid. Tongue coated brownish, like mustard. Excessively dry in the morning. Toothache, with easily-bleeding gums; they have a bright-red seam on them. Gums spongy and receding. [Caps.; Hamam.; Lach.]

Throat.—Gangrenous sore throat. Paralysis of the vocal chords.

Stomach.—A nervous, "gone" sensation at the pit of the stomach. [Ign.; Sep.; Sulph.]

Abdomen.—Diarrhoea; foul, putrid odor; occasioned by fright, with depression and exhaustion. Diarrhoea while eating. Dysentery; stools consist of pure blood; patient becomes delirious; abdomen swells. Cholera; stools have the appearance of rice water. [Verat.; Ars.; Jatropha.] Prolapsus recti. [Ign.; Pod.]

Female.—Menstruation too late or too scanty in pale, irritable, sensitive, lachrymose females. Too profuse discharge, deep-red or blackish-red, thin and not coagulating; sometimes with offensive odor.

Male.—Nocturnal emissions; sexual power diminished; utter prostration after coitus. [Kali carb.]

Respiratory.—Asthma; least food aggravates. Short breath on going up-stairs. Cough; yellow expectoration.

Extremities.—Paralytic lameness in back and extremities. Exertion aggravates. Pains, with depression and subsequent exhaustion.

Modalities.—Worse, eating, cold, early morning. Better, warmth.
Relationship.—Compare: Zinc.; Cels.; Cimicif.; Lachas.; Mur. ac.

Dose.—Third to twelfth trituration. The highest potencies seem to be indicated in certain cases.

KALI SULPHURICUM.

(Potassium Sulphate.)

Ailments accompanied by profuse desquamation. Applicable to the later stages of inflammation. Yellow mucous and serous discharges. Has been found of much use in oxaluria.

Head.—Rheumatic headache, beginning in evening. Bald spots. Dandruff and scaldhead.

Ears.—Eustachian deafness. Discharge of yellow matter. [Hydr.]

Nose.—Colds, with yellow, slimy expectoration. Nose obstructed. Smell lost. [Nat. mur.]

Face.—Aches in heated room. Epithelioma.

Abdomen.—Colicky pains; abdomen feels cold to touch; tympanitic, tense. Yellow, slimy diarrhœa. Constipation, with hæmorrhoids. [Sulph.]

Female.—Menses too late, scanty, with feeling of weight in abdomen. Metrorrhagia.

Respiratory.—Coarse rales. Rattling of mucus in chest. [Tart. em.] Bronchial asthma, with ye
expectoration. Cough; worse in evening and in hot atmosphere. Croupy hoarseness. [Hep.; Spong.]

Extremities.—Pain in nape, back, and limbs; worse in warm room. Shifting, wandering pains.

Fever.—Rise of temperature at night. Intermittent fever, with yellow, slimy tongue.

Modalities.—Worse, in evening, heated room. Better, cool, open air.

Relationship.—Compare: Pulsat.; Kali bich.; Nat. m.

Dose.—Third to twelfth potency.

KALMIA LATIFOLIA.

(Mountain Laurel.)

A rheumatic remedy. Pains shift rapidly. Has also a prominent action on the heart. Neuralgia; pains shoot downwards, with numbness. Fulgurating pains of locomotor ataxia. Protracted and continuous fevers, with tympanites.

Head.—Vertigo; worse stooping. Confusion of brain. Pain in front and temporal region from head to nape and to teeth; from cardiac origin.

Eyes.—Vision impaired. Stiff, drawing sensation when moving eyes. Rheumatic iritis. Scleritis, pain increased by moving the eye.

Face.—Neuralgia; worse right side. Stitches in tongue.

Stomach.—Warm, glowing sensation in epigastrium. Nausea; vomiting. Pain in pit of stomach;
worse by bending forward; relieved by sitting erect. Bilious attacks, with nausea, vertigo, and headache.

**Urinary.**—Frequent, with sharp pains in lumbar region. Post-scarlatinal nephritis.

**Heart.**—Weak, slow pulse. [Dig.; Apoc. can.] Fluttering of heart, with anxiety. Palpitation; worse leaning forward. Gouty and rheumatic metastasis to heart. Tachycardia, with pain. [Thyroid.] Tobacco heart. Dyspnœa. Shooting through chest above heart into shoulder-blades.

**Female.**—Menses too early, or suppressed, with pain in limbs and back and inside of thighs. Leucorrhœa follows menses.

**Back.**—Pain down back, as if it would break; in localized regions of spine; through shoulders. Lumbar pains, of nervous origin.

**Extremities.**—Pains from hips to knees and feet. Pains affect a large part of a limb, or several joints, and pass through quickly. Weakness, numbness, pricking, and sense of coldness in limbs. Pains along ulnar nerve, index finger. Joints red, hot, swollen.

**Modalities.**—Worse, leaning forward [opposite, Kali carb.]; looking down; motion, open air.

**Relationship.**—Compare: Numbness, with neuralgic pain: Acon.; Graph.; Plat.; Cham.; Rhus; Spig.; Ledum; Lith. Complementary: Bene. acid.

**Dose.**—First to sixth potency.
KAOLIN.
(China Clay.)

A remedy for croup and bronchitis.

**Nose.**—Itching and burning. Discharge yellow. Sore, scabby, stopped up.

**Dose.**—Lower triturations.

KREOSOTUM.
(Kreosote.)

**Mental.**—Music causes weeping and palpitation. Vanishing of thought; stupid, forgetful, peevish.

**Head.**—Lull pain, as from a board pressing against forehead. Menstrual headache. Occipital pain. [Cels.; Zinc pic.]

**Eyes.**—Salty lachrymation. Lids red and swollen.

**Ears.**—Eruption around, and pimples within. Difficult hearing and buzzing.
Mouth.—Lips red, bleeding. *Very painful dentition*; child will not sleep. *Very rapid decay of teeth, with spongy, bleeding gums*; teeth dark and crumbly. *[Staph.; Ant. c.]* Putrid odor and bitter taste.

Nose.—Offensive smell and discharge. Acrid rawness. Lupus. *[Ars.; X-ray.]*

Throat.—Burning, choking sensation. *Putrid odor.*

Stomach.—Nausea; *vomiting* of food several hours after eating; of sweetish water in the morning. Feeling of coldness, as of ice-water in stomach. Soreness; better eating. Paintful hard spot. Hæmatemesis. Bitter taste after a swallow of water.

Urine.—Can urinate only when lying; cannot get out of bed quick enough during first sleep. Dreams of urinating. Enuresis in the first part of night. *Must hurry when desire comes to urinate.*

Respiratory.—*Hoarse, with pain in larynx*. Cough; worse evening, with efforts to vomit, with pain in chest. Raw burning in chest; pains and oppression,

**Back.**—Dragging backache, extending to genitals and down thighs. Great debility.

**Modalities.**—*Worse*, in open air, cold, rest, when lying; after menstruation. *Betten*, from warmth, motion, warm diet.

*Guaiacol* is the principal constituent of Kreosote, and similar in action. Used in pulmonary tuberculosis. Compare, also: *Carbol. ac.; Iod.; Laches.; Tart. em.; Lyc.*

**Dose.**—Third to thirtieth potency. The 200th in sensitive patients.

**LABURNUM.**

*(Cystisus Laburnum.)*

Constant vertigo, intense sleepiness, vomiting, wide-spread anaesthesia, and convulsions are some of the chief effects of this drug.

**Head.**—Stupefaction; indifference. *[Phos. ac.]* Unequally dilated pupils; *giddiness*; twitching of ocular muscles. *[Agaric.]* Hydrocephalus.
Stomach.—Excessive thirst. Constant nausea, vomiting; burning pain in epigastrium.

Abdomen.—Tenesmus and erections. Grass-green urine.

Relationship.—Antidote: Coffee.
Compare: Nux; Gels.
Dose.—Third potency.

LAC CANINUM.

(Dog’s Milk.)

This remedy is of undoubted value in certain forms of sore throat and diphtheria and rheumatism. The key-note symptom is erratic pains, alternating sides. Feels as if walking on air, or of not touching the bed when lying down. Ozaena.

Head.—Pain first one side, then the other. Occipital pain with shooting pain extending to forehead. Sensation as if brain were alternately contracted and relaxed. Noises in ears. Reverberation of voice.

Nose.—Coryza; one nostril stuffed up, the other free; alternate. Alae nasi and corners of mouth cracked. Bones of nose sore to pressure. Bloody pus discharged.

Female.—Menses too early, profuse, flow in gushes. Breasts swollen; painful before [Calc. c.; Can.; Puls.], and better on appearance of menses. Mastitis; worse least jar. Helps to dry up milk. Sinking at epigastrium. Sexual organs easily excited. Backache; spine very sensitive to touch or pressure. Galactorrhæa.

Modalities.—Worse, morning of one day and in the evening of next.

Relationship.—Compare: Lach.; Con.; Lac felineum—Cat’s Milk—(ciliary neuralgia; eye symptoms, photophobia; dysmenorrhœa); Lac vaccinum—Cow’s Milk—(headache, rheumatic pains, constipation); Lac vaccinum coagulatum—Curds—(nausea of pregnancy); Lactis vaccini flos—Cream—(diphtheria, leucorrhœa, menorrhagie dysphagia); Lactic ac.

Dose.—Thirtieth and the highest potencies.

**LAC DEFLORATUM.**

(Skimmed Milk.)

A remedy for diseases with faulty nutrition; sick headaches, with profuse flow of urine during pain.

Head.—Despondent. Pain begins in forehead to occiput, in morning on rising. Intense throbbing, with nausea, vomiting, blindness, and obstinate constipation; worse, noise, light, motion, during menses, with great prostration, and better by pressure and bandaging head tightly.

Stool.—Constipation. Stools hard, large, with great straining; painful, lacerating anus.

Relationship.—Compare: Colostrum. (Diarrhoea
in infants. Whole body smells sour. Colic.) Nat. mur.

Dose.—Sixth to thirtieth potency.

LACERTA.

(Green Lizard.)

LACHESIS.

(Lance-headed Viper.)

Like all snake poisons, Lachesis decomposes the blood, rendering it more fluid; hence a hæmorrhagic tendency is marked. Purpura, septic states, diphtheria, and other low forms of disease when the system is thoroughly poisoned and the prostration is profound. The modalities are most important in guiding to the remedy. Very important during the climacteric and for patients of a melancholic disposition. Ill effects of suppressed discharges.

Mind.—Great loquacity. Amative. Sad in the morning; no desire to mix with the world. Restless and uneasy; does not wish to attend to business; wants to be off somewhere all the time. Jealous. [Hyos.] Mental labor best performed at night. Religious insanity. [Verat.; Stram.] Derangement of the time sense.

Head.—Pain through head on awaking. Pain at root of nose. Pressure and burning on vertex. Waves of pain; worse after moving. Sun headaches. With headache, very pale face.
Eyes.—Defective vision after diphtheria, extrinsic muscles too weak to maintain focus. Sensation as if eyes were drawn together by cords which were tied in a knot at root of nose.

Ears.—Tearing pain from zygoma into ear; also with sore throat. Ear-wax hard, dry.

Nose.—Bleeding, nostrils sensitive. Coryza, preceded by headache. Hay asthma; paroxysms of sneezing. [Silica; Sabad.]

Face.—Pale. Trifacial neuralgia, left side, heat running up into head. [Phos.] Tearing pain in jaw-bones. [Amphisbaena; Phos.] Purple, mottled, puffed; looks swollen, bloated, jaundiced, chlorotic.

Throat.—Quinsy. Intensely swollen, externally and internally. Diphtheria; membrane dusky, blackish; pain aggravated by hot drinks; chronic sore throat, with much hawking; mucus sticks, and cannot be forced up or down. Very painful; worse slightest pressure, touch is even more annoying. Worse on left side. In diphtheria, etc., the trouble began on the left side. Tonsils purplish. Purple, livid color of throat. Feeling as if something was swollen which must be swallowed; worse, swallowing saliva or liquids. Pain into ear. Collar and neckband must be very loose.

Stomach.—Craving for alcohol, oysters. Any food causes distress. Pit of stomach painful to touch. Hungry, cannot wait for food.

Abdomen.—Liver region sensitive, cannot bear
anything around waist. Especially suitable to drunkards. Abdomen tympanitic, sensitive, painful. [Bell.]

Stool.—Constipated, offensive stool. Anus feels tight, as if nothing could go through it. Pain darting up the rectum every time he sneezes or coughs. Hæmorrhage from bowels like charred straw, black particles. Hæmorrhoids protrude, become constricted, purplish. Stitches in them on sneezing or coughing. Constant urging in rectum, not for stool.

Female.—Climacteric troubles, palpitation, flashes of heat, hæmorrhages, vertex headache, fainting spells; worse, pressure of clothes. Menses too short, too feeble; pains all relieved by the flow. [Eupion.] Left ovary very painful and swollen, indurated. Mammæ inflamed, bluish. Coccyx and sacrum pain, especially on rising from sitting posture. Acts especially well at beginning and close of menstruation.

Male.—Intense excitement of sexual organs.

Respiratory.—Upper part of windpipe very susceptible to touch. Sensation of suffocation and strangulation on lying down, particularly when anything is around throat; compels patient to spring from bed and rush for open window. Spasm of glottis; feels as if something ran from neck to larynx. Feels he must take a deep breath. Cramp-like distress in praecordial region. Cough; dry, suffocating fits, tickling. Little secretion and much sensitiveness; worse, pressure on larynx, after sleep, open air. Breathing almost stops on falling asleep. [Grind.] Larynx painful to touch. Sensation as of a plug [Anac.] which moved up and down, with a short cough.
Heart.—Palpitation, with fainting spells, especially during climacteric. Constricted feeling, causing palpitation, with anxiety. Cyanosis. Irregular beats.

Sleep.—Patient sleeps into an aggravation. Sudden startings when falling asleep. Sleepiness, yet cannot sleep. [Bell.; Op.] Wide-awake in evening.

Fever.—Chilly in back; feet icy-cold; hot flushes and hot perspiration. Paroxysm returns after acids. Intermittent fever every spring.

Modalities.—Worse, after sleep, left side, in the spring, warm bath, pressure or constriction, hot drinks. Better, appearance of discharges, warm applications.

Relationship.—Antidotes: Ars.; Merc.; Heat; Alcohol; Salt.

Complementary: Lycop.; Hep.; Salamandra.

Incompatible: Acet. ac.; Carb. ac.

Compare: Nat. m.; Nitr. ac.; Crotal.; Amphisbaena—Snake-lizard—(right jaw swollen and painful, lancinating pains); Naja; Scolopendra—Centipede—(malignant pustule; angina pectoris). Lepidium (Affections of the breast, heart; lancinating pains).

Dose.—Seventh to 200th potency.
LACHNANTES—LACTICUM ACIDUM.

LACHNANTES.
(Spirit-weed.)

A remedy for torticollis, rheumatic symptoms about neck. Tuberculosis—light-complexioned people.

Head.—Right-sided pain, extending down to jaw; head feels enlarged; worse, least noise. Scalp painful. Sleepless. Circumscribed red cheeks, and burning in palms and soles.

Neck.—Drawn over to one side in sore throat. Rheumatism of the neck. Stiffness of neck. Pain in nape, as if dislocated.

Skin.—Body icy-cold; face yellow.

Relationship.—Compare: Dulc.; Bry.; Puls.; also Fel lauri (nape of neck pains, and great tension there).

Dose.—Third potency.

LACTICUM ACIDUM.
(Lactic Acid.)

Morning sickness, diabetes, and rheumatism offer a field for this remedy. Troubles in the breasts. Locally, in tuberculous ulceration of vocal cords.

Throat.—Fullness or lump like a puff-ball. Keeps swallowing. Constricted low down.
LACTICUM ACIDUM—LACTUCA VIROSA.

Chest.—Pain in breasts, with enlargement of axillary glands, and pain extends into hand.

Extremities.—Rheumatic pain in joints and shoulders, wrists, knees, with much weakness. Trembling of whole body while walking. Limbs feel chilly.

Urine.—Large quantities passed frequently. Saccharine.

Relationship.—Compare: Lithia; Phos. ac.

Dose.—Third to thirtieth potency.

LACTUCA VIROSA.

(Acid Lettuce.)

This remedy acts principally upon the brain and circulatory system. Delirium tremens, with sleeplessness, coldness, and tremor. Hydrothorax and ascites. Impotence. Sense of lightness and tightness affecting whole body. Seems to be a true galactagogue.

Mind.—Stupefaction of sense. Great restlessness.

Head.—Dull, heavy, confused, dizzy. Heat of face and headache, with general coldness. Headache, with affections of respiratory organs.

Abdomen.—Sensation of weight, of fullness; borborygmi; abundant emission of wind.

Chest.—Difficult breathing. Suffocative breathing from dropsy of the chest. Constant tickling cough. Incessant spasmodic cough, as if chest would fly to pieces. Squeezing sensation in lower chest.

Sleep.—Restless; impossible to get to sleep. Deep comatose sleep.
Extremities.—Coldness and numbness of feet and legs. Tremor of hands and arms.

Relationship.—Antidotes: Acet. ac.; Coff.
Compare: Natulus (constipation and somnolence; susceptible to aura of others); Lach.; Kali carb.; Spiranthes (galactagogue).
Dose.—Tincture.

LAMIIUM.
(White Nettle.)

Headache, with backward and forward motion of head. Leucorrhoea and menses too early and scanty. Hæmorrhoids; hard stool, with blood. Sensation in urethra as though a drop of water were flowing through it. Tearing in the extremities. Hæmoptysis.

LAPIS ALBUS.
(Silico-Fluoride of Calcium.)

Chest.—Persistent pain in mammary region. Glandular hardening.

Skin.—Scrofulous abscesses and sores. Enlargement and induration of glands, especially cervical. Lipoma, sarcoma, carcinoma. Pruritus.

Relationship.—Compare: Badiaga; Ars. iod.; Calc. iod.; Con.; Kal. iod.; Asterias.
Dose.—First to thirtieth potency.
LAPPA.
(Burdock.)

Very important in skin therapeutics. Eruptions on the head, face, and neck; pimples; acne. Styes, and ulcerations on the edges of the eyelids. Profuse and frequent urination.

Extremities.—Pain in hands, knees, and ankles, extending downward to fingers and toes. Pain in all joints. Eruption on extremities.

Female.—Uterine displacements. An exceedingly sore, bruised feeling in the uterus, with great relaxation of the vaginal tissues; apparently entire lack of tonicity of pelvic contents. These symptoms all aggravated by standing, walking, a misstep, or sudden jar.

Dose.—Tincture, to third potency.

LATHYRUS.
(Chick-Pea.)

Extremities.—Tremulous, tottering gait. Excessive rigidity of legs; spastic gait. Cannot extend or cross legs when sitting. Myelitis, with marked spastic symptoms. Rheumatic paralysis. Gluteal muscles and lower limbs emaciated. Legs blue; swollen, if hanging down.

Relationship.—Compare: Oxytrop.; Secale; Agrostemma—Corn-cockle—(impaired locomotion; diffi-
culty in remaining erect; vertigo and headache. Burning from lower jaw to vertex).

Dose.—Third potency.

LATRODECTUS.

(Spider.)

A picture of angina pectoris is presented by the action of this drug. The præcordial region seems to be the center of attack.

Head.—Anxiety. Screams with pain. Pain up neck to back of head.

Respiratory.—Extreme apnoea. Gasping respiration. Fears losing breath.

Chest.—Violent præcordial pain extending to the axilla and down the arm and forearm to fingers, with numbness of the extremity. Pulse feeble and rapid. Sinking sensation at the epigastrium.

Extremities.—Pain in left arm, feels paralyzed. Skin cold as marble.

Dose.—Third to sixth potency.

LAUROCERASUS.

(Cherry-Laurel.)

Spasmodic tickling cough is often magically influenced by this drug. Lack of reaction, especially in chest and heart affections. Drink rolls audibly through æsophagus and intestines.

Fever.—Coldness; chills and heat alternate. Thirst, with dry mouth in afternoon.

Respiratory.—Cyanosis and dyspnœa; worse, sitting up. [Psor.] Patient puts hand on heart,

Relationship.—Compare: Hydrocy. ac.; Hyoscy.; Ambra; Valer.

Dose.—Tincture, to third potency. Cherry-Laurel water, two to five-drop doses.

LEDUM.

(Marsh-Tea.)

Affects especially the rheumatic diathesis, going through all the changes from functional pain to altered secretions and deposits of solid earthy matter in the tissues. The Ledum rheumatism begins in feet, and travels upward. It affects also the skin, producing an eruption like Poison-oak, and is antidotal thereto as well as to stings of insects. There is a general lack of animal heat, and yet heat of bed is intolerable. For punctured wounds, produced by sharp-pointed instruments or bites, particularly if the wounded parts are cold, this is the remedy.

Head.—Vertigo when walking, with tendency to fall to one side. Distress when head is covered. Nosebleed. [Mehlrot.; Bry.]

Eyes.—Aching in eyes. Extravasation of blood
in lids, conjunctiva, aqueous or vitreous. Contused wounds. Cataract with gout.

**Face.**—*Red pimples on forehead and cheeks; sting-ing when touched. Crusty eruption around nose and mouth.*

**Rectum.**—*Anal fissures.* Hæmorrhoidal pain.

**Extremities.**—Gouty pains shoot all through the foot and limb, and in all joints, but especially small joints. Swollen, hot, pale. Throbbing in right shoulder. Pressure in shoulders worse motion. Skin.—Every scratch becomes a sore. Itching of arm and hand when writing. Vaginal pruritus. Herpes zoster. [Ars.; Ran. bulb.]

Relationship.—Compare: Rumex; Laches; Mentha pulegium (Pain in bones of forehead and extremities).

Dose.—Third to thirtieth potency. Locally, in pruritus vaginae.

MENYANTHES.

(Buck-Bean.)

Head.—Pressing in vertex; better, hard pressure with hand. Pressing-together pain. Weight pressing on brain with every step on ascending. Pain from nape over whole brain; better, stooping, sitting; worse, going up-stairs. Cracking in jaw and twitching of facial muscles.

Stomach.—No thirst at any time. Ravenous hunger; passing away after eating a little. Desire for meat. Sensation of coldness extending up to oesophagus.

Abdomen.—Distended and full; increased by smoking tobacco. Coldness of abdomen.

Extremities.—Icy coldness of hand and feet. Cramp-like pain. As soon as patient lies down, legs jerk and twitch.

Fever.—Coldness predominates; felt most acutely in abdomen and legs and tip of nose.
Modalities.—Worse, during rest, ascending. Better, pressure on affected part, stooping.

Relationship.—Compare: Caps.; Puls.; Calc.; Phos. ac.; Sang.
Antidote: Camph.
Dose.—Third to thirtieth potency.

MEPHITIS.

(Skunk.)

Neidhard says: "If the facts collected since 1851, which are numerous, do not prove that Mephitis will supersede all other remedies in whooping-cough, it certainly may be considered a valuable specific." In order to insure its full success, it should be given in the lower dilutions from 1 x to 3 x. Suffocative feeling, asthmatic paroxysms, spasmodic cough; cough so violent seems as if each spell would terminate life. Child must be raised up, gets blue in face, cannot exhale. Mucous rales through upper part of chest. Patient wants to bathe in ice cold water.

Mind.—Excited, full of fancies. Can neither sleep nor work.

Eyes.—Pain from over-exertion; blur; unable to distinguish letters; conjunctiva red; eyes hot and painful.

Mouth.—Painful jerks in root of teeth. Bloating face. Coppery taste, as after eating onions.

Respiratory.—Sudden contraction of glottis, when drinking or talking. Food goes down wrong way. False croup; cannot exhale. Spasmodic and whooping cough. Few paroxysms in day-time, but many at night; with vomiting after eating. Asthma, as if in-
haling sulphur; cough from talking; hollow, deep, with rawness, hoarseness, and pain through chest. Violent spasmodic cough; worse at night.

Sleep.—Awakes at night with rush of blood to lower legs. Vivid dreams of water, fire, etc.

Relationship.—Compare: Dros.; Coral.; Sticta.

Dose.—First to third potency. Has a very short action.

**MERCURIALIS PERENNIS.**

*(Dog's Mercury.)*

Female.—Amenorrhoea, scanty menses, accompanied with orgasms. Pains and swelling of breasts. Dysmenorrhoea.

Relationship.—Compare: Borax; Croton; Euphorb.

**MERCURIUS.**

*(Quicksilver.)*

Every organ and tissue of the body is more or less affected by this powerful drug; but especially so the lymphatic system, with all the membranes and glands, and internal organs, bones, etc. All Mercury symptoms are worse at night, worse from warmth of bed, worse from damp, cold, rainy weather, worse during perspiration. Complaints increase with the sweat and rest, all associated with a great deal of weariness, prostration, and trembling. Sensitive to heat and cold. Parts are much swollen,
with a raw sore feeling; the profuse oily perspiration does not relieve. Breath and body smell foul. Tendency to formation of pus.

Mind.—Slow in answering questions. Memory weakened, and loss of will-power. Weary of life. Mistrustful. Thinks he is losing his reason.

Head.—Vertigo when lying on back. Band-feeling about head. One-sided tearing pains. Tension about scalp, as if bandaged. Catarrhal headaches; much heat in head. Stinging, burning fetid eruptions on scalp. Loss of hair. Exostoses, with feeling of soreness. Scalp tense; oily sweat on head.

Nose.—Much sneezing. Nostrils raw, ulcerated; nasal bones swollen. Yellow-green, fetid, pus-like discharge. Coryza; acrid discharge, but too thick to run down the lip; worse, warm room.

Eyes.—Lids red, thick, swollen. Profuse burning, acrid discharge. Floating black spots. After exposure to glare of fire; foundrymen. Parenchymatous keratitis of syphilitic origin, with burning pain. Iritis, with hypopyon.

Ears.—Thick yellow discharge; fetid and bloody. Otalgia, worse warmth of bed; at night sticking pains. Boils in external canal. [Calc. pic.]

Nose.—Pain and swelling of nasal bones, and caries, with greenish fetid ulceration. Nosebleed at night. Copious discharge of corroding mucus. Coryza, with sneezing; sore, raw, smarting sensation; worse, damp weather; profuse, fluent.

Face.—Pale, earthy, dirty-looking, puffy. Syphilitic pustules on face.

Mouth.—Sweetish taste. Salivary secretions greatly increased; bloody and viscid. Saliva fetid,
coppery. Speech difficult on account of trembling tongue. *Gums spongy*, recede, bleed easily. Whole mouth *moist*. Crown of teeth decay. Teeth loose; feel tender and elongated. Tongue heavy, *thick; moist coating; yellow, flabby, teeth-indentated*; feels as if burnt, with ulcers. *Fetid odor* from mouth; can smell it all over room.

**Throat.**—Bluish-red swelling. Constant desire to swallow. *Putrid sore throat; worse right side. Ulcers* and inflammation appearing at every change in weather. Stitches into ear on swallowing; fluids return through nose. Quinsy, with difficult swallowing, *after pus has formed*. Sore, raw, smarting, burning throat. Complete loss of voice. Burning in throat, as from hot vapor ascending.

**Stomach.**—Putrid eructations. *Intense thirst for cold drinks*. Weak digestion, with *continuous hunger*. Stomach sensitive to touch. Hiccup and regurgitation. Feels replete and constricted.

**Stool.**—Greenish, *bloody and slimy, worse at night, with pain and tenesmus*. *Never-get-done feeling*. Discharge accompanied by chilliness, sick stomach, cutting colic, and tenesmus. Whitish-gray stools.

**Urine.**—Frequent urging. Greenish discharge from urethra; burning in urethra on beginning to urinate. Urine dark, scanty, bloody, albuminous.

Female.—Menses profuse, with abdominal pains. Leucorrhoea excoriating, greenish, and bloody, sensation of rawness in parts. Stinging pain in ovaries. [Apis.] Itching and burning; worse, after urinating; better, washing with cold water. Morning sickness, with profuse salivation. Mammæ painful and full of milk at menses.

Respiratory.—Soreness from fauces to sternum. Cannot lie on right side. Cough, with yellow mucopurulent expectoration. Paroxysms of twos; worse, night, and from warmth of bed. Catarrh, with chilliness; dread of air. Stitches from lower lobe of right lung to back. Whooping-cough with nosebleed. [Arnica.]

Back.—Bruised pain in small of back, especially when sitting. Tearing pain in coccyx; better, pressing on abdomen.

Skin.—Almost constantly moist. Excessive, odorous, viscid perspiration; worse, night. General tendency to free perspiration, but patient is not relieved thereby. Vesicular and pustular eruptions. Ulcers, irregular in shape, edges undefined. Pimples around the main eruption. Itching; worse from warmth of bed. Crusta lactea; yellowish-brown crusts, considerable suppuration. Glands swell every time patient takes cold. Buboes. Orchitis. [Clemat.; Hamam.; Puls.]

Fever.—Generally gastric or bilious, with profuse

Modalities.—Worse, at night, wet, damp weather, lying on right side, perspiring; warm room and warm bed.

Relationship.—Compare: Epilobium (ptyalism, dysphagia); Kali hyd. (in hard chancre); Mercurius nitrosus—Nitrate of Mercury—(especially in pustular conjunctivitis and keratitis; gonorrhoea and mucous patches, with sticking pains; syphilides); Mercurius auratus (psoriasis and syphilitic catarrh); Mercurius bromatus (secondary syphilitic skin affection); Mercurius phosphoricus (nervous diseases from syphilis; exostoses); Mercurius precipitatus ruber (gonorrhoea; urethra felt as a hard string; chancroid; phagedaenic ulcer and bubo; pemphigus; mucous patches; eczema; barber's itch; blepharitis, internally and externally; leaden heaviness in occiput, with otorrhoea); Mercurius tannicus (syphilides in patients with gastro-intestinal diseases, or if very sensitive to ordinary mercurial preparations); Erythrinus—South American Red Mullet Fish—(in pityriasis rubra and syphilis); Lolium temulentum (in trembling of hands and legs); Mercur. cum kali (inveterate colds, acute facial paralysis).

Compare: Mez.; Phos.; Syph.; Kali mur. Different Mercurial salts.

Antidotes: Hep.; Aur.; Mez.

Dose.—First to thirtieth potency.
MERCURUS CYANATUS.
(Cyanide of Mercury.)

Affects most prominently the buccal cavity. This, together with marked prostration, gives it a place in the treatment of diphtheria, where it has achieved unquestioned great results. Malignant types, with great prostration. Coldness and nausea. Syphilitic ulcers when perforation threatens.

Skin.—Moisture, with icy coldness.

Dose.—Sixth to thirtieth potency. Aggravation is apt to occur from potencies below the sixth.

MERCURUS DULCIS.
(Calomel.)

Has a marked effect on catarrhal inflammations of ear, and useful in eustachian catarrh, deafness.

**Ears.**—Otitis media; closure of Eustachian tube; ear troubles of scrofulous children; membrana tympani retracted, thickened and immovable.

**Mouth.**—Offensive breath; salivation; sore gums. Eustachian tube closed. Ulcers. Tongue black. Constant flow of dark putrid saliva; very offensive Ulceration of throat, with dysphagia. Granular pharyngitis.

Female.—Menses early, profuse, protracted. Hæmorrhage from uterus; bright red, fluid. Painful varices during pregnancy.

Respiratory.—Hæmoptysis in incipient phthisis. Cough, with bloody expectoration in suppressed menses or hæmorrhoids. Violent palpitation.

Relationship.—Compare: Acalypha and Helix tosta—Snail—(in hæmoptysis); also, Ipec.; Erech.; Geran.; Hamam.

Dose.—Tincture, to third potency.

MIMOSA.

(Sensitive Plant.)

MITCHELLA.
(Partridge-Berry.)

Bladder symptoms accompany complaints, especially uterine congestion.

Urinary.—Irritation at neck of bladder, with urging to urinate. [Eup. purp.; Apis.] Dysuria. Catarrh of bladder.

Female.—Cervix dark red, swollen. Dysmenorrhoea and uterine haemorrhage; blood bright red.

Relationship.—Compare: Chimaph.; Senecio; Uva; Geran.; Gossyp.

Dose.—Tincture.

MORPHINUM.
(An alkaloid of Opium.)

Morphine bears the same relation to Opium as Atropine to Belladonna—i.e. represents its nervous side. It is less stimulating, less convulsant, and more decidedly hypnotic. Constipates less and affects contractility of the bladder more. It is less diaphoretic and more pruritic. (Dr. F. F. Laird.)

Mind.—Profound depression. Irritable, fault-finding, hysterical. Shock induced by terror. Dream-like state.

Head.—Vertigo from the least movement of the head. Headache, with sensation of being "wound up." Bursting pain; head drawn back.

Eyes.—Bluish, drooping lids. Itching of eyes. Delusion of vision on closing eyes. Staring, injected; diverging strabismus. Pupils unequally
contracted. **Look unsteady. Ptosis. Paresis of reci inburni.**

**Face.**—Dusky red or pallid lividity of face, lips, tongue, mouth, or throat.

**Nose.**—Sneezing in paroxysms. **Itching** and tingling on end of nose.

**Mouth.**—**Very dry.** Tongue dry, brown, violet in middle. **Thirst.** Loss of appetite, with aversion to meat.

**Throat.**—Dry and constricted. Pharynx paralyzed, swallowing almost impossible.

**Stomach.**—Nausea **incessant and deathly**, faintness, constant retching. Vomiting of green fluid. **Nausea and vomiting on rising up.**

**Abdomen.**—**Distended.** Acute pain in abdomen and along spinal column.

**Rectum.**—Diarrhoea, watery, brown, or black, with horrible tenesmus. Constipation; stools large, dry, knotty, with tendency to bruise and fissure.

**Male.**—Impotency. Pain in right spermatic cord. [Oxal. ac.]

**Heart.**—Alternation of tachycardia and brady-cardia. Cardiac muscular tissue is intact, even if severely exhausted. Pulse small, weak, dicrotic.

**Respiratory.**—Faint and struggling for breath; *diaphragmatic paralysis; hiccough; dyspnoea, paroxysmal,* on first falling asleep. [Lach.; Grindel.; Am. c.] Cheyne-Stokes respiration. Chest tight. Pain in middle of sternum. Dry, hard, teasing cough,
worse at night. Strangling cough, with viscid mucous sputum.

Back.—Pain along spine. Weakness of loins. Aching across lumbo-sacral region; cannot walk erect. [Cimicif.]

Extremities.—Staggering gait. Numbness.

Skin.—Livid; purple spots; zoster-like herpes. Itching. Skin lost its elasticity. Urticaria appearing at climaxis.

Sleep.—Yawning, drowsy; prolonged deep sleep. Sleepless; restless sleep, with frequent startings. Sleepy, but cannot sleep.

Fever.—Chills. Icy coldness. Burning heat; profuse sweat.

Dose.—Third to sixth trituration.

MOSCHUS.

(Musk.)

A remedy for hysteria and nervous paroxysms, fainting fits and convulsions, catalepsy, etc. The characteristic condition being aggravation by cold; there is great sensitiveness to air. Much nervous
trembling and frequent fainting. Great flatulence. Diseases do not follow a normal course.

Mind.—Incontrollable laughter. Scolding. Anxiety, with palpitation; starting as if frightened. Sexual hypochondrias.

Head.—Compressive pain over root of nose. Pressure on top of head. Vertigo on least motion; sensation as if falling from a great height. Scalp sensitive. Sounds in ears as from the report of a cannon.

Male.—Violent desire; involuntary emissions. Impotence, associated with diabetes. [Coca.] Premature senility. Nausea and vomiting after coition.

Female.—Menses too early, too profuse, with disposition to faint. [Nux m.; Verat.] Sexual desire, with intolerable titillation in parts. Drawing and pushing in the direction of the genitals; sensation as if menses appear.

Urine.—Profuse urination. Diabetes.

Respiratory.—Sudden constriction of larynx and trachea. Difficult respiration; chest oppressed; hysterical spasms of chest; asthma. Spasm of glottis. Impending paralysis of lungs. Asthma, with intense anxiety, fear, and smothering sensation. Cough ceases, and mucus cannot be expectorated. Globus hystericus.

Heart.—Hysterical palpitation. Trembling around heart. Weak pulse and fainting.
Modalities.—Bettei, in open air, rubbing. Worse, cold.

Relationship.—Compare: Nux mosch.; Asaf.; Valer.; Sumbul; Ign.; Castor.
Compatible: Ambra.
Antidotes: Camph.; Coff.
Dose.—First to third potency.

MUREX.
(Purple Fish.)

The symptoms of the female sexual organs are most prominent, and have been clinically verified. Especially adapted to nervous, lively, affectionate women. Patient weak and run down.

Mind.—Great sadness, anxiety, and dread.

Stomach.—Sinking, all-gone sensation in stomach. [Sep.] Must eat.

Female.—Conscious of a womb. Pulsation in neck of womb. Desire easily excited. Feeling as if something was pressing on a sore spot in the pelvis; worse sitting. Pain from right side of womb to right or left breast. Nymphomania. Least contact of parts causes violent sexual excitement. Sore pain in uterus. Menses irregular, profuse, frequent, large clots. Feeling of protrusion. Prolapse; enlargement of uterus, with pelvic tenesmus and sharp pains, extending toward breasts; aggravated lying down. Dysmenorrhoea and chronic endometritis, with displacement. Must keep legs tightly crossed. Leucorrhoea green or bloody, alternate with mental symptoms and aching in sacrum. Benign tumors in breasts. Pain in them during menstrual period.
Urine.—Urine frequent at night; smells like Valerian; constant urging. [Kreos.]

Modalities.—Worse, least touch.

Relationship.—Compare: *Plat.*; *Lil.*; *Sep.* (the latter lacks sexual erethism of *Murex*).

Dose.—Third to thirtieth potency.

*MURIATICUM ACIDUM.*

(Muriatic Acid.)

This acid has an elective affinity for the blood, producing a septic condition similar to that found in low fevers with high temperature and great prostration. Patient becomes so weak he slides down the bed. Decomposition of fluids. Involuntary stools while passing urine. Hæmorrhages. Mouth and anus chiefly affected.

Mind.—Irritable and peevish; fretful.

Head.—Vertigo; occiput heavy. Pain as if brain were crushed.

Nose.—Hæmorrhage; much sneezing.

Face.—Lower jaw fallen; pimples and freckles; lips raw, dry, cracked.

Stomach.—Cannot bear sight or thought of meat. At times, ravenous appetite and constant desire to drink.

Heart.—Pulse rapid, feeble and small. **Intermits every third beat.**

Rectum.—Tendency to involuntary evacuations while urinating. *Hæmorrhoids most sensitive to all touch;* even sheet or toilet paper is painful. Anal itching and prolapsus ani while urinating. *Hæmorrhoids during pregnancy; bluish, hot, with violent stitches.*

Urine.—Cannot urinate without having bowels move at same time.

Female.—Menses appear too soon. Leucorrhœa. During menses, soreness of anus. Ulcers in genitals.

Skin.—Papular and vesicular eruptions, with great itching. [Rhus.] Carbuncles; foul-smelling ulcers on lower extremities. Scarlet fever, livid, with petechiae; scanty eruption.

Modalities.—**Worse,** in damp weather.

Relationship.—Compare: *Phos. ac.; Ars.; Bapt.* Follows well after *Bry.* and *Rhus.*

Antidote: *Bryonia.*

Dose.—First to third potency.
MYGAE.
(Black Cuban Spider.)

Chorea is the principal therapeutic field of this remedy. Sexual symptoms are important.

Mind.—Delirious, restless, sad; fears death; despondent.

Male.—Violent erections. Chordee. [Kali brom.; Camph.]

Relationship.—Compare: Agar.; Tarant.; Cupr.; Zizia.

Modalities.—Better, during sleep. Worse, in morning.

Dose.—Third to thirtieth potency.

MYRICA.
(Bayberry.)

Marked action on the liver, with jaundice. Persistent sleeplessness.

Mind.—Despondent, irritable, indifferent.
Head.—Scalp feels tight. Headache, with drowsiness; yellow sclerotic; aching in eyeballs. Pressure in vertex and forehead. Pain and stiffness in nape of neck.

Face.—Yellow. Itching and stinging. Creeping sensation.

Mouth.—Tongue furred, with bad taste in mouth, and nausea. Tenacious, thick, nauseous secretion. Tender, spongy, and bleeding gums. [Merc.]

Throat.—Constricted and rough feeling, with a constant desire to swallow. Stringy mucus; detached with difficulty.

Stomach.—Taste bitter and nauseous, with offensive breath. Complete loss of appetite, but with a feeling of fullness in the stomach after a hearty meal. Strong desire for acids. Weak, sinking feeling in the epigastrium, approaching nausea; increased after eating; relieved by rapid walking.

Abdomen.—Dull pain in the region of the liver. Complete jaundice, with bronze-yellow skin; loss of appetite. Fullness in the stomach and abdomen. Scanty, yellow, frothy urine.

Stool.—Constant discharge of flatus when walking. Urging to stool, with no other result than the expulsion of a great amount of flatus. Loose, light-colored stool; ash-colored and destitute of bile.

Urinary.—Dark, frothy, scanty, high-colored, biliary.

Sleep.—Disturbed, bad dreams and frequent waking; insomnia.

Extremities.—Pain under shoulder-blades and back of neck, in all muscles, in hollow of right foot. Yellow and itching. Jaundice. [Bry.; Merc.]
Relationship.—Compare: Piel.; Cornus cir.; Che-lid.; Lept.; Fagop.  
Antidote: Digit. (jaundice).  
Dose.—Tincture, to third potency.

**MYRTUS COMMUNIS.**  
(Myrtle.)

Chest pains, as found often in consumptives, call for this remedy. Incipient phthisis.  
Chest.—Stitching pain in left breast, running through to shoulder-blade. [Illic.; Therid.; Pix.]  
Dry, hollow cough, with tickling in chest. Sensation of burning in left chest.  
Dose.—Third potency.

**NAJA TRIPUDIANS.**  
(Virus of the Cobra.)

Heart affections, hypertrophy, and valvular lesions. Organs seem to be drawn together. Very susceptible to cold. With heart symptoms, pain in forehead and temples. Diseases primarily depending upon degeneration of motor cells.  
Head.—Pain in left temple and in left orbital region, extending to occiput, with nausea and vomiting. Hay-fever, with dry larynx. Suffocative spells after sleeping. [Lach.] Eyes staring. [Medorrh.]  
Respiratory.—Grasping at throat, with sense of choking. Irritating dry cough, dependent on cardiac
lesions. [Spong.; Lauroc.] Asthmatic constriction in evening. Asthma beginning with coryza.

Female.—Neuralgia of left ovary; seems to be drawn to heart.

Modalities.—Worse from use of stimulants; better from walking or riding in open air.

Relationship.—Compare: Lach.; Crotal.; Spig.; Spong.

Dose.—Sixth to thirty-fifth potency.

NAPHTHALINE.

(A chemical compound from Coal-Tar.)

Coryza, hay-fever, phthisis pulmonalis, also gonorrhoea, have been influenced favorably by this drug. Whooping-cough. Cataract. Opacity of the cornea.

Respiratory.—Sneezing; eyes inflamed; painful; head hot. Hay-fever. Spasmodic asthma; better in open air. Soreness in chest and stomach; must loosen clothing. Dyspnœa and sighing inspiration. Whooping-cough, long and continued paroxysms of coughing, unable to get a respiration.

Extra-Homœopathic Uses.—For worms, and especially pin-worms, one-gramme dose. Externally in skin diseases, five-per-cent ointment.

Relationship.—Compare: Dros.; Corall.; Coccus.

Dose.—First to third trituration.
NARCISSUS.

(Daffodil.)

A remedy for cough and bronchitis. Coryza; frontal headache. Convulsive stage of whooping-cough.

Dose.—Sixth attenuation.

NATRUM ARSENICATUM.

(Arseniate of Sodium.)

A remedy for nasal catarrh with headache and pain at root of nose, and dry and painful eyes. Psoriasis. [Ars.; Chrys. ac.; Thyroid.]

Head.—Floating sensation on turning head quickly; aching in frontal region and root of nose, over orbits. Headache; worse, pressure and tobacco smoke.

Eyes.—Dry, painful, burning; soon tire. Edema of orbital region. Supra-orbital pain. Lids agglutinate.

Throat.—Dark, purplish, swollen, edematous; red and glassy.

Respiratory.—Racking cough, with profuse greenish expectoration. Oppression of chest and about heart, and also larynx. Miner’s asthma. Lungs feel as though smoke had been inhaled.

Relationship.—Compare: Ars.; Kali carb.; Apis.

Dose.—Third to thirtieth potency.

NATRUM CARBONICUM.
(Sodium Carbonate.)

Great debility caused by summer heat, chronic effects of sunstroke, exhaustion, anaemic, milky, watery skin, very weak ankles, are all peculiar Natrum carbonicum conditions.

Mind.—Unable to think; difficult, slow comprehension. Anxious and restless during thunderstorm; worse from music. [Ambra.] Marked gaiety.

Head.—Aches from slightest mental exertion, from sun or working under gas-light. [Glon.] Feels too large. Oversensitive of hearing.

Nose.—Constant coryza; obstruction of nose. Catarrh; bad smell of nasal secretion. Many troubles of external nose. [Caust.] Posterior nasal catarrh. Hawking much mucus from throat; worse, slightest draught.

Face.—Freckles, yellow spots, pimples. Swelling of upper lip. Pale, with blue rings around eyes and swollen lids.

Bowels.—Sudden call to stool. Escapes with haste and noise. Yellow substance like pulp of orange in discharges. Diarrhoea from milk.

Female.—Induration of cervix. Pudenda sore. Bearing-down sensation. [Sep.; Murex.] Heaviness; worse, sitting; better by moving. Menses late, scanty, like meat-washing. [Nitric ac.] Leucorrhœal discharge, offensive, irritating, preceded by colic.

Sleep.—Wakes too early in morning. Amorous dreams. Drowsy during day.

Extremities.—Old sprains. Easy dislocation and spraining of ankle. Foot bends under. [Caust.] Soreness between toes and fingers. Heel and tendo Achillis affected. Chapped hands. The hollow of the knee is painful on motion.

Skin.—Inclination to perspire easily, or dry, rough, cracked skin.

Modalities.—Worse, sitting, from music, sun, summer heat, mental exertion, thunderstorm. Better, by moving, by boring in ears and nose.

Relationship.—Compare: Nat. sulph.; Caust.; Natr. cacodyl. (in phthisis, 5 centigrams hypodermically, daily. Increases number of red blood corpuscles to double).

Antidote: Ars.; Camph.

Dose.—Third to thirtieth potency.

NATRUM CHLORATUM.

(Labarraque's Solution.)

In congested and atonic states of the uterus and its ligaments, with hepatic disorders  Chronic ca-
tarrhal diseases of the middle ear. _Flabby, debilitated constitution._ Both hands swollen in morning.

**Head.**—Vertigo, with aching across forehead. Swimming feeling, as if top of head would float off. Bleeding of nose in clots.

**Stomach.**—_Drowsy after meals._

**Female.**—Feeling as if uterus were pushed up on sitting down. [Ferr. iod.] Feels as if it opened and shut. Violent metrorrhagia. Leucorrhoea and backache. Passive bearing-down from heavy condition of uterus. Womb is heavy, sodden, with tendency to prolapse.

**Urine.**—Dark, with albumen and casts. Diffuse nephritis. Much pain across small of back.

**Relationship.**—Compare: _Heliotropium_ (uterine displacement, with active bearing-down sensation and loss of voice; membranous dysmenorrhoea).

**Dose.**—Fifteen to twenty drops of Labarraque's solution in water.

**Natrhum Muriaticum.**

*(Chloride of Sodium.)*

A great remedy for certain forms of intermittent fever, anaemia, chlorosis, many disturbances of the alimentary tract and skin. Very weak early in the morning. Emaciation most notable in neck. Great liability to take cold.

**Mind.**—Depressed, particularly in chronic diseases. _Consolation aggravates._ Irritable; gets into a passion about trifles. Awkward, hasty. [Apis.]

**Head.**—Throbs. _Blinding headache._ [Kalibich.; Sil.; Gels.] Aches as if a thousand little hammers
were knocking on the brain, in the morning on awakening, after menstruation, from sunrise to sunset. Feels too large; cold. [Calc.; Laur.; Pod.] Anaemic headache of school-girls. [Calc. phos.]

**Ears.**—Noises; roaring and ringing.

**Nose.**—Violent fluent coryza, lasting from one to three days, then changing into stoppage of nose, making breathing through difficult. Discharge thin and watery, like raw white of egg. Violent sneezing coryza. Loss of smell and taste. Internal soreness of nose.

**Face.**—Oily, shiny, as if greased. Earthy complexion. Fever-blisters.

**Mouth.**—Sense of dryness. Scorbutic gums. Numbness, tingling of tongue, lips, and nose. Vesicles and burning on tongue, as if there was a hair on it. Eruptions around mouth and vesicles like pearls on lips. Lips and corners of mouth dry, ulcerated, and cracked. [Nit. ac.] Tongue mapped. [Ars.; Rhus; Tarax.] Loss of taste. [Gymnema.] Large vesicle on lower lip which is swollen and burns.

**Stomach.**—Hungry, yet loses flesh. [Jod.] Heart-
burn, with palpitation. Unquenchable thirst. 
Sweats while eating. Craving for salt. Aversion to 
bread. Throbbing in pit. Sticking sensation in 
cardiac orifice.

Abdomen.—Cutting pain in abdomen. Distended. 
Pain in abdominal ring on coughing.

Rectum.—Burning pains and stitching after stool. 
Anus contracted, torn, bleeding. Constipation; stool 
dry, crumbling. [Am. m.; Mag. m.]

Urine.—Pain just after urinating. [Sars.] In-
creased, involuntary when walking, coughing, etc. 
Has to wait a long time for it to pass if others are 
present. [Hep.; Mur. ac.]

Male.—Emissions, even after coitus. Impotence 
with retarded emission.

Female.—Menses irregular; usually profuse. Vag-
ina dry. Leucorrhoea acrid, watery. Bearing-
down pains; worse in morning. [Sep.] Prolapsus 
uteri, with cutting in urethra. Ineffectual labor-
pains. Suppressed menses. [Follow with Kali 
carb.]

Respiratory.—Cough from a tickling in the pit of 
stomach, accompanied by stitches in liver and spurt-
ing of urine. [Caust.; Squilla.] Stitches all over 
chest. Cough, with bursting pain in head. Short-
ness of breath, especially on going up-stairs. [Calc.]

Heart.—Fluttering, palpitating, intermittent 
pulse. Heart’s pulsations shake the body. Inter-
mits on lying down.

Extremities.—Pain in back, with desire for some 
firm support. [Rhus; Sep.] Arms and legs, but es-
pecially knees, feel weak. Hangnails. Numbness 
and tingling in fingers and toes. Ankles weak and
turn easily. Painful contraction of hamstrings. [Caust.] Cracking in joints on motion.

Sleep.—Sleepy in forenoon. Nervous jerking during sleep. Dreams of robbers. Sleepless from grief. [Phos. ac.; Ignat.]

Skin.—Lupus. [Ars.; X-Ray.] Urticaria; itch and burn. Crusty eruptions in bends of limbs, margin of scalp, behind ears. [Caust.] Warts on palms of hands. Eczema; raw, red, and inflamed; worse, eating salt, at seashore.

Fever.—Chill between 9 and 11 A.M. Heat; violent thirst, increases with fever. Fever-blisters. [Hep.; Rhus.]

Modalities.—Worse, about 10 A.M., at seashore, mental exertion, heat, talking. Better, open air, cold bathing, going without regular meals, lying on right side.

Relationship.—Complimentary to Apis.

Compare: Aqua marina (worse, seaside, nausea,) Natrum selenicum (laryngeal phthisis with expectoration of small lumps of bloody mucus and slight hoarseness [Argent. met.]; Natrum silicum (haemophilia; scrofulous bone affections); Ignat.; Sep.; Thuja.; Graph.; Alum.

Antidotes: Ars.; Phos.

Dose.—Sixth to thirtieth and higher. The very highest potencies often yield most brilliant results.

**NATRUM NITRICUM.**

(Nitrate of Sodium.)

Abdomen.—Flatulent. Abdominal muscles become painfully contracted towards the spine.

Relationship.—Compare: *Natrum nitrosum* (throbbing and fullness; faintness, nervousness pain in head, nausea, eructations, blue lips).

Dose.—Second trituration.

**NATRUM PHOSPHORICUM.**

*(Sodium Phosphate.)*

Natrum phosphoricum is the remedy for conditions arising from excess of lactic acid, often resulting from too much sugar. Ailments, with excess of acidity. Sour eructations and taste. Sour vomiting. Yellow, creamy coating at the back part of the roof of mouth and tongue. Inflammation of any part of the throat, with sensation of a lump in throat. Flatulence, with sour risings. Colic, with symptoms of worms.

Mind.—Imagines, on waking at night, that pieces of furniture are persons; that he hears footsteps in next room. Fear.

Head.—Feels dull in the morning, full feeling and throbbing.

Eyes.—Discharge of golden-yellow, creamy matter from the eyes. Dilatation of one pupil.

Ears.—One ear red, hot, frequently itchy, accompanied by gastric derangements and acidity.

Nose.—Offensive odor. Itching of nose. Nasopharyngeal catarrh with thick yellow offensive mucus.

Face.—Paleness, or bluish, florid appearance of face.
Mouth.—Thin, moist coating on the tongue. Yellow, creamy coating at the back part of the roof of the mouth. Dysphagia. Thick, creamy membrane over tonsils and soft palate.

Stomach.—Sour eructations, sour vomiting, greenish diarrhoea. Spits mouthful of food.

Male.—Emissions without dreams, with weakness in back and trembling in limbs. Desire without erection. Gonorrhoea.

Female.—Menses too early; pale, thin, watery. Sterility, with acid secretions from the vagina. Leucorrhoea; discharge creamy or honey-colored, or acid and watery. Sour-smelling discharges from uterus. Morning sickness, with sour vomiting.

Relationship.—Compare: Natrum lacte. (rheumatism and gout; gouty concretions); Nat. nitrosum (angina pectoris, cyanosis, fainting, copious liquid stools at night); Nat. selen. (chronic laryngitis and laryngeal phthisis); Nat. silicofluor. (bone affections, caries); Nat. sulphurosurn (diarrhoea, with yeasty stools); Nat. sulfo-carbol. (pyæmia; purulent pleurisy, 3 to 5 grains every three hours); Nat. telluricum (breath has odor of garlic; night-sweats of phthisis); Calc.; Robin.; Phos.

Dose.—Third to twelfth trituration.
NATRUM SALICYLICUM.

(Salicylate of Sodium.)

Produces marked effects upon the internal ear, with vertigo, deafness, noises in ears, and loss of bone conduction; hence its use in Meniere's disease. One of the best remedies for the prostrating after-effects of influenza. Lassitude, drowsiness, listlessness, tremor. Incipient dementia. Increases the quantity of bile.

Head.—Perfectly rational periods alternate with manifestations of insanity of a sombre character. Vertigo; worse, raising head. Noises in head. All objects seem to move to the right. Dull headache and confusion.

Ears.—Tinnitus of a low tone. Deafness.

Chest.—Dyspnœa; breathing noisy, shallow panting; pulse irregular. Complete loss of voice.

Skin.—Edema, urticaria, red in circumscribed patches. Tingling and itching. Pemphigoid eruption.

Relationship.—Compare: Lobelia purpurascens (drowsiness; dizzy headache between eyebrows; cannot keep eyes open; tongue white—feels paralyzed, as also do the heart and lungs; intense prostration of all vital forces; deadly chill, without shivering; useful for the low nervous prostration of grippe); Gaulth.; China.

Dose.—Third potency.

Non-Homoeopathic Uses.—In acute articular rheumatism, lumbago, sciatica, etc. Usual dose, ten to twenty grains every three hours. Must be
used carefully, as it is often destructive of kidney tissue. Ordinary allopathic doses allay the pain of dysmenorrhœa and promote menstrual flow.

NATRUM SULPHURICUM.

(Sulphate of Soda—Glauber’s Salt.)

A liver remedy, especially indicated for the so-called hydrogenoid constitution, where the complaints are such as are due to living in damp houses, basements, cellars. They are worse in rainy weather, water in any form. Feels every change from dry to wet; cannot even eat plants growing near water, nor fish. Always feels best in warm, dry air. Clinically, it has been found a valuable remedy for spinal meningitis, head symptoms from injuries to head, mental troubles therefrom. Every spring, return of skin affections. Tendency to warts.

Mind.—Lively music saddens. Melancholy, with periodical attacks of mania. Suicidal tendency; must exercise restraint. Inability to think. Dislikes to speak or to be spoken to.

Head.—Occipital pain. Piercing stitches in ears. Vertigo; relieved by sweat on head. Bursting feeling on coughing. Hot feeling on top of head. Boring in right temple, preceded by burning in stomach. Ill-effects of falls and injuries to the head, and mental troubles arising therefrom.

Ears.—Sticking pain, earache, lightning like stitches in damp weather.

Nose.—Nasal catarrh with thick yellow discharge and salty mucus.

Mouth.—*Slimy*, thick, tenacious white mucus. Bitter taste, blisters on palate.

Throat.—Thick yellow mucus drops from posterior nares.

Stomach.—Vomits sour. *Brown, bitter coating on tongue.* Yellow complexion. Thirst for something cold. Bilious vomiting, acid dyspepsia, with heartburn and flatulence.

Abdomen.—Liver sore to touch, with sharp stitching pains; cannot bear tight clothing around waist; worse, lying on left side. *Flatulency;* wind colic in ascending colon; worse, before breakfast. Burning in abdomen and anus. Bruised pain and urging to stool. *Loose morning stools;* worse, after spell of wet weather. Stools involuntary when passing flatus. *Great size of the faecal mass.*

Female.—Nosebleed during menses, which are acrid and profuse. Herpetic vulvitis. *Leucorrhæa,* yellowish-green, following *gonorrhæa in female.*

Male.—Condylomata; soft fleshy excrescences; greenish discharges. *Gonorrhœa;* discharge thick, greenish; little pain.

Respiratory.—Dyspnœa during damp weather. *Must hold chest when coughing.* Humid asthma; rattling in chest at 4 and 5 A.M. *Cough,* with thick ropy, greenish expectoration; chest feels all gone. Constant desire to take a deep, long breath. *Asthma in children,* as a constitutional remedy. Springs up in bed, the cough hurts so; holds painful side. *[Bry.]* Pain through *lower left chest.*

Back.—Itching when undressing. Violent pains
in back of neck and at base of brain. Piercing pain between scapulae. Spinal meningitis; opisthotonos.

Skin.—Itching while undressing. Jaundiced, watery blisters. Sycotic excrescences; wart-like red lumps all over body.

Modalities.—Worse, lying on left side; dampness of basements, weather, etc. Better, dry weather, pressure, changing position.

Relationship.—Compare: Natrum choleinicum—Fel Tauri Depuratum—(constipation; chronic gastric and intestinal catarrh; cirrhotic liver; diabetes; nape of neck pains; tendency to sleep after eating; much flatus; ascites); Momordica (pain in back and hypogastrium; accumulation of flatus in splenic flexure of colon; sensation of mist before eyes). Pulmo vulpis (asthma, bronchitis, catarrh, œdema of lungs); Natrum iodat. (chronic catarrhal affections, arterio-sclerosis); Natrum hyposulph. (liver-spots, locally and internally); Sulph.; Thuja; Merc.; Stilling.

Dose.—First to twelfth trituration.

NEGUNDO.

(Box Elder.)

Used internally for haemorrhoids, especially recent cases. Tincture.
NICCOLUM.
(Metallic Nickel.)

Periodical nervous sick headaches, with asthenopia, weak digestion, constipation. Catarrhs.

Head.—Pain on top as from a nail. Pressure on vertex, in morning; worse, till noon and in warm room. Stitches. Objects appear too large. Migraine; first on left side.

Nose.—Violent sneezing; stopped up. Nasal catarrh, with redness and swelling at tip of nose. Acute pain at root of nose, extending to vertex and through temples.

Throat.—Sore, right side with great tenderness; soreness to touch externally. Strangulated feeling.

Gastric.—Gone, empty feeling in epigastrium, without desire for food. Thirst and intense hiccough. Sour, fetid secretion oozes from molar teeth. Diarrhoea and tenesmus after milk.

Female.—Menses late, scanty, with great debility and burning in eyes. Profuse leucorrhoea; worse, after urinating [Mag. mur.; Plat.]; also worse after menses.

Respiratory.—Hoarseness. Dry, hacking cough, with stitches in chest. Obliged to sit up and hold head. Must put arms on thighs when coughing.

Modalities.—Worse, periodically, every two weeks. yearly, forenoon. Better, in evening.

Relationship.—Compare: Niccolum sulph. 2x. (periodic neuralgias of malarial origin); Cobalt.; Plat.; Zinc.

Dose.—Third trituration.
NITRICUM ACIDUM.

(Nitric Acid.)

Selects for its special seat of action the outlets of the body where the mucous membrane and skin meet; these pain as from splinters. Marked improvement of all symptoms while riding in a carriage.

Blisters and ulcers in mouth, tongue, genitals; bleed easily. Fissures, with pain during stool, as if rectum were torn. All discharges very offensive, especially urine, faeces, and perspiration. Persons who have chronic diseases, and take cold easily and disposed to diarrhoea. Excessive physical irritability. Cachexia, due to syphilis, scrofula, etc. Gravel; arthritis.

Mind.—Irritable, hateful, vindictive, headstrong. Hopeless despair.

Head.—Sensation of a band around head. Headache from pressure of hat; full feeling; worse from street noises. Hair falls out. Scalp sensitive.

Ears.—Difficult hearing; better by riding in carriage or train. Very sensitive to noise, as the rattle of wagons over pavements. [Coff.; Nux.] Cracking in ears when chewing.

Eyes.—Double vision; sharp, sticking pain. Ulceration of cornea.

Nose.—Ozæna. Green casts from nose every morning. Coryza, with sore and bleeding nostrils. Tip red. Stitches, as of a splinter in nose. Caries of mastoid. Nosebleed, with chest affections. Chronic nasal catarrh, with yellow, offensive, corroding dis-
NITRICUM ACIDUM. 465

charge. Nasal diphtheria, with watery and exceedingly excoriating discharge.

Throat.—Dry. Pain into ears. Hawks mucus constantly. White patches and sharp pains, as from splinters, on swallowing.

Stomach.—Great hunger, with sweetish taste. Longing for indigestible things—chalk, earth, etc. Pain in cardiac orifice.

Male.—Soreness and burning in glans and beneath prepuce. Ulcers; burn and sting; exude bloody, offensive matter.

Female.—External parts sore, with ulcers. [Hep.; Merc.; Thuja.] Leucorrhœa brown, flesh-colored, watery, or stringy, offensive. Hair on genitals falls out. [Natr. m.; Zinc.] Uterine hæmorrhages.
Menses early, profuse, like muddy water. Metrorrhagia after parturition.

Respiratory.—Hoarseness. Aphonia, with dry hacking cough, from tickling in larynx and pit of stomach. Soreness at lower end of sternum. Short breath on going up-stairs. [Ars.; Calc.] Cough during sleep. [Cham.]

Extremities.—Fetid foot-sweat, causing soreness of toes, with sticking pain; chilblains on toes.

Skin.—Warts, large, jagged; bleed on washing. Ulcers bleed easily, sensitive; splinter-like pains; zigzag, irregular edges; base looks like raw flesh. Exuberant granulations.

Modalities.—Worse, evening and night, cold climate, and also hot weather. Better, while riding in carriage. [Reverse: Coccus.]

Relationship.—Complementary: Ars.; Calad.
Inimical: Lach.
Compare: Merc.; Kali c.; Thuja; Hepar; Calc.

Dose.—Third to thirtieth potency.

NITRI SPIRITUS DULCIS.

(Sweet Spirits of Nitre.)

Sensorial apathy in low fevers when there is stupor, difficulty of arousing patient, is met by this remedy. Ill-effects of salt (halophagia). [Ars.; Phos.]

Face.—Prosopalgia, with photophobia. Burning in cheeks and vomiting, followed by lassitude. Boring in facial bones; in angles of lower jaw. Very sensitive to cold.

Respiratory.—Very rapid breathing by going only
a short walk. Painful constriction beneath sternum.

Modalities.—Worse, from mental disturbance, during winter and spring.

Relationship.— Increases the action of Digitalis. Compare: Phos. ac.; Lycop.

Dose.—A few drops of the pure spirits in water every two or three hours.

NITRO-MURIATIC ACID.

(Aqua Regia.)

Oxaluria and so-called bilious conditions. Constricted anus. Gravel.

Mouth.—Gums bleed easily. Ptyalism. Constant drooling at night. [Merc.] Cankers; small superficial ulceration over inside of mouth and tongue. Metallic taste. [Cupr. met.]

Stomach.—Sour eructation, with empty, hungry feeling in stomach; not relieved by eating. Salivation; worse at night.

Stool.—Constipated, with ineffectual urging. Sphincter constricted. Anus moist and sore.

Urine.—Cloudy. Burning in urethra. Oxaluria. Lysidin (ten drops of a 50% solution three times a day. Irritable bladder, irregular heart and nervous symptoms). Also Kali sulph.

Dose.—Five to twenty drops, well diluted.
NUPHAR LUTEUM.
(Yellow Pond-Lily.)

Produces nervous weakness, with marked symptoms in the sexual sphere.

**Male.**—Complete absence of sexual desire; parts relaxed; penis retracted. Impotency, with involuntary emissions during stool, when urinating. Spermatorrhoea. Pain in testicles and penis.

**Stool.**—Yellow diarrhoea; worse in the morning. Diarrhoea during typhoid.

**Dose.**—Tincture, to sixth potency.

NUX MOSCHATA.
(Nutmeg.)

Marked tendency to fainting fits, with heart failure. Cold extremities and extreme dryness of mucous membranes and skin. Strange feeling, with irresistible drowsiness. General inclination to become unconscious during acute attacks. Lymphymia. [Ignatia.]

**Mind.**—Changeable; laughing and crying. Confused, impaired memory. Bewildered senses, as in a dream. Thinks she has two heads.

Mouth.—Very dry. Tongue adheres to roof of mouth; but no desire for water. Saliva like cotton. [Borb.] Toothache in pregnancy. Tongue numb, paralyzed.

Abdomen.—Paralytic weakness of intestines. Enormously distended. Stool is soft, and yet is unable to expel it, even with long straining. [Alum.]

Female.—Uterine hemorrhage. Menses too long, dark, thick. Leucorrhoea muddy and bloody. Suppression, with persistent fainting attacks and sleepiness. [Kali c.]

Respiratory.—Loss of voice from walking against the wind. [Hep.] Cough when getting warm in bed.

Heart.—Trembling, fluttering. Sensation as if something grasped heart. Palpitation, pulse intermits.

Extremities.—Pain in right hip to knee; worse, motion, especially going up-stairs. Rheumatism from getting feet wet, from exposure to draughts. Rheumatism relieved by dry, warm clothes. Fatigue on slight exertion.

Fever.—Chilliness and heat without thirst; want of perspiration. Dry skin and of inner parts, also of eyes, nose, lips, mouth, tongue, throat, etc.

Modalities.—Worse, cold moist wind, cold food,
cold washing, lying on painful side, motion, jar. Better, warmth, dry weather.

Relationship.—*Oleum myristicae*—Oil of Nutmeg—(as a remedy for boils, felons, poisonous ulcers, it has been used in the 2x potency); *Ornthogalum* (flatulence, swollen feeling across lower chest; whenever she turns in bed, feels as if a bag of water turned also; gastric ulcer and cancer). *Myristica Sebifera* (Phlegmonous inflammations, hastens suppuration; powerful antiseptic).

Compare: *Nux v.*; *Puls.*; *Rhus*; *Ign.*; *Asaf.*

Antidotes: *Camph.*; *Gels.*; *Valer.*

Dose.—First to sixth potency.

**NUX VOMICA.**

(Poison—Nut.)

Is the greatest of polychrests, because the bulk of its symptoms correspond in similarity with those of the commonest and most frequent of diseases. It is frequently the first remedy indicated after much dosing, establishing a sort of equilibrium of forces and counteracting predominant drug effects.

Nux is pre-eminently the remedy for many of the conditions incident to modern life. The typical Nux patient is rather thin, spare, quick, active, nervous, and irritable. He does a good deal of mental work; has mental strains and leads a sedentary life, found in prolonged office work, overstudy, and close application to business, with its cares and anxieties. This indoor life and mental strain seeks stimulants, coffee, wine, possibly in excess; or, again, he hopes to quiet his excitement by indulging in the relative effects of tobacco, if not really a victim to the
seductive drugs, like opium, etc. These things are associated with other indulgences; at table he takes preferably rich and stimulating food; wine and women play their part to make him forget the close application of the day. Late hours are a consequence; a thick head, dyspepsia, and irritable temper are the next day's inheritance. Now he takes some cathartic, liver pills, or mineral water, and soon gets into the habit of taking these things, which still further complicate matters. Since these frailties are more yielded to by men than women, Nux is pre-eminently a male remedy. These conditions produce an irritable nervous system, hypersensitive and over-impressionable, which Nux will do much to soothe and calm. Especially adapted to digestive disturbances, portal congestion, and hypochondriacal states depending thereon. Convulsions, with consciousness; worse, touch, moving. Zealous fiery temperament.

Mind.—Very irritable; sensitive to all impressions. Ugly, malicious. Desire to kill loved ones; impulse deplored. Cannot bear noise, odors, light, etc. [Bell.] Hypochondriacal mood. Does not want to be touched. Time passes too slowly. [Alum.] Even the least ailment affects her greatly. Disposed to reproach others. Sullen, faultfinding.

Head.—Headache in occiput or over eyes, with vertigo; brain feels turning in a circle. Over-sensitiveness. Intoxicated feeling; worse, morning, mental exertion, tobacco, alcohol, coffee, open air. Pressing pain on vertex, as if a nail driven in. Vertigo in morning and after dinner. Scalp sensitive. Frontal headache, with desire to press the head against something. Congestive headache, asso-
ciated with hæmorrhoids. **Headache in the sunshine.** [Glon.; Nat. carb.] Feels distended and sore within after a debauch.

**Eyes.**—Photophobia; much worse in morning. Smarting, dry sensation in inner canthi. Infraorbital neuralgia, with watering of eyes. Optic nerve atrophy from habitual use of intoxicants. Paresis of ocular muscles; worse, tobacco and stimulants.

**Ears.**—Itching in ear and through eustachian tube. Auditory canal dry and sensitive. Otalgia; worse in bed. Hyperæsthesia of auditory nerves; loud sounds are painful and anger him.

**Nose.**—Stuffed up, at night especially. **Stuffy colds, snuffles,** after exposure to dry, cold atmosphere; worse in warm room. Odors tend to produce fainting. Coryza; fluent in daytime; **stuffed up at night and outdoors,** or alternates between nostrils. Bleeding in morning. [Bry.] Acrid discharge, but **with stuffed-up feeling.**

**Mouth.**—Jaws contracted. Small aphthous ulcers with **bloody saliva.** First half of tongue clean; posterior covered with deep fur; white, yellow, cracked on edges. Teeth ache; worse, cold things. Gums swollen, white, and bleeding.

**Throat.**—**Rough, scraped feeling.** Tickling after waking in morning. Sensation of roughness, tightness, and tension. Pharynx constricted. Uvula swollen. **Stitches into ear.**

**Stomach.**—Sour taste and nausea in the morning, after eating. **Weight and pain in stomach; worse, eating, some time after.** Flatulence and pyrosis. **Sour, bitter eructations.** **Nausea and vomiting, with such retching.** Ravenous hunger, especially about
a day before an attack of dyspepsia. Region of stomach very sensitive to pressure. [Bry.; Ars.] Epigastrium bloated, with pressure as of a stone, several hours after eating. Desire for stimulants. Dyspepsia from drinking strong coffee. Difficult belching of gas. Wants to vomit, but cannot.

Stool.—Constipation, with frequent ineffectual urging, incomplete and unsatisfactory; feeling as if part remained unexpelled. Constriction of rectum. Irregular peristaltic action; hence frequent ineffectual desire, or passing but small quantities at each attempt. Alternate constipation and diarrhoea—after abuse of purgatives. Urging to stool felt throughout abdomen. Itching, blind haemorrhoids, with ineffectual urging to stool; very painful; after drastic drugs. Diarrhoea after a debauch; worse, morning. Frequent small evacuations. Scanty stool, with much urging. Dysentery stools relieve pains for a time. Constant uneasiness in rectum. Diarrhoea, with jaundice. [Dig.]

Urine.—Irritable bladder from spasmodic sphincter. Frequent calls; little and often. Hæmaturia. [Ipec.; Tereb.] Ineffectual urging, spasmodic and strangury. Renal colic extending to genitals, with dribbling urine.

Male.—Easily excited desire. Emissions from high living. Bad effects of sexual excesses. Con-
strictive pain in testicles. Orchitis. [Hama.; Puls.] Spermatorrhœa, with dreams, with backache, burning in spine, and weakness and irritability.

Female.—Menses too early and last too long; always irregular, blood black [Cycl.; Lach.; Puls.] with faint spells. Prolapsus uteri. Dysmenorrhœa, with pain in sacrum and constant urging to stool. Inefficient labor-pains; extend to rectum, with desire for stool and frequent urination. [Lst.] Desire too strong. Metrorrhagia, with sensation as if bowels wanted to move.

Respiratory.—Catarrhal hoarseness, with scraping in throat. Spasmodic constriction. Asthma, with fullness in stomach mornings or after eating. Cough, with sensation as if something were torn loose in chest. Shallow respiration. Oppressed breathing. Tight, dry, hacking cough; at times with bloody expectoration.

Back.—Backache in lumbar region. Burning in spine; worse, 3 to 4 a. m. Cervico-brachial neuralgia; worse, touch. Must sit up in order to turn in bed. Bruised pain below scapulae. Sitting is painful.

Extremities.—Arms go to sleep. Paresis of arms, with shocks. Legs numb; feel paralyzed; cramps in calves and soles. Partial paralysis from over-exertion or getting soaked. [Rhus.] Cracking in knee-joints during motion. Drags his feet when walking.

Sleep.—Cannot sleep after 3 a. m. until towards morning; awakes feeling wretchedly. Drowsy after meals, and in early evening. Dreams full of bustle and hurry. Better after a short sleep, unless aroused.

Skin.—Body burning hot, especially face; yet cannot move or uncover without feeling chilly. Urticaria,
with gastric derangement. Acne; skin red and blotchy.

Fever.—Cold stage predominates. Paroxysms anticipate in morning. Excessive rigor with blueness of finger-nails. Aching in limbs and back, and gastric symptoms. Chilly; must be covered in every stage of fever. Perspiration sour; only one side of body. Chilliness on being uncovered, yet he does not allow being covered. Dry heat of the body.

Modalities.—Worse, morning; mental exertion, after eating, touch, spices, stimulants, narcotics, dry weather. Better, from a nap, if allowed to finish it; in evening, while at rest, in damp, wet weather [Caust.], strong pressure.

Relationship.—Complementary: Sulphur.
Inimical: Zinc.
Compare: Kali carb.; Hydr.; Bry.; Lyc.; Graph.
Antidotes: Coff.; Ignat.; Cocc.

Dose.—First to thirtieth potency and higher. Nux acts best given in the evening.

OCIMUM CANUM.

(Brazilian Alfavaca.)

Uric acid diathesis. Red sand in the urine is its chief characteristic and frequently verified. Swelling of glands, inguinal and mammary. Renal colic, especially right side.

Urine.—Turbid, thick, purulent, bloody; brick-dust red or yellow sediment. Odor of musk. Pain in ureters. Cramps in kidneys.

Male.—Heat and swelling of left testicle.

Female.—Vulva swollen; darting pain in labia.
Nipples painful to least contact. Breasts feel full and tense. Prolapsus vaginae.

**Relationship.**—Compare: *Berb.; Hedeoma; Lycop.; Pulsat.; Urtica.*

**Dose.**—Sixth to thirtieth potency.

**CÉNANTHE CROCATA.**

*(Water Dropwort.)*

Epileptiform convulsions; worse during menstruation and pregnancy. Red spots in face. Convulsive facial twitching. Skin affections, especially lepra and ichthyosis.

**Head.**—Furious delirium, giddiness. Countenance livid, eyes fixed, pupils dilated, *convulsive twitching of facial muscles,* trismus, foaming at mouth.

**Respiratory.**—Tickling cough, with rattling in the lower part of the chest, and thick frothy expectoration. Heavy, spasmodic, stertorous breathing.

**Extremities.**—Convulsions; opisthotonos. Pain along crural and sciatic nerves, commencing in back.

**Relationship.**—Compare: *Cicuta; Kali brom.*

**Dose.**—Third to sixth potency.

---

**OLEANDER.**

*(Rose-Laurel.)*

Has a marked action on the skin and nervous system, producing and curing paralytic conditions. Hemiplegia. Difficult articulation.

**Mind.**—Memory weak; slow perception. Melancholy, with obstinate constipation.

Eyes.—Can see objects only when looking at them sideways. Eyes water on reading. Double vision. Sensation as if eyes were drawn back into the head.

Face.—Pale, sunken, with blue rings around eyes. [Phos. ac.]

Chest.—Oppression as from a weight; asthmatic when lying down. Palpitation, with weakness and empty feeling in chest. Dyspnoea.

Skin.—Itching, scurfy pimplies; herpes; sensitive and numb. Nocturnal burning. Very sensitive skin; slightest friction causes soreness and chapping. Violent itching eruption, bleeding, oozing; want of perspiration.
OLEANDER—OLEUM ANIMALE.

Relationship.—Compare: Con.; Nat. m.; Rhus; Caust.; Lathy. Antidotes: Camph.; Sulph. Dose.—Third to thirtieth potency.

OLEUM ANIMALE.
(Dippel's Animal Oil.)

Head.—Tearing pain, with sadness and irritability; worse after dinner; relieved by rubbing. Itching, burning vesicles; better, friction.

Eyes.—Smarting in eyes; misty vision. Glistening bodies before eyes. Lacrymation when eating. Short-sighted. Twitching of lids. [Agar.]

Nose.—Watery excoriating discharge; worse in open air.

Throat.—Sore, dry, constricted. Air feels cold.

Stomach.—Sensation as if water were in stomach; of coldness, of constriction, and of burning; better, eructation.

Abdomen.—Flatulence and rumbling. Ineffec-
tual urging to stool, with burning in anus. After stool, bruised pain in abdomen.

Urine.—Polyuria. Greenish urine, frequent and
urgent want to urinate, with tenesmus and scanty emission. Itching in urethra.

Male.—Desire increased; ejaculation too soon. Pain along spermatic cord to testicles. *Testicles feel seized and pulled forcibly upward; worse, right.*

Female.—*Early and scant menstruation; flow black.*

Extremities.—Sprained feeling in small of back. Cracking of vertebrae on raising head. [*Aloe; Nat. c.; Thuja.*] Restlessness. Rheumatic pain in shoulders.

Modalities.—*Worse, after eating, from 2 to 9 P. M. Better, by rubbing, eructation, open air.*

Dose.—Third to thirtieth potency and higher.

**OLEUM JECORIS ASELLI.**

*(Cod-Liver Oil.)*

Emaciation, lassitude, scrofulous diseases, rheumatic affections. *Atrophy of infants; emaciation, with hot hands and head; restless and feverish at night. Pains in liver region.*

Extremities.—Aching in elbows and knees, in sacrum. Chronic rheumatism, with rigid muscles and tendons. Burning in palms.

Relationship.—Compare: Cholesterine; Tubercul.; Phosph.; Iod. Also, Gadus morrhua—Cod—(frequent breathing, with flapping of alæ nasi; rush of blood to chest; pain in lungs and cough; dry heat in palms).

Dose.—First to third trituration. Locally in ringworm, and nightly rubbing for dwarfish, emaciated babies.

OLEUM SANTALI.

(Oil of Sandalwood.)

The action in the urinary and sexual spheres is most utilizable, especially in gonorrhœa. It is also a stimulating disinfectant expectorant. Two or three drops on sugar will frequently relieve the hacking cough when but little sputum is expectorated.

Male.—Painful erections; swelling of the prepuce. Thick, yellowish muco-purulent discharge. Deep pain in perineum.

Urine.—Frequent, burning, smarting, swelling, and redness of meatus. Stream small and slow. Acuteaching in kidney region. Sensation of a ball pressing against the urethra; worse, standing. Gleet with profuse thick discharge; chronic cystitis.

Dose.—Two to ten m. in capsules.
ONISCUS ASELLUS—MILLEPEDES.

(Wood-Louse.)

Has distinct diuretic properties; hence its use in dropsies. Asthmatic conditions, with bronchial catarrh.

Head.—Boring pain behind right ear on mastoid process. [Caps.] Violent pulsation of arteries [Pothos.; Glonoine.] Painful pressure above the root of nose.

Stomach.—Persistent pressure in cardiac orifice. Vomiting.

Abdomen.—Distended; meteorism; very severe colic.

Urine.—Cutting burning in urethra. Tenesmus of bladder and rectum, with absence of stool and urine.

Relationship.—Compare: Pothos. fæt.; Canth.

Dose.—Third to sixth potency.

ONOSMIDIUM.

(False Gromwell.)

Head.—Confused. Dull, heavy, dizzy, pressing upward in occiput. Occipito-frontal pain in morning on waking, chiefly left side. Pain in temples and mastoid. [Capsic.]
Eyes.—Strained feeling in eyes; worse, using eyes. Eyes heavy and dull; muscular asthenopia; ocular muscles tense. Pain in eyeballs between orbit and ball, extending to left temple.

Stomach.—Craving for ice-water and cold drinks; wants to drink often. Abdomen feels bloated.

Back.—Pain in dorsal and lumbar regions. Numbness and tingling in feet and legs.

Chest.—Sore, aching, in breasts; feel swollen and sore. Pain in heart; pulse rapid, irregular, weak.

Modalities.—Worse, from motion, jar, and tight clothing. Better, when undressed, when lying down on back, from cold drinks and eating.

Relationship.—Compare: Nat. mur.; Lilium; Gels.

Dose.—Thirtieth and higher have been used most frequently.
OOPHORINUM—OPIUM.

OOPHORINUM.

(Ovarian Extract.)

Relationship.—Compare: Orchitinum—Testicular Extract—(after ovariectomy, sexual weakness, senile decay).

Dose.—Low triturations.

OPIUM.

(Poppy.)

The effects of Opium, as shown in the insensibility of the nervous system, the depression, drowsy stupor, and torpor, the general sluggishness and lack of vital reaction, constitute the main indications for the drug when used homoeopathically. All complaints are characterized by sopor. They are painless, and are accompanied by heavy, stupid sleep, stertorous breathing. Sweaty skin. Dark mahogany-brown face. Want of sensitiveness to the action of medicines. Reappearance and aggravation from becoming heated.

Mind.—Patient wants nothing. Complete loss of consciousness; apoplectic state. Frightful fancies, daring, gay, bright. Unable to understand or appreciate his sufferings. Thinks he is not at home. Effects of fright, generally. [Acon.]

Head.—Vertigo; lightness of head in old people. Dull, heavy, stupid. Delirium. Vertigo after

Stomach.—Vomiting, with colic and convulsions. Fæcal vomiting. Incarcerated hernia. Hungry; no desire to eat.

Abdomen.—Hard, bloated, tympanitic. Lead colic. During colic, urging to stool and discharge of hard fæces.

Stool.—Obstinate constipation; no desire to go to stool. Round, hard, black balls. Fæces protrude and recede. [Thuji.; Sil.] Spasmodic retention of fæces in small intestines. Stools involuntary, black, offensive, frothy. Violent pain in rectum, as if pressed asunder.

Urine.—Slow to start; feeble stream. Retained or involuntary after fright. Loss of power or sensibility of bladder.

Female.—Suppressed menses from fright. Cessation of labor-pains, with coma and twitchings. Puerperal convulsions; drowsiness or coma between paroxysms. Threatened abortion and suppression of lochia from fright, with sopor.

Respiratory.—Breathing stops on going to sleep;
must be shaken to start it again. [Grindelia.] Hoarse. Deep snoring; rattling, stertorous breathing. Difficult, intermittent, deep, unequal respiration. Heat in chest; burning about heart. Cough, with dyspnoea and blue face; with bloody expectoration.

Fever.—Pulse full and slow. Heat extending over body. Hot perspiration. Fever characterized by stupor, snoring respiration, and twitching of limbs.

Skin.—Hot, damp, sweating. Constant desire to uncover. Hot perspiration over whole body except lower limbs.

Modalities.—Worse, heat, during and after sleep. [Apis; Lach.] Better, cold things, constant walking.

Relationship.—Compare: Apis; Bell.; Gels.; Nux mosch.; Morphinum (extreme susceptibility to pain; twitching; tympanitis; much itching); Codein (dry teasing, incessant cough; twitching of muscles, especially those of eyelids); Eschscholtzia—California Poppy—(a harmless soporific).
Antidote: *Ipecac*.

**Dose.**—Third to 30th and 200th potency.

**Non-Homoeopathic Preparations and Uses.**—*Palliative only* in great pain, sleeplessness, peritonitis, and to check excessive secretion in diarrhoea, diabetes, etc.

Opium (crude)—Official dose, 1 grain.

Laudanum (tincture)—Dose, 5 to 20 drops.

Paregoric (an elixir of Opium)—Dose, up to ¼ oz.

Morphine—½ to 1 gr.

Magentie’s solution—16 grains to 1 oz., or 5 drops equal to ½ grain.

Codein—½ to 1 gr.

Dover’s Powder (Opium and Ipecac)—5 to 15 grains.

Apomorphia—1-20 to 1-10 gr. hypodermically.

---

**OPUNTIA VULGARIS.**

*(Prickly Pear.)*

Diarrhoea, with nausea. *Feels as if bowels were settled down in lower abdomen.* Sick feeling in lower third of abdomen.

**Relationship.**—Compare: *Chaparaz amorgosa* (which Mexican physicians laud as a specific in chronic diarrhoea). *Oleum ricinus communis* (diarrhoea, dysentery, obstinate chronic diarrhoea).

---

**OREODAPHNE.**

*(California Laurel.)*

Neuralgic headache, cerebro-spinal meningitis atonic diarrhoea, and intestinal colic.

**Head.**—Dizziness; worse on stooping or moving.
Intense aching, with pressure at inner angle of either orbit, generally left, extending through brain and across scalp to the base of the occiput; worse, light, noise; better, closing eyes and perfect quiet. Constant dull ache in cervical and occipital region, extending to scapula. Great heaviness of head, with constant desire to move the head, which does not relieve. Drooping eyelids. Twitching.

**Stomach.**—Eructations, with nausea and shuddering.

**Dose.**—First to third potency.

**ORIGANUM.**

*(Sweet Marjoram.)*

Acts on nervous system generally, and is effective in masturbation and excessively aroused sexual impulses. Affections of the breasts. [Bufo.]

**Female.**—Erotomania; powerful lascivious impulses; leucorrhœa, hysteria. Lascivious ideas and dreams.

**Relationship.**—Compare: *Ferula glauca* (in violent sexual excitement in women; icy coldness in occiput); *Plat.; Valer.; Canth.; Hyos.*

**Dose.**—Third to fourth potencies.

**OSMIUM.**

*(The Element.)*

**Head.**—Feels as if a band around head. Falling off of hair. [Kali carb.; Fluor. ac.]

Eyes.—Glaucoma; violent pains and lachrymation. Green colors surround candle-light. Conjunctivitis.

Respiratory.—Acute laryngitis; cough and expectoration of tough, stringy mucus. Convulsive cough; feels as though membrane were torn from larynx. Noisy, dry, hard cough, in violent short bursts, coming from low down, shaking the whole body. Talking causes pain in larynx. Hoarse; pain in larynx; sore sternum. Twitching of fingers, with spasmodic cough.

Skin.—Eczema, with pruritus. Irritated skin. Itching pimples.

Relationship.—Compare: Argent.; Iridium; Selen.; Mangan.

Dose.—Third to thirtieth potency.

OSTRYA VIRGINICA.

(Ironwood.)

Of great value in anæmia from malaria. Bilious conditions and intermittent fever.

Gastric.—Tongue yellow; coated at the root. Loss of appetite. Frequent nausea, with dull frontal headache. Sickening pains.

Dose.—First to third potency.

OVI GALLINÆ PELLICULA.

(Membrane of Egg-Shell.)

Sudden pains. [Bell.] Bearing-down sensation. Intolerance of bands on wrists, arms, waist, etc.
Backache and pain in left hip. Debility. Pain in heart and left ovary.

Relationship.—Compare: Calc.; Naja; Ova testa (leucorrhoea and backache).

OXALICUM ACIDUM.

(Sorrel Acid.)

Eyes.—Severe pain in eyes; feel expanded. Hyperaesthesia of retina.

Stomach.—Burning pain, extending upwards; slightest touch causes excruciating pain.

Male.—Terrible neuralgic pains in spermatic cord. Testicles feel confused and heavy.

Heart.—Palpitation and dyspnæa in organic heart disease; worse, when thinking of it. Pulse feeble. Heart symptoms alternate with aphonia. Angina pectoris; sharp, lancinating pain in left lung, coming on suddenly, depriving of breath.

Extremities.—Numb, weak, tingling. Pains start
from spine and extend through extremities. Drawing and lancinating pains shooting down extremities. Backache; numb, weak. Muscular prostration. Wrist painful, as if sprained. [Ulmus.] Lower extremities blue, cold, insensible.

Skin.—Sensitive; mottled, marbled in circular patches. Perspires easily.

Modalities.—Worse, left side; slightest touch; light; shaving.

Relationship.—Compare: Ars.; Colch.; Arg.; Pic. ac.; Scolopendra—Centipede—(terrible pains in back and loins, extending down limbs; return periodically, commencing in head, to toes).

Dose.—Sixth to thirtieth potency.

**OXYDENDRON.**

(Sorrel-Tree.)

**OXYTROPIS.**

(Loco-Weed—Astragalus.)

Marked action on nervous system. Trembling, sensation of emptiness.

Mind.—Desires to be alone. Disinclined to work or talk. Worse, thinking of symptoms. [Oxal. ac.] Mental depression. Vertigo.

Head.—Full, warm feeling about head. Feeling of intoxication, with loss of vision. Pain in maxillary bones and masseter muscles.

Eyes.—Sight obscured; pupils contracted; do not
respond to light. Paralysis of nerves and muscles of eyes.

Rectum.—Sphincter seems relaxed. Stools slip from anus like lumps of jelly.

Urine.—Urging to urinate when thinking of it. Profuse flow. Pain in kidneys. [Berberis.]

Male.—No desire or ability. Pain in testicles and along spermatic cord and down thighs.

Sleep.—Restless, dreams of quarrel.

Relationship.—Compare: Lathyr.; Physost.; Oxal. ac.

Modalities.—Worse, thinking of symptoms (monon-maniac tendency). Better, after sleep.

Dose.—Tincture, to third potency.

PÆONIA.

(Peony.)

The rectal symptoms are most important. Chronic ulcers on lower parts of body.

Head.—Nervous. Vertigo when moving. Burning in eyes and ringing in ears.

Rectum.—Biting itching in anus; orifice swollen. Burning in anus after stool; then internal chilliness. Painful ulcer, oozing offensive moisture on perineum. **Abdomen.**—Pain in lower abdomen, extending to rectum and coccyx; better, sitting.

**Rectum.**—Frequent desire for stool. Obstinate constipation in children. [*Alumina; Nycanthes.*] Chronic constipation, with haemorrhoids and continual urging to stool, without result.

**Female.**—Menses too late, black, abundant. Milky leucorrhoea. Nipples pain when touched, as if sore inside. Stabbing pain in mons veneris.
Extremities.—Pain in spine extending to inguinal region and in both loins, when ascending the stairs. Feeling of electric shocks in all joints.

Relationship.—Compare: Naphthalin; Petrol.; Kreos.; Eupion.

Dose.—Lower triturations and thirtieth potency.

PAREIRA BRARVA.

(Virgin-Vine.)

The urinary symptoms are most important. Useful in renal colic, prostatic affections, and catarrh of bladder.

Urinary.—Black, bloody, thick mucous urine. Constant urging; great straining; pain down thighs during efforts to urinate. Can emit urine only when he goes on his knees, pressing head firmly against the floor. Feeling of the bladder being distended and neuralgic pain in the anterior crural region. [Staph.] Dribbling after micturition. [Selen.] Violent pain in glans penis. Itching along urethra; urethritis, with prostatic trouble. Inflammation of urethra; becomes almost cartilaginous.

Relationship.—Compare: Chimaphila (chronic catarrhal congestion following cystitis; acute prostatitis; feeling of a ball in perineum when sitting); Fabiana (dysuria; post-gonorrhœal complications; gravel; vesical catarrh); Papaya (pain from perineum to middle of penis, as though a rough, jagged body forced itself out; pain in left testicle; straining when first urinating in the morning, as from an obstruction); Uva; Hydrang.; Berber.; Ocim.; Hedeom.

Dose.—Tincture, to third potency.
PARIS QUADRIFOLIA.

(One-Berry.)

Head symptoms marked and verified.

Mind.—Imaginary foul smells. Feels too large. Garulous, prattling, vivacious.

Head.—Sensation as if scalp were contracted and bones scraped. Soreness of top of head; cannot brush hair. Aches as from pulling a string from eyes to occiput. Occipital headache, with a feeling of weight. Head feels very large. Scalp sensitive. Numb feeling on left side of head.

Eyes.—Affects eyebrows. Eyes feel heavy as if they were projected; sensation of a string through eyeballs.

Face.—Neuralgia; hot stitches in left malar bone, which is very sore. Has relieved in inflammation of the antrum where eye symptoms coexisted.

Relationship.—Compare: Sil.; Calc.; Nux; Rhus.
Incompatible: Ferr. phos.
Antidote: Coff.
Dose.—Third potency.
PARTHENIUM.
(Bitter-Broom.)

Head.—Aches, extending to nose; feels swollen; pain in frontal eminence. Eyes heavy; eyeballs ache. Ringing in ears. Pain at root of nose; feels swollen. Aching in teeth. Disordered vision.

Abdomen.—Pain in left hypochondrium. Spleen affections.

Relationship.—Compare: China; Ceanoth.; Helianth.

PASSIFLORA INCARNATA.
(Passion-flower.)

Sleep.—Restless and wakeful, resulting from exhaustion. Insomnia of infants and the aged, and the mentally worried and overworked, with tendency to convulsions.

Dose.—Large doses of mother tincture are required—thirty to sixty drops, repeated several times.

PAULLINIA SORBILIS.
(Guarana.)

Contains a large percentage of Caffein, which may explain its use as a remedy for certain forms of sick headache.
Head.—Intellectual excitement. Sick headache in persons who have used tea and coffee in excess. Throbbing headache after use of liquor.

Bowels.—Stools profuse, bloody, bright green; flakes intermixed; odorless. Cholera infantum.

Skin.—Chloasmata on temples and arms. Urticaria. [Dulc. Apis Choloral.]

Sleep.—Uncontrollable sleepiness and heaviness of head, with flushed face after eating.

Dose.—Must be given in material doses—fifteen to sixty grains of the powder.

PEDICULUS.
(Head-Louse.)

Eruption on dorsum of hands, feet, neck; prurigo; pellagra. [Sedinha.] Psora manifestations in children. Unusual aptitude for study and work.

Relationship.—Compare: Cimex; Psorin.; Trombid.

PENTHORUM.
(Virginia Stonecrop.)

Nose.—Constant wet feeling in nose. Discharge thick, pus-like, streaked with blood.

Dose.—Not very active, and better adapted to chronic affections, and its use should be persisted in for some time. Lower potencies.

Relationship.—Compare: Sang.; Hydr.
PETROLEUM.
(Crude Rock-Oil.)

Very marked skin symptoms. Ailments are worse during the winter season. Ailments from riding in cars, carriages, or ships; lingering gastric and lung troubles; chronic diarrhoea. Long-lasting complaints follow mental states—fright, vexation, etc.

Face.—Dry; feels constricted, as if covered with albumen.

Stomach.—Strong aversion to fat food, meat; worse, eating cabbage. Hunger immediately after stool. Nausea, with accumulation of water in mouth. Gastralgia when stomach is empty; relieved by constant eating. [Anac.; Sep.] Must rise at night and eat. [Psorín.] Odor of garlic.

Abdomen.—Diarrhea only in the daytime; watery, gushing; after cabbage; with empty feeling of stomach.

Male.—Herpetic eruption on perineum. Prostate inflamed and swollen. Itching in urethra.

Female.—Before menses, throbbing in head. [Kreos.] Leucorrhoea, profuse, albuminous. [Alum; Bor.; Bov.; Calc. p.] Genitals sore and moist. Sensation of moisture. [Eup. purp.]

Respiratory.—Hoarseness. [Carbo; Caust.; Phos.] Dry cough and oppression of chest at night. Oppression of chest; worse, cold air. Dry cough at night, coming deep from chest.

Heart.—Sensation of coldness. [Carb. an.; Nat. mur.] Fainting, with ebullitions, heat, and palpitation.

Skin.—Itching at night. Chilblains, moist, itch and burn. Bed-sores. Skin dry, constricted, very sensitive, rough and cracked. Herpes. Slightest scratch makes skin suppurate. [Hepar.]

Fever.—Chilliness, followed by sweat. Flushes of
heat, particularly of the face and head; worse at night. Perspiration on feet and axillae.

**Modalities.**—*Worse,* before and during a thunder-storm, from riding in cars, in winter, eating, from mental states. *Better,* warm air.

**Relationship.**—Compare: *Carbo; Graph.; Sulph.; Phos.; Plumbago.* (Eczema of hands, vesicular eruptions).

Complementary: *Sepia.*
Antidotes: *Nux; Coccul.*

**Dose.**—Third to thirtieth potency.

---

**PETROSELINUM.**

*(Parsley.)*

The urinary symptoms give the key-notes for this remedy.

**Urinary.**—Burning, tingling, from perineum throughout whole urethra; *sudden urging to urinate;* frequent voluptuous tickling in fossa navicularis. Gonorrhoea; *sudden irresistible desire to urinate; intense biting itching deep in urethra;* milky discharge.

**Stomach.**—Thirsty and hungry, but desire fails on beginning to eat or drink.

**Relationship.**—Compare: *Apio,—the active principle of Parsley—(in dysmenorrhoea); Canth.; Sars.; Cannab.; Merc.*

**Dose.**—First to third potency.

---

**PHASEOLUS.**

*(Dwarf-Bean.)*

Heart symptoms quite pronounced.

**Eyes:**—Pupils dilated, insensible to light. Eye-balls painful to touch.
Chest.—Breathing slow and sighing. Pulse rapid. Palpitation. Sick feeling about heart, with weak pulse.

Relationship.—Compare: Cræg.; Lach.

Dose.—Sixth to twelfth potency. A decoction of the shells as a drink for diabetes.

**PHELLANDRIUM.**

*(Water Dropwort.)*

The respiratory symptoms are most important, and have been frequently verified clinically. A very good remedy for the offensive expectoration and cough in phthisis, bronchitis, and emphysema. Tuberculosis, affecting generally the middle lobes. Everything tastes sweet. Hæmoptysis, hectic and colliquative diarrhoea.

Head.—Weight on vertex; aching and burning in temples and above eyes. Crushing feeling on vertex.

Eyes.—Ciliary neuralgia; worse any attempt to use eyes. Lachrymation. Cannot bear light. Headache; involving nerves going to eye.

Female.—Pain in milk ducts; intolerable between nursing. Pain in nipples.

Chest.—Sticking pain through right breast near sternum, extending to back near shoulders. Dyspnœa, and continuous cough early in morning. Cough, with profuse and fetid expectoration; compels him to sit up. Hoarseness.

Fever.—Hectic; profuse and debilitating perspiration; intermittent, with pain in arms. Desire for acids.

Extremities.—Tired feeling when walking.
Relationship.—Compare: Con.; Phyt.; Sil.; Ant. iod.; Myosotis arvensis (phthisis, with copious purulent sputa, emaciation, and night sweats).

Dose.—Tincture, to sixth potency. In phthisis not below the sixth.

PHOSPHORICUM ACIDUM.

(Phosphoric Acid.)

The common acid debility is very marked in this remedy, producing a nervous exhaustion. Mental debility first; later physical. A congenial soil for the action of Phos. acid is found in young people who grow rapidly and who are overtaxed mentally or physically. Whenever the system has been exposed to the ravages of acute disease, excesses, grief, loss of vital fluids, we obtain conditions calling for it. Inflammation of bones. Neurosis in stump, after amputation. Hæmorrhages in typhoid.

Mind.—Listless. Impaired memory. [Anac.] Apathetic, indifferent. Cannot collect his thoughts or find the right word. Difficult comprehension. Effects of grief and mental shock. Delirium, with great stupefaction. Settled despair.

Head.—Heavy; worse, shaking or noise. Crushing headache. Pressure on top. Hair gray early in life; falls out. Dull headache after coition; from eye-strain. [Nat. m.]

Ears.—Roaring, with difficult hearing.

Nose.—Bleeding. Bores fingers into nose.
Mouth.—Lips dry, cracked. Bleeding gums; retract from teeth. Tongue swollen, dry, with viscid, frothy mucus. Teeth feel cold.

Face.—Pale, earthy; feeling of tension as from dried albumen. Sensation of coldness of one side of face.

Stomach.—Craves juicy things. Sour risings. Nausea. Symptoms following sour food and drink. Pressure as from a weight, with sleepiness after eating. [Fel. tauri.]

Abdomen.—Distention and fermentation in bowels. Enlarged spleen. [Ceanoth.]

Stool.—Diarrhoea, white, watery, involuntary, painless, with much flatus; not specially exhausting.

Urine.—Frequent, profuse, watery, milky. Diabetes. Micriturition preceded by anxiety and followed by burning. Frequent urination at night.

Female.—Menses too early and profuse, with pain in liver. Itching; yellow leucorrhœa after menses. Milk scanty, health deteriorated from nursing.

Heart.—Palpitation in children who grow too
fast; after grief, self-abuse. Pulse irregular, intermittent.

Back.—Boring pain between scapulae. Pain back and limbs, as if beaten.

Extremities.—Weak. Tearing pains in joints, bones, and periosteum. Cramps in upper arms, wrists. Great debility. Pains at night, as if bones were scraped. Stumbles easily and makes missteps.

Skin.—Pimples, acne, blood-boils. Ulcers, very offensive pus. Burning red rash. Formation in various parts. Falling out of the hair. [mur.; SeLEN.] Tendency to abscesses after fever.

Sleep.—Somnolency. Lascivious dreams, emissions.

Fever.—Chilliness. Profuse sweat during and morning. Low types of fever, with dull prehension and stupor.

Modalities.—Better, from keeping warm. Better, on exertion, from being talked to; loss of vital sexual excesses.

Relationship.—Compare: China; Nux; I' i Lactic ac.; Phos.

Antidote: Coffea.

Dose.—First potency.

PHOSPHORUS.

(Phosphorus.)

Tall, slender persons, weakened fluids, with great nervous debility. Metabolic tendencies, seem to be under the influence of Phosphorus. Polycyth.
travasations, fatty degenerations, caries, are pathological states often calling for Phosphorus. Muscular pseudo-hypertrophy, neuritis. Inflammation of the respiratory tract. Paralytic symptoms. Ill effects of iodine and excessive use of salt; worse, lying on left side. Tertiary syphilis, skin lesions, and nervous debility. Scurvy.

Head.—Vertigo of the aged, after rising. [Bry.] Heat comes up from spine. Neuralgia; parts must be kept warm. Burning pains. Chronic congestion of head. Brain-fag, with coldness of occiput. Vertigo, with faintness. Skin of forehead feels too tight. Itching of scalp, dandruff; falling out of hair in large bunches.

Eyes.—Cataract. Sensation as if everything were covered with a mist or veil, or something pulled tightly over eyes. Black points seem to float before the eyes. Patient sees better by shading eyes with hand. Green halo appears about the candlelight. [Osmium.] Letters appear red. Atrophy of optic nerve. Oedema of lids and about eyes. Partial loss of vision from abuse of tobacco. [Nux.] Pain in orbital bones. Paresis of extrinsic muscles. Diplopia, due to deviation of the visual axis. Amaurosis from sexual excess. Glaucoma.

Ears.—Hearing difficult, especially to human
voice. Re-echoing of sounds. [Caust.] Dullness of hearing after typhoid.

**Nose.**—Fan-like motion of nostrils. [Lyc.] Bleeding; epistaxis instead of menses. Over-sensitive smell. [Carbol. ac.; Nux.] Periostitis of nasal bones. Poul imaginary odors. [Aur.] Chronic catarrh, with small hæmorrhages; handkerchief is always bloody, Polypi; bleeding easily. [Calc.; Sang.]

**Face.**—Pale, sickly complexion; blue rings under eyes. Hippocratic countenance. Tearing pain in facial bones; circumscribed redness. Swelling and necrosis of lower jaw. [Amphipræna.]

**Stomach.**—Hunger soon after eating. Sour taste and sour eructations after every meal. Belching large quantities of wind after eating. Throws up ingesta by the mouthfuls. Vomiting; water is thrown up as soon as it gets warm in the stomach. Cardiac opening seems contracted, too narrow; the food scarcely swallowed comes up again. [Bry.; Alum.] Pain in stomach; relieved by cold food, ices. Region of stomach painful to touch or on walking. Inflammation of stomach, with burning extending to throat and bowels. Bad effects of eating too much salt.

PHOSPHORUS

Urine.—Hæmaturia, especially in acute Bright's disease. [Canth.] Turbid, brown, with red sediment.

Male.—Lack of power. Irresistible desire; involuntary emissions, with lascivious dreams.

Modalities.—*Worse*, least exertion, especially mental, after sleep, wet weather. *Better*, from cold air, cold water, tight pressure.

Relationship.—Compare: *Oxal. ac.; Gels.; Phos.; Sil.; Arg. nit.* Compare: *Zinc. pic.* (facial palsy and paralysis agitans); *Ferr. pic.* (buzzing in ears, deafness; chronic gout; epistaxis; prostatic troubles); *Calc. pic.* (boils in and around ears).

Dose.—Third potency.

**PILOCARPUS.**

(Jaborandi.)

Is homoeopathic to *abnormal sweats*, and has achieved great success in *night-sweats* of consumptives. *Exophthalmic goitre*, with increased heart's action and pulsation of arteries; tremor and nervousness; heat and sweating; bronchial irritation. A valuable remedy in limiting the duration of mumps.

Mouth.—Saliva viscid, like white of egg. Dryness. Free salivation, *with profuse sweating*.

Stomach.—Nausea; vomiting; pressure and pain in stomach.

Urinary.—Scanty; pain over pubes with much urging.

Abdomen.—Diarrhoea, painless; during day, with flushed face and profuse sweat.
Heart.—Pulse irregular, dicrotic. Oppression of chest. Cyanosis; collapse. Nervous cardiac affec-
tions.

Respiratory.—Bronchial mucous membrane in-
flamed. Much inclination to cough and difficult breathing. Òedema of lungs. Foamy sputa. Pro-
fuse thin, serous expectoration. Slow, sighing res-
piration.

Skin.—Excessive perspiration from all parts of the body.

Relationship.—Compare: Amyl. nit.; Atrop.; Phyt-
sos.; Lycopus.

Dose.—Third potency.

Non-Homœopathic Uses.—Chiefly as a powerful and rapid diaphoretic. It is of most service in renal disease, especially with uræmia, eliminating both water and urea. Scrophulinal dropsy. Contra-indi-
cated in heart failure, and in post-puerperal uræmia.
Dose: One-eighth to one-fourth grain hypodermi-
cally. Atropin is the antagonist to Pilocarpin in dose of one one-hundredth grain for one-sixth of Pilocarpin.

PINUS SYLVESTRIS.

(Scotch Pine.)

Has been found of real use in the treatment of weak ankles and tardiness in walking in scrofulous and rachitic children. Emaciation of lower extremi-
tities.

Extremities.—Stiffness; gouty pain in all joints, especially finger-joints. Cramps in calves.

Skin.—Nettle-rash. Itching all over, especially out joints and on abdomen. Nose itches.
Relationship.—Compare: Pinus Lambertina—Sugar Pine—(constipation, amenorrhoea, abortion). Also, Abies can.; Abies nig.

Dose.—Tincture, to third potency.

Piper Methysticicum.

(Kawa-Kawa.)

Urinary symptoms have been verified.

Skin.—Scaly. Fall of scales leaves white spots, which often ulcerate. Leprosy. [Chaulmugra.]

Relationship.—Compare: Piper nigrum (burning sensations and pressure; great flow of milk; dysuria).

Dose.—Tincture, and lower potencies.

Pix Liquida.

(Pine-Tar.)

Its skin symptoms most important. Scaly eruptions. Much itching. Constant vomiting of blackish fluid, with pain in stomach. Alopecia. [Fluor. ac.]

Chest.—Pain at a spot about the third left costal cartilage where it joins the rib. Rales through the lungs, and muco-purulent sputum; offensive odor and taste. Chronic bronchitis.
Skin.—Cracked; *itches intolerably; bleeds on scratching. Eruption on back of hands.
Dose.—First to sixth potency.

PLANTAGO MAJOR.
(Plantain.)

Has considerable clinical reputation in the treatment of earache, toothache, and enuresis. Sharp pain in eyes, reflex from decayed teeth or inflammation of middle ear. Eyeball very tender to touch. Pain plays between teeth and ears.

Ears.—Hearing acute; noise painful. Sticking pain in ears. Neuralgic earache; pain goes from one ear to the other through the head. Otalgia, with toothache. Loud noises go through one.

Nose.—Sudden yellowish, watery discharge.

Mouth.—Teeth ache and are sensitive and sore to touch. Swelling of cheeks. Salivation; teeth feel too long; worse, cold air and contact. Toothache better while eating. Profuse flow of saliva. Toothache, with reflex neuralgia of eyelids.

Stool.—Wants to defecate; goes often, but cannot. Piles so bad, can hardly stand. Diarrhoea, with brown watery stools.

Urine.—Profuse flow; *nocturnal enuresis. [Rhus arom.; Caust.]

Skin.—Itching and burning; papulæ. Urticaria, chilblains. [Agar.; Tamus.] Poison-oak.

Relationship.—Compare: Kalm.; Cham.; Puls.

Dose.—Tincture, and lower potencies. Local use in toothache in hollow teeth, otorrhœa, pruritus, and poison-oak. Incised wounds,
PLATINA.
(The Metal.)

Is pre-eminently a woman's remedy. Strong tendency to paralysis, anaesthesia, localized numbness and coldness are shown.

Head.—Tense, pressing pain, confined to a small spot. Cramp-like, squeezing pain. Constriction about forehead and right temple.

Eyes.—Objects look smaller than they are. Twitching of lids. [Agar.] Eyes feel cold. Cramp-like pain in orbits.

Ears.—Feels numb. Cramp-like twinges. Roaring and rumbling.

Face.—Prosopalgia, with numb feeling in malar bones, as if the parts were between screws. Pain at root of nose, as if squeezed in a vise. Coldness, creeping, and numbness in whole right side of face. Pains increase and decrease gradually. [Stann.]

Stomach.—Fermentation, much flatulence; constriction; ravenous hunger; persistent nausea, with anxiety and weakness.

Abdomen.—Painters' colic. Pain in umbilical region, extending through to back. Pressing and bearing down in abdomen, extending into pelvis.

Stool.—Retarded; fæces scanty; evacuated with difficulty. Adheres to rectum, like soft clay. Sticky stool. Constipation of travelers who are constantly changing food and water. Stool as if burnt.

Extremities.—Tightness of thighs, as if too tightly wrapped. Numb and weary sensation. Feel paralyzed.

Sleep.—Sleeps with legs far apart. [Chamom.]

Modalities.—Worse, sitting and standing; evening. Better, walking.

Relationship.—Compare: Stann.; Valer.; Sep. Compare, also: Platinum murnaticum (this remedy has achieved beneficial results after Iodide of Potash failed to cure in syphilitic affections; violent occipital headaches, dysphagia, and syphilitic throat and bone affections); Plat. mur. nat. (polyuria and salivation); Rhodium (itching of anus, constipation, and piles; acute hearing); Sedum acre (sexual irritability, relieves irritation of nerve centers and gives rest).

Antidote: Puls. Platina antidotes the bad effects of lead.

Dose.—Third to thirtieth potency.

**PLUMBUM IODATUM.**

(Iodide of Lead.)

Has been used empirically in various forms of paralysis, sclerotic degenerations, especially of spinal cord, atrophies, arterio-sclerosis, pellagra. Indurations of mammary glands, especially when a tendency
to become inflamed appears; sore and painful. Indurations of great hardness and associated with a very dry skin.

Relationship.—Compare: Arg. nit. (painful mammary glands, with tendency to ulcerate, bleeding and proud flesh). Compare, also: Merc. iod. flav.; Astersias; Conium; Phytol; Carb. an.; Silic.]

Dose.—Third trituration.

PLUMBUM METALLICUM.

(Lead.)

The great drug for general sclerotic conditions; hardening of tissues from sclerotic processes. Tremor or followed by paralysis. Progressive muscular atrophy. Infantile paralysis. Locomotor ataxia. Excessive and rapid emaciation. Bulbar paralysis. Important in peripheral affections. The points of attack for Plumbum are the neuraxons and the anterior horns.

Head.—Delirium alternating with colic. Pain as if a ball rose from throat to brain. Hair very dry. Tinnitus. [Chin.; Nat. salic.; Carbon. sulph.]

Eyes.—Pupils contracted. Yellow. Optic nerve inflamed. Intra-ocular suppurative inflammation. Glaucoma, especially if secondary to spinal cord lesion.

Face.—Pale and cachectic. Yellow, corpse-like.
cheeks sunken. Skin of face greasy, shiny. [Nat. mur.; Santic.]

Mouth.—Gums swollen, pale; distinct blue lines along margins of gums. Tongue tremulous, red on margin.

Stomach.—Contraction in oesophagus and stomach; pressure and tightness. Gastralgia.

Abdomen.—Excessive colic, radiating to all parts of body. Abdominal wall feels drawn by a string to spine. Pain causes desire to stretch. Intussusception; strangulated hernia. Abdomen retracted. Obstructed flatus, with intense colic.

Rectum.—Constipation; stools hard, lumpy, black, with urging and spasm of anus. Obstructed evacuation from impaction of faeces. [Plat.]

Urinary.—Frequent, ineffectual tenesmus. Albuminous; low specific gravity. Chronic interstitial nephritis, with great pain in abdomen. Urine scanty.

Male.—Loss of sexual power. Testicles drawn up, feel constricted.

Female.—Vaginismus. Induration of mammary glands. [See Plumb. iod.] Stitches and burning pains in breasts. [Apis; Con.; Carb. an.; Sil.]

Back.—Spinal cord sclerosed. Lightning-like pains, especially in thighs; temporarily better by pressure. Paralysis of lower extremities.

Skin.—Yellow, dark-brown liver spots. Jaundice. Dry. Dilated veins of forearms and legs.

Extremities.—Pains in muscles of thighs; come in paroxysms. Wrist-drop. Cramps in calves. Paralysis. Feet swollen. Pain in atrophied limbs al-
ternates with colic. Loss of patellar reflex. Hands and feet cold.

**Modalities.**—*Worse,* at night, motion. *Better,* rubbing, hard pressure, physical exertion. [*Alumen.*]

**Relationship.**—Compare: *Plumb. acet.* (painful cramps in paralyzed limbs; severe pain and muscular cramps in gastric ulcer; locally, as an application (non-homoeopathic) in moist eczema, one to two drams of the *liquir plumbi subacetatis* to the ounce of water; also in pruritus pudendi, equal parts of the *liquir plumb. and glycerin*); Compare: *Alumina; Plat.; Opium; Podoph.; Merc.; Thall. Plectranthus* (paralysis, spastic, spinal form); *Plumb. chromicum* (convulsions, with terrible pains; pupils greatly dilated; retracted abdomen); *Plumb. phosph.* (loss of sexual power; *locornot ataxia*).

**Antidotes:** *Plat.; Alum.; Petrol.*

**Dose.**—Third to thirtieth potency.

**PODOPHYLLUM.**

**(May-Apple.)**

Is especially adapted to persons of bilious temperament who suffer from gastro-intestinal derangements. It affects chiefly the duodenum, liver, and rectum. Many troubles during pregnancy; pendulous abdomen after confinement; prolapsus uteri; painless cholera morbus. Torpidity of the liver.

**Mind.**—Loquacity and delirium from eating acid fruits. Depression of spirits.

**Head.**—Vertigo, with tendency to fall forward. Headache, dull pressure, worse morning, with heated face and bitter taste, alternating with diarrhoea.
Rolling of head from side to side, with moaning. Child perspires on head during sleep.

Mouth.—Grinding the teeth at night; intense desire to press the gums together. [Phytol.] Difficult dentition. Tongue broad, large, moist. Foul, putrid taste. Burning sensation of tongue.

Stomach.—Hot sour belching; nausea and vomiting. Thirst for large quantities of cold water. [Bry.] Vomiting of hot, frothy mucus. Heartburn; gagging or empty retching. Vomiting of milk.

Abdomen.—Distended; heat and emptiness. Sensation of weakness or sinking. Can lie comfortably only on stomach. Liver region painful. Rumbling and shifting of flatus along ascending colon.

Rectum.—Cholera infantum and morbus. Diarrhoea of long standing; early in morning; during teething, with hot, glowing cheeks while being bathed or washed; in hot weather after acid fruits. Green, watery, fetid, profuse, gushing. Prolapse of rectum before or with stool. Constipation; clay-colored, hard, dry, difficult. Constipation alternating with diarrhoea. [Ant. crud.]

Female.—Pain in uterus and right ovary, with shifting gases along ascending colon. Suppressed menses, with pelvic tenesmus. Prolapsus uteri, especially after parturition. Hæmorrhoids, with prolapsus ani during pregnancy. Prolapsus from overlifting or straining.

Extremities.—Pain between shoulders, under right scapula, in loins and lumbar region. Pain in right inguinal region; shoots down inner thigh to knee.

Fever.—Chill at 7 A. M., with pain in hypochon-
dria, and knees, ankles, wrists. Great loquacity during fever. Profuse sweat.

Modalities.—Worse, in early morning, in hot weather, during dentition.

Relationship.—Compare: Aloe; Chelid.; Merc.; Nux; Sulph.

Dose.—Tincture, to sixth potency. The 200th and 1000th seem to do good work in cholera infantum, when indicated.

POLYGONUM PUNCTATUM.

(Smartweed.)

Amenorrhoea in young girls. Rectal pockets.

Abdomen.—Griping pain, with great rumbling, nausea, and liquid faeces. Flatulent colic.

Urinary.—Painful constriction at neck of bladder, lasting a long time.

Rectum.—Interior of anus studded with itching eminences.

Female.—Aching pains in hips and loins. Sensation as if hips were being drawn together. Sensation of weight and tension within pelvis. Shooting pains through breasts. Amenorrhoea.

Relationship.—Compare: Cauloph.; Puls.; Senecio; Polygonum persicaria (renal colic and calculi; gangrene); Polygonum aviculare (in material doses of tincture, found useful in phthisis pulmonalis and intermittent fever, and especially in arterio-sclerosis. [Amimon. vanadinicum.]

Dose.—Tincture.
POLYPORUS PINICOLA.
(Pine Agaric.)
Useful in intermittent fever, with headache, yellow tongue, constant nausea, faintness at epigastrium, and constipation. Similar to its botanical relative, Polyp. officinalis, or Boletus laricis, q. v.

POPULUS CANDICANS.
(Balm of Gilead.)
Seems to have a remarkable power over acute colds, especially when accompanied by a deep, hoarse voice, or even aphonia. General insensibility of surface (worse, back and abdomen); rubbing and pounding borne without pain, and is grateful on account of warmth produced. Finger-ends thickened, horny; insensible to pinching and prickling. Instantaneous voice-producer. [Coca.]

Head.—Discusses her symptoms with every one. Hot head with cold extremities. Cold sores on lips [Nat. mur.]. Tongue feels thick and numb.

Dose.—Tincture.

POPULUS TREMULOIDES.
(American Aspen.)
The gastric and urinary symptoms point to its usefulness in dyspepsia and catarrh of the bladder,
especially in old people. Good remedy in vesical troubles after operations and in pregnancy. Cystitis. Fullness of head, and sensation of heat of the surfaces of the body. Night-sweats. [Picrotoxin; Agaricin.]

Stomach.—Indigestion, with flatulence and acidity.

Relationship.—Compare: Nux; China; Cornus flor.; Cannabis; Cantharis.

Dose.—Tincture.

POTHOS FOETIDUS.

(Skunk-Cabbage—Ictodes.)

For asthmatic complaints; worse from inhaling any dust. Hysteria; erratic and spasmodic symptoms. Inflation and tension in the abdomen.

Respiratory.—Troublesome respiration, with sudden feeling of anguish and sweat. Sneezing, with pain in throat. Pain in chest, with difficult breathing. Asthma; relieved by stool.

Dose.—Tincture and lower potencies.

PRIMULA VERIS.

(Primrose.)

Cerebral congestions, with neuralgia, migraine, rheumatic and gouty pains.
Head.—Sensation of a band around head; cannot keep hat on. [Carbol. ac.] Skin of forehead tense. Fear of falling when standing up. Violent vertigo, as if everything turned around. Buzzing in ears; better in open air.

Respiratory.—Cough, with burning and pricking in respiratory tracts. Weak voice.

Urinary.—Urine smells strongly of violets.

Extremities.—Right axillary muscles painful. Weight and lassitude in limbs, especially the shoulders. Burning in hollow of right hand.

Relationship.—Compare: Cyclamen; Ranunc.; Œnothera—Evening Primrose—(exhausting, watery diarrhœa; cholera infantum; hydrocephaloid); Primula obconica (very marked skin symptoms; useful in poison-oak; itching papules, eczema; skin red, swollen; dryness and heat in palms; deep infiltration of tissues; blisters; eruption between fingers; itching intolerable at night; has a severe action upon the myxœdematous. The skin irritation of this plant is due to tiny hairs of needle-like sharpness, composed of fine, circular spinelets of silicon, hence it is doubtful if the plant is useful homeopathically unless the provings produce similar symptoms).

PROPYLAMIN.

(Distilled Herring-Brine.)

In acute rheumatism, dissipates fever and pain in a day or two. Rheumatic prosopalgia, and rheumatic metastases, especially heart lesions.

Extremities.—Pain in wrists and ankles; worse, test motion. [Bry.] Great restlessness.
Dose.—Ten to fifteen drops, in about six ounces of water; teaspoonful doses every two hours.

PRUNUS SPINOSA.

(Black-Thorn.)

Special action on the urinary organs and head. Very valuable in certain neuralgias, anasarca, and especially oedema pedum. Ankle and foot feel sprained. Ciliary neuralgia. [Spig.; Saponar.]

Head.—Pressing-asunder pain beneath skull. Shooting from right frontal bone through brain to occiput. Pain in right eye-ball, as if it would burst. Piercing toothache, as if teeth were pulled out; worse, taking anything warm.

Eyes.—Ciliary neuralgia. Bursting pain in right eyeball, shooting like lightning through the brain to occiput. Irido-choroiditis. Opacity of vitreous humor. Eyes feel as if bursting.

Abdomen.—Ascites. Cramp-like pain in bladder region; worse, walking.

Rectum.—Hard, nodular stool, with rectal pain, as if angular body were pressed inward. Burning in anus after slimy diarrhoea.

Urine.—Tenesmus of bladder. Ineffectual effort to urinate. Hurriedly impelled to urinate; the urine seems to pass as far as glans, and then return and cause pain in urethra. Neuralgic dysuria. Must press a long time before urine appears.

Respiratory.—Wheezing when walking. Oppression of chest; anxious short respiration. Angina pectoris. Furious beating of heart; worse, slightest motion.
Skin.—Herpes zoster. *Dropsy.* [Samb.]

Relationship.—Compare: *Lauroc.*; *Prunus padus* (sore throat, pressure behind sternum, and sticking pain in rectum); *Prunus Virginiana* (heart tonic; relieves the flagging and distended ventricle; irritable heart; dilatation of right heart; *cough, worse at night on lying down*; weak digestion, especially in elderly people); *Pyrus* (constriction around waist; cold-water sensation in stomach; neuralgic and gouty pains).

Dose.—Third to sixth potency.

**PSORINUM.**

(Scabies Vesicle.)

The therapeutic field of this remedy is found in so-called psoric manifestations. *Debility,* independent of any organic disease, especially the weakness remaining after acute diseases. *Lack of reaction,* when well-chosen remedies fail to act. Scrofulous patients. Secretions *have a filthy smell.* Profuse sweating. Cardiac weakness. Skin symptoms very prominent. Often gives immunity from cold-catching. Easy perspiration when walking. Syphilis, inherited and tertiary.

Mind.—Hopeless; despairs of recovery. *Melancholy,* deep and persistent; religious. Suicidal tendency.

Head.—Awakens at night with pain as from blow on head. Chronic headaches; hungry during attacks, with vertigo. Hammering pain; *brain feels too large; worse, change of weather.* Dull pressive pain in occiput. Humid eruption on scalp; hair matted. Hair dry.

Mouth.—Obstinate rhagades at corners.

Nose.—Dry coryza, with stoppage of nose. Chronic catarrh; dropping from posterior nares. Acne rosacea.

Ears.—Raw, red, oozing scabs around ears. Sore pain behind ears. Herpes from temples over ears to cheeks. Offensive discharge from eczema around ears. Intolerable itching. Most fetid pus from ears Tellur.], brownish, offensive.

Throat.—Tonsils greatly swollen; painful swallowing, with pain in ears. Profuse offensive saliva; tough mucus in throat. Recurring quinsy. Eradicates tendency to quinsy. Hawking up of cheesy, pea-like balls of disgusting smell and taste. [Agar.]

Stomach.—Eructations like bad eggs. Very hungry always; must have something to eat in the middle of the night. Nausea; vomiting of pregnancy. Pain in abdomen after eating.

Stool.—Mucous, bloody, excessively fetid, dark fluid. Hard, difficult stool with blood from rectum and burning piles. Constipation of infants, especially in pale, sickly, scrofulous children. [Collinson.]

Female.—Leucorrhæa fetid, lumpy, with much backache and debility. Mammæ swollen and painful. Pimples oozing an acrid fluid that burns and excoriates the glands.

Respiratory.—Asthma, with dyspnœa; worse, sit-
ting up; better, lying down and keeping arms spread wide apart. Dry, hard cough, with great weakness in chest. Feeling of ulceration under sternum. Pains in chest; better, lying down. Cough returns every winter, from suppressed eruption. Hay-fever, returning regularly every year.

Extremities.—Weakness of joints, as if they would not hold together. Eruption around finger-nails. Fetid foot-sweats.

Fever.—Profuse perspiration; night-sweats.

Sleep.—Sleepless from intolerable itching. Easily startled. Frightful dreams.

Modalities.—Worse, coffee; Psorinum patient does not improve while using coffee. Worse, changes of weather.

Relationship.—Complementary: Sulphur.

Compare: Tuberc.; Hepar; Sil.; Iod.

Dose.—Two-hundredth and higher potencies. Should not be repeated too often.

PTELEA.

(Wafer-Ash.)

Is a remarkable remedy in stomach and liver affections. The aching and heaviness in the region of
the liver is greatly aggravated by lying on the left side. Atonic states of stomach. Asthma.

Head.—Feels dull and stupid. Pain from forehead to root of nose; pressing-outward pain.

Mouth.—Excess of saliva, with dry bitter taste. Tongue coated white or yellow; feels rough, swollen. Papillae red and prominent. [Arg. n.] Coating may be brownish-yellow.

Abdomen.—Much weight and pain in right side; heavy, aching feeling, relieved by lying on right side. Liver sore, swollen, sensitive to pressure. Retraction of abdomen.

Respiratory.—Feeling of pressure on lungs and of suffocation when lying on back. Asthma; dyspnoea; cramp-like pain in cardiac region.

Modalities.—Worse, lying on left side; early morning. Better, eating sour things.

Relationship.—Compare: Mercur.; Magn. mur.; Nux; Chelid.

Dose.—First to thirtieth potency.

**Pulex irritans.**

(Common Flea.)

Marked urinary and female symptoms.

Head.—Very impatient, cross, and irritable.
Frontal headache, with enlarged feeling of eyes. Face wrinkled and old-looking.

Stomach.—Breath and taste foul. Intense nausea, with vomiting, purging, and faintness. Stool very offensive.

Urine.—Frequent urging, with pressure on bladder and burning in urethra. Urine foul. Cannot retain urine; must attend to the call without delay.

Female.—Menses delayed. Increased flow of saliva during. Intense burning in vagina. Leucorrhoea profuse, foul, staining a greenish yellow; stains of menses and leucorrhoea very hard to wash out. Backache. [Oxal. ac.]

Dose.—The higher potencies.

PULSATILLA.

(Wind-Flower.)

The disposition and mental state are the chief guiding symptoms to the selection of Pulsatilla. It is pre-eminently a female remedy, especially for mild, gentle, yielding dispositions. Sad, crying readily; weeps when talking; changeable, contradictory. The patient seeks the open air; always feels better there. Mucous membranes are all affected. Discharges thick, bland, and yellowish-green. Often indicated after abuse of Iron tonics, and after badly-managed measles. Symptoms ever changing. Thirstless, peevish, and chilly. When first serious impairment of health is referred to age of puberty.

Modalities.—Worse, during rest, after eating fruit. Better, sitting up in bed, motion.

Relationship.—Compare: Ipec.; Meph.; Opium; Sambucus Canadensis (great value in dropsies; large doses required—fluid extract, $\frac{1}{4}$ to 1 teaspoonful three times daily).

Antidotes: Ars.; Camph.

Dose.—Tincture, to sixth potency.
SANGUINARIA.

(Blood-Root.)

Is a right-sided remedy pre-eminently, and affects chiefly the mucous membranes, especially of the respiratory tract. It has marked vaso-motor disturbances, as seen in the circumscribed redness of the cheeks, flashes of heat, determination of blood to head and chest, distention of temporal veins, burning in palms and soles, and has been found very applicable to climacteric disorders. Burning sensations, like from hot water. Phthisis.

Head.—Worse right side, sun headache. Periodical sick headache; pain begins in occiput, spreads upwards, and settles over eyes, especially right. Veins and temples are distended. Pain better lying down and sleep. Headaches return at climacteric; every seventh day. [Sulph.; Sabad.] Pain in small spot over upper left parietal bone. Burning in eyes. Pain on the back of head “like a flash of lightning.”

dry, burning sensation. Tongue white; feels scalded. Tonsillitis. Óedema of larynx.

Abdomen.—Diarrhoea as coryza improves. Pain over region of liver. Diarrhoea; bilious, liquid, gushing stool. *Nat. sulph.; Lycop.*

Extremities.—Rheumatism of right shoulder and nape of neck. *Fluor. ac.; Urt.* Burning in soles and palms. Rheumatic pains in places least covered by flesh; not in joints. Toes and soles of feet.
Sanguinaria—Sanguinaria Nitrica. 567

Modalities.—Worse, sweets, right side, motion, touch. Better, acids, sleep, darkness.

Relationship.—Complementary: Tart. em.

Dose.—Tincture in headaches; sixth potency in rheumatism.

Sanguinaria Nitrica.
(Nitrate of Sanguinarine.)

Relationship.—Compare: Sanguin. tartaricum (exophthalmos; mydriasis; dim vision); Arum triph.; Psorin.; Kal. bich.

Dose.—Third trituration.
SANICULA.

(The Water of Sanicula Springs, Ottawa, Ill.)

Has been found a useful remedy in enuresis, seasickness, constipation, etc.

Head.—Dread of downward motion. [Borax] Profuse sweat on occiput and in nape of neck during sleep. [Calc.; Sil.] Photophobia. Lachrymation in cold air or from cold application. Profuse scaly dandruff. Soreness behind ears.

Throat.—Thick, ropy, tenacious mucus.

Mouth.—Tongue large, flabby, burning; must protrude it to keep it cool. Ringworm on tongue.

Stomach.—Nausea and vomiting from car-riding. Thirst; drink little and often [Ars.; Chin.]; is vomited as soon as it reaches the stomach.

Rectum.—Stools large and painful. Pain in whole perineum. No desire until a large accumulation. After great straining only partially expelled; recedes, crumbles at verge of anus. [Mag. mur.] Very offensive odor. Excoriation of skin about anus, perineum, and genitals. Diarrhoea; changeable in character and color; after eating.

Female.—Bearing-down, as if contents of pelvis would escape; better, rest. Desire to support parts. Soreness of uterus. Leucorrhoea with odor of fish-brine. Vagina feels large.

Extremities.—Burning of soles of feet. [Sulph.; Lach.] Offensive foot-sweat. [Sil.; Psor.]

Skin.—Dirty, greasy, brownish, wrinkled.

Relationship.—Compare: Abrot.; Alum.; Calc.; Sil.; Sulph.
SANTONINUM—SAPONARIA.

569

SANTONINUM.

(Santonin.)

The eye symptoms and those of the urinary tract are most prominent. It is of unquestioned value in the treatment of worm diseases. Night cough of children.

Fever.—Alternation of coldness and heat. Scarlet fever; eruption in spots, large and livid.

Relationship.—Compare: Beilad.; Solanum Carolinense (convulsions and epilepsy, twenty- to forty-drop doses; is of great value in grand mal of idiopathic type, where the disease has begun beyond age of childhood; hystero-epilepsy, also in whooping-cough); Solan. mammosum (pain in left hip-joint); Solan. olaceum (swelling of mammary gland, with profuse secretion of milk); Solan. tuberosum (cramps in calves and contraction of fingers; spitting through closed teeth); Solan. vesicarium (recommended in facial paralysis); Solanum aceticum (threatening paralysis of the lungs in the course of bronchitis in the aged and children); Solan. pseudo-caps. (acute pains in lower abdomen); Solan. tuberos. agrotans (prolapse of the rectum, patulous anus; offensive breath and odor of body).

Dose.—Second to thirtieth potency.

SOLIDAGO VERGA.

(Golden-rod.)

Skin.—Blotches, especially on lower extremities; *itch.* Exanthema of lower extremities, with urinary disturbances.

Dose.—Tincture, to third potency.

**SPARTIUM SCOPARIUM—SCOPARIUS.**

*(Broom.)*

The alkaloid, Sparteinum sulphuricum, is of use in functional and organic cardiac diseases. Best where Digitalis fails or is contra-indicated. Albuminuria. Very useful hypodermically, 1-10 to $\frac{1}{2}$ grain in sustaining heart after stopping habit of Morphine. *Cheyne-Stokes respiration.* Irregular heart following grip. *Spartium* is indicated when primarily the muscles of the heart and especially the nervous apparatus is affected. Acts rapidly and lasts 3 to 4 days. Does not disturb digestion. Is especially valuable in mitral disease: Chronic nephritis. Tobacco heart.

Angina pectoris. Pulse irregular.

Stomach.—Great accumulation of gas in gastro-intestinal canal, with mental depression.

**SPIGELIA.**

*(Pinkroot.)*

Has marked elective affinity for the eye, heart, and nervous system. Neuralgia of the fifth nerve is very prominent in its effects. Is especially adapted
to anæmic, debilitated, rheumatic, and scrofulous subjects. Heart affections and neuralgia. Very sensitive to touch. Parts feel chilly; send shudder through frame. A remedy for symptoms due to the presence of worms. Child refers to the navel as the most painful part. [Granat.; Nux m.]

Mind.—Afraid of sharp, pointed things, pins, needles, etc.

Head.—Pain beneath frontal prominences and temples, extending to eyes. [Onos.] Semi-lateral, involving left eye; pain violent, throbbing; worse, making a false step. Pain as if a band around head. [Carbol. ac.; Cact.; Gels.]

Eyes.—Feel too large; pressive pain on turning them. Pupils dilated; photophobia; rheumatic opthalmia. Severe pain in and around eye, extending deep into socket.

Nose.—Fore-part of nose always dry; discharge through posterior nares. Chronic catarrh, with post-nasal dropping of bland mucus.

Mouth.—Tongue fissured, painful. Tearing toothache; worse, after eating and cold. Foul odor from mouth.

Face.—Prosopalgia, involving eye, zygoma, cheek, teeth, temple; worse, stooping, touch, from morning until sunset.

Heart.—Violent palpitation. Pulse weak and irregular. Pericarditis, with sticking pains, palpitation, dyspnœa. Neuralgia extending to arm. Angina pectoris. Rheumatic carditis, trembling pulse; whole left side sore. Dyspnœa; must lie on right side with head high.
Rectum.—Itching and crawling. Frequent ineffectual urging to stool. Ascarides.

Fever.—Chilliness on the slightest motion.

Modalities.—Worse, from touch, motion, noise, turning, washing, concussion. Better, lying on right side with head high; inspiring.

Relationship.—Compare: Acon.; Cact.; Cimicif.; Arnica (Spigelia is a chronic Arnica); Cinnab. (supraorbital pain); Naja; Spong. (heart); Sabad.; Teucr.; Gina (worm symptoms).

Antidote: Pulsat.

Dose.—Sixth to thirtieth potency for neuralgic symptoms; second to third potency for inflammatory symptoms.

SPIRÆA ULMARIA.

(Hardhack.)

Morbidly conscientious. Relieves irritation of the urinary passages, influences the prostate gland, checks gleet and prostatorrhœa; has been used for eclampsia, epilepsy, and hydrophobia. Bites of mad animals. Heat in various parts.

SPIRANTHES.

(Lady’s Tresses.)

Has been used for milk-flow in nursing women, lumbago and rheumatism, colic, with drowsiness and spasmodic yawning. Is an anti-phlogistic remedy akin to Acon., its symptoms showing congestion and inflammation.

Female.—Pruritus; vulva red; dryness and burning in vagina. Burning pain in vagina during
coition. [Kali b.; Kreos.; Lyc.; Natr. m.; Sulph.] Leucorrhœa, bloody. [Chin.; Cocc.; Nitr. ac.; Sep.]

**Dose.**—Third potency.

**SPONGIA TOSTA.**

*(Roasted Sponge.)*

A remedy especially marked in the symptoms of the respiratory organs, cough, croup, etc. Heart affections, and often indicated for the tubercular diathesis. Children with fair complexion, lax fiber; swollen glands. *Exhaustion and heaviness of the body after slight exertion, with orgasm of blood to chest, face. Anxiety and difficult breathing.*

**Mind.**—Anxiety and fear. Every excitement increases the cough.

**Head.**—Rush of blood; bursting headache; worse, forehead.

**Nose.**—Fluent coryza, alternating with stoppage. Dryness; chronic dry nasal catarrh.

**Mouth.**—Tongue dry and brown; full of vesicles.

**Stomach.**—Excessive thirst, *great hunger.* Cannot bear tight clothing around trunk. Hiccough.

**Male.**—Swelling of spermatic cord and testicles.

Female.—Before menses, pain in sacrum, hunger, palpitation. During menses, wakes with suffocative spells. [Cupr.; Iod.; Lach.] Amenorrhoea, with asthma. [Puls.]

Respiratory.—Great dryness of all air-passages. Hoarseness; larynx dry, burns, constricted. Cough, dry, barking, croupy; larynx sensitive to touch. Croup; worse, during inspiration and before midnight. Respiration short, panting, difficult; feeling of a plug in larynx. Cough abates after eating or drinking. Chest weak; can scarcely talk. Laryngeal phthisis. Goitre, with suffocative spells. Bronchial catarrh, with wheezing, asthmatic cough, worse cold air, with profuse expectoration and suffocation; worse, lying with head low and in hot room. Oppression and heat of chest, with sudden weakness.

Heart.—Palpitation, with dyspnœa; cannot lie down. Awakened suddenly after midnight with pain and suffocation; valvular insufficiency. Angina pectoris; faintness, and anxious sweat. Ebullition of blood, veins distended. Surging of heart into the chest, as if it would force out upward.

Skin.—Swelling and induration of glands; goitre.itching; measles.

Sleep.—Awakens in a fright, and feels as if suffocating. Generally worse after sleep, or sleeps into an aggravation. [Lach.]

Fever.—Attacks of heat with anxiety; heat and redness of face and perspiration.

Modalities.—Worse, ascending, wind, before mid-
night. Better, descending, lying with head low. [Arn.]

Antidote: *Camph.*

**Dose.**—Second trituration, or tincture to third potency.

**SQUILLA MARITIMA.**

**(Sea-Onion.)**

Acts especially on mucous membranes of the respiratory and digestive tracts, and also upon the kidneys. Valuable in chronic bronchitis of old people with mucous rales, dyspnoea, and scanty urine.

**Eyes.**—Feel irritable; child bores into them with fists.

**Respiratory.**—Fluent coryza; margins of nostrils feel sore. Sneezing; throat irritated; short dry cough; must take a deep breath. *Dyspnæa and stitches in chest,* and painful contraction of abdominal muscles. Violent cough, with much mucus; profuse, salty, slimy expectoration, and with involuntary spurting of urine and sneezing. Child rubs face with fist during cough. [Caust.; Puls.] Cough provoked by taking a deep breath or cold drinks. *Sneezing with coughing.*

**Urinary.**—Great urging; much watery urine. Involuntary when coughing.

**Relationship.**—Compare: *Bry.; Kali carb.*

**Dose.**—First to third potency.
STANNUM.

(Tin.)

Debility is very marked when Stannum is the remedy, especially the debility of chronic bronchial and pulmonary conditions, characterized by profuse muco-purulent discharges. *Talking causes a very weak feeling in the throat and chest. Pains that come and go gradually call unmistakably for Stannum.* Paralytic weakness; spasms; paralysis.

**Mind.**—Sad and anxious. *Discouraged.* Dread of seeing people.

**Head.**—Aching in temples and forehead. Pain worse motion; *gradually increasing and decreasing,* as if constricted by a band; forehead feels pressed inwards. Jarring of walking resounds painfully in head. Drawing pains in malar bones and orbits. Ulceration of ring-hole in lobe of ear.

**Throat.**—Much adhesive mucus, difficult to detach; efforts to detach cause nausea. Throat dry and stings.

**Stomach.**—Hungry. *Smell of cooking causes vomiting.* Bitter taste. Pain better pressure, but sore to touch. Sensation of *emptiness* in stomach.

**Abdomen.**—Cramp-like colic around navel, with a feeling of emptiness. *Colic relieved by hard pressure.*

**Female.**—*Bearing-down sensation.* Prolapsus, with *weak, sinking feeling in stomach.* [Sep.] *Menses early and profuse.* Pain in vagina, up and back to spine. Leucorrhoea, with great debility.

**Respiratory.**—Hoarse; mucus expelled by forcible cough. Violent dry cough in evening till midnight. Cough excited by *laughing,* singing, talking.
During day, with copious green, sweetish expectoration. Chest feels sore. Chest feels weak; can hardly talk. [Cocc.] Respiration short, oppressive; stitches in left side when breathing and lying on same side. Phthisis mucosa. Hectic fever.

Sleep.—Sleeps with one leg drawn up, the other stretched out.

Fever.—Heat in evening; exhausting night-sweats, especially towards morning. Hectic. Perspiration, principally on forehead and nape of neck, debilitating, smelling musty, or offensive.

Modalities.—Worse, using voice (i.e., laughing, talking, singing), lying on right side, warm drinks. Better, coughing or expectorating, hard pressure.

Relationship.—Complementary: Puls.

Compare: Stann. iod. (pulmonary symptoms; cough, with tickling at root of tongue; stage of purulent infiltration); Caust.; Calc.; Sil.; Tuberc.; Bacil.; Helon. Compare: Myrtus chekan (chronic bronchitis, cough of phthisis, emphysema, with gastric catarrhal complications and dense purulent sputum; tincture, five drop doses).

Dose.—Third to thirtieth potency.

STAPHISAGRIA.

(Stavesacre.)

Nervous affections with marked irritability, diseases of the genito-urinary tract and skin most fre-
quently give symptoms calling for this drug. Ill effects of anger and insults. Sexual sins and excesses. Very sensitive.

**Mind.**—Impetuous; hypochondriacal, sad. Very sensitive as to what others say about her. Dwells on sexual matters; prefers solitude. Peevish. Child cries for many things, and refuses them when offered.

**Head.**—Stupefying headache; brain feels squeezed. Sensation of a ball of lead in forehead. Itching eruption above and behind ears. [*Oleand.*]

**Eyes.**—Recurrent styes. *Chalaz.* Eyes sunken, with blue rings. Margin of lids itch. Affections of angles of eye, particularly the inner. Lacerated or incised wounds of cornea.

**Mouth.**—Toothache during menses. Teeth black and crumbling. Salivation, spongy gums, bleed easily. [*Merc.; Kreos.*] Submaxillary glands swollen. After eating feels sleepy.

**Stomach.**—Flabby and weak. Desire for stimulants. Stomach feels relaxed. Craving for tobacco. Canine hunger, even when stomach is full.

**Male.**—Especially after self-abuse; persistent dwelling on sexual subjects. Spermatorrhœa, with sunken features; guilty look; emissions, with backache and weakness and sexual neurasthenia.

**Female.**—Parts very sensitive. [*Berb.; Kreos.*]
Lyssin.] Irritable bladder in young married women. Leucorrhoea. Prolapsus, with sinking in the abdomen; aching around the hips.

Urinary.—Ineffectual urging to urinate in newly married women. Pressure upon bladder; feels as if it did not empty. Burning in urethra during micturition. Prostatic troubles. [Thuja; Sabal.; Ferr. pic.] Urging and pain after urinating. Pain after lithotomy.

Skin.—Eczema of head, ears, face, and body; thick scabs, dry, and itch violently; scratching changes location of itching. Fig-warts pedunculated. [Thuja.] Arthritic nodes. Inflammation of phalanges.

Modalities.—Worse, anger, indignation, grief, mortification, loss of fluids, onanism, sexual excesses, tobacco; least touch on affected parts. Better, after breakfast, warmth, rest at night.

Relationship.—Inimical: Ranunc. bulb.

Compare: Ferrum pyrophos. (tarsal cysts); Colocy.; Caust.; Ign.; Phos. ac.; Calad.
Antidote: Camph.

Dose.—Third to thirtieth potency.

STELLARIA MEDIA.
(Chickweed.)

Induces a condition of stasis, congestion and sluggishness of all functions. Morning aggravation
Sharp, shifting rheumatic pains in all parts very pronounced. *Rheumatism*; darting pains in almost every part; stiffness of joints; parts sore to touch; worse, motion. *Chronic rheumatism. Shifting pains.* [Puls.; Kali sulph.] Psoriasis. Enlarged and inflamed gouty finger joints.

**Head.**—Dull, frontal headache; worse in morning and left side with sleepiness.

**Abdomen.**—Liver engorged, swollen, with stitching pain and sensitive to pressure. Clay-colored stools. Hepatic torpor.

**Relationship.**—Compare: *Pulsat.* (similar in rheumatism, pains shifting, worse rest, warmth; better cold air).

**Dose.**—Tincture, externally. Internally, 2x potency.

**STERCULIA.**

*(Kola-Nut.)*

The remedy for the drinking habit. It promotes the appetite and digestion, and lessens the craving for liquor. *Asthma.* Gives power to endure prolonged physical exertion without taking food and without feeling fatigued.

**Relationship.**—*Coca.***

**Dose.**—One dram to one-half ounce. three times a day.
STICTA.

(Lungwort.)

Offers a set of symptoms like coryza and bronchial catarrh and influenza, together with nervous and rheumatic disturbances. There is a general feeling of dullness and malaise, as when a cold is coming on; dull, heavy pressure in forehead, catarrhal conjunctivitis, etc.

Mind.—Feels as if floating in air. [Datura arborea.] Confusion of ideas; patient must talk.

Head.—Dull headache, with dull, heavy pressure in forehead and root of nose. Catarrhal headache before discharge appears. Burning in eyes and soreness of balls. Sensation as if scalp were too small. Burning in eyelids.

Nose.—Feeling of fullness at the root of the nose. [Nux.] Dryness of nasal membrane. Constant need to blow the nose, but no discharge. Dry scabs, especially in evening and night. Hay-fever; incessant sneezing. [Sabad.]

Female.—Scanty flow of milk.

Abdomen.—Diarrhoea; stools profuse, frothy; worse, morning. Urine increased, with soreness and aching in bladder.

Respiratory.—Throat raw; dropping of mucus posteriorly. Dry, hacking cough during night; worse, inspiration. Loose cough in morning. Pain through chest from sternum to spinal column. Cough after measles. [Sang.]

Extremities.—Rheumatic pain in right shoulder-joints, deltoid, and biceps. Swelling, heat, redness

Modalities.—Worse, sudden changes of temperature.

Relationship.—Compare: Datura arborea (floating sensation, as if ideas were floating outside of brain); Cetraria—Iceland Moss (chronic diarrhoea, phthisis, bloody expectoration); Eryng.; Dros.; Stilling.; Rumex; Sambuc.

Dose.—Tincture, to sixth potency.

**STIGMATA MAYDIS.**

(Corn-silk.)

Has marked urinary symptoms, and has been used with success in organic heart-disease, with much oedema of lower extremities and scanty urination. Enlarged prostate and retention of urine.

Relationship.—Compare: Vesicaria.

Dose.—Tincture, in ten- to fifty-drop doses.

**STILLINGIA,**

(Queen's Root.)

Chronic periosteal rheumatism, syphilitic and scrofulous affections. Respiratory symptoms well
marked. Torpor of lymphatics; torpid liver, with jaundice and constipation.

Mind.—Gloomy forebodings; depressed.

Respiratory.—Dry spasmodic cough. Larynx constricted, with stinging in fauces. Trachea feels sore when pressed. Hoarseness and chronic laryngeal affections of public speakers.

Extremities.—Aching pains in bones of extremities and back.

Skin.—Ulcers; chronic eruptions on hands and fingers. Enlarged cervical glands. Burning itching of legs; worse exposure to air. Exostosis. Scrofuloderma; syphilis, secondary eruption and later symptoms. Valuable for intercurrent use.

Modalities.—Worse, in afternoon, damp air, motion. Better, in morning, dry air.

Relationship.—Compare: Staphis.; Mercur.; Syphil.; Aur.; Corydalis (syphilitic nodes).

Dose.—Tincture and first potency.

STRAMONIUM.

(Thorn-Apple.)

The entire force of this drug seems to be expended on the brain, though the skin and throat show some disturbance.

Mind.—Loquacious, garrulous, laughing, singing, swearing, praying, rhyming. Sees ghosts, hears voices, talks with spirits. Rapid changes from joy to sadness. Violent and lewd. Delusions about his identity; thinks himself tall, double, a part missing. Religious mania. Cannot bear solitude or darkness; must have light and company. Sight of water
or anything glittering brings on spasms. Delirium, with desire to escape. [Bell.; Bry.; Rhus.]

Head.—Raises head frequently from the pillow. Pain in forehead and over eyebrows, beginning at 9 A.M.; worse until noon. Boring pain, preceded by obscure vision. Rush of blood to head; staggers, with tendency to fall forward and to the left.

Eyes.—Seem prominent, staring, wide open; pupils dilated. Loss of vision; complains that it is dark, and calls for light. Small objects look large. Parts of the body seem enormously swollen. Strabismus.

Face.—Hot, red; circumscribed redness of cheeks. Blood rushes to face; distorted. Expression of terror. Pale face.

Stomach.—Food tastes like straw. Violent thirst. Vomiting of mucus and green bile.

Urine.—Suppressed, bladder empty.

Male.—Sexual erethism, with indecent speech and action. Hands constantly kept on genitals.

Female.—Metrorrhagia, with loquacity, singing, praying. Puerperal mania, with characteristic mental symptoms and profuse sweatings. Convulsions after labor.

Sleep.—Awakens terrified; screams with fright. Deep snoring sleep. Sleepy, but cannot sleep. [Bell]

Extremities.—Graceful rhythmic motions. Convulsions of upper extremities and of isolated groups

Skin.—Shining red rash. Effects of suppressed eruption in scarlatina, with delirium, etc.

Fever.—Profuse sweat, which does not relieve. Violent fever.

Modalities.—Worse, in dark room, when alone, looking at bright or shining objects, after sleep, on swallowing. Better, from bright light, company, warmth.

Relationship.—Compare especially: Hyoscy. and Bellad. It has less fever than Bellad., but more than Hyos. It causes more functional excitement of the brain, but never approaches the true inflammatory condition of Bellad.

Antidotes: Bellad.; Tabac.; Nux.

Dose.—Tincture, to thirtieth potency.

STRONTIA.

(Carbonate of Strontian.)

Head.—Vertigo with headache and nausea. Destructive pressure. Aches from nape of neck, spreading upwards; better wrapping head up warmly. [Sil.] Flushes in face; violent pulsating. Supra-orbital neuralgia: pains increase and decrease slowly. [Stann.] Bloody crusts in nose. Burning and redness of eyes. Face red; burns, itches.
Stomach.—Loss of appetite, aversion to meat, craves bread and beer. Food tasteless. Eruptions after eating.

Abdomen.—Sticking in abdominal ring. Diarrhoea; worse at night; continuous urging; better towards morning. Burning in anus lasts a long time after stool. [Ratanh.]

Skin.—Moist, itching, burning eruption; better in open air, especially warm sunshine. Sprains of ankle-joint, with œdema.

Fever.—Heat, with aversion to uncover or undress.

Modalities.—Better, immersing in hot water.

Relationship.—Compare: Arnica; Ruta; Sil.; Baryt. c.; Carbo.; Stront. jodat (arterio-sclerosis). Strontium brom. often gives excellent results where a bromide is indicated. (Hale.)

Dose.—Sixth trituration.

STROPHANTUS HISPIDUS.

(Kombe-Seed.)

Acts on the heart, increasing the systole and diminishes the rapidity. May be used with advantage to tone the heart and run off dropsical accumulations. In small doses for weak heart, it feels enlarged. In mitral regurgitation, where œdema and dropsy have supervened. [Digit.] Strophantus oc-
casions no gastric distress, has no cumulative effects, is a greater diuretic, and is safer for the aged as it does not affect the vaso-motors. In pneumonia and in severe prostration from haemorrhage after operations and acute diseases. After the long use of stimulants; irritable heart of tobacco-smokers. Absence of vaso-motor effects. Arterio-sclerosis; rigid arteries of aged. Especially useful in failing compensation dependent upon fatty heart.

**Head.**—Temporal pains, with double vision, impaired sight; brilliant eyes, flushed face.

**Urinary.**—Increased secretion; scanty and albuminous.

**Female.**—Menorrhagia; uterine haemorrhage; uterus heavily congested.

**Respiratory.**—Dyspnoea. Lungs congested. Oedema of lungs. Bronchial and cardiac asthma.

**Heart.**—Pulse quickened. Heart's action weak, due to muscular debility; muscular insufficiency. Cardiac pain. [Crataegus.]

**Extremities.**—Swollen, dropsical.

**Relationship.**—Compare: Digit. (but is slower than Strophanth. in its action); Phos. ac. (weak heart, irregular pulse, fluttering sensation in cardiac region, palpitation during sleep, fainting).

**Dose.**—Tincture and 6x potency. In more acute cases, five to ten drops of the tincture three times a day.

**STRYCHNINUM.**

*(Alkaloid of Nux Vomica.)*

Tetanic convulsions, with opisthotonos. The muscles relax between paroxysms; worse, slightest
touch, sound, odor. Influences more directly the spinal cord and is less appropriate in visceral derangements than Nux. Tetanus. Explosive nervousness. The pains and sensations come suddenly and return at intervals.

Eyes.—Hot, painful, protruding, staring. Pupils dilated. Sparks before eyes. Spasmodic contraction of ocular muscles; twitching and trembling of lids.

Ears.—Hearing very acute; burning, itching, and roaring in ears.

Face.—Pale, anxious, livid. Jaws stiffened; lower jaw spasmodically closed.

Abdomen.—Sharp pain in abdominal muscles, griping pain in bowels.

Rectum.—Fæces discharged involuntarily during spasms. Very obstinate constipation.

Female.—Desire for coitus. [Canth.; Camph.; Fl. ac.; Lach.; Phos.; Plat.] Any touch on body excites a voluptuous sensation.

Back.—*Rigidity of cervical muscles.* Sharp pain in nape and down spine. *Back stiff; violent jerks in spinal column.* *Icy sensation down spine.*

**Extremities.**—Limbs stiff. Rheumatism with stiff joints. *Violent jerking, twitching, and trembling.* Violent tetanic convulsions and opisthotonos; spasms provoked by slightest touch and attempt to move. *Violent shocks in the muscles.* *Cramp-like pains.*

**Fever.**—Cold chills down spine. Perspiration in a stream down head and chest. Lower extremities cold.

**Skin.**—Itching of whole body, especially nose. Icy sensation down the spine.

**Modalities.**—*Worse,* morning; touch; noise; motion; after meals. *Better,* lying on back.

**Relationship.**—Compare: *Eucalyptus* (neutralizes ill effects of *Strychnin.*) *Strych. phosphoricum* (an excellent remedy in anaemia of spinal cord; paralysis; burning, aching, and weakness of spine; pain extends to front of chest; tenderness on pressure in mid-dorsal region; cold, clammy feet; hands and axillae covered with clammy perspiration); *Strych. ars.* (chronic diarrhoea with paralytic symptoms; 3x trit.); *Strych. et Ferr. cit.* (chlorotic and paralytic conditions; dyspepsia, with vomiting of ingesta; 2x and 3x trit.); *Strych. valerii.* (exhaustion of brain-power; women of high nervous erethism; 2x trit.). Compare: *Cicuta; Arnica* (tetanus).

**Dose.**—Third to thirtieth potency. For non-homoeopathic use, to produce its direct physiological effects in paralysis, the dose will range from one-fiftieth to one-twentieth of a grain, repeated three
times a day. Under twelve years of age, one-fiftieth to one two-hundredth of a grain. Strych., hypodermically, is capable of arresting progressive muscular atrophy, and is a certain stimulant to the respiratory centers, and is useful in embarrassed breathing, in the course of pneumonia especially. Dose, one hundredth to one-sixtieth grain every three hours.

**SUCCINUM.**

*(Electron. Amber.)*

**Head.**—Fear of trains and close places. Headache, lachrymation, sneezing.

**Respiratory.**—Asthma, incipient phthisis, chronic bronchitis, pains in chest. Whooping-cough.

**Dose.**—Third trituration. Five-drop doses of the oil.

**SULFONAL.**

*(A Coal-Tar Product.)*

Vertigo of cerebral origin, cerebellar disease, ataxic symptoms, and chorea, present a field for the homoeopathic employment of this drug. Profound weakness, gone, faint feeling, and despondency. Loss of control of sphincter.

**Mind.**—Mental confusion, incoherency, illusions; apathetic. *Alternation of happy, hopeful states with depression and weakness.*

**Head.**—Drowsy, stupid; pain on attempting to raise head. Double vision; heavy look about eyes; tinnitus, aphasia; tongue as if paralyzed. *Eyes blood-shot and restless.*
Urine.—Albuminuria, with casts. Pink color. Constant desire to urinate, scanty, brownish red. Hæmatoporphyrinuria. [Trional.]

Respiratory.—Congestion of lungs; stertorous breathing. Sighing dyspnœa.

Extremities.—Ataxic movements, staggering gait; cold, weak, trembling; legs seem too heavy. Extreme restlessness; muscular twitchings. Knee-jerks disappear. Stiffness and paralysis of both legs.

Sleep.—Fidgety, wakeful, drowsy.

Skin.—Itching, bluish purpura. Erythema.

Relationship.—Trional (vertigo, loss of equilibrium, ataxia, nausea, vomiting, diarrhoea, stertorous breathing, cyanosis, tinnitus, hallucinations).

Dose.—Third trituration.

Non-Homeopathic Uses.—As a hypnotic. Dose, ten to thirty grains in hot water. Takes about two hours to act.

SULPHUR
(Sublimated Sulphur.)

This is the great Hahnemannian anti-psoric. Its action is centrifugal—from within outwards,—having an elective affinity for the skin, where it produces heat and burning, with itching; made worse by heat of bed. Inertia and relaxation of fiber; hence feebleness of tone characterizes its symptoms. Ebulitions of heat, dislike of water, dry and hard hair and skin, red orifices, sinking feeling at stomach about 11 P.M., and cat-nap sleep, always indicate Sulphur homœopathically. Standing is the worst position for sulphur patients: it is always uncomfortable.
Dirty, filthy people, prone to skin affections. Aversion to being washed. When carefully-selected remedies fail to act, especially in acute diseases, it frequently arouses the reactionary powers of the organism. Complaints that relapse.

Mind.—Very forgetful. Difficult thinking. Delusions; thinks rags beautiful things—that he is immensely wealthy. Busy all the time. Childish peevishness in grown people. Irritable. Affections vitiated; very selfish, no regards for others. Religious melancholy. Averse to business; loaf, too lazy to arouse himself. Imagines giving wrong things to people, causing their death. Sulphur subjects are nearly always irritable, depressed, thin and weak even with good appetite.

Head.—Constant heat on top of head. [Cup. sulph.; Graph.] Heaviness and fullness, pressure in temples. Beating headache; worse, stooping, and with vertigo. Sick headache recurring periodically. Tinea capitis, dry form. Scalp dry, falling of hair; worse, washing. Itching; scratching causes burning.

Ears.—Whizzing in ears. Bad effects from the suppression of an otorrhoea. Oversensitive to odors. Deafness, preceded by exceedingly sensitive hearing; catarrhal deafness.

Nose.—Herpes across the nose. Nose stuffed indoors. Imaginary foul smells. Aloæ red o...
scabby.  *Chronic dry catarrh; dry scabs and readily bleeding.*  Polypus and adenoids.

**Throat.**—Pressure as from a lump, as from a splinter, as of a hair.  Burning, redness and dryness.  Ball seems to rise and close pharynx.

**Abdomen.**—Very sensitive to pressure; internal feeling of rawness and soreness.  Movements as of something alive.  [*Croc.; Thuja.*]  Pain and soreness over liver.  Colic after drinking.

**Urine.**—Frequent micturition, especially at night.  *Enuresis,* especially in scrofulous, untidy children.  Burning in urethra during micturition, lasts long after.  Mucus and pus in urine; *parts sore over which it passes.*

**Male.**—Stitches in penis.  Involuntary emissions.  [*Nux; Calc.*]  Itching of genitals when going to bed.  Organs cold, relaxed, and powerless.

Back.—Drawing pain between shoulders. Stiffness of nape. Sensation as if vertebrae glided over each other.

Sleep.—Talks, jerks, and twitches during sleep. Vivid dreams. Wakes up singing. Wakes frequently, and becomes wide awake suddenly. Catnaps; slightest noise awakens.

Perspiration of single parts. Disgusting sweats. Remittent type.

**Skin.**—*Dry, scaly, unhealthy; every little injury suppurates.* Freckles. *Itching, burning; worse scratching and washing.* Pimply eruption, pustules, rhagades, hangnails. Excoriation, especially in folds. [Lyc.] Feeling of a band around bones. Skin affections after local medication. *Pruritus,* especially from warmth, in evening, often recurs in spring-time.

**Modalities.**—*Worse,* at rest, when standing, warmth in bed, washing, bathing, in morning, 11 a.m., night, from alcoholic stimulants, periodically. *Better,* dry, warm weather, lying on right side, from drawing up affected limbs.

**Relationship.**—Complementary: *Aloe; Psorin.*

Compare: *Acon.* (Sulph. often follows in acute diseases); *Calc.* (should follow Sulph. rather than precede); *Lyc.; Sep.; Sars.; Puls.; Sulphur hydrogenisatum* (delirium, mania, asphyxia); *Sulphur terebinthinatum* (chronic rheumatic arthritis; chorea); *Tannic acid* (constipation). *Magnes. artificialis* (great hunger in evening, profuse sweat on face, bruised pain in joints, rectal constriction after stool).

*Magnetis polus Arcticus* (anxious, coldness of eyes as if a piece of ice lay in orbit, increased flow of saliva, constipation, sopor, trembling, abdominal flatulence).

*Magnetis polus Australis* (dryness of lids, easy dislocation of ankle, ingrowing toe nails, aching in patella, shooting in soles).

Compare in adenoids: *Agraphis.*

**Dose.**—Acts in all potencies from the lowest to the highest. The best results are obtained from the
higher, and not too frequent doses. Usually sixth
to thirtieth. In chronic diseases, 200th and up-
ward. In torpid eruptions the lowest potencies.

**SULPHUR IODATUM.**

(Iodide of Sulphur.)

Obstinate skin affections, notably in barber’s itch
and acne.

**Throat.**—Uvula and tonsils enlarged and red-
ddened. Swollen. Tongue thick. Parotid hyper-
trophied.

**Skin.**—Itching on ears, nose, and in urethra.
• Papular eruption on face. Cold-sores on lips. Boils
• Arms covered with itching rash. Hair feels as if
erect.

**Dose.**—Third trituration.

**SULPHURICUM ACIDUM.**

(Sulphuric Acid.)

The debility common to acids shows itself here,
especially in the digestive tract, giving a very re-
laxed feeling in the stomach, with craving for stimu-
lants. Tremor and weakness; everything must be
done in a hurry. Hot flashes, followed by perspira-
tion, with trembling. Tendency to gangrene follow-
ing mechanical injuries. Writer’s cramp. Lead
poisoning.

**Mind.**—Fretful, impatient. Unwilling to answer
questions; hurried.

**Head.**—Right-sided neuralgia; painful shocks;
skin feels pinched. Sensation as if brain was loose
in forehead and falling from side to side. [Bell.;
Rhus.] Concussion of brain where skin is cold, and body bathed in cold sweat. Compressive pain in the side of the occiput; relieved by holding the hands near the head. Pain of outer parts, as if there were subcutaneous ulceration; painful to touch.

[Eupion.; Lach.] All the female symptoms are associated with restlessness, depression, coldness, spinal tenderness and restless feet.

Sleep.—Cries out during sleep; body jerks; wakes frightened, stares. Nervous motion of feet when asleep. Loud screaming out at night in sleep without being aware of it. Somnambulism. [Kali phos.]
Skin.—Varicose veins, especially of lower extremities. [Puls.] Formication of feet and legs as from bugs crawling over the skin, preventing sleep. Eczema, especially in the anemic and neurotic. Itching of thighs and hollow of knees. Retrocession of eruptions.

Modalities.—Worse, at menstrual period, from touch, between 5 to 7 P. M.; after dinner, from wine. Better, while eating, discharges, and appearance of eruptions.

Compare: Zincum aceticum (effects of night-watching and erysipelas; brain feels sore; Rademacher’s solution, five-drop doses three times a day in water, for those who are compelled to work on an insufficient amount of sleep); Zinc. bromatum (dentition, chorea, hydrocephalus); Zinc. oxydatum (hypochondriasis due to masturbation); Zinc. cyanatum (as a remedy for meningitis and cerebro-spinal meningitis, paralysis agitans, chorea, and hysteria, it has received some attention); Zinc. muriat. (disposition to pick the bedclothes; sense of smell and taste perverted; bluish-green tint of skin; cold and sweaty); Zinc. phosph. (neuralgia of head and face; lightning-like pains in locomotor ataxia, brain fog, nervousness and vertigo; sexual excitement and sleeplessness); Ammon. valerian. (violent neuralgia, with great nervous agitation); Zinc. picricum (facial paralysis;
brain-fag, headache in Bright's disease; seminal emissions; loss of memory and energy); *Zinc. sulph.*
(corneitis; granular lids; tongue paralyzed; cramps in arms and legs; trembling and convulsions).

**Dose.**—Second to sixth potency.

**ZINCUM VALERIANUM.**

*(Valerinate of Zinc.)*

A remedy for hysteria, angina pectoris, and other painful affections, notably in *ovarian affections*. Epilepsy without aura. Hysterical heart-pain.

**Head.**—Violent neuralgic headaches. Becomes almost insane with pain, which is piercing and stabbing. Uncontrollable sleeplessness from pain in head.

**Female.**—*Ovarialgia*; pain shoots down limbs, even to foot.

**Extremities.**—Severe pain in neck and spine. Cannot sit still; must keep legs in constant motion.

**Dose.**—Second trituration.

**ZINGIBER.**

*(Ginger.)*

States of debility in the digestive tract and sexual system and respiratory troubles call for this remedy

**Head.**—Hemicrania; sudden glimmering before eyes; feels confused and empty. Pain over eyebrows.

**Nose.**—Feels obstructed and dry. Intolerable itching; red pimples.

**Stomach.**—Taste of food remains long, especially
of bread and toast. Feels heavy, like from a stone. Complaints from eating melons and drinking impure water. Acidity. [Calc.; Robinia.]

Abdomen.—Colic, diarrhoea, extremely loose bowels. Diarrhoea from drinking bad water, with much flatulence, cutting pain, relaxation of sphincter. Chronic intestinal catarrh. Anus red and inflamed. Haemorrhoids, hot, painful, sore. [Aloe.]

Urinary.—Frequent desire to urinate. Stinging, burning in orifice. Yellow discharge from urethra. Urine thick, turbid, of strong odor, suppressed. Complete suppression after typhoid. After urinating continues to ooze in drops.

Male.—Itching of prepuce. Sexual desire excited; painful erections. Emissions.

Respiratory.—Hoarseness. Smarting below larynx; breathing difficult. Asthma, without anxiety, worse toward morning. Scratching sensation in throat; stitches in chest. Cough, dry, hacking; copious morning sputa.

Relationship.—Compare: Calad.
Antidote: Nux.
